Questar 401(k) Plan 2015 Form 11-K

Report of Independent Registered Public Accounting Firm

Employee Benefits Committee
Questar Corporation 401(k) Retirement Income Plan

We have audited the accompanying statements of net assets available for benefits of Questar Corporation 401(k) Retirement Income Plan (the "Plan") as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Questar Corporation 401(k) Retirement Income Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015 in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year), has been subjected to audit procedures performed in conjunction with the audit of the Questar Corporation 401(k) Retirement Income Plan's financial statements. The supplemental information is presented for purposes of additional analysis and is not a required part of the basic financial statements but include supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplementary information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the basic financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information referred to above is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Questar Corporation
401(k) Retirement Income Plan

Notes Accompanying the Financial Statements

Note 1 - Plan Description

The following description of the Questar Corporation 401(k) Retirement Income Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan for eligible employees of Questar Corporation (Questar or the Company) and certain of its subsidiaries. The Plan is subject to the provisions of section 401(a) of the Internal Revenue Code (the Code) and the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan also qualifies as an employee stock ownership plan (ESOP) as defined in Section 4975(e)(7) of the Code. The trustee and record keeper for the Plan was Wells Fargo Bank, N.A. (Wells Fargo) from January 1, 2014 through June 30, 2014 and Prudential Retirement Insurance and Annuity Company (Prudential) for the remainder of the the 2014 year and for all of 2015. Questar's Employee Benefits Committee is the Plan administrator.

There is no service period requirement for an employee of a participating employer to participate in the Plan. However, employees classified as human resource pool employees are ineligible to participate. Participants can make both pre-tax and Roth after-tax contributions. New employees are automatically enrolled at a 6% pre-tax contribution rate until they elect to change the contribution rate or elect not to participate. All participants receive a matching contribution equal to 100% of the first 6% of their eligible compensation contributed to the Plan each pay period. All employer matching contributions are made on a pre-tax basis. For participants with a deferral rate of 1% to 5%, contributions will automatically be increased 1% each January until the deferral rate reaches 6%. Participants may opt out of this automatic increase feature.

Qualified employees who are not eligible for Questar's defined benefit pension plan receive an additional non-matching, non-elective employer contribution to their Plan accounts equal to 4% of their qualifying prior year earnings. These contributions are 100 percent vested after three years of service with Questar. Participants may direct the investment of their employee contributions, employer matching contributions and employer non-matching contributions to any of the funds available in the Plan, including Questar common stock. However, participants may not direct any investments to the QEP Resources, Inc. (QEP) common stock which is closed to new investments (except for reinvested dividends). If a participant fails to direct his or her own investment the employer match or non-match amounts, contributions are invested in the qualified default investment alternative (QDIA) selected by the Plan's Investment Committee. The QDIA is the appropriate JPMorgan SmartRetirement target date fund based on the participant's birth date and an estimated retirement age of 65. Employees can contribute up to the 401(k) maximum combined pre-tax and Roth limit, plus any catch-up contribution, if they are eligible. The 401(k) maximum combined pre-tax and Roth contribution limit for 2015 was \$18,000. The maximum catch-up contribution limit for 2015 was \$6,000 for participants who were age 50 or older during the Plan year.

Plan participants may transfer prior contributions and earnings among the various Plan investment options at any time for employee, employer matching and non-matching contribution amounts. However, participants cannot transfer balances between pre-tax and Roth after-tax accounts or into the closed QEP common stock. Certain of the individual funds charge redemption fees to individual participants in order to recover the costs associated with short-term investor trading. Some funds have introduced purchase-blocking policies when a participant transfers or realigns out of the particular fund. A purchase-blocking policy requires the participant to wait a specified number of days before transferring or realigning back into the same fund.

Edgar Filing: QUESTAR CORP - Form 11-K

Plan participants are allowed two outstanding loans, one to purchase or build a principal residence and one general purpose. Loan applications are processed every business day, and participants are charged a loan processing fee of \$50 per loan, paid from the loan proceeds. Plan participants may borrow up to 50% of the value of their vested account balance, not to exceed \$50,000, with a minimum loan amount of \$1,000. Roth after-tax contributions are included in the calculation of the vested account balance, but are not available for loans. The interest rate is fixed for the life of the loan at the prime rate plus 1%, and is set at the time the loan is made. Participants can elect loan repayment terms up to five years, or ten years if the loan is to purchase or build a principal residence, and repayment is by payroll deduction. Upon termination of employment, a participant can either elect to repay the loan or treat the remaining loan balance as a taxable distribution subject to any applicable early-withdrawal penalties.

Questar 401(k) Plan 2015 Form 11-K 4

Upon retirement, death, resignation, or other termination, a Plan participant's vested account becomes distributable. Plan participants may elect to directly roll over eligible Plan distributions into individual retirement accounts or other qualified plans. Distributions of a participant's account balance that is invested in Questar common stock or QEP common stock are made in cash or, at the participant's election, in whole shares of Questar or QEP common stock. Fractional Questar and QEP shares as well as distributions from the Plan's other investments are paid in cash. Participants whose account balances are less than \$1,000 upon death, resignation, or other termination will receive a complete distribution in cash. If the account balance is greater than \$1,000, the participant may elect to leave the account balance in the Plan until April 1 of the calendar year after the participant reaches age 70 ½, at which time a distribution must be made. The participant may elect to receive a complete distribution at any time prior to mandatory distribution. Participants are able to take partial one-time withdrawals or installment payments in lieu of the lump sum withdrawal. Former employees, retirees and beneficiaries with Plan account balances will incur a quarterly administration fee. Questar will continue to pay the administration fee for active employees. If the participant dies prior to a distribution, the account balance will be distributed within five years after the participant's death unless the beneficiary is the participant's surviving spouse, in which case the beneficiary may elect to delay the distribution until the participant would have attained age 70 ½.

Participants may also elect hardship withdrawals of any pre-tax employee contributions in certain cases of financial need after all loan capacity has been exhausted. Effective July 2014, participants can withdraw their Roth after-tax contributions (excluding earnings). The Plan document explains the rules for withdrawing any amounts from Questar and QEP common stock and the Plan's other investments held in the participants' accounts, including distributions upon termination of employment, disability or death.

Participants are always fully vested in all shares and funds purchased with their employee contributions and earnings thereon. Prior to November 2014, employees must have attained age 65 or had one year of service, as defined in the Plan, before any employer contributions were vested. Effective November 2014, all employer matching contributions are immediately vested. Forfeited balances of terminated participants' non-vested accounts offset future employer contributions. The amount forfeited during 2015 was \$33,795 which reduced 2015 employer contributions. No amendment to, or termination of, the Plan can reduce employees' interests in their accounts as of the date of the amendment or termination.

Legal, accounting, trustee fees and other administrative expenses, except commissions, common collective trust asset management fees, redemption fees, and administrative fees included in the net asset valuations for registered investment companies are paid by Questar. Participants are required to pay certain administrative fees directly, such as the \$50 loan processing fee. The asset management and redemption fees of \$13,373 reflected in the Statement of Changes in Net Assets Available for Benefits were all paid by participants and consisted of redemption fees and loan processing fees.

Note 2 - Summary of Significant Accounting Policies

A. Basis of Accounting

The financial statements are prepared on an accrual basis. Amounts stated are in dollars unless otherwise noted.

B. Use of Estimates

The preparation of financial statements and notes in conformity with U.S. generally accepted accounting principles requires the Plan administrator to formulate estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and the disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

C. Investment Valuation and Income Recognition

Edgar Filing: QUESTAR CORP - Form 11-K

Investments in Questar and QEP common stock are stated at fair value based on the closing market price on the last business day of the year as reported on the New York Stock Exchange. Registered investment company investments are valued at published market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end. NAV is calculated by the managers of the respective funds based upon the closing market quotes or other fair value determinations of the assets held in the funds. The units of the pooled separate accounts are stated at net unit value as a practical expedient for fair value. Individual participant accounts invested in the pooled separate accounts are maintained on a unit value basis. Participation units in the Wells Fargo Stable Value Fund A (Stable Value Fund) are valued at contract value. The Plan's guaranteed investment contract (GIC) with Prudential is valued at contract value (see Note 5).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Questar 401(k) Plan 2015 Form 11-K 5

D. Dividends

Dividends paid on shares of Questar common stock and dividends paid on shares of QEP common stock are automatically reinvested to purchase additional shares of each respective stock. Reinvested Questar and QEP dividend shares are purchased at market value. Any shares purchased with Questar or QEP dividends vest immediately, even if the participant does not yet have a vested right to the shares on which the dividends were paid. Participants can elect to receive cash dividends paid on shares of Questar common stock.

E. Participant Loans

Loans to participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

F. Benefits Paid to Participants

Benefits paid to participants are recorded at closing market prices on the distribution date and are reflected in the financial statements when paid. Differences between cost and current value at the time of distribution are included in the financial statements as realized gains or losses.

G. Fully Benefit-Responsive Investment Contracts

All investments held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in fully benefit-responsive investment contracts through participation in the Stable Value Fund and in the Guaranteed Income Fund, a GIC. The Statements of Net Assets Available for Benefits present the fair value of the Stable Value Fund as well as the adjustment of the portion of the Stable Value Fund related to fully benefit-responsive investment contracts from fair value to contract value. The Plan's GIC with Prudential is valued at contract value, which approximates fair value (See Note 5).

H. Accounting Standard Updates

Effective for the 2015 Plan year, the Plan has early adopted Accounting Standard Update (ASU) 2015-07 Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) and ASU 2015-12 Plan Accounting for Fully Benefit-Responsive Investment Contracts and Plan Investment Disclosures.

ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which the fair value is measured using the net asset value per share practical expedient. Note 6 has been updated to remove any investments using the net asset value per share as a practical expedient from the fair value hierarchy, but has retained the amounts in the table to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits. Adoption of this update did not have a material effect on the Plan.

ASU 2015-12 requires fully benefit-responsive investment contracts to be measured, presented and disclosed at contract value and not at fair value. The guidance also eliminates disclosure requirements for individual investments that represent five percent or more of net assets available for benefits. The guidance eliminates the requirement to disclose net appreciation or depreciation for investments by general type. In addition, the level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics and risks. Disclosure of net appreciation or depreciation in investments for the period is still required to be disclosed in the aggregate. The prior year Statement of Net Assets Available for Benefits has been adjusted to reflect the Plan's fully benefit-responsive investment contract at contract value and removed the reconciliation of contract value to fair value. Furthermore, a reconciliation between the financial

Edgar Filing: QUESTAR CORP - Form 11-K

statements to the Form 5500 is no longer needed because the adjustment from fair value to contract value related to fully benefit-responsive investment contracts has been removed from the financial statements and there are no other items that would require a reconciliation. In addition, the disclosures of net appreciation or depreciation for investments by general type and disclosures for individual investments that represent five percent or more of net assets available for benefits have been removed to comply with this update. Adoption of this update did not have a material effect on the Plan.

Questar 401(k) Plan 2015 Form 11-K 6

Note 3 - Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 21, 2015, stating that the Plan is qualified under section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator believes the Plan is being operated in compliance with the Code, and therefore, believes that the Plan, as amended and restated, is qualified and that the related trust is exempt from taxation.

Accounting principles generally accepted in the United States require the Plan administrator to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 4 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to numerous risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 5 - Guaranteed Investment Contract with Insurance Company

The Plan has a fully benefit-responsive GIC with Prudential. Prudential maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC is included in the financial statements at contract value per Accounting Standard Update 2015-12 (See Note 2) . There are no specific securities in the general account that back the liabilities of this annuity contract. The insurer owns a promise to pay interest at crediting rates, which are announced in advance and guaranteed for a six-month period. Contract value represents contributions made under the contract, plus transfers to the fund and credited interest, less participant withdrawals, transfers out of the fund and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no probable events that could limit the ability of the Plan to transact at contract value paid within 90 days or contract value paid over time. Prudential may not terminate the contract at any amount less than the contract value.

Prudential is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with Prudential, but may not be less than 1.50%. Such interest rates are reviewed on a semi-annual basis for resetting. The crediting rate of the product will be established based on current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the insurer's general account. These rates are established without the use of a specific formula.

Note 6 - Fair Value Measurements

The Plan complies with the accounting standards for fair value measurements and disclosures. These standards establish a fair value hierarchy with Levels 1, 2 and 3 ranging from the most observable to the least observable

valuation inputs. Level 1 inputs are unadjusted quoted prices in active markets that the Plan has the ability to access for identical assets or liabilities at the measurement date. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. The Plan did not hold any investments measured using Level 3 inputs at December 31, 2015 or 2014.

Following is a description of the valuation methodologies used by the Plan:

Common stocks: Common stocks are valued at the closing price reported on the active market on which the individual securities are traded.

Registered investment companies: Registered investment companies, also known as mutual funds, are valued at the closing price reported on the active market on which the individual funds are traded.

Questar 401(k) Plan 2015 Form 11-K 7

Pooled separate accounts: Investment is valued based on the Plan's units of the pooled separate account at year-end. The pooled separate account is not available in an exchange and active market, however, the units of the pooled separate account are stated at net net unit value as a practical expedient for fair value.

Common collective trust fund: These are investment vehicles generally restricted to institutional investors and are valued using the NAV of the fund. The NAV is based on the value of the underlying assets owned by the fund excluding transaction costs, and minus liabilities. The underlying assets are valued at the closing prices reported on the markets on which they are traded. No assets held by the Plan that were valued using a NAV methodology were subject to significant redemption restrictions or unfunded commitments on their valuation dates. The common collective trust fund related to fully benefit-responsive investment contracts are valued at contract value, which, according to Accounting Standards Update 2015-12 is used as a practical expedient for fair value.

The fair value of investments at December 31, 2015 and 2014, are shown in the tables below:

| December 31, 2015 | | | |
|----------------------------------|---------------|---------|----------------|
| | Level 1 | Level 2 | Total |
| Questar Corporation Common Stock | \$135,267,014 | \$ | —\$135,267,014 |
| QEP Resources, Inc. Common Stock | 31,962,348 | — | 31,962,348 |
| Registered investment companies | 164,127,650 | — | 164,127,650 |
| Pooled separate accounts | | | 58,140,603 |
| Total Investments at Fair Value | \$331,357,012 | \$ | —\$389,497,615 |

| December 31, 2014 | | | |
|----------------------------------|---------------|---------|----------------|
| | Level 1 | Level 2 | Total |
| Questar Corporation Common Stock | \$173,864,551 | \$ | —\$173,864,551 |
| QEP Resources, Inc. Common Stock | 55,183,281 | — | 55,183,281 |
| Registered investment companies | 203,778,314 | — | 203,778,314 |
| Pooled separate account | | | 26,277,085 |
| Common collective trust fund * | | | 46,263,916 |
| Total Investments at Fair Value | \$432,826,146 | \$ | —\$505,367,147 |

*In accordance with Accounting Standard Update 2015-07 (Subtopic 820-10), certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

Note 7 - Party-in-Interest Transactions

The Plan allows for transactions with certain parties that may perform services or have fiduciary responsibilities to the Plan. During 2015, the Plan received dividends of \$4,669,965 on shares of Questar common stock held in the Plan. Purchases of Questar common stock amounted to \$23,979,652 and transactions involving sales and distributions of Questar common stock totaled \$23,131,879 during 2015. Asset management and other administrative fees paid by the Plan to Prudential or their affiliates totaled \$8,450 during 2015. The Plan issues loans to participants, which are secured by the vested balances in the participants' accounts. In addition, certain Plan investments are units of a pooled separate account fund and a guaranteed investment contract, managed by Prudential. Such transactions all qualify as exempt party-in-interest transactions under the provisions of ERISA.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to reduce employer contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Questar 401(k) Plan 2015 Form 11-K 8

Note 9 - Subsequent Events

On January 31, 2016 the Company entered into an Agreement and Plan of Merger with Dominion Resources, Inc., a Virginia corporation ("Parent"). At the effective time of the the merger, each share of the Company Common Stock issued and outstanding immediately prior to the merger will be converted automatically into the right to receive \$25 in cash, without interest.

Closing of the Merger is subject to the satisfaction or waiver of specified closing conditions, including (i) the approval of the Merger by the holders of a majority of the outstanding shares of Company Common Stock, (ii) the receipt of regulatory approvals required to close the Merger, including approvals from the Public Service Commission of Utah (if required) and the Public Service Commission of Wyoming, and (iii) the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976.

On February 23, 2016, the Federal Trade Commission granted early termination of the 30-day waiting period under the federal Hart-Scott-Rodino Antitrust Improvements Act with regards to the merger. On March 3, 2016, Questar and Dominion Resources jointly filed merger applications with the Public Service Commission of Utah and the Wyoming Public Service Commission and provided notice of the proposed merger to the Idaho Public Utilities Commission. Hearings are scheduled in Utah and Wyoming during the third quarter. Shareholders of the Company approved the Merger during a special meeting of shareholders on May 12, 2016.

The Merger Agreement may be terminated by each of the Company and Parent under certain circumstances, including if the Merger is not consummated by February 28, 2017 (subject to certain extension rights, up to a maximum of nine months, as specified in the Merger Agreement).

The Company is still evaluating the effect of the merger on the Plan. As of the filing date, the Company is unaware of any significant impact to the Plan.

The Plan's management evaluated subsequent events through the date on the the financial statements were issued and determined, other than those disclosed above, no additional disclosures were required.
