NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some information in this report may contain forward-looking statements within the meaning of Section 27A of the U.S. Securities Act of 1933 and Section 21E of the U.S. Securities Exchange Act of 1934. We have based these forward-looking statements on our current beliefs, expectations and intentions as to facts, actions and events that will or may occur in the future. Such statements generally are identified by forward-looking words such as believe, plan, anticipate, continue, estimate, expect, may, will or other similar words.

A forward-looking statement may include a statement of the assumptions or bases underlying the forward-looking statement. We have chosen these assumptions or bases in good faith. These forward-looking statements are subject to risks, uncertainties and assumptions, some of which are beyond our control. In addition, these forward-looking statements reflect our current views with respect to future events and are not a guarantee of future performance. Actual results may differ materially from information contained in the forward-looking statements as a result of a number of factors, including, without limitation, the risk factors set forth in Item 3. Key Information Risk Factors in our annual report on Form 20-F for the fiscal year ended December 31, 2009. You should also keep in mind that any forward-looking statement made by us in this report or elsewhere speaks only as at the date on which we made it. New risks and uncertainties come up from time to time, and it is impossible for us to predict these events or how they may affect us. We have no duty to, and do not intend to, update or revise the statements in this report after the date hereof. In light of these risks and uncertainties, you should keep in mind that actual results may differ materially from any forward-looking statement made in this report or elsewhere.

PLDT pressrelease

PLDT secures 2 international network certifications

MANILA, Philippines, October 22, 2010 PLDT, the leading Philippine telecommunications provider, is now the first local telco to have been awarded both MEF (Metro Ethernet Forum) 9 and 14 certifications for its Carrier Ethernet service offerings.

This has brought PLDT into a select club of global service providers given the same prestigious rating, said PLDT SVP and Head of Customer Sales and Marketing Group Ernesto R. Alberto. Currently MEF counts only 36 carriers worldwide who have been certified, and PLDT is part of the distinguished 30 who were able to comply with both MEF 9 and MEF 14.

Rolando G. Peña, PLDT's Customer Service Assurance Group Head said these certifications highlight PLDT's continuous network innovation.

PLDT's MEF 9 Certification testifies to the compliance of PLDT's Carrier Ethernet infrastructure in terms of delivering key features and functionalities, while matching the standards and reliability requirements set by the MEF, he said.

MEF 14 upholds PLDT's Carrier Ethernet Quality of Service, particularly in the area of traffic management performance.

Rodante T. Medina, PLDT's Network Service Assurance Group Head, said: This certification has very stringent requirements (in terms of frame delay, loss and variation), which is why this level of certification is difficult to attain, he explained.

PLDT's MEF 14 clearly indicates quality and the robustness of PLDT's Ethernet network as well as the technical capability of PLDT in implementing and operating world-class Carrier Ethernet services, he added.

PLDT got both MEF 9 and 14 certifications for all solutions under its Metro Ethernet portfolio, including Metro e-Line (Ethernet Private Line), Metro e-WAN (Ethernet VPN) and Metro e-VPL (Ethernet Virtual Private Line).

Given its scale and history of innovation, PLDT, with its Metro Ethernet offerings, is ready to deliver even more high-capacity and diverse services to the enterprise sector.

Each higher MEF rating implies a further enhancement of network capabilities, speed and range of services, said PLDT FVP and Head of Corporate Business Group Nerissa S. Ramos.

Exhibit 1

Philippine enterprise can now turn to PLDT for the highest MEF-rated Carrier Ethernet services in the country.

We are pleased to welcome PLDT as the latest carrier to be awarded MEF 9 and 14 certifications, said Nan Chen, MEF President. We are confident that their considerable nationwide reach, scale, and legacy of market leadership and innovation will be further enhanced with a Carrier Ethernet infrastructure that is now counted among the world's best.

XXX

About PLDT

PLDT is the leading telecommunications service provider in the Philippines. Through its three principal business groups—wireless, fixed line, and information and communications technology—PLDT offers the largest and most diversified range of telecommunications services across the Philippines—most extensive fiber optic backbone and wireless, fixed line and satellite networks.

PLDT is listed on the Philippine Stock Exchange (PSE:TEL) and its American Depositary Shares are listed on the New York Stock Exchange (NYSE:PHI). PLDT has one of the largest market capitalizations among Philippine-listed companies
