FORM 10-Q

FOR THE QUARTERLY PERIOD ENDED SEPTEMBER 30, 2012

Introductory Note

On September 28, 2010, Biovail Corporation (“Biovail”) completed the acquisition of Valeant Pharmaceuticals International (“Valeant”) with Valeant surviving as a wholly-owned subsidiary of Biovail (the “Merger”). In connection with the Merger, Biovail was renamed “Valeant Pharmaceuticals International, Inc.” (the “Company”).

Except where the context otherwise requires, all references in this Quarterly Report on Form 10-Q (this “Form 10-Q”) to the “Company”, “we”, “us”, “our” or similar words or phrases are to Valeant Pharmaceuticals International, Inc. and its subsidiaries, taken together, after giving effect to completion of the Merger; references to “Biovail” are to Biovail Corporation prior to the completion of the Merger and “Valeant” are to Valeant Pharmaceuticals International.

In this Form 10-Q, references to “\$” and “US\$” are to United States (“U.S.”) dollars, references to “C\$” are to Canadian dollars, references to “€” are to Euros, references to “AUD\$” are to Australian dollars, references to “R\$” are to Brazilian real and references to “MXN\$” are to Mexican peso.

Forward-Looking Statements

Caution regarding forward-looking information and statements and “Safe-Harbor” statements under the U.S. Private Securities Litigation Reform Act of 1995:

To the extent any statements made in this Form 10-Q contain information that is not historical, these statements are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and may be forward-looking information within the meaning defined under applicable Canadian securities legislation (collectively, “forward-looking statements”).

These forward-looking statements relate to, among other things: the expected benefits of our acquisitions (including the Medicis acquisition) and other transactions, such as cost savings, operating synergies and growth potential of the Company; business plans and prospects, prospective products or product approvals, future performance or results of current and anticipated products; the impact of healthcare reform; exposure to foreign currency exchange rate changes and interest rate changes; the outcome of contingencies, such as certain litigation and regulatory proceedings; general market conditions; and our expectations regarding our financial performance, including revenues, expenses, gross margins, liquidity and income taxes.

Forward-looking statements can generally be identified by the use of words such as “believe”, “anticipate”, “expect”, “intend”, “estimate”, “plan”, “continue”, “will”, “may”, “could”, “would”, “target”, “potential” and other similar expressions. In addition, statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. These forward-looking statements may not be appropriate for other purposes. Although we have indicated above certain of these statements set out herein, all of the statements in this Form 10-Q that contain forward-looking statements are qualified by these cautionary statements. Although we believe that the expectations reflected in such forward-looking statements are reasonable, such statements involve risks and uncertainties, and undue reliance should not be placed on such statements. Certain material factors or assumptions are applied in making forward-looking statements, including, but not limited to, factors and assumptions regarding the items outlined above. Actual results may differ materially from those expressed or implied in such statements. Important factors that could cause actual results to differ materially from these expectations include, among other things, the following:

- our ability to compete against companies that are larger and have greater financial, technical and human resources than we do, as well as other competitive factors, such as technological advances achieved, patents obtained and new products introduced by our competitors;
- the challenges and difficulties associated with managing the rapid growth of our Company and a large, complex business;
- our ability to identify, acquire and integrate acquisition targets and to secure and maintain third-party research, development, manufacturing, marketing or distribution arrangements;

our ability to close transactions (including the Medicis acquisition) on a timely basis or at all;
factors relating to the integration of the companies, businesses and products acquired by the Company, such as the time and resources required to integrate such companies, businesses and products, the difficulties associated with such integrations, and the achievement of the anticipated benefits from such integrations;
our eligibility for benefits under tax treaties and the continued availability of low effective tax rates for the business profits of certain of our subsidiaries;
our future cash flow, our ability to service and repay our existing debt and our ability to raise additional funds, if needed, in light of our current and projected levels of operations, acquisition activity and general economic conditions;
our substantial debt and debt service obligations and their impact on our financial condition and results of operations;
the uncertainties associated with the acquisition and launch of new products, including, but not limited to, the acceptance and demand for new pharmaceutical products, and the impact of competitive products and pricing;
the difficulty in predicting: the expense, timing and outcome within our legal and regulatory environment, including, but not limited to, the U.S. Food and Drug Administration, the Canadian Therapeutic Products Directorate and European, Asian, Brazilian and Australian regulatory approvals; legal and regulatory proceedings and settlements thereof; the protection afforded by our patents and other intellectual and proprietary property; successful generic challenges to our products and infringement; or alleged infringement of the intellectual property of or by others;
the success of preclinical and clinical trials for our drug development pipeline or delays in clinical trials that adversely impact the timely commercialization of our pipeline products, which could lead to material impairment charges;
the results of management reviews of our research and development portfolio, conducted periodically and in connection with certain acquisitions, the decisions from which could result in terminations of specific projects which, in turn, could lead to material impairment charges;
the results of continuing safety and efficacy studies by industry and government agencies;
our ability to obtain components, raw materials or bulk or finished products supplied by third parties;
the disruption of delivery of our products and the routine flow of manufactured goods;
the seasonality of sales of certain of our products;
the introduction of products that compete against our products that do not have patent or data exclusivity rights, which products represent a significant portion of our revenues;
the risks associated with the international scope of our operations, including our presence in emerging markets and the challenges we face when entering new geographic markets;
adverse global economic conditions and credit market uncertainty in European and other countries in which we do business;
• economic factors over which the Company has no control, including changes in inflation, interest rates, foreign currency rates, and the potential effect of such factors on revenues, expenses and resulting margins;
our ability to retain, motivate and recruit executives and other key employees;
the outcome of legal proceedings, investigations and regulatory proceedings;

the risk that our products could cause, or be alleged to cause, personal injury, leading to withdrawals of products from the market;

the impacts of the Patient Protection and Affordable Care Act and the Food and Drug Administration Safety and Innovation Act in the U.S. and other legislative and regulatory reforms in the countries in which we operate; and other risks detailed from time to time in our filings with the U.S. Securities and Exchange Commission (the "SEC") and the Canadian Securities Administrators (the "CSA"), as well as our ability to anticipate and manage the risks associated with the foregoing.

Additional information about these factors and about the material factors or assumptions underlying such forward-looking statements may be found under Item 1A. of Part II of this Form 10-Q and under Item 1A. "Risk Factors" of the Company's Annual Report on Form 10-K Item 1A., and in the Company's other filings with the SEC and CSA. We caution that the foregoing list of important factors that may affect future results is not exhaustive. When relying on our forward-looking statements to make decisions with respect to the Company, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. These forward-looking statements speak only as of the date made. We undertake no obligation to update any of these forward-looking statements to reflect events or circumstances after the date of this Form 10-Q or to reflect actual outcomes.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All tabular amounts expressed in thousands of U.S. dollars, except per share data)

(Unaudited)

1. DESCRIPTION OF BUSINESS

On September 28, 2010 (the “Merger Date”), Biovail Corporation (“Biovail”) completed the acquisition of Valeant Pharmaceuticals International (“Valeant”) through a wholly-owned subsidiary pursuant to an Agreement and Plan of Merger, dated as of June 20, 2010, with Valeant surviving as a wholly-owned subsidiary of Biovail (the “Merger”). In connection with the Merger, Biovail was renamed “Valeant Pharmaceuticals International, Inc.” (the “Company”). The Company is a multinational, specialty pharmaceutical company that develops, manufactures and markets a broad range of pharmaceutical products primarily in the areas of dermatology, neurology and branded generics.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited consolidated financial statements (the “unaudited consolidated financial statements”) have been prepared by the Company in United States (“U.S.”) dollars and in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial reporting, which do not conform in all respects to the requirements of U.S. GAAP for annual financial statements. Accordingly, these condensed notes to the unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto prepared in accordance with U.S. GAAP that are contained in the Company’s Annual Report on Form 10-K for the year ended December 31, 2011 (the “2011 Form 10-K”). The unaudited consolidated financial statements have been prepared using accounting policies that are consistent with the policies used in preparing the Company’s audited consolidated financial statements for the year ended December 31, 2011. There have been no changes to the Company’s significant accounting policies since December 31, 2011, except as described below under “Adoption of New Accounting Standards”. The unaudited consolidated financial statements reflect all normal and recurring adjustments necessary for a fair statement of the Company’s financial position and results of operations for the interim periods presented.

Reclassifications and Revisions

Certain reclassifications have been made to prior year amounts to conform with the current year presentation.

The Company has revised the 2011 consolidated statement of cash flows for the presentation of the proceeds from the out-license of an intangible asset to conform to the current year presentation. The Company decreased Net cash used in investing activities with an offsetting decrease in Net cash provided by operating activities by \$36.0 million for the nine-month period ended September 30, 2011. This revision did not have a material impact to the Company’s previously reported consolidated statement of cash flows. This change had no effect on the Company’s previously reported consolidated balance sheets, consolidated statements of income (loss) and consolidated statements of comprehensive income (loss).

Use of Estimates

In preparing the unaudited consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the dates of the unaudited consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from these estimates and the operating results for the interim periods presented are not necessarily indicative of the results expected for the full year.

On an ongoing basis, management reviews its estimates to ensure that these estimates appropriately reflect changes in the Company’s business and new information as it becomes available. If historical experience and other factors used by management to make these estimates do not reasonably reflect future activity, the Company’s results of operations and financial position could be materially impacted.

Adoption of New Accounting Standards

Effective January 1, 2012, the Company has adopted on a prospective basis the provisions of the following new accounting standards:

Guidance that results in a consistent definition of fair value and common requirements for measurement of and disclosure about fair value between U.S. GAAP and International Financial Reporting Standards ("IFRS"). The amendments change some fair value measurement principles and disclosure requirements under U.S. GAAP. The adoption of this guidance did not have a significant impact on the Company's financial position or results of operations.

Guidance requiring entities to present net income and other comprehensive income in either a single continuous statement or in two separate, but consecutive, statements of net income and other comprehensive income. This guidance does not change the components of other comprehensive income or the calculation of earnings per share. The effective date for amendments to the presentation of reclassifications out of accumulated other comprehensive income has been deferred. As this guidance relates to presentation only, the adoption of this guidance did not impact the Company's financial position or results of operations.

Guidance intended to simplify goodwill impairment testing, by allowing an entity to first assess qualitative factors to determine whether it is "more likely than not" that the fair value of a reporting unit is less than the carrying amount as a basis for determining whether it is necessary to perform a two-step goodwill impairment test. The more-likely-than-not threshold is defined as having a likelihood of more than 50%. The adoption of this guidance did not have a significant impact on the Company's financial position or results of operations.

In July 2012, the Financial Accounting Standards Board ("FASB") issued guidance intended to simplify indefinite-lived intangible impairment testing, by allowing an entity to first assess qualitative factors to determine whether it is "more likely than not" that the fair value of an asset is less than its carrying amount as a basis for determining whether it is necessary to perform a quantitative impairment test. The more-likely-than-not threshold is defined as having a likelihood of more than 50%. This guidance is effective for annual and interim tests performed for fiscal years beginning after September 15, 2012. The adoption of this guidance is not expected to have a significant impact on the Company's financial position or results of operations.

3. BUSINESS COMBINATIONS

The Company has focused its business on core geographies and therapeutic classes through selective acquisitions, dispositions and strategic partnerships with other pharmaceutical companies.

(a) Business combinations in 2012 include the following:

OraPharma

Description of the Transaction

On June 18, 2012, the Company acquired OraPharma Topco Holdings, Inc. ("OraPharma"), a specialty oral health company located in the U.S. that develops and commercializes products that improve and maintain oral health. The Company made an up-front payment of \$289.3 million, and the Company may pay a series of contingent consideration payments of up to \$114.0 million based on certain milestones, including certain revenue targets. The fair value of the contingent consideration was determined to be \$99.2 million as of the acquisition date, for a total fair value of consideration transferred of \$388.5 million. As of September 30, 2012, the assumptions used for determining fair value of the contingent consideration have not changed significantly from those used at the acquisition date. The Company also repaid at the closing \$37.9 million of assumed debt.

OraPharma's lead product is Arestin®, a locally administered antibiotic for the treatment of periodontitis that utilizes an advanced controlled-release delivery system and is indicated for use in conjunction with scaling and root planing for the treatment of adult periodontitis.

Assets Acquired and Liabilities Assumed

The transaction has been accounted for as a business combination under the acquisition method of accounting. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed as of the acquisition date. The following recognized amounts are provisional and subject to change:

• amounts for intangible assets, property, plant and equipment and inventories, pending finalization of the valuation;
• amounts for income tax assets and liabilities, pending finalization of estimates and assumptions in respect of certain tax aspects of the transaction; and

• amount of goodwill pending the completion of the valuation of the assets acquired and liabilities assumed.

The Company will finalize these amounts as it obtains the information necessary to complete the measurement process. Any changes resulting from facts and circumstances that existed as of the acquisition date may result in retrospective adjustments to the provisional amounts recognized at the acquisition date. These changes could be significant. The Company will finalize these amounts no later than one year from the acquisition date.

(a) As previously reported in the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2012.

The measurement period adjustments primarily reflect: (i) changes in the estimated fair value of the Arestin[®] product brand; (ii) the reclassification of intangible assets from product brands to acquired in-process research and development ("IPR&D"); (iii) a decrease in the total fair value of consideration transferred due to a working capital adjustment; and (iv) the tax impact of pre-tax measurement period adjustments. The measurement period adjustments were made to reflect facts and circumstances existing as of the acquisition date, and did not result from intervening events subsequent to the acquisition date. These adjustments did not have a significant impact on the Company's previously reported consolidated financial statements and, therefore, the Company has not retrospectively adjusted those financial statements.

(c) Both the fair value and gross contractual amount of trade accounts receivable acquired were \$10.3 million, as the Company expects that the amount to be uncollectible is negligible.

(d) The following table summarizes the provisional amounts and useful lives assigned to identifiable intangible assets:

(e) The IPR&D assets primarily relate to the development of Arestin ER, which is indicated for oral hygiene use and Arestin Peri-Implantitis, which is indicated for anti-inflammatory and anti-bacterial use.

(f) Effective June 18, 2012, the Company terminated the credit facility agreement, repaid the assumed debt outstanding and cancelled the undrawn credit facilities.

Goodwill is calculated as the difference between the acquisition date fair value of the consideration transferred and (g) the provisional values assigned to the assets acquired and liabilities assumed. None of the goodwill is expected to be deductible for tax purposes. The goodwill recorded represents the following:

- cost savings, operating synergies and other benefits expected to result from combining the operations of OraPharma with those of the Company;

- the value of the continuing operations of OraPharma's existing business (that is, the higher rate of return on the assembled net assets versus if the Company had acquired all of the net assets separately); and

- intangible assets that do not qualify for separate recognition (for instance, OraPharma's assembled workforce).

The provisional amount of goodwill has been allocated to the Company's U.S. Dermatology segment as indicated in note 10.

Acquisition-Related Costs

The Company has incurred to date \$3.7 million of transaction costs directly related to the OraPharma acquisition, which includes expenditures for advisory, legal, valuation, accounting and other similar services. These costs have been expensed as acquisition-related costs.

Revenue and Net Loss of OraPharma

The revenues of OraPharma for the period from the acquisition date to September 30, 2012 were \$28.3 million, and the net loss was \$3.5 million. The net loss includes the effects of the acquisition accounting adjustments and acquisition-related costs.

Other Business Combinations

Description of the Transactions

In the nine-month period ended September 30, 2012, the Company completed other business combinations, which included the following businesses, as well as other smaller acquisitions, for an aggregate purchase price of \$744.4 million. The aggregate purchase price included contingent consideration obligations with an aggregate acquisition date fair value of \$44.2 million.

On September 28, 2012, the Company acquired certain assets from Johnson & Johnson Consumer Companies, Inc. ("J&J North America") for a purchase price of \$109.6 million, relating to the U.S. and Canadian rights to the over-the-counter ("OTC") consumer brands Ambu®, Caladryl®, Corn Huskers®, Cortaid®, Purpose® and Shower to Shower®.

On September 24, 2012, the Company acquired certain assets from QLT Inc. and QLT Ophthalmics, Inc. (collectively, "QLT") relating to Visudyne® which is used to treat abnormal growth of leaky blood vessels in the eye caused by wet age-related macular degeneration. The consideration paid included up-front payments of \$62.5 million for the assets related to the rights to the product in the U.S. and \$50.0 million for the assets

(Unaudited)

related to the rights to the product outside the U.S. The Company may pay a series of contingent payments of up to \$20.0 million relating to non-U.S. royalties and development milestones for QLT's laser program in the U.S. In addition, the Company will pay royalties on sales of potential new indications for Visudyne® in the U.S. The fair value of the contingent consideration was determined to be \$7.9 million as of the acquisition date. As of September 30, 2012, the assumptions used for determining fair value of the contingent consideration have not changed significantly from those used at the acquisition date.

On May 23, 2012, the Company acquired certain assets from University Medical Pharmaceuticals Corp. ("University Medical"), a specialty pharmaceutical company located in the U.S. focused on skincare products, including the rights to University Medical's main brand AcneFree™, a retail OTC acne treatment. The consideration includes up-front payments of \$65.0 million, and the Company may pay a series of contingent consideration payments of up to \$40.0 million if certain net sales milestones are achieved. The fair value of the contingent consideration was determined to be \$1.5 million as of the acquisition date. As of September 30, 2012, the assumptions used for determining fair value of the contingent consideration have not changed significantly from those used at the acquisition date.

On May 2, 2012, the Company acquired certain assets from Atlantis Pharma ("Atlantis"), a branded generics pharmaceutical company located in Mexico, for up-front payments of \$65.5 million (MXN\$847.3 million), and the Company placed an additional \$8.9 million (MXN\$114.7 million) into an escrow account. The amounts in escrow will be paid to the sellers only if certain regulatory milestones are achieved and therefore such amounts were treated as contingent consideration. The fair value of the contingent consideration was determined to be \$7.6 million as of the acquisition date. As of September 30, 2012, the assumptions used for determining fair value of the contingent consideration have not changed significantly from those used at the acquisition date. Since the acquisition date, certain amounts have been released from escrow to the sellers, reducing the escrow balance to \$8.2 million as of September 30, 2012. The escrow balance is classified as Restricted cash in the Company's consolidated balance sheets. Atlantis has a broad product portfolio, including products in gastro, analgesics and anti-inflammatory therapeutic categories.

On March 13, 2012, the Company acquired certain assets from Gerot Lannach, a branded generics pharmaceutical company based in Austria. The Company made an up-front payment of \$164.0 million (€125.0 million), and the Company may pay a series of contingent consideration payments of up to \$19.7 million (€15.0 million) if certain net sales milestones are achieved. The fair value of the contingent consideration was determined to be \$16.8 million as of the acquisition date. As of September 30, 2012, the assumptions used for determining fair value of the contingent consideration have not changed significantly from those used at the acquisition date. As part of the transaction, the Company also entered into a ten-year exclusive supply agreement with Gerot Lannach for the acquired products. Approximately 90% of sales relating to the acquired assets are in Russia, with sales also made in certain Commonwealth of Independent States (CIS) countries including Kazakhstan and Uzbekistan. Gerot Lannach's largest product is acetylsalicylic acid, a low dose aspirin.

On February 1, 2012, the Company acquired Probiotica Laboratorios Ltda. ("Probiotica"), which markets OTC sports nutrition products and other food supplements in Brazil, for a purchase price of \$90.5 million (R\$158.0 million).

During the nine months ended September 30, 2012, the Company completed other smaller acquisitions which are not material individually or in the aggregate. These acquisitions are included in the aggregated amounts presented below.

Assets Acquired and Liabilities Assumed

These transactions have been accounted for as business combinations under the acquisition method of accounting. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed related to the other business combinations, in the aggregate, as of the acquisition dates. The following recognized amounts with respect to the J&J North America, QLT, University Medical, Probiotica, and certain other smaller acquisitions are provisional and subject to change:

VALEANT PHARMACEUTICALS INTERNATIONAL, INC.

• amounts for intangible assets, property, plant and equipment and inventories, pending finalization of the valuation;
• amounts for non-current liabilities, and corresponding indemnification assets, pending finalization of the assessment of contingent liabilities;

• amounts for income tax assets and liabilities, pending finalization of estimates and assumptions in respect of certain tax aspects of the transaction; and

• amount of goodwill pending the completion of the valuation of the assets acquired and liabilities assumed.

The Company will finalize these amounts as it obtains the information necessary to complete the measurement processes. Any changes resulting from facts and circumstances that existed as of the acquisition dates may result in retrospective adjustments to the provisional amounts recognized at the acquisition dates. These changes could be significant. The Company will finalize these amounts no later than one year from the respective acquisition dates.

Total fair value of consideration transferred	\$744,485	\$(78)) \$744,407

The measurement period adjustments relate to the Probiotica acquisition and primarily reflect: (i) the elimination of the liability for uncertain tax positions; (ii) the changes in the estimated fair value of the corporate brand intangible asset; and (iii) a decrease in the total fair value of consideration transferred due to a working capital adjustment.

(a) The measurement period adjustments were made to reflect facts and circumstances existing as of the acquisition date, and did not result from intervening events subsequent to the acquisition date. These adjustments did not have a significant impact on the Company's previously reported consolidated financial statements and, therefore, the Company has not retrospectively adjusted those financial statements.

(b) The fair value of trade accounts receivable acquired was \$28.3 million, with the gross contractual amount being \$29.6 million, of which the Company expects that \$1.3 million will be uncollectible.

Assets held for sale relate to a product brand acquired in the Atlantis acquisition. Subsequent to that acquisition, the (c) plan of sale changed, and the Company no longer intends to sell the asset. Consequently, the product brand is not classified as an asset held for sale as of September 30, 2012.

(d) The following table summarizes the provisional amounts and useful lives assigned to identifiable intangible assets:

Other non-current liabilities, and the corresponding indemnification assets, primarily relate to certain asserted and unasserted claims against Probiotica, which include potential tax-related obligations that existed at the acquisition date. The Company is indemnified by the sellers in accordance with indemnification provisions under its contractual arrangements. Indemnification assets and contingent liabilities were recorded at the same amount and classified in the same manner, as components of the purchase price, representing our best estimates of these amounts at the acquisition date, in accordance with guidance for loss contingencies and uncertain tax positions.

(e) Under the Company's contractual arrangement with Probiotica, there is no limitation on the amount or value of indemnity claims that can be made by the Company; however there is a time restriction of either two or five years, depending on the nature of the claim. Approximately \$12.9 million (R\$22.5 million) of the purchase price for the Probiotica transaction from the date of acquisition has been placed in escrow in accordance with the indemnification provisions. The escrow account will be maintained for two years, with 50% being released to the sellers after the first year, and the remaining balance released after the second year. The Company expects the total amount of such indemnification assets to be collectible from the sellers. The Company is continuing to gather and assess information with respect to the non-current liabilities and indemnification assets.

The goodwill relates primarily to the Probiotica acquisition. Goodwill is calculated as the difference between the acquisition date fair value of the consideration transferred and the provisional values assigned to the assets acquired and liabilities assumed. The Company expects that the goodwill will be deductible for tax purposes. The goodwill (f) recorded from the J&J North America, QLT, University Medical, Atlantis and Gerot Lannach acquisitions represents primarily the cost savings, operating synergies and other benefits expected to result from combining the operations with those of the Company. Probiotica's goodwill recorded represents the following:

the Company's expectation to develop and market new product brands and product lines in the future;

the value associated with the Company's ability to develop relationships with new customers;

the value of the continuing operations of Probiotica's existing business (that is, the higher rate of return on the assembled net assets versus if the Company had acquired all of the net assets separately); and

intangible assets that do not qualify for separate recognition (for instance, Probiotica's assembled workforce).

The provisional amount of the goodwill from the J&J North America, QLT and University Medical acquisitions has been allocated to the Company's U.S. Dermatology segment. The provisional amount of the goodwill from the Probiotica acquisition, and the amounts of goodwill from the Atlantis and Gerot Lannach acquisitions, have been allocated to the Company's Emerging Markets segment.

Acquisition-Related Costs

The Company has incurred to date \$9.0 million, in the aggregate, of transaction costs directly related to the other business combinations, which includes expenditures for advisory, legal, valuation, accounting and other similar services. These costs have been expensed as acquisition-related costs.

Revenue and Net Loss of Other Business Combinations

The revenues of the other business combinations for the period from the respective acquisition dates to September 30, 2012 were \$106.6 million, in the aggregate, and the net loss was \$10.5 million, in the aggregate. The net loss includes the effects of the acquisition accounting adjustments and acquisition-related costs.

(b) Business combinations in 2011 include the following:

iNova

VALEANT PHARMACEUTICALS INTERNATIONAL, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(All tabular amounts expressed in thousands of U.S. dollars, except per share data)

(Unaudited)

Description of the Transaction

On December 21, 2011, the Company acquired iNova from Archer Capital, Ironbridge Capital and other minority management shareholders. The Company made up-front payments of \$656.7 million (AUD\$657.9 million) and the Company may pay a series of potential milestones of up to \$59.9 million (AUD\$60 million) based on the success of pipeline activities, product registrations and overall revenue. The fair value of the contingent consideration was determined to be \$44.5 million as of the acquisition date, for a total fair value of consideration transferred of \$701.2 million. As of September 30, 2012, the assumptions used for determining the fair value of the acquisition-related contingent consideration have not changed significantly from those used at the acquisition date.

iNova sells and distributes a range of prescription and OTC products in Australia, New Zealand, Asia and South Africa, including leading therapeutic weight management brands such as Duromine[®]/Metermine[®], as well as leading OTC brands in the cold and cough area, such as Diffiam[®], Duro-Tuss[®] and Rikodeine[®].

Assets Acquired and Liabilities Assumed

The transaction has been accounted for as a business combination under the acquisition method of accounting. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed as of the acquisition date.

(a) As previously reported in the 2011 Form 10-K.

The measurement period adjustments primarily reflect: (i) resolution of certain tax aspects of the transaction and the tax impact of pre-tax measurement period adjustments; (ii) changes in the estimated fair value of an intangible asset and the related inventory; (iii) additional information obtained with respect to the fair value of an acquired manufacturing facility; and (iv) additional information obtained with respect to the valuation of compensation-related liabilities. The measurement period adjustments were made to reflect facts and circumstances existing as of the acquisition date, and did not result from intervening events subsequent to the acquisition date. These adjustments did not have a significant impact on the Company's previously reported consolidated financial statements and, therefore, the Company has not retrospectively adjusted those financial statements.

(c) The fair value of trade accounts receivable acquired was \$30.5 million, with the gross contractual amount being \$31.5 million, of which the Company expects that \$1.0 million will be uncollectible.

(d) Property, plant and equipment includes a manufacturing facility, included in the Canada and Australia segment, which was subsequently sold during the third quarter of 2012 for \$10.2 million, which equaled its carrying amount.

(e) The following table summarizes the amounts and useful lives assigned to identifiable intangible assets:

Goodwill is calculated as the difference between the acquisition date fair value of the consideration transferred and (f) the values assigned to the assets acquired and liabilities assumed. None of the goodwill is expected to be deductible for tax purposes. The goodwill recorded represents the following:

cost savings, operating synergies and other benefits expected to result from combining the operations of iNova with those of the Company;

the value of the continuing operations of iNova's existing business (that is, the higher rate of return on the assembled net assets versus if the Company had acquired all of the net assets separately); and

intangible assets that do not qualify for separate recognition (for instance, iNova's assembled workforce).

The goodwill has been allocated to the Company's Canada and Australia segment (\$119.5 million) and the Company's Emerging Markets segment (\$82.4 million).

Dermik

Description of the Transaction

On December 16, 2011, the Company acquired Dermik, a dermatological unit of Sanofi in the U.S. and Canada, as well as the worldwide rights to Sculptra® and Sculptra® Aesthetic, for a total cash purchase price of approximately \$421.6 million. The acquisition includes Dermik's inventories and manufacturing facility located in Laval, Quebec. In connection with the acquisition of Dermik, the Company was required by the Federal Trade Commission ("FTC") to divest 1% clindamycin and 5% benzoyl peroxide gel, a generic version of BenzaClin®, and 5% fluorouracil cream, an authorized generic of Efudex®. For further details, see note 4 titled "ACQUISITIONS AND DISPOSITIONS".

Dermik is a leading global medical dermatology business focused on the manufacturing, marketing and sale of therapeutic and aesthetic dermatology products.

(a) As previously reported in the 2011 Form 10-K.

The measurement period adjustments primarily reflect: (i) changes in estimated inventory reserves, (ii) revisions to certain assumptions impacting the fair value of intangible assets; and (iii) an increase in the total fair value of consideration transferred pursuant to a working capital adjustment provision under the purchase agreement. The

(b) measurement period adjustments were made to reflect facts and circumstances existing as of the acquisition date, and did not result from intervening events subsequent to the acquisition date. These adjustments did not have a significant impact on the Company's previously reported consolidated financial statements and, therefore, the Company has not retrospectively adjusted those financial statements.

(c) The following table summarizes the amounts and useful lives assigned to identifiable intangible assets:

Goodwill is calculated as the difference between the acquisition date fair value of the consideration transferred and the values assigned to the assets acquired and liabilities assumed. The Company expects that \$6.4 million of the goodwill will be deductible for tax purposes. The goodwill recorded represents primarily the value of Dermik's assembled workforce. The goodwill has been allocated to the Company's U.S. Dermatology segment.

Ortho Dermatologics

Description of the Transaction

On December 12, 2011, the Company acquired assets of the Ortho Dermatologics division of Janssen Pharmaceuticals, Inc., for a total cash purchase price of approximately \$345.2 million. The assets acquired included prescription brands Retin-A Micro®, Ertaczo®, Renova® and Biafine®.

Ortho Dermatologics is a leader in the field of dermatology and has developed several products to treat skin disorders and dermatologic conditions.

Assets Acquired and Liabilities Assumed

The transaction has been accounted for as a business combination under the acquisition method of accounting. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed as of the acquisition date.

The measurement period adjustment reflects a decrease in the total fair value of consideration transferred pursuant to a working capital adjustment provision under the purchase agreement. The measurement period adjustment was made to reflect facts and circumstances existing as of the acquisition date, and did not result from intervening events subsequent to the acquisition date. This adjustment did not have a significant impact on the Company's previously reported consolidated financial statements and, therefore, the Company has not retrospectively adjusted those financial statements.

(b) The identifiable intangible assets acquired relate to product brands intangible assets with an estimated weighted-average useful life of approximately nine years.

(c) The acquired IPR&D asset relates to the development of the MC5 program, a topical treatment for acne vulgaris. In the second quarter of 2012, the Company terminated the MC5 program and recognized a charge of \$4.3 million to write off the related IPR&D asset. This charge was recognized as Acquired in-process research and development in the Company's consolidated statements of income (loss).

(d) Goodwill is calculated as the difference between the acquisition date fair value of the consideration transferred and the values assigned to the assets acquired and liabilities assumed. None of the goodwill is expected to be deductible for tax purposes. The goodwill recorded represents primarily the cost savings, operating synergies and other benefits expected to result from combining the operations of Ortho Dermatologics with those of the Company. The goodwill has been allocated to the Company's U.S. Dermatology segment.

Afexa

Description of the Transaction

On October 17, 2011, the Company acquired 73.8% (80,929,921 common shares) of the outstanding common shares of Afexa Life Sciences Inc. ("Afexa") for cash consideration of \$67.7 million. The acquisition date fair value of the 26.2% noncontrolling interest in Afexa of \$23.8 million was estimated using quoted market prices on such date, for a total fair value of consideration transferred of \$91.5 million.

At a special meeting of Afexa shareholders held on December 12, 2011, a subsequent acquisition transaction was approved resulting in the privatization of Afexa and the remaining shareholders receiving C\$0.85 per share.

Consequently, as of December 31, 2011, the Company owned 100% of Afexa.

Afexa markets several consumer brands, such as Cold-FX[®], an OTC cold and flu treatment, and Coldsore-FX[®], a topical OTC cold sore treatment.

Assets Acquired and Liabilities Assumed

The transaction has been accounted for as a business combination under the acquisition method of accounting. The following table summarizes the estimated fair values of the assets acquired and liabilities assumed as of the acquisition date.

(a) As previously reported in the 2011 Form 10-K.

The measurement period adjustments primarily reflect: (i) changes in the estimated fair value of certain intangible assets; (ii) changes in estimated sales reserves; and (iii) the tax impact of pre-tax measurement period adjustments.

(b) The measurement period adjustments were made to reflect facts and circumstances existing as of the acquisition date, and did not result from intervening events subsequent to the acquisition date. These adjustments did not have a significant impact on the Company's previously reported consolidated financial statements and, therefore, the Company has not retrospectively adjusted those financial statements.

(c) Both the fair value and gross contractual amount of trade accounts receivable acquired were \$7.9 million, as the Company expects that the amount to be uncollectible is negligible.

Goodwill is calculated as the difference between the acquisition date fair value of the consideration transferred and (e) the values assigned to the assets acquired and liabilities assumed. None of the goodwill is expected to be deductible for tax purposes. The goodwill recorded represents the following:

• cost savings, operating synergies and other benefits expected to result from combining the operations of Afexa with those of the Company; and

• intangible assets that do not qualify for separate recognition (for instance, Afexa's assembled workforce).

The goodwill has been allocated to the Company's Canada and Australia segment.

Sanitas

Description of the Transaction

On August 19, 2011 (the "Sanitas Acquisition Date"), the Company acquired 87.2% of the outstanding shares of AB Sanitas ("Sanitas") for cash consideration of \$392.3 million. Prior to the Sanitas Acquisition Date, the Company acquired 1,502,432 shares of Sanitas, which represented approximately 4.8% of the outstanding shares. As a result, as of the Sanitas Acquisition Date, the Company held a controlling financial interest in Sanitas of 92%, or 28,625,025 shares. The acquisition date fair value of the 8% noncontrolling interest in Sanitas of \$34.8 million, and the acquisition date fair value of the previously-held 4.8% equity interest of \$21.1 million, were estimated using quoted market prices on such date.

On September 2, 2011, the Company announced a mandatory non-competitive tender offer (the "Tender Offer") to purchase the remaining outstanding ordinary shares of Sanitas from all public shareholders at €10.06 per share. The Tender Offer closed on September 15, 2011, on which date the Company purchased an additional 1,968,631 shares (6.4% of the outstanding shares of Sanitas) for approximately \$27.4 million. As a result of this purchase, the Company owned 30,593,656 shares or approximately 98.4% of Sanitas as of September 15, 2011.

On September 22, 2011, the Company received approval from the Securities Commission of the Republic of Lithuania to conduct the mandatory tender offer through squeeze out procedures (the "Squeeze Out") at a price per one ordinary share of Sanitas equal to €10.06, which required that all minority shareholders sell to the Company the ordinary shares of Sanitas owned by them (512,264 ordinary shares, or 1.6% of Sanitas).

As the Company maintained a controlling financial interest in Sanitas during the Tender Offer, the additional ownership interest of 6.4% acquired in Sanitas was accounted for as an equity transaction between owners. The noncontrolling interest in Sanitas of approximately 1.6% to be acquired through the Squeeze Out procedures was

classified as a liability

in the Company's consolidated balance sheet as it was mandatorily redeemable. As of September 30, 2012, the amount due to Sanitas shareholders of \$2.4 million was included in Accrued liabilities and other current liabilities.

Sanitas has a broad branded generics product portfolio consisting of 390 products in nine countries throughout Central and Eastern Europe, primarily Poland, Russia and Lithuania. Sanitas has in-house development capabilities in dermatology, hospital injectables and ophthalmology, and a pipeline of internally developed and acquired dossiers.

Assets Acquired and Liabilities Assumed

The transaction has been accounted for as a business combination under the acquisition method of accounting. The Company has not recognized any additional measurement period adjustments to the amounts previously reported in the 2011 Form 10-K. The amount of goodwill of \$204.8 million has been allocated to the Company's Emerging Markets segment.

PharmaSwiss

Description of the Transaction

On March 10, 2011, the Company acquired all of the issued and outstanding stock of PharmaSwiss S.A.

("PharmaSwiss"), a privately-owned branded generics and OTC pharmaceutical company based in Zug, Switzerland. As of the acquisition date, the total consideration transferred to effect the acquisition of PharmaSwiss comprised of cash paid of \$491.2 million (€353.1 million) and the rights to contingent consideration payments of up to \$41.7 million (€30.0 million) if certain net sales milestones of PharmaSwiss were achieved for the 2011 calendar year. The fair value of the contingent payments was determined to be \$27.5 million as of the acquisition date. In May 2012, the Company made a contingent consideration payment of \$12.4 million (€10.0 million) based on the net sales results for the 2011 calendar year. There are no remaining contingent consideration payments under this arrangement.

In connection with the transaction, in February 2011, the Company entered into foreign currency forward-exchange contracts to buy €130.0 million, which were settled on March 9, 2011. The Company recorded a \$5.1 million gain on the settlement of these contracts, which was partially offset by a foreign exchange loss of \$2.4 million recognized on the remaining €220.0 million bought to finance the transaction. The net foreign exchange gain of \$2.7 million was recognized in Foreign exchange and other in the consolidated statement of income (loss) in the three-month period ended March 31, 2011.

PharmaSwiss is an existing partner to several large pharmaceutical and biotech companies offering regional expertise in such functions as regulatory, compliance, sales, marketing and distribution, in addition to developing its own product portfolio. Through its business operations, PharmaSwiss offers a broad product portfolio in seven therapeutic areas and operations in 19 countries throughout Central and Eastern Europe, including Serbia, Hungary, the Czech Republic and Poland, as well as in Greece and Israel.

Assets Acquired and Liabilities Assumed

The transaction has been accounted for as a business combination under the acquisition method of accounting. The Company has not recognized any additional measurement period adjustments to the amounts previously reported in the 2011 Form 10-K. The amount of goodwill of \$159.7 million has been allocated to the Company's Emerging Markets segment.

Pro Forma Impact of Business Combinations

The following table presents unaudited pro forma consolidated results of operations for the three-month and nine-month periods ended September 30, 2012 and 2011, as if the J&J North America, QLT, OraPharma, University Medical, Atlantis, Gerot Lannach and Probiotica acquisitions had occurred as of January 1, 2011 and the PharmaSwiss, Sanitas, Ortho Dermatologics, iNova and Afexa acquisitions had occurred as of January 1, 2010. The unaudited pro forma information does not include the license agreement entered into in June 2011 to acquire the rights to Elidel® and Xerese®, as the impact is immaterial to these pro forma results and it was impracticable to obtain the necessary historical

Diluted earnings per share	\$0.04	\$0.06	\$0.03	\$0.22

The unaudited pro forma consolidated results of operations were prepared using the acquisition method of accounting and are based on the historical financial information of the Company, J&J North America, QLT, OraPharma, University Medical, Atlantis, Gerot Lannach, Probiotica, PharmaSwiss, Sanitas, Ortho Dermatologics, iNova and Afexa. Except to the extent realized in the three-month and nine-month periods ended September 30, 2012, the unaudited pro forma information does not reflect any cost savings, operating synergies and other benefits that the Company may achieve as a result of these acquisitions, or the costs necessary to achieve these cost savings, operating synergies and other benefits. In addition, except to the extent recognized in the three-month and nine-month periods ended September 30, 2012, the unaudited pro forma information does not reflect the costs to integrate the operations of the Company with those of J&J North America, QLT, OraPharma, University Medical, Atlantis, Gerot Lannach, Probiotica, PharmaSwiss, Sanitas, Ortho Dermatologics, iNova and Afexa.

The unaudited pro forma information is not necessarily indicative of what the Company's consolidated results of operations actually would have been had the J&J North America, QLT, OraPharma, University Medical, Atlantis, Gerot Lannach and Probiotica acquisitions and the PharmaSwiss, Sanitas, Ortho Dermatologics, iNova and Afexa acquisitions been completed on January 1, 2011 and January 1, 2010, respectively. In addition, the unaudited pro forma information does not purport to project the future results of operations of the Company. The unaudited pro forma information reflects primarily adjustments consistent with the unaudited pro forma information related to the following unaudited pro forma adjustments related to these acquisitions:

- elimination of J&J North America's, QLT's, OraPharma's, University Medical's, Atlantis', Gerot Lannach's, Probiotica's, PharmaSwiss', Sanitas', Ortho Dermatologics', iNova's and Afexa's historical intangible asset amortization expense;
- additional amortization expense related to the provisional fair value of identifiable intangible assets acquired;
- additional depreciation expense related to fair value adjustment to property, plant and equipment acquired;
- additional interest expense associated with the financing obtained by the Company in connection with the various acquisitions;

- the exclusion from pro forma earnings in the nine-month period ended September 30, 2012 of the acquisition accounting adjustments on QLT's, iNova's, Ortho Dermatologics', Afexa's, Probiotica's, OraPharma's, University Medical's, and Atlantis' inventories that were sold subsequent to the acquisition date of \$31.1 million, in the aggregate, and the exclusion of \$16.7 million of acquisition-related costs, in the aggregate, incurred primarily for the J&J North America, QLT, OraPharma, University Medical, Atlantis, Gerot Lannach, and Probiotica acquisitions in the nine-month period ended September 30, 2012, and the inclusion of those amounts in pro forma earnings for the applicable comparative periods; and

- the exclusion from pro forma earnings in the three-month period ended September 30, 2012 of the acquisition accounting adjustments on QLT's, iNova's, Ortho Dermatologics', Afexa's, Probiotica's, OraPharma's, University Medical's, and Atlantis' inventories that were sold subsequent to the acquisition date of \$2.9 million, and the inclusion of those amounts in pro forma earnings for the applicable comparative periods.

The pro forma earnings also exclude amortization of inventory step-up that arose from the Merger that was recognized in the nine-month period ended September 30, 2011. Such amounts were included in the applicable comparative period for purposes of pro forma financial information.

In addition, all of the above adjustments were adjusted for the applicable tax impact.

4. ACQUISITIONS AND DISPOSITIONS

Divestitures of IDP-111 and 5-FU

In connection with the acquisition of Dermik, the Company was required by the FTC to divest 1% clindamycin and 5% benzoyl peroxide gel ("IDP-111"), a generic version of BenzaClin[®], and 5% fluorouracil cream ("5-FU"), an authorized generic of Efudex[®].

On February 3, 2012, the Company sold the IDP-111 and 5-FU products. In the fourth quarter of 2011, the Company recognized \$7.9 million and \$19.8 million of impairment charges related to the write-down of the carrying values of the IDP-111 and 5-FU intangible assets, respectively, to their estimated fair values, less costs to sell. The adjusted carrying values of \$54.4 million and \$14.8 million for IDP-111 and 5-FU, respectively, were classified as Assets held for sale on the consolidated balance sheet as of December 31, 2011 and were included within the U.S. Dermatology reporting segment. IDP-111 and 5-FU were considered non-core products with respect to the Company's business strategy, which contemplates, on an ongoing basis, the selective purchase and sale of products and assets with a focus on core geographies and therapeutic classes. The Company, therefore, considers the sale or the out-license of non-core products to be part of its ongoing major and central operations. Accordingly, proceeds on the sale of non-core products are recognized as alliance revenue, with the associated costs, including the carrying amount of related assets, recorded as cost of alliance revenue. In connection with the sale of the IDP-111 and 5-FU, the Company recognized \$66.3 million of cash proceeds as alliance revenue in the first quarter of 2012 and expensed the carrying amounts of the IDP-111 and 5-FU assets of \$69.2 million, in the aggregate, as cost of alliance revenue. The cash proceeds from this transaction are classified within investing activities in the consolidated statements of cash flows.

Cloderm[®]

On March 31, 2011, the Company out-licensed the product rights to Cloderm[®] Cream, 0.1%, in the U.S. to Promius Pharma LLC, an affiliate of Dr. Reddy's Laboratories, in exchange for a \$36.0 million up-front payment, which was received in early April 2011, and future royalty payments. The Cloderm[®] product rights intangible asset was recorded at a fair value of \$31.8 million as of the Merger Date, and had a remaining unamortized carrying value of \$30.7 million at March 31, 2011. Cloderm[®] was considered a non-core product with respect to the Company's business strategy. Accordingly, the Company recognized the up-front payment as alliance revenue in the first quarter of 2011 and expensed the carrying amount of the Cloderm[®] intangible assets as cost of alliance revenue. The cash proceeds from this transaction are classified within investing activities in the consolidated statements of cash flows. The Company recognizes the royalty payments as alliance revenue as they are earned.

Zovirax[®]

On February 22, 2011 and March 25, 2011, the Company acquired the U.S. and Canadian rights, respectively, to non-ophthalmic topical formulations of Zovirax[®] from GlaxoSmithKline ("GSK"). Pursuant to the terms of the asset purchase agreements, the Company paid GSK an aggregate amount of \$300.0 million in cash for both the U.S. and Canadian rights. The Company had been marketing Zovirax[®] in the U.S. since January 1, 2002, under a 20-year exclusive distribution agreement with GSK, which distribution agreement terminated following the closing of the U.S. transaction. The Company has entered into new supply agreements and new trademark license agreements with GSK with respect to the U.S. and Canadian territories.

This acquisition was accounted for as a purchase of identifiable intangible assets. Accordingly, the purchase price (including costs of acquisition) was allocated to the product brand intangible asset, with an estimated weighted-average useful life of 11 years. In addition, the Company reclassified the \$91.4 million unamortized carrying amount of the original exclusive distribution agreement from product rights to the product brand intangible

asset, to be amortized

over the same 11-year estimated useful life.

5. COLLABORATION AGREEMENT

In October 2008, Valeant closed the worldwide License and Collaboration Agreement (the "Collaboration Agreement") with GSK to develop and commercialize a first-in-class neuronal potassium channel opener for treatment of adult epilepsy patients with refractory partial onset seizures and its backup compounds, with a generic name of ezogabine in the U.S. and retigabine in all other countries. Pursuant to the terms of the Collaboration Agreement, Valeant granted co-development rights and worldwide commercialization rights to GSK.

In March 2011, the European Commission granted marketing authorization for Trobalt® (retigabine) as an adjunctive treatment of partial onset seizures, with or without secondary generalization in adults aged 18 years and above with epilepsy. In June 2011, the U.S. Food and Drug Administration ("FDA") approved the New Drug Application for Potiga™ (ezogabine) tablets as adjunctive treatment of partial-onset seizures in patients aged 18 years and older; however, the FDA recommended that ezogabine be scheduled as a controlled substance under the Controlled Substances Act prior to the marketing or launch of Potiga™. In December 2011, ezogabine/retigabine received scheduling as a controlled substance, which triggered the commencement of amortization.

In connection with the first sale of Potiga™ in the U.S. (which occurred in April 2012), GSK paid the Company a \$45.0 million milestone payment, and the Company will share up to 50% of the net profits from the sale of Potiga™. In addition, in connection with the first sale of Trobalt® by GSK in the European Union (which occurred in May 2011), GSK paid the Company a \$40.0 million milestone payment and will pay up to a 20% royalty on net sales of the product. As substantive uncertainty existed at the inception of the Collaboration Agreement as to whether the milestones would be achieved because of the uncertainty involved with obtaining regulatory approval, no amounts were previously recognized for these potential milestone payments. The milestone payments (1) relate solely to past performance of the Company, (2) are reasonable relative to the other deliverables and payment terms within the Collaboration Agreement, and (3) are commensurate with the Company's efforts in collaboration with GSK to achieve the milestone events and the increase in value of ezogabine/retigabine. Accordingly, the milestones are considered substantive, and the milestone payments are being recognized by the Company as alliance and royalty revenue upon achievement. In the second quarter of 2012 and 2011, the Company recorded \$45.0 million and \$40.0 million of milestone payments from GSK in connection with the launches of Potiga™ and Trobalt®, respectively.

6. RESTRUCTURING, INTEGRATION AND OTHER COSTS

The Company has completed measures to integrate the operations of Biovail and Valeant, capture operating synergies and generate cost savings across the Company. In connection with these cost-rationalization and integration initiatives, the Company has incurred costs including: employee termination costs (including related share-based payments) payable to approximately 500 employees of Biovail and Valeant who were terminated as a result of the Merger; IPR&D termination costs related to the transfer to other parties of product-development programs that did not align with the Company's research and development model; costs to consolidate or close facilities and relocate employees, asset impairments charges to write down property, plant and equipment to fair value; and contract termination and lease cancellation costs.

The following table summarizes the major components of costs incurred in connection with these initiatives through September 30, 2012:

Facility closure costs incurred in the nine-month period ended September 30, 2012 primarily included an incremental \$10.2 million charge for the remaining operating lease obligations related to our vacated Mississauga, Ontario corporate office facility.

In addition to costs associated with the Company's Merger-related initiatives, in the nine-month period ended September 30, 2012, the Company incurred an additional \$121.0 million of other restructuring, integration-related and other costs, including (i) \$46.6 million of integration consulting, duplicate labor, transition service, and other, (ii) \$44.8 million of severance costs, (iii) \$14.9 million of facility closure costs and (iv) \$14.7 million of other costs, including non-personnel manufacturing integration costs. The Company also made payments of \$107.7 million during the nine-month period ended September 30, 2012. These costs were primarily related to the acquisitions of Dermik, iNova, Sanitas, Ortho Dermatologics, OraPharma, Afexa, PharmaSwiss, and a U.S. restructuring focused primarily on a reduction in the prescription dermatology field force, the global consolidation of the Company's manufacturing facilities, and systems integration initiatives.

7. FAIR VALUE MEASUREMENTS

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following fair value hierarchy table presents the components of the Company's financial assets and liabilities measured at fair value as of September 30, 2012 and December 31, 2011:

Fair value measurements are estimated based on valuation techniques and inputs categorized as follows:

Level 1 — Quoted prices in active markets for identical assets or liabilities;

Level 2 — Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; and

Level 3 — Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using discounted cash flow methodologies, pricing models, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

If the inputs used to measure the financial assets and liabilities fall within more than one level described above, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

There were no transfers between Level 1 and Level 2 during the nine-month period ended September 30, 2012.

Liabilities Measured at Fair Value on a Recurring Basis Using Significant Unobservable Inputs (Level 3)

The fair value measurement of contingent consideration obligations arising from business combinations is determined using unobservable (Level 3) inputs. These inputs include (i) the estimated amount and timing of projected cash flows; (ii) the probability of the achievement of the factor(s) on which the contingency is based; and (iii) the risk-adjusted discount rate used to present value the probability-weighted cash flows. Significant increases (decreases) in any of those inputs in isolation could result in a significantly lower (higher) fair value measurement.

The following table presents a reconciliation of contingent consideration obligations measured on a recurring basis using significant unobservable inputs (Level 3) for the nine-month period ended September 30, 2012:

- (a) Relates primarily to the OraPharma, Gerot Lannach, QLT, Atlantis and University Medical acquisitions as described above in note 3.
- (b) Relates primarily to payments of acquisition-related contingent consideration related to the Elidel®/Xerese® license agreement entered into in June 2011 and the PharmaSwiss acquisition.
Recognized as Acquisition-related contingent consideration in the consolidated statements of income (loss). The balance is primarily driven by fair value adjustments to reflect accretion for the time value of money of \$19.5 million related to the Elidel®/Xerese® license agreement and \$6.2 million related to the iNova acquisition described
- (c) above in note 3. These charges were partially offset by a gain of \$4.4 million related to a shift in timing which impacted the revenue assumptions associated with potential milestone payments for the A007 (Lacrisert®) development program.
- (d) Included in Foreign exchange and other in the consolidated statements of income (loss).

Assets and Liabilities Measured at Fair Value on a Non-Recurring Basis

There were no significant assets or liabilities that were re-measured at fair value on a non-recurring basis subsequent to initial recognition in the nine-month period ended September 30, 2012.

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

The following table summarizes the estimated fair values of the Company's financial instruments as of September 30, 2012 and December 31, 2011:

	As of September 30, 2012		As of December 31, 2011	
	Carrying Value	Fair Value	Carrying Value	Fair Value

- (a) Fair value measurement of long-term debt was estimated using the quoted market prices for the same or similar issues and other pertinent information available to management.

The following table summarizes the Company's marketable securities by major security type as of September 30, 2012 and December 31, 2011:

Less allowance for obsolescence	(47,341) (22,819
	\$418,252	\$355,212

The increase in raw materials and the allowance for obsolescence is primarily driven by the 2012 acquisitions of businesses, including the QLT transaction where a significant amount of active pharmaceutical ingredient was acquired, as well as investments in inventory to support growth of the business and manufacturing integration initiatives. For further details regarding the 2012 acquisitions, see note 3 titled "BUSINESS COMBINATIONS".

10. INTANGIBLE ASSETS AND GOODWILL

Intangible Assets

The major components of intangible assets as of September 30, 2012 and December 31, 2011 were as follows:

	As of September 30, 2012			As of December 31, 2011		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount

	\$9,794,765	\$(1,759,048)	\$8,035,717	\$8,767,788	\$(1,109,990)	\$7,657,798

In the third quarter of 2012, the Company wrote off an IPR&D asset of \$133.4 million relating to the IDP-107 program (U.S. Dermatology segment), which was acquired in September 2010 as part of the Merger. Through discussion with various internal and external Key Opinion Leaders, the Company completed its analysis of the Phase 2 study results for IDP-107 during the third quarter of 2012. This led to the Company's decision in the third quarter of 2012 to terminate the program and fully impair the asset. As attempts to identify a partner for the program were not successful, the Company does not believe the program has value to a market participant. In addition, in the second quarter of 2012, the Company wrote off \$4.3 million relating to the termination of the MC5 program (U.S. Dermatology segment) acquired as part of the Ortho Dermatologics acquisition in 2011 described in note 3. The write offs of the IPR&D assets were recorded in Acquired in-process research and development expense in the consolidated statements of income (loss).

In addition, a \$12.0 million payment in the third quarter of 2012 to terminate a research and development commitment with a third party was included in Acquired in-process research and development expense in the consolidated

statements of income (loss).

The increase in intangible assets primarily reflects the acquisition of OraPharma, Gerot Lannach, QLT, J&J North America, University Medical, Atlantis and Probiotica identifiable intangible assets (as described in note 3).

Amortization expense related to intangible assets was recorded as follows:

The increase in amortization expense in the three-month and nine-month periods ended September 30, 2012 primarily reflected the amortization of ezogabine/retigabine which was reclassified from IPR&D to a finite-lived intangible asset in December 2011 and the amortization of the acquired identifiable intangible assets from the acquisitions of iNova, Dermik, Ortho Dermatologics, Sanitas and OraPharma, as well as the license agreement for Elidel®/Xerese®. Estimated aggregate amortization expense for each of the five succeeding years ending December 31 is as follows:

	2012	2013	2014	2015	2016
Amortization expense	\$849,226	\$878,959	\$869,407	\$859,341	\$827,126

Goodwill

The changes in the carrying amount of goodwill in the nine-month period ended September 30, 2012 were as follows:

	U.S. Dermatology	U.S. Neurology and Other	Canada and Australia	Emerging Markets	Total
Balance, January 1, 2012 ^(a)	\$491,651	\$1,542,203	\$498,198	\$1,066,734	\$3,598,786

Balance, September 30, 2012	\$623,105	\$1,542,203	\$510,302	\$1,124,003	\$3,799,613

Effective in the first quarter of 2012, the Company has four reportable segments: U.S. Dermatology, U.S.

(a) Neurology and Other, Canada and Australia and Emerging Markets. Accordingly, the Company has restated prior period segment information to conform to the current period presentation. For further details, see note 20 titled "SEGMENT INFORMATION".

(b) Primarily relates to the OraPharma, Probiotica and Gerot Lannach acquisitions (as described in note 3).

(c) Primarily reflects the impact of measurement period adjustments related to the iNova, Dermik and Afexa acquisitions (as described in note 3).

As described in note 3, the allocation of the goodwill balance associated with the J&J North America, QLT, OraPharma, University Medical and Probiotica acquisitions is provisional and subject to the completion of the valuation of the assets acquired and liabilities assumed.

11. SHORT-TERM BORROWINGS AND LONG-TERM DEBT

A summary of the Company's consolidated short-term borrowings and long-term debt as of September 30, 2012 and December 31, 2011 is outlined in the table below:

Total long-term debt		\$7,422,558	\$6,539,761

(a) Short-term borrowings under uncommitted line of credit have been included in Accrued liabilities and other current liabilities in the consolidated balance sheets.

On February 13, 2012, the Company and certain of its subsidiaries, as guarantors, amended and restated the credit agreement to provide for revolving and term loan facilities of up to \$3.1 billion and amend certain provisions. On June 14, 2012, the Company entered into a joinder agreement to the Third Amended and Restated Credit and Guaranty Agreement (the “Credit Agreement”) to increase the senior secured term loan B facility by \$600.0 million (b) to \$1.2 billion and amend certain provisions. In addition, on July 9, 2012, the Company entered into a joinder agreement to the Credit Agreement to increase the senior secured term loan B facility by an additional \$100.0 million to \$1.3 billion. Further, on September 11, 2012, the Company entered into a joinder agreement to the Credit Agreement to increase the amount of the commitments under the revolving credit facility by \$175.0 million to \$450.0 million.

The total fair value of the Company’s long-term debt, with carrying values of approximately \$7.6 billion and \$6.7 billion at September 30, 2012 and December 31, 2011, was \$8.1 billion and \$6.7 billion, respectively. The fair value of the Company’s long-term debt is estimated using the quoted market prices for the same or similar issues and other pertinent information available to management as of the end of the respective periods.

Brazil Uncommitted Line of Credit

On September 25, 2012, the Company’s subsidiary in Brazil entered into an uncommitted unsecured line of credit with a financial institution for total availability of R\$21.9 million (\$10.8 million at September 30, 2012). This uncommitted line of credit expires on November 26, 2012, is renewable and bears an interest rate of the Interbank Deposit Certificate Rate plus 0.23% per month. As of September 30, 2012, the Company had \$9.6 million of borrowings under this line of credit, with \$1.2 million of remaining availability. The effective interest rate on the drawn borrowings was approximately 0.9% per month.

Senior Secured Credit Facilities

On February 13, 2012, the Company and certain of its subsidiaries as guarantors entered into the Credit Agreement with a syndicate of financial institutions and investors. As of that date, the Credit Agreement provided for a \$275.0 million revolving credit facility, including a sublimit for the issuance of standby and commercial letters of credit and a sublimit for swing line loans (the “Revolving Credit Facility”), a \$2.225 billion senior secured term loan A facility (the “Term Loan A Facility”) and a \$600.0 million senior secured term loan B facility (the “Term Loan B Facility”).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(All tabular amounts expressed in thousands of U.S. dollars, except per share data)

(Unaudited)

The Revolving Credit Facility matures on April 20, 2016 and does not amortize. The Term Loan A Facility matures on April 20, 2016 and began amortizing quarterly on March 31, 2012 at an initial annual rate of 5.0%. The amortization schedule under the Term Loan A Facility will increase to 10.0% annually commencing March 31, 2013 and 20.0% annually commencing March 31, 2014, payable in quarterly installments. The Term Loan B Facility matures on February 13, 2019 and began amortizing quarterly on June 30, 2012 at an annual rate of 1.0%.

On June 14, 2012, the Company and certain of its subsidiaries as guarantors, entered into a joinder agreement to increase the Term Loan B Facility by \$600.0 million to \$1.2 billion of incremental term loans. In addition, on July 9, 2012, the Company and certain of its subsidiaries as guarantors, entered into a joinder agreement to increase the Term Loan B Facility by an additional \$100.0 million to \$1.3 billion of incremental term loans (the Term Loan B Facility as so amended, the "New Term Loan B Facility"). The incremental term loans mature on February 13, 2019 and began amortizing quarterly on September 30, 2012 at an annual rate of 1.0% and have terms that are consistent with the Company's Term Loan B Facility.

On September 11, 2012, the Company and certain of its subsidiaries as guarantors, entered into a joinder agreement to increase the amount of commitments under the Revolving Credit Facility by \$175.0 million to \$450.0 million (the Revolving Credit Facility as so amended, the "New Revolving Credit Facility" and together with the New Term Loan B Facility and the Term Loan A Facility, the "Senior Secured Credit Facilities").

As of September 30, 2012, \$2,109.0 million in term loans was outstanding under the Term Loan A Facility, \$1,265.9 million in term loans was outstanding under the New Term Loan B Facility and \$25.0 million in revolving loans was outstanding under the New Revolving Credit Facility.

The loans under the Senior Secured Credit Facilities may be made to, and the letters of credit under the New Revolving Credit Facility may be issued on behalf of, the Company. All borrowings under the Senior Secured Credit Facilities are subject to the satisfaction of customary conditions, including the absence of a default or an event of default and the accuracy in all material respects of representations and warranties.

Borrowings under the New Revolving Credit Facility and the Term Loan A Facility bear interest at a rate per annum equal to, at the Company's option either (a) a base rate determined by reference to the higher of (1) the rate of interest quoted in the print edition of The Wall Street Journal, Money Rates Section, as the Prime Rate (currently defined as the base rate on corporate loans posted by at least 75% of the nation's 30 largest banks) and (2) the federal funds effective rate plus $\frac{1}{2}$ of 1% or (b) a LIBO rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs, in each case plus an applicable margin. The initial applicable margin for borrowings under the New Revolving Credit Facility and the Term Loan A Facility was 1.75% with respect to base rate borrowings and 2.75% with respect to LIBO rate borrowings. Interest rates for the New Revolving Credit Facility and the Term Loan A Facility are subject to increase or decrease quarterly based on leverage ratios. As of September 30, 2012, the effective rate of interest on the Company's borrowings under the New Revolving Credit Facility and the Term Loan A Facility was 3.45% and 3.37% per annum, respectively.

As of September 30, 2012, the applicable margin for borrowings under the New Term Loan B Facility was 2.75% with respect to base rate borrowings and 3.75% with respect to LIBO rate borrowings, subject to 1.0% LIBO rate floor. As of September 30, 2012, the effective rate of interest on the Company's borrowings under the New Term Loan B Facility was 4.42% per annum.

In addition to paying interest on outstanding principal under the Senior Secured Credit Facilities, the Company is required to pay commitment fees of 0.50% per annum in respect of the unutilized commitments under the New Revolving Credit Facility, payable quarterly in arrears. The Company also is required to pay letter of credit fees on the maximum amount available to be drawn under all outstanding letters of credit in an amount equal to the applicable margin on LIBO rate borrowings under the New Revolving Credit Facility on a per annum basis, payable quarterly in arrears, as well as customary fronting fees for the issuance of letters of credit and agency fees.

Subject to certain exceptions and customary baskets set forth in the Credit Agreement, the Company is required to make mandatory prepayments of the loans under the Senior Secured Credit Facilities under certain circumstances, including from (a) 100% of net cash proceeds from asset sales outside the ordinary course of business (subject to

reinvestment rights), (b) 100% of the net cash proceeds of insurance and condemnation proceeds for property or asset losses (subject to reinvestment rights and net proceeds threshold), (c) 50% of the net cash proceeds from the issuance of equity securities subject to decrease based on leverage ratios, (d) 100% of the net cash proceeds from the incurrence of debt (other than permitted debt as defined in the Credit Agreement) and (e) 50% of Consolidated Excess Cash Flow (as defined in the Credit Agreement) subject to decrease based on leverage ratios.

The Company is permitted to voluntarily reduce the unutilized portion of the revolving commitment amount and repay outstanding loans under the New Revolving Credit Facility at any time without premium or penalty, other than customary “breakage” costs with respect to LIBO rate loans. Except for repayments of outstanding loans under the New Term Loan B Facility in connection with certain refinancings on or prior to (i) February 13, 2013 with respect to the initial tranche B term loans and (ii) June 14, 2013, with respect to the incremental tranche B term loans, the Company is permitted to voluntarily repay outstanding loans under the Term Loan A Facility and the New Term Loan B Facility at any time without premium or penalty, other than customary “breakage” costs with respect to LIBO rate loans.

Repayments of outstanding loans under the New Term Loan B Facility in connection with certain refinancings on or prior to (i) February 13, 2013 with respect to the initial tranche B term loans and (ii) June 14, 2013 with respect to the incremental tranche B term loans, require a prepayment premium of 1.0% of such loans prepaid.

The Company’s obligations and the obligations of the guarantors under the Senior Secured Credit Facilities and certain hedging arrangements and cash management arrangements entered into with lenders under the Senior Secured Credit Facilities (or affiliates thereof) are secured by first-priority security interests in substantially all tangible and intangible assets of Valeant and the guarantors, including 100% of the capital stock of Valeant and each domestic subsidiary of Valeant, 65% of the capital stock of each foreign subsidiary of Valeant that is directly owned by Valeant or a guarantor that is a subsidiary of Valeant, and 100% of the capital stock of each other material subsidiary of the Company (other than Valeant’s subsidiaries), in each case subject to certain exclusions set forth in the credit documentation governing the Senior Secured Credit Facilities.

The Senior Secured Credit Facilities contain a number of covenants that, among other things and subject to certain exceptions, restrict the Company’s ability and the ability of its subsidiaries to: incur additional indebtedness; create liens; enter into agreements and other arrangements that include negative pledge clauses; pay dividends on capital stock or redeem, repurchase or retire capital stock or subordinated indebtedness; create restrictions on the payment of dividends or other distributions by subsidiaries; make investments, loans, advances and acquisitions; merge, amalgamate or sell assets, including equity interests of the subsidiaries; enter into sale and leaseback transactions; engage in transactions with affiliates; enter into new lines of business; and enter into amendments of or waivers under subordinated indebtedness, organizational documents and certain other material agreements.

The Credit Agreement requires that the Company maintain a secured leverage ratio not to exceed 2.50 to 1.00 as of the last day of each fiscal quarter beginning with the fiscal quarter ending March 31, 2012. The Credit Agreement requires that the Company maintain an interest coverage ratio of not less than 3.00 to 1.00 as of the last day of each fiscal quarter. The Credit Agreement also contains certain customary affirmative covenants and events of default. If an event of default, as specified in the Credit Agreement, shall occur and be continuing, the Company may be required to repay all amounts outstanding under the Senior Secured Credit Facilities. As of September 30, 2012, the Company was in compliance with all covenants associated with the Senior Secured Credit Facilities.

5.375% Convertible Notes

On June 29, 2012, the Company distributed a notice of redemption to holders of the Company’s 5.375% senior convertible notes due 2014 (the “5.375% Convertible Notes”) to redeem all of the outstanding 5.375% Convertible Notes on August 2, 2012 (the “Redemption Date”), at a redemption price of 100% of the outstanding aggregate principal amount, plus accrued and unpaid interest to, but excluding, the Redemption Date. On August 1, 2012, all of the outstanding 5.375% Convertible Notes were converted by holders, and on September 5, 2012, they were settled 100% in cash in the aggregate amount of \$62.1 million.

Immediately prior to settlement, the carrying amount of the liability component of the 5.375% Convertible Notes was \$16.0 million and the estimated fair value of the liability component was \$18.3 million. The difference of \$2.3 million between the carrying amount and the estimated fair value of the liability component was recognized as a loss on

extinguishment of debt in the three-month period ended September 30, 2012. The difference of \$43.8 million between the estimated fair value of the liability component of \$18.3 million and the aggregate purchase price of \$62.1 million resulted in charges to additional paid-in capital and accumulated deficit of \$0.2 million and \$43.6 million, respectively.

4.0% Convertible Notes

On April 20, 2011, the Company distributed a notice of redemption to holders of Valeant's 4.0% convertible subordinated notes due 2013 (the "4.0% Convertible Notes"), pursuant to which all of the outstanding 4.0% Convertible Notes were redeemed on May 20, 2011 (the "Redemption Date"), at a redemption price of 100% of the outstanding aggregate principal amount, plus accrued and unpaid interest to, but excluding, the Redemption Date. The 4.0% Convertible Notes called for redemption were converted into 17,782,764 common shares of the Company, at a conversion rate of 79.0667 common shares per \$1,000 principal amount of notes, which represented a conversion price of approximately \$12.65 per share.

Immediately prior to settlement, the carrying amount of the liability component of the 4.0% Convertible Notes was \$221.3 million and the estimated fair value of the liability component was \$226.0 million. The difference of \$4.7 million between the carrying amount and the estimated fair value of the liability component was recognized as a loss on extinguishment of debt in the three-month period ended June 30, 2011. The difference of \$666.0 million between the estimated fair value of the liability component of \$226.0 million and the aggregate fair value of the common shares issued to effect the settlement of \$892.0 million resulted in charges to additional paid-in capital and accumulated deficit of \$226.0 million and \$440.0 million, respectively.

With respect to Valeant's call option agreements in respect of the shares underlying the conversion of \$200.0 million principal amount of the 4.0% Convertible Notes, these agreements consisted of purchased call options on 15,813,338 common shares, which matured on May 20, 2011, and written call options on the identical number of shares, which matured on August 18, 2011. As of the Merger Date, these call options were to be settled in common shares of the Company. In June 2011, 11,479,365 common shares were received on the net-share settlement of the purchased call options, which common shares were subsequently cancelled.

In September 2011, Valeant amended the written call options agreement so that Valeant could elect to settle all or some of the written call options in cash. In the three-month period ended September 30, 2011, Valeant paid \$66.9 million in cash and issued 7,518,595 of its common shares on a net-share basis to settle the written call options.

Commitment Letter

In connection with the pending acquisition of Medicis Pharmaceutical Corporation ("Medicis"), the Company and its subsidiary, Valeant, entered into a commitment letter, dated as of September 2, 2012, with JPMorgan Chase Bank, N.A. and J.P. Morgan Securities LLC to provide up to \$2.75 billion through a bridge loan facility. On September 11, 2012, the Company and Valeant entered into an amended and restated commitment letter with JPMorgan Chase Bank, N.A., J.P. Morgan Securities LLC and other financial institutions. Subsequently, the Company obtained \$2.75 billion in financing through a syndication of the incremental term B loans under the Company's existing Senior Secured Credit Facilities of \$1.0 billion (the "Incremental Term Loan B") and the issuance by VPI Escrow Corp., a newly formed wholly owned Delaware subsidiary of Valeant, of the 6.375% senior notes due 2020 (the "2020 Senior Notes") in the aggregate principal amount of \$1.75 billion. Consequently, the commitment under the commitment letter to provide the bridge loan facility is not expected to be utilized, but is still in place and will terminate upon the earlier of (i) the closing of the acquisition of Medicis, (ii) the abandonment or termination of an Agreement and Plan of Merger with Medicis, and (iii) March 4, 2013. The proceeds from the issuance of the Incremental Term Loan B and the 2020 Senior Notes will be utilized to fund (i) the transactions contemplated by an Agreement and Plan of Merger with Medicis, (ii) Medicis' obligation to pay the conversion consideration with respect to, or repurchase of, the Medicis convertible senior notes, and (iii) transaction costs and expenses. For further details, see note 21 "SUBSEQUENT EVENTS AND PENDING ACQUISITIONS".

12. SECURITIES REPURCHASE PROGRAM

On November 4, 2010, the Company announced that its board of directors had approved a securities repurchase program,

(Unaudited)

pursuant to which the Company could make purchases of its common shares, convertible notes and/or senior notes, from time to time, up to an aggregate maximum value of \$1.5 billion, subject to any restrictions in the Company's financing agreements and applicable law. On August 29, 2011, the Company announced that its board of directors had approved an increase of \$300.0 million under its securities repurchase program (the "Securities Repurchase Program"). As a result, under the Securities Repurchase Program, the Company was able to repurchase up to \$1.8 billion of its convertible notes, senior notes, common shares and/or other notes or shares that may be issued prior to the completion of the program. The Securities Repurchase Program terminated on November 7, 2011.

On November 3, 2011, the Company announced that its board of directors had approved a new securities repurchase program (the "New Securities Repurchase Program"). Under the New Securities Repurchase Program, which commenced on November 8, 2011, the Company may make purchases of up to \$1.5 billion of its convertible notes, senior notes, common shares and/or other future debt or shares, subject to any restrictions in the Company's financing agreements and applicable law. The New Securities Repurchase Program will terminate on November 7, 2012 or at such time as the Company completes its purchases. The amount of securities to be purchased and the timing of purchases under the New Securities Repurchase Program may be subject to various factors, which may include the price of the securities, general market conditions, corporate and regulatory requirements, alternate investment opportunities and restrictions under our financing agreements and applicable law. The securities to be repurchased will be funded using the Company's cash resources.

Repurchase of 5.375% Convertible Notes

In the nine-month period ended September 30, 2012, under the New Securities Repurchase Program, the Company repurchased \$1.1 million principal amount of the 5.375% Convertible Notes for a purchase price of \$4.0 million. The carrying amount of the 5.375% Convertible Notes purchased was \$1.0 million (net of related unamortized deferred financing costs) and the estimated fair value of the 5.375% Convertible Notes exclusive of the conversion feature was \$1.1 million. The difference of \$0.1 million between the net carrying amount and the estimated fair value was recognized as a loss on extinguishment of debt. The difference of \$2.9 million between the estimated fair value of \$1.1 million and the purchase price of \$4.0 million resulted in charges to additional paid-in capital and accumulated deficit of \$0.2 million and \$2.7 million, respectively. The portion of the purchase price attributable to accreted interest on the debt discount amounted to \$0.1 million, and is included as an operating activity in the consolidated statements of cash flows. The remaining portion of the payment of \$3.9 million is presented in the consolidated statement of cash flows as an outflow from financing activities.

In the nine-month period ended September 30, 2011, under the Securities Repurchase Program, the Company repurchased \$177.2 million aggregate principal amount of the 5.375% Convertible Notes for an aggregate purchase price of \$549.9 million. The carrying amount of the 5.375% Convertible Notes purchased was \$153.2 million (net of \$4.9 million of related unamortized deferred financing costs) and the estimated fair value of the 5.375% Convertible Notes exclusive of the conversion feature was \$181.4 million. The difference of \$28.2 million between the net carrying amount and the estimated fair value was recognized as a loss on extinguishment of debt. The difference of \$368.5 million between the estimated fair value of \$181.4 million and the purchase price of \$549.9 million resulted in charges to additional paid-in capital and accumulated deficit of \$28.7 million and \$339.8 million, respectively. The portion of the purchase price attributable to accreted interest on the debt discount amounted to \$8.3 million, and is included as an operating activity in the consolidated statements of cash flows. The remaining portion of the payment of \$541.6 million is presented in the consolidated statement of cash flows as an outflow from financing activities.

Share Repurchases

In the nine-month period ended September 30, 2012, under the New Securities Repurchase Program, the Company repurchased 5,257,454 of its common shares for an aggregate purchase price of \$280.7 million. The excess of the purchase price over the carrying value of the common shares repurchased of \$178.4 million was charged to the accumulated deficit. These common shares were subsequently cancelled.

In March 2011, under the Securities Repurchase Program, the Company repurchased 7,366,419 of its common shares from ValueAct Capital Master Fund, L.P. ("ValueAct") for an aggregate purchase price of \$274.8 million. These common shares were subsequently cancelled. As of September 30, 2012, the Company had recorded an estimated \$24.2 million

receivable from ValueAct in relation to withholding taxes on the repurchase. In May 2011, a subsidiary of the Company purchased 4,498,180 of the Company's common shares from ValueAct for an aggregate purchase price of \$224.8 million. In June 2011, the Company purchased these common shares from its subsidiary and the common shares were subsequently cancelled. G. Mason Morfit is a partner and a member of the Management Committee of ValueAct Capital. Mr. Morfit joined the Company's board of directors on September 28, 2010, effective with the Merger, and prior thereto served as a member of Valeant's board of directors since 2007. ValueAct Capital is the general partner and the manager of ValueAct. In addition to the ValueAct repurchases, in the three-month period ended September 30, 2011, under the Securities Repurchase Program, the Company repurchased 1,800,000 of its common shares for an aggregate purchase price of \$74.5 million. These common shares were subsequently cancelled. The excess of the purchase price over the carrying value of the common shares repurchased, including ValueAct, of \$335.9 million in the nine-month period ended September 30, 2011 was charged to the accumulated deficit.

Total Repurchases

As of September 30, 2012, the Company had repurchased approximately \$442.5 million, in the aggregate, of its convertible notes, senior notes and common shares under the New Securities Repurchase Program.

13. SHARE-BASED COMPENSATION

The following table summarizes the components and classification of share-based compensation expense related to stock options and restricted share units ("RSUs") for the three-month and nine-month periods ended September 30, 2012 and 2011:

	Three Months Ended September 30,		Nine Months Ended September 30,

Stock-based compensation expense	\$18,547	\$17,587	\$52,855	\$73,038

On March 9, 2011, the Company's compensation committee of the board of directors approved an equitable adjustment to all stock options outstanding as of that date for employees and directors as of such date, in connection with the post-Merger special dividend of \$1.00 per common share declared on November 4, 2010 and paid on December 22, 2010. As the Company's stock option awards do not automatically adjust for dividend (1) payments, this adjustment was treated as a modification of the terms and conditions of the outstanding options. The incremental fair value of the modified awards was determined to be \$15.4 million, of which \$9.2 million related to vested options, which was expensed in the first quarter of 2011 as follows: cost of goods sold (\$0.2 million), selling, general and administrative expenses (\$8.8 million) and research and development expenses (\$0.2 million). The remaining \$6.2 million is being recognized over the remaining requisite service period of the unvested options. During the third quarter of 2012, the Company recorded an incremental charge of \$4.8 million to selling, general (2) and administrative expenses as some of the Company's performance-based RSU grants triggered a partial payout as a result of achieving certain share price appreciation conditions.

In the nine-month periods ended September 30, 2012 and 2011, the Company granted approximately 435,000 stock options with a weighted-average exercise price of \$53.41 per option and approximately 934,000 stock options with a

weighted-average exercise price of \$47.75 per option, respectively. The weighted-average fair values of all stock options granted to employees in the nine-month periods ended September 30, 2012 and 2011 were \$19.10 and \$12.03, respectively.

In the nine-month periods ended September 30, 2012 and 2011, the Company granted approximately 220,000 time-based RSUs with a weighted-average grant date fair value of \$50.44 per RSU and approximately 228,000 time-based RSUs with a weighted-average grant date fair value of \$50.02 per RSU, respectively. In the nine-month period ended September 30, 2012 and 2011, the Company granted approximately 201,000 performance-based RSUs with a weighted-average grant date fair value of \$70.52 per RSU and approximately 219,000 performance-based RSUs with a weighted-average grant date fair value of \$56.31 per RSU, respectively.

As of September 30, 2012, the total remaining unrecognized compensation expense related to non-vested stock options, time-based RSUs and performance-based RSUs amounted to \$91.5 million, in the aggregate, which will be amortized over a weighted-average period of 2.2 years.

16. (LOSS) GAIN ON INVESTMENTS, NET

In March 2011, in connection with an offer to acquire Cephalon, Inc. ("Cephalon"), the Company had invested \$60.0 million to acquire 1,034,908 shares of common stock of Cephalon, of which \$40.0 million was settled in March 2011 and \$20.0 million in April 2011. The Company's investment represented 1.366% of the issued and outstanding common stock of Cephalon as of March 14, 2011. On May 2, 2011, Cephalon announced that it had agreed to be acquired by Teva Pharmaceutical Industries Inc. and, consequently, the Company disposed of its entire equity investment in Cephalon for net proceeds of \$81.3 million, which resulted in a net realized gain of \$21.3 million recognized in earnings in the second quarter of 2011.

17. INCOME TAXES

In the three-month period ended September 30, 2012, the Company recognized a net income tax recovery of \$97.0 million, which comprised \$97.3 million related to the expected tax recovery in tax jurisdictions outside of Canada offset with an income tax expense of \$0.3 million related to Canadian income taxes. In the nine-month period ended September 30, 2012, the Company recognized a net income tax recovery of \$92.7 million, which comprised \$95.7 million related to tax recovery in tax jurisdictions outside of Canada and an income tax expense of \$3.0 million related to Canadian income taxes. In the three-month and nine-month periods ended September 30, 2012, the Company's effective tax rate was primarily impacted by (i) tax recovery generated from the Company's annualized effective tax

rate applied against overall income of the Company for the nine months ended September 30, 2012, (ii) tax recovery associated with the write-off of IPR&D, (iii) additional tax recovery recognized on the U.S. federal tax return as compared to the December 31, 2011 income tax provision, (iv) the reduction of a deferred tax liability due to an internal reorganization whereby our Barbados subsidiary was migrated to Bermuda, and (v) the increase in liabilities for uncertain tax positions.

The Company effected an internal reorganization in July 2012 to streamline certain aspects of its operations. As part of this internal reorganization, the Company migrated certain of its intellectual property from Barbados to Bermuda and moved certain of its operational and managerial functions from Barbados to certain European jurisdictions (including Ireland). This is consistent with the evolution of the Company's business and the Company expects that this internal reorganization will enable the Company to better leverage its existing and future resources on a worldwide basis and support the Company's international expansion. As a result of this reorganization, the Company reduced the deferred tax liability recorded on the books of Barbados.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(All tabular amounts expressed in thousands of U.S. dollars, except per share data)

(Unaudited)

The Company records a valuation allowance against its deferred tax assets to reduce the net carrying value to an amount that it believes is more likely than not to be realized. When the Company establishes or reduces the valuation allowance against its deferred tax assets, the provision for income taxes will increase or decrease, respectively, in the period such determination is made. The valuation allowance against deferred tax assets was \$130.2 million as of September 30, 2012 and \$128.7 million as of December 31, 2011. The Company does not record a valuation allowance against its U.S. foreign tax credits as it has determined it is more likely than not the Company will realize these deferred tax assets in the future. However, the Company continues to monitor its U.S. foreign source income and losses in the future and assess the need for a valuation allowance.

As of September 30, 2012, the Company had \$118.1 million of unrecognized tax benefits, which included \$23.9 million relating to interest and penalties. Of the total unrecognized tax benefits, \$77.0 million would reduce the Company's effective tax rate, if recognized. The Company does not anticipate that a significant amount of unrecognized tax benefits will be resolved within the next 12 months.

The Company's continuing practice is to recognize interest and penalties related to income tax matters in income tax expense. As of September 30, 2012, the Company had accrued \$2.2 million for interest and \$0.4 million for penalties. During the second quarter of 2012, Valeant and its subsidiaries closed the Internal Revenue Service audits through the 2009 tax year. Valeant is currently under examination for various state tax audits for years 2002 to 2010. The Company is currently under examination by the Canada Revenue Agency for years 2005 to 2006 and remains open to examination for years 2004 and later. The Company is currently under examination by the Australian Tax Office for the 2010 tax year.

In the nine-month periods ended September 30, 2012, all potential common shares issuable for stock options, RSUs and convertible debt were excluded from the calculation of diluted loss per share, as the effect of including them would have been anti-dilutive. The dilutive effect of potential common shares issuable for stock options, RSUs and convertible debt on the weighted-average number of common shares outstanding would have been as follows:

In the three-month and nine-month periods ended September 30, 2012, stock options to purchase approximately 900,000 and 855,000 common shares of the Company, respectively, had exercise prices greater than the average trading price of the Company's common shares, and were not included in the computation of diluted earnings per share because the effect would have been anti-dilutive, compared with approximately 285,000 and 259,000 stock options in the corresponding periods of 2011.

19. LEGAL PROCEEDINGS

From time to time, the Company becomes involved in various legal and administrative proceedings, which include product liability, intellectual property, antitrust, governmental and regulatory investigations, and related private litigation. There are also ordinary course employment-related issues and other types of claims in which the Company routinely becomes involved, but which individually and collectively are not material.

Unless otherwise indicated, the Company cannot reasonably predict the outcome of these legal proceedings, nor can it estimate the amount of loss, or range of loss, if any, that may result from these proceedings. An adverse outcome in certain of these proceedings could have a material adverse effect on the Company's business, financial condition and results of operations, and could cause the market value of its common shares to decline.

From time to time, the Company also initiates actions or files counterclaims. The Company could be subject to counterclaims or other suits in response to actions it may initiate. The Company cannot reasonably predict the outcome of these proceedings, some of which may involve significant legal fees. The Company believes that the prosecution of these actions and counterclaims is important to preserve and protect the Company, its reputation and its assets.

Governmental and Regulatory Inquiries

On May 16, 2008, Biovail Pharmaceuticals, Inc., the Company's former subsidiary, entered into a written plea agreement with the U.S. Attorney's Office ("USAO") for the District of Massachusetts whereby it agreed to plead guilty to violating the U.S. Anti-Kickback Statute and pay a fine of \$22.2 million.

In addition, on May 16, 2008, the Company entered into a non-prosecution agreement with the USAO whereby the USAO agreed to decline prosecution of Biovail in exchange for continuing cooperation and a civil settlement agreement and pay a civil penalty of \$2.4 million. A hearing before the U.S. District Court in Boston took place on September 14, 2009 and the plea was approved.

In addition, as part of the overall settlement, Biovail entered into a Corporate Integrity Agreement ("CIA") with the Office of the Inspector General and the Department of Health and Human Services on September 11, 2009. The CIA requires Biovail to have a compliance program in place and to undertake a set of defined corporate integrity obligations for a five-year term. The CIA also includes requirements for an annual independent review of these obligations. Failure to comply with the obligations under the CIA could result in financial penalties.

Securities

Several purported holders of public shares of Medicis have filed putative class action lawsuits in the Delaware Court of Chancery and the Arizona Superior Court against Medicis and the members of its board of directors, as well as

one or both of Valeant and Merlin Merger Sub, Inc. (the wholly-owned subsidiary of Valeant formed in connection with the proposed Medicis acquisition). The Delaware actions have been consolidated for all purposes under the caption *In re Medicis Pharmaceutical Corporation Stockholders Litigation*, C.A. No. 7857-CS (Del. Ch.). The Arizona action bears the caption *Swint v. Medicis Pharmaceutical Corporation, et. al.*, Case No. CV2012-055635 (Ariz. Sup. Ct.). The actions all allege, among other things, that the Medicis directors breached their fiduciary duties because they supposedly failed to properly value Medicis and caused materially misleading and incomplete information to be disseminated to Medicis' public shareholders, and that Valeant and/or Merlin Merger Sub, Inc. aided and abetted those alleged breaches of fiduciary duty. The actions also seek, among other things, injunctive and other equitable relief, and money damages. The Company believes that these suits lack merit and intends to vigorously defend against these claims.

Plaintiffs in all such actions have indicated an intent to seek an order preliminarily enjoining the meeting of Medicis' stockholders, currently expected to take place on December 7, 2012, and a hearing has been scheduled on November 28, 2012 in the Delaware action in connection with the requested preliminary injunction in that action.

Antitrust

On April 4, 2008, a direct purchaser plaintiff filed a class action antitrust complaint in the U.S. District Court for the District of Massachusetts against Biovail, GlaxoSmithKline plc, and SmithKline Beecham Inc. (the latter two of which are referred to here as "GSK") seeking damages and alleging that Biovail and GSK took actions to improperly delay FDA approval for generic forms of Wellbutrin XL®. In late May and early June 2008, additional direct and indirect purchaser class actions were also filed against Biovail and GSK in the Eastern District of Pennsylvania, all making similar allegations. After motion practice, the complaints were consolidated, resulting in a lead direct purchaser and a lead indirect purchaser action, and the Court ultimately denied defendants' motion to dismiss the consolidated complaints.

The Court granted direct purchasers' motion for class certification, and certified a class consisting of all persons or entities in the United States and its territories who purchased Wellbutrin XL® directly from any of the defendants at any time during the period of November 14, 2005 through August 31, 2009. Excluded from the class are defendants and their officers, directors, management, employees, parents, subsidiaries, and affiliates, and federal government entities. Further excluded from the class are persons or entities who have not purchased generic versions of Wellbutrin XL® during the class period after the introduction of generic versions of Wellbutrin XL®. The Court granted in part and denied in part the indirect purchaser plaintiffs' motion for class certification. The defendants have asked the Third Circuit to review the class certification.

After extensive discovery, briefing and oral argument, the Court granted the defendants' motion for summary judgment on all but one of the plaintiffs' claims, and deferred ruling on the remaining claim. Following the summary judgment decision, the Company entered into binding settlement arrangements with both plaintiffs' classes to resolve all existing claims against the Company. The total settlement amount payable is \$49.25 million. In addition, the Company will pay up to \$500,000 toward settlement notice costs. These charges were recognized in the second quarter of 2012, within Legal settlements in the consolidated statements of income (loss). The settlements require Court approval. The direct purchaser class filed its motion for preliminary approval of its settlement on July 23, 2012. The hearing on final approval of that settlement will take place on November 7, 2012. The indirect purchaser class is expected to file its motion for preliminary approval in the fourth quarter of 2012, with a hearing on final approval of that settlement likely to be held in the first quarter of 2013.

Intellectual Property

On January 18, 2010, a Canadian Federal Court judge presiding over Biovail and Depomed, Inc. (“Depomed”) v. Apotex Inc. (“Apotex”) et al. issued a decision in a proceeding pursuant to the Patented Medicines (Notice of Compliance) (“PMNOC”) Regulations in Canada to determine whether Apotex’s allegations that a Depomed patent was invalid and/or not infringed was justified. This proceeding related to a Canadian application filed by Apotex to market a generic version of the 500 mg formulation of Glumetza® (extended release metformin hydrochloride tablets) licensed in Canada by Depomed to Biovail Laboratories International SRL, now Valeant International Bermuda (“VIB”). Pursuant to the decision issued by the Court, Health Canada can authorize Apotex to market in Canada its generic

version of the 500 mg formulation of Glumetza®. The decision, which was amended on January 20, 2010, found under Canadian law that Apotex's allegation was justified that the Depomed Canadian patent at issue in the matter (No. 2,290,624) (the "624 Patent") is obvious. The judge found that the evidence presented by the parties was "evenly balanced" as to obviousness. The judge found in favor of Biovail and Depomed as to all other issues related to the '624 Patent under Canadian law. Apotex was authorized by Health Canada on February 4, 2010 to market its generic version of 500 mg Glumetza® in Canada. This decision, however, did not find the patent invalid and did not preclude the filing of a subsequent patent infringement suit against Apotex. Biovail and Depomed commenced action for patent infringement against Apotex in Canadian Federal Court on February 8, 2010. Pleadings have now closed, but no further steps have been taken.

On or about June 24, 2010, Biovail and VIB received a Notice of Allegation from Mylan Pharmaceuticals ULC ("Mylan") with respect to Bupropion Hydrochloride 150 mg and 300 mg tablets, marketed in Canada by Biovail as Wellbutrin® XL. The patents in issue were Canadian Patent Nos. 2,142,320, 2,168,364 and 2,524,300. Mylan alleged that its generic form of Wellbutrin® XL did not infringe the patents and, alternatively, that the patents were invalid. Following an evaluation of the allegations in the Notice of Allegation, an application for an order prohibiting the Minister from issuing a Notice of Compliance to Mylan was issued in the Federal Court on August 6, 2010, relating to Canadian Patent Nos. 2,524,300 and 2,168,364 (the "PMNOC Proceeding"). Mylan subsequently withdrew its allegations of invalidity. The parties exchanged evidence and cross-examinations were held. In May 2011, Mylan filed a Statement of Claim in the Federal Court of Canada against the Company, VIB and Valeant Canada seeking to impeach Canadian Patent No. 2,524,300. The parties agreed to discontinue this action, without costs, and a notice of discontinuance was filed with the Federal Court of Canada on August 12, 2011. On September 12, 2011, Mylan filed a Statement of Claim in the Federal Court of Canada against the Company, VIB and Valeant Canada seeking to impeach Canadian Patent No. 2,168,364. The parties agreed to stay this action pending resolution of the PMNOC Proceeding. In April 2012, the Company, VIB, Valeant Canada and Mylan entered into a settlement agreement with respect to the PMNOC Proceeding and the remaining impeachment proceeding, which resulted in a dismissal of the remaining impeachment proceeding and a stay of the PMNOC Proceeding until certain events occur.

On or about January 5, 2010, VIB received a Notice of Paragraph IV Certification dated January 4, 2010 from Watson Laboratories, Inc. — Florida ("Watson"), related to Watson's ANDA filing for bupropion hydrobromide extended-release tablets, 174 mg and 348 mg, which correspond to the Company's Aplenzir® Extended-release Tablets 174 mg and 348 mg products. Watson asserted that U.S. Patent Nos. 7,241,805, 7,569,610, 7,572,935 and 7,585,897 which are listed in the FDA's Orange Book for Aplenzir® are invalid or not infringed. VIB subsequently received from Watson a second Notice of Paragraph IV Certification for U.S. Patent Nos. 7,645,802 and 7,649,019, which were listed in the FDA's Orange Book after Watson's initial certification. Watson alleged these patents are invalid or not infringed. VIB filed suit pursuant to the Hatch-Waxman Act against Watson on February 18, 2010, in the U.S. District Court for the District of Delaware and on February 19, 2010, in the U.S. District Court for the Southern District of Florida, thereby triggering a 30-month stay of the approval of Watson's ANDA. The Delaware action dismissed without prejudice and the litigation proceeded in the Florida Court. VIB received a third Notice of Paragraph IV Certification from Watson dated March 5, 2010, seeking to market its products prior to the expiration of U.S. Patent Nos. 7,662,407 and 7,671,094. VIB received a fourth Notice of Paragraph IV Certification from Watson on April 9, 2010. VIB filed a second Complaint against Watson in Florida Court on the third and fourth Notices on April 16, 2010. The two actions were consolidated into the first-filed case before the same judge. In the course of discovery, the issues were narrowed and only five of the patents remained in the litigation. Mandatory mediation was completed unsuccessfully on December 17, 2010. The trial in this matter was held in June 2011 and closing arguments were heard in September 2011. A judgment in this matter was issued on November 8, 2011. The Court found that Watson had failed to prove that VIB's patents at suit were invalid and granted judgment in favor of VIB. On February 23, 2012 the Court granted Valeant's request for declaratory injunctive relief under 35 U.S.C. 271(e)(4)(A). On July 9, 2012, the Court

denied Valeant's request for further injunctive relief under 35 U.S.C. 271(e)(4)(B) and/or 35 U.S.C. 283. Watson is appealing the judgment and Valeant is cross-appealing the denial of further injunctive relief under 35 U.S.C. 271(e)(4)(B) and/or 35 U.S.C. 283. The appeal is proceeding in the ordinary course.

On or after December 12, 2011, a Notice of Paragraph IV Certification, dated December 7, 2011, was received from Spear Pharmaceuticals, Inc. ("Spear"), related to Spear's ANDA filing for fluorouracil topical cream, 0.5%, which corresponds to the Company's Cara® product. Spear has asserted that U.S. Patent No. 6,670,335 (the "335 Patent"), which is listed in the FDA's Orange Book for Cara®, is not infringed by the filing of Spear's ANDA or the manufacture,

use, offer for sale, sale or importation of Spear's product in the U.S. VIB (as exclusive licensee of the '335 Patent) and AP Pharma, Inc. (as owner of the '335 Patent) filed suit pursuant to the Hatch-Waxman Act against Spear on January 25, 2012, in the U.S. District Court for the Middle District of Florida, thereby triggering a stay of the approval of Spear's ANDA of up to 30 months during the pendency of the litigation. After reaching a settlement agreement resolving all issues in the litigation, the parties filed a stipulation for dismissal of the lawsuit on October 5, 2012. An order of dismissal was entered on October 30, 2012.

On or about March 20, 2012, a Notice of Paragraph IV Certification was received from Sandoz Inc. ("Sandoz"), related to Sandoz's ANDA filing for bupropion hydrobromide extended release tablets, 348 mg, which corresponds to the Company's Aplenzin® ER tablets. Sandoz has asserted that U.S. Patent Nos. 7,241,805, 7,569,610, 7,572,935, 7,585,897, 7,645,802, 7,649,019, 7,662,407 and 7,671,094, which are listed in the FDA's Orange Book for Aplenzin® Extended Release (ER) tablets, are invalid, unenforceable, and/or will not be infringed by the manufacture, use, importation, sale or offer for sale of Sandoz's product in the U.S. VIB filed suit against Sandoz on April 30, 2012 asserting infringement of the Orange Book listed patents and U.S. Patent No. 7,553,992 in the U.S. District Court for the District of Delaware, thereby triggering pursuant to the Hatch-Waxman Act, a stay of the approval of Sandoz's ANDA of up to 30 months during the pendency of the litigation. Pursuant to the parties' voluntary request, the Court entered a joint stipulation of dismissal on September 28, 2012. This case is now closed.

On or about August 17, 2012, VIB and Valeant Canada LP/Valeant Canada S.E.C. ("Valeant Canada") received a Notice of Allegation from Cobalt Pharmaceuticals Company ("Cobalt") with respect to diltiazem hydrochloride 180 mg, 240 mg, 300 mg and 360 mg tablets, marketed in Canada by Valeant Canada as TIAZAC® XC. The patents in issue were Canadian Patent Nos. 2,242,224, and 2,307,547. Cobalt alleged that its generic form of TIAZAC® XC did not infringe the patents and, alternatively, that the patents were invalid. Following an evaluation of the allegations in the Notice of Allegation, an application for an order prohibiting the Minister from issuing a Notice of Compliance to Cobalt was issued in the Federal Court on September 28, 2012 (the "PMNOC Proceeding"). The application is proceeding in the ordinary course.

General Civil Actions

Complaints have been filed by the City of New York, the State of Alabama, the State of Mississippi, the State of Louisiana and a number of counties within the State of New York, claiming that Biovail, and numerous other pharmaceutical companies, made fraudulent misstatements concerning the "average wholesale price" ("AWP") of their prescription drugs, resulting in alleged overpayments by the plaintiffs for pharmaceutical products sold by the companies.

The City of New York and plaintiffs for all the counties in New York (other than Erie, Oswego and Schenectady) voluntarily dismissed Biovail and certain others of the named defendants on a without prejudice basis. Similarly, the State of Mississippi voluntarily dismissed its claim against Biovail and a number of defendants on a without prejudice basis.

In the case brought by the State of Alabama, the Company answered the State's Amended Complaint. On October 16, 2009, the Supreme Court of Alabama issued an opinion reversing judgments in favor of the State in the first three cases that were tried against co-defendant companies. The Alabama Supreme Court also rendered judgment in favor of those defendants, finding that the State's fraud-based theories failed as a matter of law. The court ordered all parties to this proceeding to attend mediation in December 2011. The matter has settled for an all inclusive payment in the amount of less than \$0.1 million.

A Third Amending Petition for Damages and Jury Demand was filed on November 10, 2010 in Louisiana State Court by the State of Louisiana claiming that a former subsidiary of the Company, and numerous other pharmaceutical companies, knowingly inflated the AWP and "wholesale acquisition cost" of their prescription drugs, resulting in alleged overpayments by the State for pharmaceutical products sold by the companies. The State has subsequently filed additional amendments to its Petition, none of which materially affect the claims against the Company. The

matter is in preliminary stages and the Company intends to defend against this action.

On December 15, 2009, Biovail was served with a Seventh Amended Complaint under the False Claims Act in an action

captioned United States of America, ex rel. Constance A. Conrad v. Actavis Mid-Atlantic, LLC, et al., United States District Court, District of Massachusetts. This case was originally filed in 2002 and maintained under seal until shortly before Biovail was served. Twenty other companies are named as defendants. In the Seventh Amended Complaint, Conrad alleges that various formulations of Rondec, a product formerly owned by Biovail, were not properly approved by the FDA and therefore not a "Covered Outpatient Drug" within the meaning of the Medicaid Rebate Statute. As such, Conrad alleges that Rondec was not eligible for reimbursement by federal healthcare programs, including Medicaid. Conrad seeks treble damages and civil penalties under the False Claims Act. Motions to dismiss have been brought by the defendants. Briefing on these motions concluded on March 30, 2012. A hearing will take place on November 8, 2012.

On March 9, 2012, a Notice of Civil Claim was filed in the Supreme Court of British Columbia which seeks an order certifying a proposed class proceeding against the Company and a predecessor, Afexa. The proposed claim asserts that Afexa and the Company made false representations respecting Cold-FX[®] to residents of British Columbia who purchased the product during the applicable period and that the class has suffered damages as a result. The Company denies the allegations being made and is defending this matter.

On or about October 29, 2012, the Company received notice from Anacor Pharmaceuticals ("Anacor") seeking to commence arbitration of a breach of contract dispute under a master services agreement dated March 26, 2004 between Anacor and Dow Pharmaceuticals ("Dow") related to certain development services provided by Dow in connection with Anacor's efforts to develop its onychomycosis nail-penetrating anti-fungal product. The arbitration notice states that Anacor is seeking injunctive relief and damages of at least \$215.0 million. The Company intends to vigorously contest these claims.

Legacy Valeant Litigation

Valeant is the subject of a Formal Order of Investigation with respect to events and circumstances surrounding trading in its common stock, the public release of data from its first pivotal Phase III trial for taribavirin in March 2006, statements made in connection with the public release of data and matters regarding its stock option grants since January 1, 2000 and its restatement of certain historical financial statements announced in March 2008. In September 2006, Valeant's board of directors established a Special Committee to review its historical stock option practices and related accounting, and informed the U.S. Securities and Exchange Commission ("SEC") of these efforts. Valeant has cooperated fully and will continue to cooperate with the SEC in its investigation. The Company cannot predict the outcome of the investigation.

Citizen's Petition

In July 2012, the Company filed a Citizen's Petition with the FDA regarding its recent draft guidance on acyclovir ointment, in which the FDA commented on the supporting evidence required for approval of an ANDA for acyclovir ointment. In the Citizen's Petition, the Company requested that the FDA refrain from approving an ANDA referencing Zovirax[®] ointment that does not include data from an in vivo clinical endpoint study showing bioequivalence. The response of the FDA is pending.

20. SEGMENT INFORMATION

Reportable Segments

As a result of the acquisition of iNova in December 2011, the Company operates in five new territories: Malaysia, Philippines, Singapore, Hong Kong and South Africa, with a distribution business in Thailand, Taiwan and some sub-Saharan Africa markets. iNova also distributes through partners in China, Korea and Japan. Consequently, the Company's Chief Executive Officer, who is the Company's Chief Operating Decision Maker ("CODM"), has begun to manage the business differently, which has necessitated a realignment of the segment structure, effective in the first quarter of 2012. Pursuant to this change, the Company now has four reportable segments: (i) U.S. Dermatology, (ii) U.S. Neurology and Other, (iii) Canada and Australia and (iv) Emerging Markets. Accordingly, the Company has

restated prior period segment information to conform to the current period presentation. The following is a brief description of the Company's segments:

(Unaudited)

U.S. Dermatology consists of pharmaceutical and OTC product sales, and alliance and contract service revenues, in the areas of dermatology and topical medication, dentistry, ophthalmology and podiatry.

U.S. Neurology and Other consists of sales of pharmaceutical products indicated for the treatment of neurological and other diseases, as well as alliance revenue from the licensing of various products the Company developed or acquired.

Canada and Australia consists of pharmaceutical and OTC products sold in Canada, Australia and New Zealand.

Emerging Markets consists of branded generic pharmaceutical products, as well as OTC products and agency/in-licensing arrangements with other research-based pharmaceutical companies (where the Company distributes and markets branded, patented products under long-term, renewable contracts). Products are sold primarily in Europe (Poland, Serbia, Hungary, Croatia and Russia), Latin America (Mexico, Brazil and exports out of Mexico to other Latin American markets), Asia and South Africa.

Segment profit is based on operating income after the elimination of intercompany transactions. Certain costs, such as restructuring and acquisition-related costs, legal settlement and acquired IPR&D charges, are not included in the measure of segment profit, as management excludes these items in assessing financial performance.

Corporate includes the finance, treasury, tax and legal operations of the Company's businesses and maintains and/or incurs certain assets, liabilities, expenses, gains and losses related to the overall management of the Company, which are not allocated to the other business segments. In addition, share-based compensation is considered a corporate cost, since the amount of such expense depends on company-wide performance rather than the operating performance of any single segment.

Segment Revenues and Profit

Segment revenues and profit for the three-month and nine-month periods ended September 30, 2012 and 2011 were as follows:

21. SUBSEQUENT EVENTS AND PENDING ACQUISITIONS

New Joinder Agreement under Senior Secured Credit Facilities

On October 2, 2012, the Company and certain of its subsidiaries, as guarantors, entered into a joinder agreement to reprice and refinance the New Term Loan B Facility (the "Repricing Transaction") by the issuance of \$1.3 billion in new incremental term loans (the "Repriced Term Loan B Facility"). The New Term Loan B Facility was repaid with the proceeds from the Repriced Term Loan B Facility. The applicable margin for borrowings under the Repriced Term Loan B Facility is 2.25% with respect to base rate borrowings and 3.25% with respect to LIBO rate borrowings, subject to a 1.0% LIBO rate floor. The incremental term loans under the Repriced Term Loan B Facility mature on February 13, 2019, begin amortizing quarterly on March 31, 2013 at an annual rate of 1.0% and have terms consistent with the New Term Loan B Facility. In connection with the refinancing of the New Term Loan B Facility pursuant to the Repricing Transaction, the Company paid a prepayment premium of approximately \$13.0 million, equal to 1.0% of the refinanced term loans under the New Term Loan B Facility. In addition, repayments of outstanding loans under the Repriced Term Loan B Facility in connection with certain refinancings on or prior to October 2, 2013 require a prepayment premium of 1.0% of such loans prepaid.

Asset Acquisition from J&J

On October 2, 2012, the Company acquired certain assets from Johnson & Johnson Consumer Companies, Inc., for a purchase price of approximately \$43.0 million, relating to the rights in various ex-U.S. territories to the OTC consumer brands Caladryl® and Shower to Shower®.

The transaction will be accounted for as a business combination under the acquisition method of accounting. The Company will record the assets acquired and liabilities assumed at their fair values as of the acquisition date. Due to

the limited time since the closing of the acquisition, the valuation efforts and related acquisition accounting are incomplete at the time of filing of the consolidated financial statements. As a result, the Company is unable to provide amounts recognized as of the acquisition date for major classes of assets and liabilities acquired, including goodwill. In addition, because the acquisition accounting is incomplete, the Company is unable to provide the supplemental pro forma revenue and earnings for the combined entity, as the pro forma adjustments are expected to primarily consist of estimates for the amortization of identifiable intangible assets acquired and related income tax effects, which will result from the purchase price allocation and determination of the fair values for the assets acquired and liabilities assumed.

BMS Collaboration and Option Agreements

On October 1, 2012, the Company entered into collaboration and option agreements with Bristol-Myers Squibb Company ("Bristol-Myers") whereby Bristol-Myers granted the Company rights for approximately two years in several European countries to promote, market and sell a variety of products, including Monopril®, Cefzil®, Duracef® and Megace®. The collaboration agreement expires January 1, 2015, at which time the Company may exercise an option to acquire all rights, and associated intellectual property, to the products. As consideration for the rights under the collaboration and option agreements, the Company made payments to Bristol-Myers in October 2012 totaling \$79.3 million.

Natur Produkt International, JSC

On March 26, 2012, the Company entered into an agreement to acquire Natur Produkt International, JSC ("Natur Produkt"), a specialty pharmaceutical company in Russia, for approximately \$180.0 million, with an additional \$5.0 million in potential future milestones. Natur Produkt's key brand products include AntiGrippin®, Anti Angin®, Sage™ and Eucaplyptus MA™. The transaction is subject to certain closing conditions and regulatory approvals and is expected to close by the end of 2012.

Medicis Pharmaceutical Corporation

On September 2, 2012, the Company, Valeant, Merlin Merger Sub, Inc., a wholly owned subsidiary of Valeant ("Merger Sub"), and Medicis entered into an Agreement and Plan of Merger (the "Merger Agreement"), pursuant to which, subject to the terms and conditions set forth in the Merger Agreement, Medicis will become a wholly-owned subsidiary of Valeant (the "Medicis Acquisition"). Medicis' portfolio includes prescription brands Solodyn®, Restylane®, Perlane®, Ziana®, Dysport® and Zyclara®.

In accordance with the Merger Agreement, at the effective time of the Medicis Acquisition (the "Effective Time"), each share of Medicis Class A common stock, par value \$0.014 per share, issued and outstanding immediately prior to the Effective Time, other than any dissenting shares, will be converted into the right to receive \$44.00 in cash ("Per Share Merger Consideration"), without interest.

Each Medicis stock option, stock appreciation right and restricted share, whether vested or unvested, that is outstanding immediately prior to the Effective Time will be cancelled and converted into the right to receive the Per Share Merger Consideration or, in the case of stock options and stock appreciation rights, the excess, if any, of the Per Share Merger Consideration over the exercise price of such stock option or stock appreciation right, as applicable. In addition, the Company and Medicis will take all action necessary under the applicable indentures governing the Medicis convertible senior notes: (i) \$500.0 million aggregate principal amount of 1.375% convertible senior notes due 2017, (ii) \$168.9 million aggregate principal amount of 2.5% contingent convertible senior note due 2032, and (iii) \$0.2 million aggregate principal amount of 1.5% contingent convertible senior notes due 2033 (collectively, the "Medicis Convertible Notes") to provide that the Medicis Convertible Notes shall be repurchased or, as applicable, shall have the right to convert into the applicable conversion consideration determined by reference to the Per Share Merger Consideration and to facilitate the settlement of related hedging obligations and warrant agreements entered into in connection with the Medicis Convertible Notes.

The Medicis Acquisition is subject to customary conditions, including (i) the approval of the holders of a majority of

the outstanding shares of Medicis common stock entitled to vote on the Medicis Acquisition, (ii) the expiration or termination of the applicable waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and (iii) the absence of a material adverse effect on Medicis, as defined in the Merger Agreement. The transaction is expected to close in the first half of 2013.

The Merger Agreement contains representations and warranties and covenants customary for a transaction of this nature, as well as certain termination rights for Valeant and Medicis, including in the event that the Medicis Acquisition is not consummated by March 4, 2013 (subject to extension in certain circumstances until June 3, 2013), or if the requisite stockholder approval is not received. The Merger Agreement further provides that, upon termination of the Merger Agreement under specified circumstances, including, subject to certain conditions, if the board of directors of Medicis authorizes the company to enter into an alternative acquisition agreement with respect to a superior proposal (as defined in the Merger Agreement), Medicis will be required to pay to Valeant a termination fee of \$85.0 million plus out-of-pocket expenses actually incurred by Valeant or Merger Sub up to a maximum of \$7.5 million.

Incremental Term Loan B

In connection with the Medicis Acquisition, the Company syndicated the Incremental Term Loan B, in the principal amount of \$1.0 billion. The Incremental Term Loan B has a maturity of seven years from the date of the Medicis Acquisition, will amortize quarterly at an annual rate of 1.0% and has terms that are consistent with the Company's existing New Term Loan B Facility. Repayments of outstanding loans under the Incremental Term Loan B in connection with certain refinancings on or prior to the first anniversary date from the Medicis Acquisition will require a prepayment premium of 1.0% of such loans prepaid. The Incremental Term Loan B is expected to close in the first half of 2013, concurrent with the Medicis Acquisition.

2020 Senior Notes

On October 4, 2012, VPI Escrow Corp. (the "Issuer"), a newly formed wholly owned subsidiary of Valeant, issued \$1,750.0 million aggregate principal amount of the 2020 Senior Notes in a private placement. The 2020 Senior Notes will mature on October 15, 2020. The 2020 Senior Notes will accrue interest at the rate of 6.375% per year, which will be payable semi-annually in arrears on April 15 and October 15, commencing on April 15, 2013. In connection with the issuance of the 2020 Senior Notes, the Company incurred approximately \$26.3 million in underwriting fees, which are recognized as debt issue discount, which resulted in the net proceeds of \$1,723.7 million. An amount equal to the gross proceeds, together with cash in an amount sufficient to fund the special mandatory redemption payment (when and if due) were deposited into a segregated escrow account and will be held as collateral security for the Issuer's obligations in respect of the 2020 Senior Notes during the escrow period. If (1) the Medicis Acquisition is not completed on or before January 15, 2013, or such later date as may be requested by the Company or Valeant pursuant to the escrow agreement, but in any event not later than June 3, 2013, or (2) prior to June 3, 2013, the Merger Agreement is terminated or the Company or Valeant determines that the Medicis Acquisition will not otherwise be pursued, then the Issuer will be required to redeem the 2020 Senior Notes at 100% of the issue price, plus accrued and unpaid interest to, but excluding the redemption date. At the time of the closing of the Medicis Acquisition, (1) the Issuer will merge with and into Valeant, with Valeant continuing as the surviving corporation (such merger, the "escrow merger"), (2) Valeant will assume all of the Issuer's obligations under the 2020 Senior Notes and the related indenture and (3) the funds held in escrow will be released to the Company and will be used to finance the Medicis Acquisition as described above.

Following the escrow merger, the 2020 Senior Notes will be guaranteed by the Company and each of the Company's subsidiaries (other than Valeant) that is a guarantor of the Senior Secured Credit Facilities.

The indenture governing the terms of the 2020 Senior Notes provide that the 2020 Senior Notes will be redeemable at the option of the Issuer, in whole or in part, at any time on or after October 15, 2016, at the specified redemption prices, plus accrued and unpaid interest, if any, to the redemption date. In addition, the Issuer may redeem some or all

of the 2020 Senior Notes prior to October 15, 2016, in each case at a price equal to 100% of the principal amount thereof, plus a make-whole premium. Prior to October 15, 2015, the Issuer may also redeem up to 35% of the aggregate principal amount of the 2020 Senior Notes using the proceeds from certain equity offerings at a redemption price equal to 106.375% of the principal amount of the 2020 Senior Notes, plus accrued and unpaid interest to the date of redemption.

(Unaudited)

If Valeant or the Company experiences a change in control, Valeant may be required to repurchase the 2020 Senior Notes, as applicable, in whole or in part, at a purchase price equal to 101% of the aggregate principal amount thereof, plus accrued and unpaid interest to, but excluding the purchase date of the 2020 Senior Notes, as applicable.

The 2020 Senior Notes indenture contains covenants that limit the ability of the Company and certain of its subsidiaries to, among other things: incur or guarantee additional debt, make certain investments and other restricted payments, create liens, enter into transactions with affiliates, engage in mergers, consolidations or amalgamations, repurchase capital stock, repurchase subordinated debt and make certain investments and transfer and sell assets.

6.375% senior notes due 2020

Concurrently with the offering of the 2020 Senior Notes on October 4, 2012, Valeant issued \$500.0 million aggregate principal amount of 6.375% senior notes due 2020 (the "6.375% Senior Notes") in a private placement. The 6.375% Senior Notes will mature on October 15, 2020. The 6.375% Senior Notes will accrue interest at the rate of 6.375% per year, which will be payable semi-annually in arrears on April 15 and October 15, commencing on April 15, 2013. In connection with the issuance of the 6.375% Senior Notes, the Company incurred approximately \$7.5 million in underwriting fees, which are recognized as debt issue discount, which resulted in the net proceeds of \$492.5 million. The 6.375% Senior Notes are senior unsecured obligations of Valeant and are jointly and severally guaranteed on a senior unsecured basis by the Company and each of the Company's subsidiaries (other than Valeant) that is a guarantor of the Senior Secured Credit Facilities.

The 6.375% Senior Notes will be redeemable at the option of Valeant, in whole or in part, at any time on or after October 15, 2016, at the specified redemption prices, plus accrued and unpaid interest, if any, to date of redemption. In addition, Valeant may redeem some or all of the 6.375% Senior Notes prior to October 15, 2016, in each case at a price equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of redemption, plus a make-whole premium. Prior to October 15, 2015, Valeant may also redeem up to 35% of the aggregate principal amount of the 6.375% Senior Notes using the proceeds from certain equity offerings at a redemption price equal to 106.375% of the principal amount of the 6.375% Senior Notes, plus accrued and unpaid interest to the date of redemption.

If Valeant or the Company experiences a change in control, Valeant may be required to repurchase the 6.375% Senior Notes, as applicable, in whole or in part, at a purchase price equal to 101% of the aggregate principal amount thereof, plus accrued and unpaid interest to, but excluding the purchase date of the 6.375% Senior Notes, as applicable.

The 6.375% Senior Notes indenture contains covenants that limit the ability of the Company and certain of its subsidiaries to, among other things: incur or guarantee additional debt, make certain investments and other restricted payments, create liens, enter into transactions with affiliates, engage in mergers, consolidations or amalgamations, repurchase capital stock, repurchase subordinated debt and make certain investments and transfer and sell assets.

COMPANY PROFILE

On September 28, 2010 (the "Merger Date"), Biovail Corporation ("Biovail") completed the acquisition of Valeant Pharmaceuticals International ("Valeant") through a wholly-owned subsidiary pursuant to an Agreement and Plan of Merger, dated as of June 20, 2010, with Valeant surviving as a wholly-owned subsidiary of Biovail (the "Merger"). In connection with the Merger, Biovail was renamed "Valeant Pharmaceuticals International, Inc." ("we", "us", "our" or the "Company").

We are a multinational, specialty pharmaceutical company that develops, manufactures and markets a broad range of pharmaceutical products. Our specialty pharmaceutical and over-the-counter ("OTC") products are marketed under brand names and are sold in the U.S., Canada, Australia and New Zealand, where we focus most of our efforts on products in the dermatology and neurology therapeutic classes. We also have branded generic, branded and OTC operations in Europe, Latin America, Asia and South Africa.

BUSINESS DEVELOPMENT

Our strategy is to focus the business on core geographies and therapeutic classes through selective acquisitions, dispositions and strategic partnerships with other pharmaceutical companies. We have completed several transactions to expand our product portfolio including, among others, the following acquisitions and dispositions in 2012:

On October 2, 2012, we acquired certain assets from Johnson & Johnson Consumer Companies, Inc., for a purchase price of approximately \$43.0 million, relating to the rights in various ex-U.S. territories to the OTC consumer brands Caladryl® and Shower to Shower®.

On September 28, 2012, we acquired certain assets from Johnson & Johnson Consumer Companies, Inc. ("J&J North America") for a purchase price of \$109.6 million, relating to the U.S. and Canadian rights to the OTC consumer brands Ambi®, Caladryl®, Corn Huskers®, Cortaid®, Purpose® and Shower to Shower®.

On September 24, 2012, we acquired certain assets from QLT Inc. and QLT Ophthalmics, Inc. (collectively, "QLT") relating to Visudyne®, which is used to treat abnormal growth of leaky blood vessels in the eye caused by wet age-related macular degeneration. The consideration paid included up-front payments of \$62.5 million for the assets related to the rights to the product in the U.S. and \$50.0 million for the assets related to the rights to the product outside the U.S. We may pay a series of contingent payments of up to \$20.0 million relating to non-U.S. royalties and development milestones for QLT's laser program in the U.S. In addition, we will pay royalties on sales of potential new indications for Visudyne® in the U.S. The fair value of the contingent consideration was determined to be \$7.9 million as of the acquisition date.

On June 18, 2012, we acquired OraPharma Topco Holdings, Inc. ("OraPharma"), a specialty oral health company located in the U.S. that develops and commercializes products that improve and maintain oral health. We made an up-front payment of \$289.3 million, and we may pay a series of contingent consideration payments of up to \$114.0

million if certain net sales milestones are achieved. We also repaid at the closing \$37.9 million of assumed debt. The fair value of the contingent consideration was determined to be \$99.2 million as of the acquisition date. The total fair value of the consideration transferred of \$388.5 million is comprised primarily of identifiable intangible assets, excluding acquired IPR&D (\$402.3 million), a net deferred income tax liability (\$155.5 million) and goodwill (\$120.1 million). OraPharma's lead product is Arestin®, a locally administered antibiotic for the treatment of periodontitis that utilizes an advanced controlled-release delivery system and is indicated for use in conjunction with scaling and root planing for the treatment of adult periodontitis.

On May 23, 2012, we acquired certain assets from University Medical Pharmaceuticals Corp. ("University Medical"), a specialty pharmaceutical company located in the U.S. focused on skincare products, including the rights to University Medical's main brand AcneFree™, a retail OTC acne treatment. We made up-front payments of \$65.0 million, and we may pay a series of contingent consideration payments of up to \$40.0 million if certain net sales milestones are achieved. The fair value of the contingent consideration was determined to be \$1.5 million as of the acquisition date.

On May 2, 2012, we acquired certain assets from Atlantis Pharma ("Atlantis"), a branded generics pharmaceutical company located in Mexico, for up-front payments of \$65.5 million (MXN\$847.3 million), and we placed an additional \$8.9 million (MXN\$114.7 million) into an escrow account. The amounts in escrow will be paid to the sellers only if certain regulatory milestones are achieved and therefore such amounts were treated as contingent consideration. The fair value of the contingent consideration was determined to be \$7.6 million as of the acquisition date. Atlantis has a broad product portfolio, including products in gastro, analgesics and anti-inflammatory therapeutic categories.

On March 13, 2012, we acquired certain assets from Gerot Lannach, a branded generics pharmaceutical company based in Austria. We made an up-front payment of \$164.0 million (€125.0 million), and we may pay a series of contingent consideration payments of up to \$19.7 million (€15.0 million) if certain net sales milestones are achieved. The fair value of the contingent consideration was determined to be \$16.8 million as of the acquisition date. The total fair value of the consideration transferred of \$180.8 million is comprised primarily of identifiable intangible assets (\$169.3 million) and goodwill (\$9.7 million). Approximately 90% of sales relating to the acquired assets are in Russia, with sales also made in certain Commonwealth of Independent States (CIS) countries including Kazakhstan and Uzbekistan. Gerot Lannach's largest product is acetylsalicylic acid, a low dose aspirin. As part of the transaction, we also entered into a ten-year exclusive supply agreement with Gerot Lannach for the acquired products.

In connection with the acquisition of Dermik in 2011, we were required by the Federal Trade Commission to divest 1% clindamycin and 5% benzoyl peroxide gel ("IDP-111"), a generic version of BenzaCin, and 5% fluorouracil cream ("5-FU"), an authorized generic of Efudex. The divestiture of these products was completed on February 3, 2012. In the fourth quarter of 2011, we recognized \$7.9 million and \$19.8 million of impairment charges related to the write-down of the carrying values of the IDP-111 and 5-FU intangible assets, respectively, to their estimated fair values, less costs to sell. The adjusted carrying values of \$54.4 million and \$14.8 million for IDP-111 and 5-FU, respectively, were classified as Assets held for sale on our consolidated balance sheet as of December 31, 2011 and were included within the U.S. Dermatology reporting segment. IDP-111 and 5-FU were considered non-core products with respect to our business strategy, which contemplates, on an ongoing basis, the selective purchase and sale of products and assets with a focus on core geographies and therapeutic classes. We, therefore, consider the sale or the out-license of non-core products to be part of our ongoing major and central operations. Accordingly, proceeds on the sale of non-core products are recognized as alliance revenue, with the associated costs, including the carrying amount of related assets, recorded as cost of alliance revenue. In connection with the sale of IDP-111 and 5-FU, we recognized \$66.3 million of cash proceeds as alliance revenue in the first quarter of 2012 and expensed the carrying amounts of the IDP-111 and 5-FU assets of \$69.2 million, in the aggregate, as cost of alliance revenue. The cash proceeds from this transaction are classified within investing activities in our consolidated statements of cash flows. On February 1, 2012, we acquired Probiotica Laboratorios Ltda. ("Probiotica"), which markets OTC sports nutrition products and other food supplements in Brazil, for a purchase price of \$90.5 million (R\$158.0 million).

In addition, we have the following pending business transactions:

On September 2, 2012, we entered into an agreement to acquire all of the outstanding common stock of Medicis Pharmaceutical Corporation (“Medicis”) for approximately \$2.6 billion (\$44.0 per share in cash). Medicis’ key brand products include Solodyn®, Restylane®, Perlane®, Ziana®, Dysport® and Zyclara®. The transaction is subject to certain closing conditions and regulatory approvals and is expected to close in the first half of 2013. Refer to note 21 of notes to unaudited consolidated financial statements for further details.

On March 26, 2012, we entered into an agreement to acquire Natur Produkt International, JSC (“Natur Produkt”), a specialty pharmaceutical company in Russia, for approximately \$180.0 million, with an additional \$5.0 million in potential future milestones. Natur Produkt’s key brand products include AntiGrippin®, Anti Angin®, Sage™ and Eucaplyptus MA™. The transaction is subject to certain closing conditions and regulatory approvals and is expected to close by the end of 2012.

COLLABORATION AGREEMENT

In October 2008, Valeant closed the worldwide License and Collaboration Agreement (the “Collaboration Agreement”) with GlaxoSmithKline (“GSK”) to develop and commercialize a first-in-class neuronal potassium channel opener for treatment of adult epilepsy patients with refractory partial onset seizures and its backup compounds, whose generic name will be ezogabine in the U.S. and retigabine in all other countries. Pursuant to the terms of the Collaboration Agreement, Valeant granted co-development rights and worldwide commercialization rights to GSK.

In March 2011, the European Commission granted marketing authorization for Trobalt® (retigabine) as an adjunctive treatment of partial onset seizures, with or without secondary generalization in adults aged 18 years and above with epilepsy. In June 2011, the U.S. Food and Drug Administration (“FDA”) approved the New Drug Application (“NDA”) for Potiga™ (ezogabine) tablets as adjunctive treatment of partial-onset seizures in patients aged 18 years and older; however, the FDA recommended that ezogabine be scheduled as a controlled substance under the Controlled Substances Act prior to the marketing or launch of Potiga™. In December 2011, ezogabine/retigabine received scheduling as a controlled substance, which triggered the commencement of amortization.

In connection with the first sale of Potiga™ in the U.S. (which occurred in April 2012), GSK paid us a \$45.0 million milestone payment, and we will share up to 50% of the net profits from the sale of Potiga™. In addition, in connection with the first sale of Trobalt® by GSK in the European Union (which occurred in May 2011), GSK paid us a \$40.0 million milestone payment and will pay up to a 20% royalty on net sales of the product. We are recognizing the milestone payments as alliance and royalty revenue upon achievement. In the nine-month periods ended September 30, 2012 and 2011, we recorded \$45.0 million and \$40.0 million of milestone payments from GSK in connection with the launch of Potiga™ and Trobalt®, respectively.

MERGER-RELATED COST-RATIONALIZATION AND INTEGRATION INITIATIVES

The complementary nature of the Biovail and Valeant businesses has provided an opportunity to capture significant operating synergies from reductions in research and development, general and administrative expenses, and sales and marketing. In total, we have realized approximately \$350 million of annual cost synergies as of September 30, 2012. This amount does not include potential revenue synergies or the benefits of expanding the Biovail corporate structure to Valeant’s operations.

We estimated the total costs to be incurred in the range of up to \$200 million (of which the non-cash component, including share-based compensation, is expected to be approximately \$55 million) in connection with these cost-rationalization and integration initiatives, of which \$195.9 million has been incurred as of September 30, 2012. These costs include: employee termination costs (including related share-based payments) payable to approximately 500 employees of Biovail and Valeant who were terminated as a result of the Merger; IPR&D termination costs related to the transfer to other parties of product-development programs that did not align with our research and development model; costs to consolidate or close facilities and relocate employees, asset impairment charges to write down property, plant and equipment to fair value; and contract termination and lease cancellation costs.

The following table summarizes the major components of costs incurred in connection with these initiatives through September 30, 2012:

	Employee Termination Costs			Contract Termination, Facility Closure and Other Costs	Total
	Severance and Related Benefits	Share-Based Compensation	IPR&D Termination Costs		
(\$ in 000s)	\$	\$	\$	\$	\$

Facility closure costs incurred in the nine-month period ended September 30, 2012 primarily included an incremental \$10.2 million charge for the remaining operating lease obligations related to our vacated Mississauga, Ontario corporate office facility.

In addition to costs associated with our Merger-related initiatives, in the nine-month period ended September 30, 2012, we incurred an additional \$121.0 million of other restructuring, integration-related and other costs, including (i) \$46.6 million of integration consulting, duplicate labor, transition service, and other, (ii) \$44.8 million of severance costs, (iii) \$14.9 million of facility closure costs and (iv) \$14.7 million of other costs, including non-personnel manufacturing integration costs. We also made payments of \$107.7 million during the nine-month period ended September 30, 2012. These costs were primarily related to the acquisitions of Dermik, iNova, AB Sanitas (“Sanitas”), Ortho Dermatologics, OraPharma, Afexa Life Sciences Inc. (“Afexa”), PharmaSwiss S.A. (“PharmaSwiss”), and a U.S. restructuring focused primarily on a reduction in the prescription dermatology field force, the global consolidation of our manufacturing facilities, and systems integration initiatives.

Changes in Revenues

Total revenues increased \$283.6 million, or 47%, to \$884.1 million in the third quarter of 2012, compared with \$600.6 million in the third quarter of 2011 and increased \$785.3 million, or 44%, to \$2,560.3 million in the first nine months of 2012, compared with \$1,775.0 million in the first nine months of 2011, primarily due to:

incremental product sales revenue of \$171.9 million and \$596.9 million in the aggregate, from all 2011 acquisitions in the third quarter and first nine months of 2012, respectively, primarily from iNova, Dermik, Ortho Dermatologics, Sanitas, PharmaSwiss and Afexa. We also recognized incremental product sales revenue of \$76.6 million and \$134.7 million, in the aggregate, from all 2012 acquisitions in the third quarter and first nine months of 2012, respectively, primarily from Probiotica, OraPharma, Gerot Lannach, Pedinol Pharmacal, Inc. (“Pedinol”), University Medical, Swiss Herbal Remedies Limited and Atlantis. The incremental product sales revenue from the 2011 and 2012 acquisitions includes a negative foreign exchange impact of \$9.9 million and \$30.8 million, in the aggregate, in the third quarter and first nine months of 2012, respectively;

alliance revenue of \$66.3 million on the sale of the IDP-111 and 5-FU products in the first quarter of 2012;

incremental product sales revenue of \$104.6 million and \$221.1 million in the third quarter and first nine months of 2012, respectively, related to growth from the existing business, excluding the impact of generic competition in the U.S. Neurology and Other segment and the Canada and Australia segment described below;

alliance revenue of \$45.0 million recognized in the second quarter of 2012, related to the milestone payment received from GSK in connection with the launch of Potiga™; and

incremental service revenue of \$7.3 million and \$21.5 million in the third quarter and first nine months of 2012, primarily from the Dermik acquisition.

Those factors were partially offset by:

decrease in product sales of Cardizem® CD, Wellbutrin XL®, Ultram® ER and Diastat® in the U.S. Neurology and Other segment of \$16.5 million, or 26%, in the aggregate, to \$46.6 million in the third quarter of 2012, compared with \$63.1 million in the third quarter of 2011, and a decrease of \$70.9 million, or 33%, in the aggregate, to \$144.1 million in the first nine months of 2012, compared with \$215.0 million in the first nine months of 2011, due to generic competition;

alliance revenue of \$43.0 million in the first nine months of 2011, primarily related to the \$36.0 million out-license of the Cloderm® product rights that did not similarly occur in the first nine months of 2012;

a negative foreign currency exchange impact on the existing business of \$21.4 million and \$66.6 million in the third quarter and first nine months of 2012, respectively;

alliance revenue of \$40.0 million recognized in the second quarter of 2011 related to the milestone payment received from GSK in connection with the launch of Trobalt®;

a negative impact from divestitures and discontinuations of \$27.9 million and \$64.3 million, in the aggregate, in the third quarter and first nine months of 2012, respectively, including a decrease of \$12.9 million and \$30.5 million in the third quarter and first nine months of 2012, respectively, related to IDP-111 royalty revenue as a result of

the sale of IDP-111 in February 2012; and

decrease in product sales of Cesamet® in the Canada and Australia segment of \$13.4 million, or 81%, to \$3.1 million in the third quarter of 2012, compared with \$16.5 million in the third quarter of 2011, and a decrease of \$19.1 million, or 41%, to \$27.8 million in the first nine months of 2012, compared with \$46.9 million in the first nine months of 2011, due to generic competition.

Changes in Earnings

Net income decreased \$33.2 million, or 81%, to \$7.6 million (basic and diluted earnings per share of \$0.03 and \$0.02, respectively) in the third quarter of 2012, compared with net income of \$40.9 million (basic and diluted earnings per share of \$0.13) in the third quarter of 2011 and net loss was \$26.9 million (basic and diluted loss per share of \$0.09) in the first nine months of 2012, compared with net income of \$103.7 million (basic and diluted earnings per share of \$0.34 and \$0.32, respectively) in the first nine months of 2011, reflecting the following factors:

increases of \$80.2 million and \$264.4 million in amortization expense in the third quarter and first nine months of 2012, respectively, primarily related to (i) the acquired identifiable intangible assets of iNova, Dermik, Ortho Dermatologics, Elidel®/Xerese®, Sanitas and OraPharma of \$52.5 million and \$168.5 million in the third quarter and first nine months of 2012, respectively, and (ii) amortization of ezogabine/retigabine (\$28.7 million and \$85.9 million in the third quarter and first nine months of 2012, respectively), which was reclassified from IPR&D to a finite-lived intangible asset in December 2011;

an increase of \$145.3 million and \$145.9 million in acquired IPR&D costs in the third quarter and first nine months of 2012, respectively, as described below under “Results of Operations — Operating Expenses — Acquired IPR&D”;

an increase of \$53.9 million and \$127.4 million in selling, general and administrative expense in the third quarter and first nine months of 2012, respectively, as described below under “Results of Operations — Operating Expenses — Selling, General and Administrative Expenses”;

an increase of \$28.5 million and \$79.4 million in interest expense in the third quarter and first nine months of 2012, respectively, as described below under “Results of Operations — Non-Operating Income (Expense) — Interest Expense”;

an increase of \$27.0 million and \$74.2 million in restructuring, integration and other costs in the third quarter and first nine months of 2012, respectively, as described below under “Results of Operations — Operating Expenses — Restructuring, Integration and Other Costs”;

an increase of \$7.5 million and \$65.0 million in cost of alliance and service revenues in the third quarter and first nine months of 2012, respectively, as described below under “Results of Operations — Operating Expenses — Cost of Alliance and Service Revenues”;

an increase of \$54.4 million in legal settlements in the first nine months of 2012, as described below under “Results of Operations — Operating Expenses — Legal Settlements”; and

a net realized gain of \$21.3 million on the disposal of our equity investment in Cephalon, Inc. (“Cephalon”) realized in the second quarter of 2011 that did not similarly occur in the first nine months of 2012, as described below under “Results of Operations — Non-Operating Income (Expense) — (Loss) Gain on Investments, Net”.

Those factors were partially offset by:

an increase in contribution (product sales revenue less cost of goods sold, exclusive of amortization of intangible assets) of \$229.4 million and \$617.7 million in the third quarter and first nine months of 2012, respectively, mainly related to the incremental contribution of Dermik, Ortho Dermatologics, iNova, Sanitas, Zovirax®, PharmaSwiss, Elidel®/Xerese®, OraPharma, Probiotica and Gerot Lannach;

an increase of \$68.0 million and \$47.7 million in the recovery of income taxes in the third quarter and first nine

months of 2012, respectively, as described below under “Results of Operations — Income Taxes”; a decrease of \$8.0 million and \$30.9 million in loss on extinguishment of debt in the third quarter and first nine months of 2012, respectively, as described below under “Results of Operations — Non-Operating Income (Expense) — Loss on Extinguishment of Debt”; and an increase of \$18.4 million in foreign exchange and other in the first nine months of 2012, as described below under “Results of Operations — Non-Operating Income (Expense) — Foreign Exchange and Other”.

Cash Dividends

No dividends were declared or paid in the third quarters and first nine months of 2012 and 2011. While our board of directors will review our dividend policy from time to time, we currently do not intend to pay dividends in the foreseeable future. In addition, the covenants contained in the Third Amended and Restated Credit and Guaranty Agreement include restrictions on the payment of dividends.

RESULTS OF OPERATIONS

Reportable Segments

As a result of the acquisition of iNova in December 2011, we operate in five new territories: Malaysia, Philippines, Singapore, Hong Kong and South Africa, with a distribution business in Thailand, Taiwan and some sub-Saharan Africa markets. iNova also distributes through partners in China, Korea and Japan. Consequently, our Chief Executive Officer (“CEO”), who is our Chief Operating Decision Maker (“CODM”), has begun to manage the business differently, which has necessitated a realignment of the segment structure, effective in the first quarter of 2012. Pursuant to this change, we now have four reportable segments: (i) U.S. Dermatology, (ii) U.S. Neurology and Other, (iii) Canada and Australia and (iv) Emerging Markets. Accordingly, we have restated prior period segment information to conform to the current period presentation. The following is a brief description of our segments:

U.S. Dermatology consists of pharmaceutical and OTC product sales, and alliance and contract service revenues, in the areas of dermatology and topical medication, dentistry, ophthalmology and podiatry.

U.S. Neurology and Other consists of sales of pharmaceutical products indicated for the treatment of neurological and other diseases, as well as alliance revenue from the licensing of various products we developed or acquired.

Canada and Australia consists of pharmaceutical and OTC products sold in Canada, Australia and New Zealand.

Emerging Markets consists of branded generic pharmaceutical products, as well as OTC products and agency/in-licensing arrangements with other research-based pharmaceutical companies (where we distribute and market branded, patented products under long-term, renewable contracts). Products are sold primarily in Europe (Poland, Serbia, Hungary, Croatia and Russia), Latin America (Mexico, Brazil and exports out of Mexico to other Latin American markets), Asia and South Africa.

Revenues By Segment

The following table displays revenues by segment for the third quarters and first nine months of 2012 and 2011, the percentage of each segment’s revenues compared with total revenues in the respective period, and the dollar and percentage change in the dollar amount of each segment’s revenues. Percentages may not add due to rounding.

Total revenues increased \$283.6 million, or 47%, to \$884.1 million in the third quarter of 2012, compared with \$600.6 million in the third quarter of 2011 and increased \$785.3 million, or 44%, to \$2,560.3 million in the first nine months of 2012, compared with \$1,775.0 million in the first nine months of 2011, mainly attributable to the effect of the following factors:

- in the U.S. Dermatology segment:

the incremental product sales revenue of \$128.1 million and \$335.7 million, in the aggregate, from all 2011 acquisitions and all 2012 acquisitions in the third quarter and first nine months of 2012, respectively, primarily from (i) Dermik (mainly driven by BenzaClin®, Carac® and Sculptra® Aesthetics product sales) and Ortho Dermatologics (mainly driven by Retin-A Micro® product sales); and (ii) OraPharma, Pedinol, University Medical and Eyetech Inc. (“Eyetech”) product sales;

an increase in product sales from the existing business of \$68.3 million, or 62%, and \$112.5 million, or 40%, in the third quarter and first nine months of 2012, respectively, driven by continued growth of the core dermatology brands, including Zovirax®, Elidel®, CeraVe®, and Acanya®. The growth of these seasonal brands has increased the impact of seasonality on our business, particularly during the third quarter “back to school” season; and

alliance revenue of \$66.3 million on the sale of the IDP-111 and 5-FU products in the first quarter of 2012.

Those factors were partially offset by:

alliance revenue of \$43.0 million in the first nine months of 2011, primarily related to the \$36.0 million out-license of the Cloderm® product rights that did not similarly occur in the first nine months of 2012;

a negative impact from divestitures and discontinuations of \$16.0 million and \$39.3 million in the third quarter and first nine months of 2012, respectively, including a decrease of \$12.9 million and \$30.5 million in the third quarter and first nine months of 2012, respectively, related to IDP-111 royalty revenue as a result of the sale of IDP-111 in February 2012; and

a decrease in service revenue of \$8.9 million in the first nine months of 2012.

- in the U.S. Neurology and Other segment:

alliance revenue of \$45.0 million recognized in the second quarter of 2012, related to the milestone payment received from GSK in connection with the launch of Potiga™; and

an increase in product sales from the existing business, excluding the declines described below, of \$15.0 million, or 9%, and \$34.5 million, or 6%, in the third quarter and first nine months of 2012, respectively.

Those factors were more than offset by:

a decrease in product sales of Cardizem® CD, Wellbutrin XL®, Ultram® ER and Diastat® of \$16.5 million, or 26%, in the aggregate, to \$46.6 million in the third quarter of 2012, compared with \$63.1 million in the third quarter of 2011, and a decrease of \$70.9 million, or 33%, in the aggregate, to \$144.1 million in the first nine months of 2012, compared with \$215.0 million in the first nine months of 2011, due to

generic competition. We anticipate a continuing decline in sales of these products due to continued generic erosion, however the rate of decline is expected to decrease in the future, and these brands are expected to represent a declining percentage of total revenues primarily due to anticipated growth in other parts of our business and recent acquisitions; and

alliance revenue of \$40.0 million recognized in the second quarter of 2011, related to the milestone payment received from GSK in connection with the launch of Trobalt®.

- in the Canada and Australia segment:

the incremental product sales revenue of \$53.8 million and \$131.3 million, in the aggregate, from all 2011

acquisitions and all 2012 acquisitions in the third quarter and first nine months of 2012, respectively, primarily from iNova (mainly driven by Duromine®, Difflam® and Duro-Tuss® product sales), Afexa and Dermik;

incremental service revenue of \$10.6 million and \$32.0 million in the third quarter and first nine months of 2012, respectively, primarily from the Dermik acquisition; and

an increase in product sales from the existing business of \$4.6 million, or 2%, in the first nine months of 2012 and a decrease in product sales from the existing business of \$6.8 million, or 8%, in the third quarter of 2012, which

includes the negative impact from the introduction of a generic version of Cesamet® by a competitor in March 2012.

We anticipate continuing declines in Cesamet® product sales due to generic erosion, however the rate of decline is expected to decrease in the future.

Those factors were partially offset by:

- a negative foreign currency exchange impact on the existing business of \$1.2 million and \$4.7 million in the third quarter and first nine months of 2012, respectively.

- in the Emerging Markets segment:

the incremental product sales revenue of \$66.0 million and \$262.6 million (which includes a negative foreign currency exchange impact of \$9.4 million and \$29.7 million in the third quarter and first nine months of 2012,

respectively), in the aggregate, from all 2011 acquisitions and all 2012 acquisitions in the third quarter and first nine months of 2012, respectively, primarily from (i) the 2011 acquisitions of Sanitas, iNova (mainly driven by Duromine® and Difflam® product sales) and PharmaSwiss; and (ii) the 2012 acquisitions of Probiotica and Gerot Lannach; and

an increase in product sales from the existing business of \$15.2 million, or 8%, and \$51.3 million, or 11%, in the third quarter and first nine months of 2012, respectively.

Those factors were partially offset by:

- a negative foreign currency exchange impact on the existing business of \$20.3 million and \$61.9 million in the third quarter and first nine months of 2012, respectively; and

- a negative impact from divestitures and discontinuations of \$11.3 million and \$22.7 million in the third quarter and first nine months of 2012.

Segment Profit

Segment profit is based on operating income after the elimination of intercompany transactions. Certain costs, such as restructuring and acquisition-related costs, legal settlements and acquired IPR&D charges (including impairments), are not included in the measure of segment profit, as management excludes these items in assessing segment financial performance. In addition, share-based compensation is not allocated to segments, since the amount of such expense depends on company-wide performance rather than the operating performance of any single segment.

The following table displays profit by segment for the third quarters and first nine months of 2012 and 2011, the percentage of each segment's profit compared with corresponding segment revenues in the respective period, and the dollar and percentage change in the dollar amount of each segment's profit. Percentages may not add due to rounding.

Total segment profit increased \$78.1 million, or 43%, to \$261.1 million in the third quarter of 2012, compared with \$183.0 million in the third quarter of 2011, and increased \$132.0 million, or 24%, to \$671.5 million in the first nine months of 2012, compared with \$539.5 million in the first nine months of 2011, mainly attributable to the effect of the following factors:

- in the U.S. Dermatology segment:

an increase in contribution of \$111.8 million and \$283.6 million, in the aggregate, from all 2011 acquisitions and all 2012 acquisitions in the third quarter and first nine months of 2012, respectively, primarily from the product sales of Dermik, Ortho Dermatologics, OraPharma, Pedinol, Eyetech and University Medical, including the impact of acquisition accounting adjustments related to inventory of \$1.9 million and \$14.8 million, in the aggregate, in the third quarter and first nine months of 2012, respectively; and

an increase in contribution from product sales from the existing business of \$64.1 million and \$131.0 million (including a favorable impact of \$7.7 million related to the Merger-related acquisition accounting adjustments related to inventory in the first nine months of 2011 that did not similarly occur in the first nine months of 2012) in the third quarter and first nine months of 2012, respectively, driven by (i) continued growth of the core dermatology brands, including Zovirax®, Elidel®, CeraVe®, and Acanya®, and the growth of these seasonal brands has increased the impact of seasonality on our business, particularly during the third quarter “back to school” season and (ii) a lower supply price for Zovirax® inventory purchased from GSK, as a result of the new supply agreement that became effective with the acquisition of the U.S. rights, such that we retain a greater share of the economic interest in the brand.

Those factors were partially offset by:

an increase in operating expenses (including amortization expense) of \$61.6 million and \$166.9 million in the third quarter and first nine months of 2012, respectively, primarily associated with the acquisitions of new businesses within the segment;

a decrease in contribution of \$15.2 million and \$52.5 million in the third quarter and first nine months of 2012, respectively, primarily related to divestitures and discontinuations. The largest contributor to the decrease was a reduction in IDP-111 royalty revenue of \$12.9 million and \$30.5 million in the third quarter and first nine months of 2012, respectively, as a result of the sale of IDP-111 in February 2012; and

a decrease in service revenue contribution of \$6.4 million in the first nine months of 2012.

- in the U.S. Neurology and Other segment:

alliance revenue of \$45.0 million recognized in the second quarter of 2012, related to the milestone payment received from GSK in connection with the launch of Potiga™; and

an increase in contribution from product sales from the existing business, excluding the declines described below, of \$10.6 million and \$22.3 million, including the impact from higher sales of Xenazine® which carries a lower margin than the rest of the neurology portfolio (also including a favorable impact of \$9.4 million related to the Merger-related acquisition accounting adjustments related to inventory in the first nine months of 2011 that did not similarly occur in the first nine months of 2012), in the third quarter and first nine months of 2012, respectively.

Those factors were more than offset by:

alliance revenue of \$40.0 million recognized in the second quarter of 2011, related to the milestone payment received from GSK in connection with the launch of Trobalt®;

amortization expense of \$28.7 million and \$85.9 million in the third quarter and first nine months of 2012, respectively, related to ezogabine/retigabine, which was reclassified from IPR&D to a finite-lived intangible asset in December 2011; and

lower sales of higher margin products such as Wellbutrin XL®, Ultram® ER, Cardizem® CD and Diastat®, which resulted in a decrease in contribution of \$14.7 million and \$61.9 million, in the aggregate, in the third quarter and first nine months of 2012, respectively.

- in the Canada and Australia segment:

an increase in contribution of \$35.6 million and \$70.5 million, in the aggregate, from all 2011 acquisitions and all 2012 acquisitions in the third quarter and first nine months of 2012, respectively, primarily from the sale of iNova, Dermik, Afexa and Elidel® products, including the impact of acquisition accounting adjustments related to inventory of \$2.8 million and \$32.5 million, in the aggregate, in the third quarter and first nine months of 2012, respectively;

an increase in contribution from product sales from the existing business of \$4.3 million in the first nine months of 2012, which includes the negative contribution impact from lower sales of Cesamet®;

a favorable impact of \$3.9 million related to the Merger-related acquisition accounting adjustments related to inventory in the first nine months of 2011 that did not similarly occur in the first nine months of 2012; and

incremental contribution from service revenue of \$2.5 million in the first nine months of 2012, primarily from the Dermik acquisition.

Those factors were more than offset by:

an increase in operating expenses (including amortization expense) of \$29.6 million and \$90.7 million in the third quarter and first nine months of 2012, respectively, primarily associated with the acquisitions of new businesses within the segment.

- in the Emerging Markets segment:

an increase in contribution of \$34.9 million and \$171.4 million, in the aggregate, from all 2011 acquisitions and all 2012 acquisitions, in the third quarter and first nine months of 2012, respectively, primarily from the sale of Sanitas, iNova, PharmaSwiss, Probiotica and Gerot Lannach products, including lower acquisition accounting adjustments related to inventory of \$1.0 million and \$19.0 million, in the aggregate, in the third quarter and first nine months of 2012, respectively;

an increase in contribution from product sales from the existing business of \$4.9 million and \$23.3 million in the third quarter and first nine months of 2012, respectively; and

a favorable impact of \$6.8 million related to the Merger-related acquisition accounting adjustments related to inventory in the first nine months of 2011 that did not similarly occur in the first nine months of 2012.

Those factors were partially offset by:

an increase in operating expenses (including amortization expense) of \$18.6 million and \$83.5 million in the third quarter and first nine months of 2012, respectively, primarily associated with the acquisitions of new businesses within the segment;

- a negative foreign currency exchange impact on the existing business contribution of \$9.0 million and \$31.0 million in the third quarter and first nine months of 2012, respectively; and

a negative impact from divestitures and discontinuations of \$4.4 million and \$10.1 million in the third quarter and first nine months of 2012, respectively.

Operating Expenses

The following table displays the dollar amount of each operating expense category for the third quarter and first nine months of 2012 and 2011, the percentage of each category compared with total revenues in the respective period, and the dollar and percentage changes in the dollar amount of each category. Percentages may not add due to rounding.

Cost of Goods Sold

Cost of goods sold, which excludes the amortization of intangible assets described separately below under “— Amortization of Intangible Assets”, increased \$57.1 million, or 35%, to \$219.7 million in the third quarter of 2012, compared with \$162.6 million in the third quarter of 2011, and increased \$144.6 million, or 29%, to \$646.4 million in the first nine months of 2012, compared with \$501.8 million in the first nine months of 2011. The percentage increases in cost of goods sold in the third quarter and first nine months of 2012 were lower than the corresponding 50% and 48% increases in product sales in the third quarter and first nine months of 2012, respectively, primarily due to:

- a favorable impact from product mix and the benefits realized from worldwide manufacturing rationalization initiatives; and

the effect of the lower supply price for Zovirax® inventory purchased from GSK as a result of a new supply agreement that became effective with the acquisition of the U.S. rights, which favorably impacted cost of goods sold during the first and second quarters of 2012.

These factors were partially offset by:

- an unfavorable foreign exchange impact on contribution, as the foreign exchange benefit to Cost of Goods Sold was more than offset by the negative foreign exchange impact on product sales;

- increased sales of Xenazine® which has a lower margin than the rest of the neurology portfolio; and

- decreased sales of Cesamet® in Canada which has a higher margin than the rest of the Canadian portfolio.

Cost of Alliance and Service Revenues

Cost of alliance and service revenues increased \$7.5 million to \$10.6 million in the third quarter of 2012, compared with \$3.1 million in the third quarter of 2011, mainly due to the inclusion of cost of service revenue from Dermik primarily related to contract manufacturing. Cost of alliance and service revenue increased \$65.0 million, or 161%, to \$105.5 million in the first nine months of 2012, compared with \$40.4 million in the first nine months of 2011, primarily due to the inclusion of the carrying amounts of the IDP-111 and 5-FU intangible assets of \$69.2 million, in the aggregate, which were expensed on the sale of these products in the first quarter of 2012, and the inclusion of cost of service revenue from Dermik, partially offset by the \$30.7 million carrying amount of the Cloderm® intangible asset, which was expensed on the out-license of the product rights in the first quarter of 2011.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$53.9 million, or 40%, to \$188.7 million in the third quarter of 2012, compared with \$134.8 million in the third quarter of 2011, and increased \$127.4 million, or 30%, to \$551.4 million in the first nine months of 2012, compared with \$424.0 million in the first nine months of 2011, primarily due to:

- increased expenses in our U.S Dermatology segment (\$30.8 million and \$78.3 million, in the third quarter and first nine months of 2012, respectively), Canada and Australia segment (\$18.2 million and \$47.5 million, in the third quarter and first nine months of 2012, respectively) and Emerging Markets segment (\$7.0 million and \$36.8 million, in the third quarter and first nine months of 2012, respectively), primarily driven by the acquisitions of new businesses within these segments.

This factor was partially offset by:

- decreases of \$18.2 million in share-based compensation expense charged to selling, general and administrative expenses in the first nine months of 2012, primarily due to the vesting of performance stock units as a result of achieving specified performance criteria recognized in the first nine months of 2011 and the impact of the stock option modification recognized in the first quarter of 2011, partially offset by an incremental charge of \$4.8 million in the third quarter of 2012 as some of our performance-based RSU grants triggered a partial payout as a result of achieving certain share price appreciation conditions. Refer to note 13 of notes to unaudited consolidated financial statements for further details.

Research and Development Expenses

Research and development expenses increased \$1.7 million, or 10%, to \$19.2 million in the third quarter of 2012, compared with \$17.5 million in the third quarter of 2011, and increased \$10.0 million, or 20%, to \$58.9 million in the first nine months of 2012, compared with \$48.9 million in the first nine months of 2011, primarily reflecting spending for a Phase 4 study for Wellbutrin XL® and lifecycle management programs, partially offset by lower spending on the IDP-108 program (an antifungal targeted to treat onychomycosis, a fungal infection of the fingernails and toenails). In July 2012, the Company submitted an NDA with the FDA for IDP-108, also known as efinaconazole.

Amortization of Intangible Assets

Amortization expense increased \$80.2 million, or 58%, to \$218.2 million in the third quarter of 2012, compared with \$138.0 million in the third quarter of 2011, and increased \$264.4 million, or 72%, to \$629.4 million in the first nine months of 2012, compared with \$365.0 million in the first nine months of 2011, primarily due to (i) the amortization of the iNova, Dermik, Ortho Dermatologics, Elidel®/Xerese®, Sanitas and OraPharma identifiable intangible assets of \$52.5 million and \$168.5 million

in the third quarter and first nine months of 2012, respectively, and (ii) amortization of ezogabine/retigabine of \$28.7 million and \$85.9 million in the third quarter and first nine months of 2012, respectively, which was reclassified from IPR&D to a finite-lived intangible asset in December 2011. As part of our ongoing assessment of potential impairment indicators related to our intangible assets, we will closely monitor the performance of our product portfolio, including ezogabine/retigabine which is marketed under a collaboration agreement with GSK. If our assessment reveals indications of impairment to our assets, we may determine that an impairment charge is necessary and such charge could be material.

Restructuring, Integration and Other Costs

As described above under “Merger-Related Cost-Rationalization and Integration Initiatives”, we recognized restructuring, integration and other costs of \$42.9 million and \$135.2 million in the third quarter and first nine months of 2012, respectively.

Acquired IPR&D

In the third quarter of 2012, we recorded charges of (i) \$133.4 million related to the write off of an acquired IPR&D asset related to the IDP-107 dermatology program, which was acquired in September 2010 as part of the Merger, and (ii) \$12.0 million related to a payment to terminate a research and development commitment with a third party. Through discussion with various internal and external Key Opinion Leaders, we completed our analysis of the Phase 2 study results for IDP-107 during the third quarter of 2012. This led to our decision in the third quarter of 2012 to terminate the program and fully impair the asset. As attempts to identify a partner for the program were not successful, we do not believe the program has value to a market participant. In addition, in the second quarter of 2012, we wrote off \$4.3 million related to the termination of the MC5 program (a topical treatment for acne vulgaris), acquired as part of the Ortho Dermatologics acquisition in 2011.

In the first nine months of 2011, we recorded charges of \$4.0 million related to the acquisition of the Canadian rights to Lodalis™, which was accounted for as a purchase of IPR&D assets with no alternative future use.

Acquisition-Related Costs

Acquisition-related costs decreased \$4.9 million, or 52%, to \$4.6 million in the third quarter of 2012 as compared with \$9.5 million in the third quarter of 2011, primarily reflecting expenses incurred in the third quarter of 2011 related to the Sanitas acquisition, partially offset by acquisition activity in the third quarter of 2012. Acquisition-related costs increased \$13.1 million, or 102%, to \$26.0 million in the first nine months of 2012, compared with \$12.9 million in the first nine months of 2011, reflecting increased acquisition activity during the first nine months of 2012, as described above under “Business Development”.

Legal Settlements

Legal settlements costs increased \$54.4 million to \$56.8 million in the first nine months of 2012, compared with \$2.4 million in the first nine months of 2011, primarily due to a settlement of antitrust litigation and the associated legal fees. Refer to note 19 of notes to unaudited consolidated financial statements for further details.

Acquisition-Related Contingent Consideration

Acquisition-related contingent consideration increased \$14.2 million, or 157%, to \$23.2 million in the first nine months of 2012, compared with \$9.0 million in the first nine months of 2011, primarily driven by the changes in the fair value of acquisition-related contingent consideration (mainly due to accretion to account for the time value of money) primarily related to the Elidel®/Xerese® license agreement entered into in June 2011 and the iNova acquisition, partially offset by a gain related to a shift in timing which impacted the revenue assumptions associated with potential milestone payments for the A007 (Lacrisert®) development program.

Non-Operating Income (Expense)

The following table displays the dollar amounts of each non-operating income or expense category in the third quarters and first nine months of 2012 and 2011 and the dollar and percentage changes in the dollar amount of each category.

Interest Expense

Interest expense increased \$28.5 million, or 33%, to \$116.0 million in the third quarter of 2012, compared with \$87.5 million in the third quarter of 2011, and increased \$79.4 million, or 33%, to \$318.7 million in the first nine months of 2012, compared with \$239.3 million in the first nine months of 2011, primarily reflecting the following:

• interest expense of \$29.2 million and \$105.2 million, in the aggregate, in the third quarter and first nine months of 2012, respectively, related to the borrowings under our senior secured credit facilities and our senior notes.

This factor was partially offset by:

• a decrease of \$1.6 million and \$10.2 million in the third quarter and first nine months of 2012, respectively, related to the repurchases and the settlement of 5.375% senior convertible notes due 2014 (the “5.375% Convertible Notes”)

(as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”);

• a decrease of \$10.0 million in the first nine months of 2012 due to the repayment of our previous term loan A facility in the first quarter of 2011;

• a decrease of \$4.8 million in the first nine months of 2012 due to an adjustment to amortization of debt issuance costs related to prior period; and

• a decrease of \$4.4 million in the first nine months of 2012 related to the redemption of 4.0% convertible subordinated notes due 2013 (the “4% Convertible Notes”) in the second quarter of 2011. Refer to note 11 of notes to unaudited consolidated financial statements for further details.

Loss on Extinguishment of Debt

In the third quarter and first nine months of 2012, we recognized losses of \$2.3 million and \$2.5 million, respectively, mainly on the settlement of the 5.375% Convertible Notes (as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”).

In the third quarter and first nine months of 2011, we recognized losses of \$10.3 million and \$33.3 million, respectively, mainly on the repurchase of a portion of the 5.375% Convertible Notes (as described below under “Financial Condition, Liquidity and Capital Resources – Securities Repurchase Program”) and the share settlement of the 4.0% Convertible Notes (refer to note 11 of notes to unaudited consolidated financial statements for further details).

Foreign Exchange and Other

Foreign exchange and other loss decreased \$2.0 million, or 55%, to \$1.6 million in the third quarter of 2012, compared with \$3.6 million in the third quarter of 2011, and foreign exchange and other gain increased \$18.4 million to \$18.5 million in the first nine months of 2012, compared with a gain of \$0.1 million in the first nine months of 2011. The gain in the first nine months of 2012 was primarily due to a gain of \$29.2 million related to an intercompany loan, of which \$1.3 million was recognized

in the third quarter of 2012, that was not designated as permanent in nature, and therefore the impact of changes in foreign currency exchange rates was recognized in our consolidated statements of income (loss). As of September 30, 2012, \$24.0 million of the gain on the intercompany loan was realized, all of which was realized during the first quarter of 2012. This was partially offset by translation losses from our European operations in the first nine months of 2012 and a \$2.7 million net gain realized on foreign currency forward contracts entered in connection with the acquisition of PharmaSwiss in the first quarter of 2011.

(Loss) Gain on Investments, Net

In March 2011, in connection with an offer to acquire Cephalon, we invested \$60.0 million to acquire shares of common stock of Cephalon. On May 2, 2011, Cephalon announced that it had agreed to be acquired by Teva Pharmaceutical Industries Inc. and, consequently, we disposed of our entire equity investment in Cephalon for net proceeds of \$81.3 million, which resulted in a net realized gain of \$21.3 million that was recognized in earnings in the second quarter of 2011.

Income Taxes

The following table displays the dollar amounts of the current and deferred provisions for income taxes in the third quarters and first nine months of 2012 and 2011 and the dollar and percentage changes in the dollar amount of each provision. Percentages may not add due to rounding.

	Three Months Ended September 30,				Nine Months Ended September 30,

In the three-month period ended September 30, 2012, we recognized a net income tax recovery of \$97.0 million, of which \$97.3 million related to the expected tax recovery in tax jurisdictions outside of Canada offset with an income tax expense of \$0.3 million related to Canadian income taxes. In the nine-month period ended September 30, 2012, we recognized a net income tax recovery of \$92.7 million, which comprised \$95.7 million related to tax recovery in tax jurisdictions outside of Canada and an income tax expense of \$3.0 million related to Canadian income taxes. In the three-month and nine-month periods ended September 30, 2012, our effective tax rate was primarily impacted by (i) tax recovery generated from our annualized effective tax rate applied against our overall income for the nine months ended September 30, 2012, (ii) tax recovery associated with the write-off of IPR&D, (iii) additional tax recovery recognized on the U.S. federal tax return as compared to the December 31, 2011 income tax provision, (iv) the reduction of a deferred tax liability due to an internal reorganization whereby our Barbados subsidiary was migrated to Bermuda, and (v) the increase in liabilities for uncertain tax positions.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Selected Measures of Financial Condition

The following table displays a summary of our financial condition as of September 30, 2012 and December 31, 2011:

	As of September 30, 2012	As of December 31, 2011	Change	%
(\$ in 000s; Asset (Liability))	\$	\$	\$	%
Cash and cash equivalents	257,730	164,111	93,619	57
Long-lived assets ⁽¹⁾	12,285,657	11,670,826	614,831	5
Long-term debt, including current portion	(7,630,246)	(6,651,011)	(979,235)	15
Shareholders' equity	3,785,182	4,007,016	(221,834)	(6)

(1) Long-lived assets comprise property, plant and equipment, intangible assets and goodwill.

Cash and Cash Equivalents

Cash and cash equivalents increased \$93.6 million, or 57%, to \$257.7 million as of September 30, 2012, compared with \$164.1 million at December 31, 2011, which primarily reflected the following sources of cash:

- \$1,265.9 million of net borrowings under our senior secured term loan B facility (as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”);
 - \$588.7 million in operating cash flows, which includes the receipt of the \$45.0 million milestone payment from GSK in connection with the launch of Potiga™ in the second quarter of 2012; and
 - \$66.3 million of cash proceeds related to the sale of the IDP-111 and 5-FU products in the first quarter of 2012.
- Those factors were partially offset by the following uses of cash:
- \$981.1 million paid, in the aggregate, in connection with the purchases of businesses and intangible assets, mainly in respect of the OraPharma, Gerot Lannach, QLT, J&J North America, Probiotica, Atlantis and University Medical acquisitions;
 - \$280.7 million related to the repurchase of our common shares (as described below under “Financial Condition, Liquidity and Capital Resources — New Securities Repurchase Program”);
 - \$195.0 million repayment under our revolving credit facility (as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”);
 - \$83.4 million repayment under our senior secured term loan A facility (as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”);
 - purchases of property, plant and equipment of \$81.8 million;
 - contingent consideration payments of \$81.3 million primarily related to the Elidel®/Xerese® license agreement entered into in June 2011 and the PharmaSwiss acquisition;
 - \$62.1 million related to the settlement of the 5.375% Convertible Notes in the third quarter of 2012 (as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”);
 - payments of legal settlements and related costs of \$39.6 million primarily related to settlement of antitrust litigation in the second quarter of 2012; and
 - \$37.9 million repayment of long-term debt assumed in connection with the OraPharma acquisition in June, 2012.

Long-Lived Assets

Long-lived assets increased \$614.8 million, or 5%, to \$12,285.7 million as of September 30, 2012, compared with \$11,670.8 million at December 31, 2011, primarily due to:

- the inclusion of the identifiable intangible assets, goodwill and property, plant and equipment from the 2012 acquisitions of \$1,231.2 million, in the aggregate, primarily related to OraPharma, Gerot Lannach, QLT, J&J North America, Probiotica, University Medical and Atlantis;
- an increase from foreign currency exchange of \$128.8 million; and
- purchases of property, plant and equipment of \$81.8 million.

Those factors were partially offset by:

the depreciation of property, plant and equipment and amortization of intangible assets of \$672.8 million in the aggregate;
 the write off of an IPR&D asset of \$133.4 million relating to the IDP-107 dermatology program; and
 the sale of a manufacturing facility acquired in the iNova transaction for \$10.2 million in the third quarter of 2012.

Long-Term Debt

Long-term debt (including the current portion) increased \$979.2 million, or 15%, to \$7,630.2 million as of September 30, 2012, compared with \$6,651.0 million at December 31, 2011, primarily due to:
 \$1,265.9 million of net borrowings under our senior secured term loan B facility (as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”).

This factor was partially offset by:

\$195.0 million repayment under our revolving credit facility (as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”);
 \$83.4 million repayment under our senior secured term loan A facility (as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”); and
 the settlement of the \$16.0 million carrying amount of the liability component of the 5.375% Convertible Notes (as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”).

Shareholders' Equity

Shareholders' equity decreased \$221.8 million, or 6%, to \$3,785.2 million as of September 30, 2012, compared with \$4,007.0 million at December 31, 2011, primarily due to:

a decrease of \$280.7 million related to the repurchase of our common shares in the first nine months of 2012;
 a decrease of \$43.8 million related to the settlement of the 5.375% Convertible Notes in the third quarter of 2012; and
 a net loss of \$26.9 million.

Those factors were partially offset by:

a positive foreign currency translation adjustment of \$83.8 million to other comprehensive income (loss), mainly due to the impact of a weakening of the U.S. dollar relative to a number of other currencies, including the Polish zloty and Mexican peso, which increased the reported value of our net assets denominated in those currencies; and
 \$52.9 million of share-based compensation recorded in additional paid-in capital.

Cash Flows

Our primary sources of cash include: the cash generated from operations; the issuance of long-term debt and borrowings under our senior secured credit facilities; and proceeds from the sale of non-core assets. Our primary uses of cash include: business development transactions; interest and principal payments; securities repurchases; restructuring activities; salaries and benefits; inventory purchases; research and development spending; sales and marketing activities; capital expenditures; legal costs; and litigation and regulatory settlements. The following table displays cash flow information for the third quarters and first nine months of 2012 and 2011:

(\$ in 000s)	Three Months Ended September 30,				Nine Months Ended September 30,

Operating Activities

Net cash provided by operating activities decreased \$6.9 million, or 4%, to \$166.8 million in the third quarter of 2012, compared with \$173.7 million in the third quarter of 2011, primarily due to:

- an increased investment in working capital of \$97.1 million primarily related to accounts receivable, reflecting the growth and seasonality of the business including strong sales in September 2012;

- an increase in payments of legal settlements and related costs of \$37.7 million mainly related to the settlement of antitrust litigation in the second quarter of 2012;

- a decrease in contribution of \$27.9 million, in the aggregate, from Cardizem® CD, Cesamet®, Wellbutrin XL®, Ultram® ER and Diastat® product sales in the third quarter of 2012;

- higher payments of \$21.7 million related to other restructuring and integration-related costs (not Merger-related) in the third quarter of 2012; and

- a \$12.0 million payment related to the termination of a research and development commitment with a third party.

Those factors were partially offset by:

- the inclusion of cash flows in the third quarter of 2012 from all 2011 acquisitions, primarily Sanitas, Dermik, Ortho Dermatologics, Afexa and iNova, as well as all 2012 acquisitions, primarily OraPharma, Probiotica and certain assets of Gerot Lannach, University Medical and Atlantis, partially offset by the negative impact of foreign exchange related to these acquisitions and the existing business;

- incremental cash flows from continued growth in the existing business; and

- an increase due to lower payments of \$8.1 million related to the Merger-related restructuring charges in the third quarter of 2012.

Net cash provided by operating activities increased \$138.0 million, or 31%, to \$588.7 million in the first nine months of 2012, compared with \$450.7 million in the first nine months of 2011, primarily due to:

- the inclusion of cash flows in the first nine months of 2012 from all 2011 acquisitions, primarily Elidel®/Xerese®, Sanitas, Dermik, Ortho Dermatologics, Afexa and iNova, as well as all 2012 acquisitions, primarily OraPharma, Probiotica and certain assets of Gerot Lannach, University Medical and Atlantis, partially offset by the negative impact of foreign exchange related to these acquisitions and the existing business;

- an increase in cash flows from the operations of PharmaSwiss due to the full year-to-date impact in 2012;

- the receipt of the \$45.0 million milestone payment from GSK in connection with the launch of Potiga™ in the

second quarter of 2012;

an increase due to lower payments of \$22.4 million related to the Merger-related restructuring charges in the first nine months of 2012; and

incremental cash flows from continued growth in the existing business.

Those factors were partially offset by:

an increased investment in working capital of \$143.7 million primarily related to (i) accounts receivable, reflecting the growth and seasonality of the business, including strong sales in September 2012 and (ii) investments in inventory to support growth of the business and manufacturing integration initiatives;

higher payments of \$95.6 million related to other restructuring and integration-related costs (not Merger-related) in the first nine months of 2012;

a decrease in contribution of \$80.8 million, in the aggregate, from Cardizem® CD, Cesamet®, Wellbutrin XL®, Ultram® ER and Diastat® product sales in the first nine months of 2012;

the receipt of the \$40.0 million milestone payment from GSK in connection with the launch of Trobalt® in the second quarter of 2011;

an increase in payments of legal settlements and related costs of \$23.2 million mainly related to the settlement of antitrust litigation in the second quarter of 2012; and

a \$12.0 million payment related to the termination of a research and development commitment with a third party.

Investing Activities

Net cash used in investing activities decreased \$145.2 million, or 33%, to \$297.4 million in the third quarter of 2012, compared with \$442.6 million in the third quarter of 2011, primarily due to:

a decrease of \$169.6 million, in the aggregate, related to the purchases of businesses (net of cash acquired) and intangible assets in the aggregate.

This factor was partially offset by:

an increase of \$47.5 million in purchases of property, plant and equipment.

Net cash used in investing activities decreased \$302.5 million, or 23%, to \$991.9 million in the first nine months of 2012, compared with \$1,294.5 million in the first nine months of 2011, primarily due to:

a decrease of \$311.4 million in the aggregate, related to the purchases of businesses (net of cash acquired) and intangible assets in the aggregate; and

a decrease of \$66.3 million attributable to the cash proceeds related to the sale of the IDP-111 and 5-FU products in the first quarter of 2012.

Those factors were partially offset by:

a net increase of \$21.3 million on the disposal of the Cephalon common stock in the first nine months of 2011, representing the excess of the \$81.3 million in net proceeds received over the \$60.0 million paid in the first nine months of 2011 to acquire the shares;

an increase of \$38.2 million in purchases of property, plant and equipment; and

an increase of \$36.0 million related to the receipt of the up-front payment related to the out-license of Cloderm®

in the first nine months of 2011 that did not similarly occur in the first nine months of 2012.

Financing Activities

Net cash used in financing activities was \$7.9 million in the third quarter of 2012, compared with net cash provided by financing activities of \$299.0 million in the third quarter of 2011, reflecting a decline of \$307.0 million, primarily due to:

- a decrease of \$590.0 million due to borrowings in the third quarter of 2011 under our previous senior secured term loan facility;

- a decrease of \$75.0 million in net borrowings under our revolving credit facility in the third quarter of 2012;

- a decrease of \$62.1 million related to the settlement of the 5.375% Convertible Notes in the third quarter of 2012;

- contingent consideration payments of \$18.8 million primarily related to the Elidel®/Xerese® license agreement entered into in June 2011; and

- \$27.8 million repayment under our senior secured term loan A facility in the third quarter of 2012.

Those factors were partially offset by:

- an increase of \$95.2 million of net borrowings under our senior secured term loan B facility (as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”);

- an increase of \$202.6 million related to the repurchases of the 5.375% Convertible Notes (exclusive of the payment of accrued interest reflected as an operating activity) in the third quarter of 2011 that did not similarly occur in the third quarter of 2012;

- an increase of \$74.6 million related to lower repurchases of common shares in the third quarter of 2012;

- an increase of \$66.9 million related to the settlement of the written call options in the third quarter of 2011 that did not similarly occur in the third quarter of 2012; and

- an increase of \$28.5 million related to the acquisition of Sanitas’ noncontrolling interest in the third quarter of 2011 that did not similarly occur in the third quarter of 2012.

Net cash provided by financing activities decreased \$216.6 million, or 30%, to \$495.0 million in the first nine months of 2012, compared with \$711.6 million in the first nine months of 2011, primarily due to:

- a decrease related to net proceeds of \$2,139.7 million from the issuance of senior notes in the first nine months of 2011;

- a decrease of \$590.0 million due to borrowings in the third quarter of 2011 under our previous senior secured term loan facility;

- a decrease of \$395.0 million in net borrowings under our revolving credit facility in the first nine months of 2012;

- \$83.4 million repayment under our senior secured term loan A facility in the first nine months of 2012;

- contingent consideration payments of \$79.8 million primarily related to the Elidel®/Xerese® license agreement entered into in June 2011 and the PharmaSwiss acquisition;

- a decrease of \$62.1 million related to the settlement of the 5.375% Convertible Notes in the third quarter of 2012;

- a decrease of \$49.8 million in proceeds from stock option exercises, including tax benefits, in the first nine months of 2012; and

\$37.9 million repayment of long-term debt assumed in connection with the OraPharma acquisition.

Those factors were partially offset by:

• an increase of \$1,265.9 million of net borrowings under our senior secured term loan B facility (as described below under “Financial Condition, Liquidity and Capital Resources — Financial Assets (Liabilities)”);

• an increase of \$975.0 million related to the repayment of our previous term loan A facility in the first nine months of 2011;

• an increase of \$537.6 million related to lower repurchases of the 5.375% Convertible Notes (exclusive of the payment of accreted interest reflected as an operating activity) in the first nine months of 2012;

• an increase of \$293.4 million related to lower repurchases of common shares in the first nine months of 2012;

• an increase of \$66.9 million related to the settlement of the written call options in the third quarter of 2011 that did not similarly occur in the third quarter of 2012;

• an increase of \$36.0 million related to lower employee withholding taxes paid on the exercise of employee share-based awards in the first nine months of 2012; and

• an increase of \$28.5 million related to the acquisition of Sanitas’ noncontrolling interest in the third quarter of 2011 that did not similarly occur in the third quarter of 2012.

On February 13, 2012, we and certain of our subsidiaries as guarantors, entered into the Third Amended and Restated Credit and Guaranty Agreement (the “Credit Agreement”) with a syndicate of financial institutions and investors. As of that date, the Credit Agreement provided for a \$275.0 million revolving credit facility, including a sublimit for the issuance of standby and commercial letters of credit and a sublimit for swing line loans (the “Revolving Credit Facility”), a \$2.225 billion senior secured term loan A facility (the “Term Loan A Facility”) and a \$600.0 million senior secured term loan B facility (the “Term Loan B Facility”). The Revolving Credit Facility matures on April 20, 2016 and does not amortize. The Term Loan A Facility matures on April 20, 2016 and began amortizing quarterly on March 31, 2012 at an initial annual rate of 5.0%. The amortization schedule under the Term Loan A Facility will increase to 10.0% annually commencing March 31, 2013 and 20.0% annually commencing March 31, 2014, payable in quarterly installments. The Term Loan B Facility matures on February 13, 2019 and began amortizing quarterly on June 30, 2012 at an annual rate of 1.0%.

On June 14, 2012, we and certain of our subsidiaries, as guarantors, entered into a joinder agreement to increase the Term Loan B Facility by \$600.0 million to \$1.2 billion of incremental term loans. In addition, on July 9, 2012, we and certain of our subsidiaries as guarantors, entered into a joinder agreement to increase the Term Loan B Facility by an additional \$100.0 million to \$1.3 billion of incremental term loans (the Term Loan B Facility as so amended, the “New Term Loan B Facility”). The incremental term loans mature on February 13, 2019 and began amortizing quarterly on September 30, 2012 at an annual rate of 1.0% and have terms that are consistent with our Term Loan B Facility. As of September 30, 2012, \$2,109.0 million in term loans was outstanding under the Term Loan A Facility and \$1,265.9 million in term loans was outstanding under the New Term Loan B Facility.

On June 29, 2012, we distributed a notice of redemption to holders of our 5.375% Convertible Notes to redeem all of the outstanding 5.375% Convertible Notes on August 2, 2012 (the “Redemption Date”), at a redemption price of 100% of the outstanding aggregate principal amount, plus accrued and unpaid interest to, but excluding, the Redemption Date. On August 1, 2012, all of the outstanding 5.375% Convertible Notes were converted by holders, and on September 5, 2012, they were settled 100% in cash in the aggregate amount of \$62.1 million. Immediately prior to settlement, the carrying amount of the liability component of the 5.375% Convertible Notes was \$16.0 million and the estimated fair value of the liability component was \$18.3 million. The difference of \$2.3 million between the carrying amount and the estimated fair value of the liability component was recognized as a loss on extinguishment of debt in the three-month period ended September 30, 2012. The difference of \$43.8 million between the estimated fair value of the liability component of \$18.3 million and the aggregate purchase price of \$62.1 million resulted in charges to additional paid-in capital and accumulated deficit of \$0.2 million and \$43.6 million, respectively.

In connection with the pending Medicis acquisition, we and our subsidiary, Valeant, have entered into a commitment letter, dated as of September 2, 2012, with JP Morgan Chase Bank, N.A. and J.P. Morgan Securities LLC to provide up to \$2.75 billion through a bridge loan facility. On September 11, 2012, the Company and Valeant entered into an amended and restated commitment letter with JPMorgan Chase Bank, N.A., J.P. Morgan Securities LLC and other financial institutions. Subsequently, we obtained \$2.75 billion in financing through a syndication of \$1.0 billion in incremental term B loans under our existing senior secured credit facilities (the “Incremental Term Loan B”) and the issuance by VPI Escrow Corp., a newly formed wholly owned Delaware subsidiary of Valeant, of the 6.375% senior notes due 2020 (the “2020 Senior Notes”) in the aggregate principal amount of \$1.75 billion. Consequently, the commitment under the commitment letter to provide the bridge loan facility is not expected to be utilized, but is still in place and will terminate upon the earlier of (i) the closing of the acquisition of Medicis, (ii) the abandonment or termination of an Agreement and Plan of Merger (“Merger Agreement”) with Medicis, and (iii) March 4, 2013. The proceeds from the issuance of the Incremental Term Loan B and the 2020 Senior Notes (described below) will be utilized to fund (i) the transactions contemplated by the Merger Agreement with Medicis, (ii) Medicis’ obligation to pay the conversion consideration with respect to, or repurchase of, the Medicis convertible senior notes, and (iii) transaction costs and expenses. The Incremental Term Loan B has a maturity of seven years from the date of the Medicis acquisition, will amortize quarterly at an annual rate of 1.0% and has terms that are consistent with our existing New Term Loan B Facility. Repayments of outstanding loans under the Incremental Term Loan B in connection with certain refinancings on or prior to the first anniversary date from the Medicis acquisition will require a prepayment premium of 1.0% of such loans prepaid. The Incremental Term Loan B is expected to close in the first

half of 2013, concurrent with the Medicis acquisition. Refer to the discussion below for further details pertaining to the issuance of the 2020 Senior Notes.

On September 11, 2012, we and certain of our subsidiaries as guarantors, entered into a joinder agreement to increase the amount of commitments under the Revolving Credit Facility by \$175.0 million to \$450.0 million (the Revolving Credit Facility as so amended, the “New Revolving Credit Facility” and together with the New Term Loan B Facility and the Term Loan A Facility, the “Senior Secured Credit Facilities”). As of September 30, 2012, we had \$25.0 million in revolving loans outstanding under the New Revolving Credit Facility.

On September 25, 2012, our subsidiary in Brazil entered into an uncommitted unsecured line of credit with a financial institution for total availability of R\$21.9 million (\$10.8 million at September 30, 2012). This uncommitted line of credit expires on November 26, 2012, is renewable and bears an interest rate of the Interbank Deposit Certificate Rate plus 0.23% per month. As of September 30, 2012, we had \$9.6 million of borrowings under this line of credit, with \$1.2 million of remaining availability.

On October 2, 2012, we and certain of our subsidiaries, as guarantors, entered into a joinder agreement to reprice and refinance the then outstanding New Term Loan B Facility (“Repricing Transaction”) by issuance of \$1.3 billion in incremental term loans (the “Repriced Term Loan B Facility”). The New Term Loan B Facility was repaid with the proceeds from the Repriced Term Loan B Facility. The applicable margin for the incremental term loans under the Repriced Term Loan B Facility is 2.25% with respect to base rate loans and 3.25% with respect to LIBO rate loans, subject to a 1.0% LIBO rate floor. The Repriced Term Loan B Facility mature on February 13, 2019, begin amortizing quarterly on March 31, 2013 at an annual rate of 1.0% and have other terms consistent with the New Term Loan B Facility. In connection with the Repricing Transaction, we paid a prepayment premium of approximately \$13.0 million, equal to 1.0% of the refinanced term loans under the New Term Loan B Facility. In addition, repayments of outstanding loans under the Repriced Term Loan B Facility in connection with certain refinancings on or prior to October 2, 2013 require a prepayment premium of 1.0% of such loans prepaid.

On October 4, 2012, VPI Escrow Corp., (the “Issuer”), a newly formed wholly owned subsidiary of Valeant issued \$1,750.0 million aggregate principal amount of the 2020 Senior Notes in a private placement. The 2020 Senior Notes will mature on October 15, 2020. The 2020 Senior Notes will accrue interest at the rate of 6.375% per year, which will be payable semi-annually in arrears on April 15 and October 15, commencing on April 15, 2013. In connection with the issuance of the 2020 Senior Notes, we incurred approximately \$26.3 million in underwriting fees, which are recognized as debt issue discount, which resulted in the net proceeds of \$1,723.7 million. The proceeds from the issuance of the 2020 Senior Notes will be utilized to fund (i) the transactions contemplated by the Merger Agreement, (ii) Medicis’ obligation to pay the conversion consideration with respect to, or repurchase of, its outstanding notes, and (iii) transaction costs and expenses in connection with the Merger Agreement. An amount equal to the gross proceeds, together with cash in an amount sufficient to fund the special mandatory redemption payment (when and if due) were deposited into a segregated escrow account and will be held as collateral security for the Issuer’s obligations in respect of the 2020 Senior Notes during the escrow period. If (1) the Medicis acquisition is not completed on or before January 15, 2013, or such later date as may be requested by us or Valeant pursuant to the escrow agreement, but in any event not later than June 3, 2013, or (2) prior to June 3, 2013, the Merger Agreement is terminated or we or Valeant determines that the Medicis acquisition will not otherwise be pursued, then the Issuer will be required to redeem the 2020 Senior Notes at 100% of the issue price, plus accrued and unpaid interest to, but excluding the redemption date. At the time of the closing of the Medicis acquisition, (1) the Issuer will merge with and into Valeant, with Valeant continuing as the surviving corporation, (2) Valeant will assume all of the Issuer’s obligations under the 2020 Senior Notes and the related indenture and (3) the funds held in escrow will be released to us and will be used to finance the Medicis acquisition as described above.

Concurrently with the offering of the 2020 Senior Notes on October 4, 2012, Valeant issued \$500.0 million aggregate principal amount of 6.375% senior notes due 2020 (the “6.375% Senior Notes”) in a private placement. The 6.375% Senior Notes will mature on October 15, 2020. The 6.375% Senior Notes will accrue interest at the rate of 6.375% per year, which will be payable semi-annually in arrears on April 15 and October 15, commencing on April 15, 2013. In connection with the issuance of the 6.375% Senior Notes, we incurred approximately \$7.5 million in underwriting fees, which are recognized as debt issue discount, which resulted in the net proceeds of \$492.5 million. Valeant intends to use the net proceeds from the issuance of the 6.375% Senior Notes for general corporate purposes, including potential acquisitions.

The senior notes issued by Valeant are senior unsecured obligations of Valeant and are jointly and severally guaranteed on a senior unsecured basis by the Company and each of its subsidiaries (other than Valeant) that is a guarantor under its other senior notes. Certain of the future subsidiaries of Valeant and the Company may be required to guarantee the senior notes. The non-guarantor subsidiaries had total assets of \$3,598.2 million and total liabilities of \$1,074.5 million as of September 30, 2012, and net revenues of \$660.0 million and earnings from operations of

\$10.8 million for the nine-month period ended September 30, 2012.

Our primary sources of liquidity are our cash flows from operations and issuances of long-term debt securities. We believe that existing cash and cash generated from operations and funds available under the Senior Secured Credit Facilities will be sufficient to meet our current liquidity needs. We have no material commitments for expenditures related to property, plant and equipment. Since part of our business strategy is to expand through strategic acquisitions, we may be required to seek additional debt financing, issue additional equity securities or sell assets, as necessary, to finance future acquisitions or for other general corporate purposes. In January 2012, Moody's Investor Services ("Moody's") downgraded our senior secured debt rating from Baa3 to Ba1. At the same time, Moody's reaffirmed our Corporate Family rating (Ba3) and our senior unsecured debt

rating (B1). On September 5, 2012, following the announcement of our planned acquisition of the Medicis, Standard & Poor's reaffirmed our Corporate Family rating (BB) and our senior unsecured debt rating (BB-). On September 13, 2012, Moody's reaffirmed our Corporate Family rating (Ba3) and our senior unsecured debt rating (B1). A further downgrade would increase our cost of borrowing and may negatively impact our ability to raise additional debt capital.

As of September 30, 2012, we were in compliance with all of our covenants related to our outstanding debt. As of September 30, 2012, our short-term debt maturities consisted of \$207.7 million, in the aggregate, in term loans outstanding under the Term Loan A Facility and the New Term Loan B Facility, due in quarterly installments and borrowings of \$9.6 million under our uncommitted unsecured line of credit. We believe our existing cash and cash generated from operations will be sufficient to cover these short-term debt maturities as they become due.

Securities Repurchase Program

On November 4, 2010, we announced that the board of directors had approved a securities repurchase program, pursuant to which we were able to make purchases of our common shares, convertible notes and/or senior notes, from time to time, up to an aggregate maximum value of \$1.5 billion, subject to any restrictions in our financing agreements and applicable law. On August 29, 2011, we announced that the board of directors had approved an increase of \$300.0 million under our securities repurchase program (the "Securities Repurchase Program"). As a result, under the Securities Repurchase Program, we were able to repurchase up to \$1.8 billion of our convertible notes, senior notes, common shares and/or other notes or shares that may be issued prior to the completion of the program. The Securities Repurchase Program terminated on November 7, 2011.

In the nine-month period ended September 30, 2011, under the Securities Repurchase Program, we repurchased \$177.2 million aggregate principal amount of the 5.375% Convertible Notes for an aggregate purchase price of \$549.9 million.

In March 2011, under the Securities Repurchase Program, we repurchased 7,366,419 of our common shares from ValueAct Capital Master Fund, L.P. ("ValueAct") for an aggregate purchase price of \$274.8 million. These common shares were subsequently cancelled. As of September 30, 2012, we had recorded an estimated \$24.2 million receivable from ValueAct in relation to withholding taxes on the repurchase. In May 2011, a subsidiary of the Company purchased 4,498,180 of our common shares from ValueAct for an aggregate purchase price of \$224.8 million. In June 2011, we purchased these common shares from our subsidiary and the common shares were subsequently cancelled. G. Mason Morfit is a partner and a member of the Management Committee of ValueAct Capital. Mr. Morfit joined the Company's board of directors on September 28, 2010, effective with the Merger, and prior thereto served as a member of Valeant's board of directors since 2007. ValueAct Capital is the general partner and the manager of ValueAct. In addition, in the three-month period ended September 30, 2011, under the Securities Repurchase Program, we repurchased 1,800,000 of our common shares for an aggregate purchase price of \$74.5 million. These common shares were subsequently cancelled.

New Securities Repurchase Program

On November 3, 2011, we announced that our board of directors had approved a new securities repurchase program (the "New Securities Repurchase Program"). Under the New Securities Repurchase Program, which commenced on November 8, 2011, we may make purchases of up to \$1.5 billion of our convertible notes, senior notes, common shares and/or other future debt or shares, subject to any restrictions in our financing agreements and applicable law. The New Securities Repurchase Program will terminate on November 7, 2012 or at such time as we complete our purchases. The amount of securities to be purchased and the timing of purchases under the New Securities Repurchase Program may be subject to various factors, which may include the price of the securities, general market conditions, corporate and regulatory requirements, alternate investment opportunities and restrictions under our financing agreements and applicable law. The securities to be repurchased will be funded using our cash resources.

In the nine-month period ended September 30, 2012, under the New Securities Repurchase Program, we repurchased \$1.1 million principal amount of the 5.375% Convertible Notes for an aggregate purchase price of \$4.0 million.

In addition, in the nine-month period ended September 30, 2012, under the New Securities Repurchase Program, we repurchased 5,257,454 of our common shares for an aggregate purchase price of \$280.7 million. These common shares were subsequently cancelled.

Since the commencement of the New Securities Repurchase Program through October 31, 2012, we have repurchased \$442.5 million, in the aggregate, of our convertible notes, senior notes and common shares.

OFF-BALANCE SHEET ARRANGEMENTS AND CONTRACTUAL OBLIGATIONS

We have no off-balance sheet arrangements that have a material current effect or that are reasonably likely to have a material future effect on our financial condition, changes in financial condition, revenue, expenses, results of operations, liquidity, capital expenditures, or capital resources.

The following table summarizes contractual obligations related to short-term borrowings and long-term debt, including interest as of September 30, 2012:

	Payments Due by Period				
	Total	2012	2013 and 2014	2015 and 2016	Thereafter
(\$ in 000s)	\$	\$	\$	\$	\$
Short-term borrowings and long-term debt obligations, including interest ⁽¹⁾	10,293,776	171,967	1,497,372	3,122,223	5,502,214

(1) Expected interest payments assume repayment of the principal amount of the related debt obligations at maturity. As a result of an agreement entered in the third quarter of 2012, the future milestones that we may be required to pay with respect to the acquisition of Princeton Pharma Holdings LLC, and its wholly-owned subsidiary, Aton Pharma, Inc. in 2010, have been reduced by \$190.0 million, from up to \$390.0 million to up to \$200.0 million. The future milestones are predominantly based upon the achievement of approval and commercial targets for a pipeline product. There have been no other material changes outside the normal course of business to the items specified in the contractual obligations table and related disclosures under the heading “Off-Balance Sheet Arrangements and Contractual Obligations” in the annual MD&A contained in the 2011 Form 10-K.

OUTSTANDING SHARE DATA

Our common shares are listed on the TSX and the NYSE under the ticker symbol “VRX”.

As of October 31, 2012, we had 304,823,911 issued and outstanding common shares, which includes 1,764,540 common shares issuable in connection with the Merger. In addition, we had 9,364,746 stock options and 2,049,294 time-based RSUs that each represent the right of a holder to receive one of the Company’s common shares, and 1,640,320 performance-based RSUs that represent the right of a holder to receive up to 400% of the RSUs granted. A maximum of 3,366,896 common shares could be issued upon vesting of the performance-based RSUs outstanding.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Critical accounting policies and estimates are those policies and estimates that are most important and material to the preparation of our consolidated financial statements, and which require management’s most subjective and complex judgment due to the need to select policies from among alternatives available, and to make estimates about matters that are inherently uncertain. There have been no material changes to our critical accounting policies and estimates disclosed under the heading “Critical Accounting Policies and Estimates” in the annual MD&A contained in the 2011 Form 10-K.

NEW ACCOUNTING STANDARDS

Adoption of New Accounting Standards

Information regarding the adoption of new accounting standards is contained in note 2 to the unaudited consolidated financial statements.

Recently Issued Accounting Standards, Not Adopted as of September 30, 2012

In July 2012, the Financial Accounting Standards Board ("FASB") issued guidance intended to simplify indefinite-lived intangible impairment testing, by allowing an entity to first assess qualitative factors to determine whether it is "more likely than not" that the fair value of an asset is less than its carrying amount as a basis for determining whether it is necessary to perform a quantitative impairment test. The more-likely-than-not threshold is defined as having a likelihood of more than 50%. This guidance is effective for annual and interim tests performed for fiscal years beginning after September 15, 2012. The adoption of this guidance is not expected to have a significant impact on our financial position or results of operations.

FORWARD-LOOKING STATEMENTS

Caution regarding forward-looking information and statements and "Safe-Harbor" statements under the U.S. Private Securities Litigation Reform Act of 1995:

To the extent any statements made in this MD&A contain information that is not historical, these statements are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and may be forward-looking information within the meaning defined under applicable Canadian securities legislation (collectively, "forward-looking statements").

These forward-looking statements relate to, among other things: the expected benefits of our acquisitions (including the Medicis acquisition) and other transactions, such as cost savings, operating synergies and growth potential of the Company; business plans and prospects, prospective products or product approvals, future performance or results of current and anticipated products; the impact of healthcare reform; exposure to foreign currency exchange rate changes and interest rate changes; the outcome of contingencies, such as certain litigation and regulatory proceedings; general market conditions; and our expectations regarding our financial performance, including revenues, expenses, gross margins, liquidity and income taxes.

Forward-looking statements can generally be identified by the use of words such as "believe", "anticipate", "expect", "intend", "estimate", "plan", "continue", "will", "may", "could", "would", "target", "potential" and other similar expressions. In addition, statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. These forward-looking statements may not be appropriate for other purposes. Although we have indicated above certain of these statements set out herein, all of the statements in this Form 10-Q that contain forward-looking statements are qualified by these cautionary statements. Although we believe that the expectations reflected in such forward-looking statements are reasonable, such statements involve risks and uncertainties, and undue reliance should not be placed on such statements. Certain material factors or assumptions are applied in making forward-looking statements, including, but not limited to, factors and assumptions regarding the items outlined above. Actual results may differ materially from those expressed or implied in such statements. Important factors that could cause actual results to differ materially from these expectations include, among other things, the following:

- our ability to compete against companies that are larger and have greater financial, technical and human resources than we do, as well as other competitive factors, such as technological advances achieved, patents obtained and new products introduced by our competitors;
- the challenges and difficulties associated with managing the rapid growth of our Company and a large, complex business;
- our ability to identify, acquire and integrate acquisition targets and to secure and maintain third-party research, development, manufacturing, marketing or distribution arrangements;
- our ability to close transactions (including the Medicis acquisition) on a timely basis or at all;
- factors relating to the integration of the companies, businesses and products acquired by the Company such as the time and resources required to integrate such companies, businesses and products, the difficulties associated with such integrations, and the achievement of the anticipated benefits from such integrations;
- our eligibility for benefits under tax treaties and the continued availability of low effective tax rates for the business profits of certain of our subsidiaries;

our future cash flow, our ability to service and repay our existing debt and our ability to raise additional funds, if needed, in light of our current and projected levels of operations, acquisition activity and general economic conditions;

- our substantial debt and debt service obligations and their impact on our financial condition and results of operations;
- the uncertainties associated with the acquisition and launch of new products, including, but not limited to, the acceptance and demand for new pharmaceutical products, and the impact of competitive products and pricing;
- the difficulty in predicting: the expense, timing and outcome within our legal and regulatory environment, including, but not limited to, the U.S. Food and Drug Administration, the Canadian Therapeutic Products Directorate and European, Asian, Brazilian and Australian regulatory approvals; legal and regulatory proceedings and settlements thereof; the protection afforded by our patents and other intellectual and proprietary property; successful generic challenges to our products; and infringement or alleged infringement of the intellectual property of or by others;
- the success of preclinical and clinical trials for our drug development pipeline or delays in clinical trials that adversely impact the timely commercialization of our pipeline products, which could lead to material impairment charges;
- the results of management reviews of our research and development portfolio, conducted periodically and in connection with certain acquisitions, the decisions from which could result in terminations of specific projects which, in turn, could lead to material impairment charges;
- the results of continuing safety and efficacy studies by industry and government agencies;
- our ability to obtain components, raw materials or bulk or finished products supplied by third parties;
- the disruption of delivery of our products and the routine flow of manufactured goods;
- the seasonality of sales of certain of our products;
- the introduction of products that compete against our products that do not have patent or data exclusivity rights, which products represent a significant portion of our revenues;
- the risks associated with the international scope of our operations, including our presence in emerging markets and the challenges we face when entering new geographic markets;
- adverse global economic conditions and credit market uncertainty in European and other countries in which we do business;
- economic factors over which the Company has no control, including changes in inflation, interest rates, foreign currency rates, and the potential effect of such factors on revenues, expenses and resulting margins;
- our ability to retain, motivate and recruit executives and other key employees;
- the outcome of legal proceedings, investigations and regulatory proceedings;
- the risk that our products could cause, or be alleged to cause, personal injury, leading to withdrawals of products from the market;
- the impacts of the Patient Protection and Affordable Care Act and the Food and Drug Administration Safety and Innovation Act in the U.S. and other legislative and regulatory reforms in the countries in which we operate; and other risks detailed from time to time in our filings with the U.S. Securities and Exchange Commission (the “SEC”) and the Canadian Securities Administrators (the “CSA”), as well as our ability to anticipate and manage the risks associated with the foregoing.

Additional information about these factors and about the material factors or assumptions underlying such forward-looking statements may be found elsewhere in this MD&A, as well as under Item 1A. of Part II of this Form 10-Q and under Item 1A. “Risk Factors” of the Company’s 2011 Form 10-K, and in the Company’s other filings with the SEC and CSA. We caution that the foregoing list of important factors that may affect future results is not exhaustive. When relying on our forward-looking statements to make decisions with respect to the Company, investors and others should carefully consider the foregoing factors and other uncertainties and potential events. These forward-looking statements speak only as of the date made. We undertake no obligation to update any of these forward-looking statements to reflect events or circumstances after the date of this Form 10-Q or to reflect actual outcomes.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to our exposures to market risks as disclosed under the heading “Quantitative and Qualitative Disclosures About Market Risks” in the annual MD&A contained in the 2011 Form 10-K.

Interest Rate Risk

As of September 30, 2012, we had \$4,250.1 million and \$3,471.5 million principal amount of issued fixed rate debt and variable rate debt, respectively, that requires U.S. dollar repayment. The estimated fair value of our issued fixed rate debt as of September 30, 2012 was \$4,480.1 million. If interest rates were to increase or decrease by 100 basis-points, the fair value of our long-term debt would decrease or increase by approximately \$235.5 million. We are subject to interest rate risk on our variable rate debt as changes in interest rates could adversely affect earnings and cash flows. A 100 basis-points increase in interest rates would have an annualized pre-tax effect of approximately \$24.4 million in our consolidated statements of income (loss) and cash flows, based on current outstanding borrowings and effective interest rates on our variable rate debt. While our variable rate debt may impact earnings and cash flows as interest rates change, it is not subject to changes in fair value.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our management, with the participation of our CEO and Chief Financial Officer (“CFO”), has evaluated the effectiveness of our disclosure controls and procedures as of September 30, 2012. Based on this evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of September 30, 2012.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal controls over financial reporting that occurred during the three-month period ended September 30, 2012 that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

For information concerning legal proceedings, reference is made to note 19 to the unaudited consolidated financial statements included under Part I, Item 1, of this Quarterly Report on Form 10-Q.

Item 1A. Risk Factors

Except as set forth below, there have been no material changes to the risk factors disclosed in Part I, Item 1A. of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

To service our debt, we will require a significant amount of cash. Our ability to generate cash depends on many factors beyond our control, and any failure to meet our debt service obligations could harm our business, financial condition and results of operations.

We have a significant amount of indebtedness. Our ability to satisfy our debt obligations will depend principally upon our future operating performance. As a result, prevailing economic conditions and financial, business and other factors, many of which are beyond our control, will affect our ability to make payments on our debt. If we do not generate sufficient cash flow to satisfy our debt service obligations, we may have to undertake alternative financing plans, such as refinancing or restructuring our debt, selling assets, reducing or delaying capital investments or seeking to raise additional capital. Our ability to restructure or refinance our debt will depend on the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. Our inability to generate sufficient cash flow to satisfy our debt service obligations or to refinance our obligations on commercially reasonable terms, would have an adverse effect, which could be material, on our business, financial position, results of operations and cash flows.

Repayment of our indebtedness is dependent on the generation of cash flow by our subsidiaries and their ability to make such cash available to us, by dividend, debt repayment or otherwise. Our subsidiaries may not be able to, or may not be permitted to, make distributions to enable us to make payments in respect of our indebtedness. Each subsidiary is a distinct legal entity and, under certain circumstances, legal and contractual restrictions may limit our ability to obtain cash from our subsidiaries. Certain non-guarantor subsidiaries include non-U.S. subsidiaries that may be prohibited by law or other regulations from distributing funds to us and/or we may be subject to payment of repatriation taxes and withholdings. In the event that we do not receive distributions from our subsidiaries or receive cash via cash repatriation strategies for services rendered and intellectual property, we may be unable to make required principal and interest payments on our indebtedness.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On November 3, 2011, the Company announced that its board of directors had approved a new securities repurchase program (the "New Securities Repurchase Program"). Under the New Securities Repurchase Program, which commenced on November 8, 2011, the Company may make purchases of up to \$1.5 billion of its convertible notes, senior notes, common shares and/or other future debt or shares, subject to any restrictions in our financing agreements and applicable law. The New Securities Repurchase Program will terminate on November 7, 2012 or at such time as the Company completes its purchases.

In the three-month period ended September 30, 2012, the Company did not make any purchases of its convertible notes, senior notes or common shares under the New Securities Repurchase Program.
