Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 11-K

We have audited the accompanying statements of net assets available for benefits of Buckeye Retirement Plan as of June 30, 2005 and 2004, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Buckeye Retirement Plan at June 30, 2005 and 2004, and the changes in its net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule of assets held for investment purposes at end of year as of June 30, 2005 is presented for the purpose of complying with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, and is not a required part of the basic financial statements. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the 2005 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

BUCKEYE RETIREMENT PLAN

Notes to Financial Statements  
June 30, 2005 and 2004

Note 1 - Description of Plan

The following description of Buckeye Retirement Plan provides only general information. Readers should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Buckeye Retirement Plan (the "Plan") is a defined contribution plan covering all full-time employees of Buckeye Technologies Inc. and its wholly-owned subsidiaries (collectively the "Company"). Employees, as defined in the Plan Agreement, are eligible upon completion of 1,000 hours of service during their first year of employment or during any plan year (July 1 to June 30). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may defer up to 100% of their annual compensation and may also contribute a portion or all of incentive compensation, subject to Internal Revenue Service limitations. Effective July 1, 2004, the Plan was restated to discontinue the premium contribution referred to below and to allow the Company to make matching contributions to the Plan equal to 50% of the first 4% of compensation that a participant contributes to the Plan not to exceed \$2,000.

Foundation contributions, as defined in the Plan Agreement, made annually by the Company are computed based upon the following formula:

$$\text{Contribution} = (A+B)C$$

A = 1%, B = .5% multiplied by number of years service not to exceed twenty (20) years. C = Plan year compensation. The minimum contribution is 1 1/2% of eligible compensation and

## Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 11-K

the maximum contribution is 11% of eligible compensation.

Foundation contributions are generally funded in the six month period following the Plan's year end.

Prior to July 1, 2004, the Company made a premium contribution, determined annually by the Board of Directors, that was based upon the Company's financial performance. As required by the Plan Agreement, subsequent to June 30, 1996, all Company premium contributions were invested in the common stock of Buckeye Technologies Inc. Existing premium contribution account balances based on premium contributions made in prior years shall continue to be held and invested in accordance with the terms of the Plan. The Company did not make a premium contribution to the Plan for the year ended June 30, 2004.

### BUCKEYE RETIREMENT PLAN

Notes to Financial Statements (Continued)  
June 30, 2005 and 2004

Note 1 - Description of Plan (continued)

#### Participant accounts

Each participant's account is credited with the participant's deferral contribution, the Company's matching contribution, and an allocation of the Company's foundation contributions, plus a proportionate interest in the investment earnings or losses of the funds in which the contributions are invested. Allocations are based upon the participant's earnings or account balances, as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

#### Vesting

Participants are immediately vested in their deferral contributions plus earnings thereon. Participants vest in the Company matching contributions and related earnings at the rate of 20% per year, with 100% vesting after completion of five years of credited service. Participants are 100% vested in the Company foundation contributions and related earnings after completion of five years of credited service. In the event of death, disability, normal retirement age (65), or if the Plan is discontinued, participants become 100% vested in all account balances.

#### Payment of benefits

Participant's may choose to receive account distributions either in the form of a lump sum payment or installments over a period of time as defined in the Plan Agreement. However, if the participant's vested balance does not exceed \$1,000, the Plan may distribute funds in the form of a lump sum payment without the consent of the participant. Prior to March 28, 2005, the minimum payable distribution balance was \$5,000.

#### Forfeitures

If an employee terminates before his or her account has become fully

## Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 11-K

vested, such portion of the account is forfeited. Participant forfeitures are used to reduce future employer contributions. Forfeitures used to reduce employer contributions totaled \$51,047 in 2005 and \$44,074 in 2004.

### Plan termination

Although it has not expressed any intent to do so, the Company has the right to modify or terminate the Plan at any time subject to the provisions of ERISA and the Plan Agreement. In the event of termination, the Plan provides that all affected participants' interests will become fully vested and nonforfeitable.

### Note 7 - Tax status

The Plan has received a determination letter from the Internal Revenue Service stating that the Plan qualifies under the applicable sections of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law.
