**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(Unaudited)**

**Note 1 - Basis of Presentation**

Substantially all of the assets, liabilities and operations of LCNB Corp. ("LCNB") are attributable to its wholly-owned subsidiaries, LCNB National Bank (the "Bank") and Dakin Insurance Agency, Inc. ("Dakin"). The accompanying unaudited consolidated financial statements include the accounts of LCNB, the Bank, and Dakin.

The unaudited interim consolidated financial statements, which have been reviewed by J.D. Cloud & Co. L.L.P., LCNB's independent registered public accounting firm, in accordance with standards established by the Public Company Accounting Oversight Board, as indicated by their report included herein and which does not express an opinion on those statements, have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and the rules and regulations of the Securities and Exchange Commission (the "SEC"). Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, the unaudited interim consolidated financial statements include all adjustments (consisting of normal, recurring accruals) considered necessary for a fair presentation of financial position, results of operations, and cash flows for the interim periods, as required by Regulation S-X, Rule 10-01.

Share and per share data as of March 31, 2007 have been restated to reflect a 100% stock dividend, accounted for as a stock split, declared by the Board of Directors on April 10, 2007 and paid on May 10, 2007 to shareholders of record on April 25, 2007.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Results of operations for the three months ended March 31, 2008 are not necessarily indicative of the results to be expected for the full year ending December 31, 2008. These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements, accounting policies and financial notes thereto included in LCNB's 2007 Form 10-K filed with the SEC.

**Note 2 Acquisitions**

At the close of business on December 20, 2007, LCNB acquired 100% of the outstanding common stock of Sycamore National Bank ( Sycamore ), a commercial bank with two offices located in Cincinnati, Ohio, in a stock and cash transaction totaling approximately \$9.6 million. LCNB incurred an additional \$256,000 in transaction costs related to this acquisition. At the time of the acquisition, Sycamore was merged with and into the Bank and Sycamore's two offices became offices of the Bank. The acquisition of Sycamore was accounted for using the purchase accounting method and its results of operations are included in the consolidated financial results of LCNB from the acquisition date. This acquisition added approximately \$42.8 million in loans, \$5.7 million in goodwill, \$343,000 in core deposit intangibles, and \$44.4 million in deposits to LCNB's consolidated balance sheet. The core deposit intangible is being amortized on a straight-line basis over six years.

The change in the carrying amount of goodwill, all of which is related to the Sycamore acquisition, during the first quarter, 2008 is as follows (thousands):

Balance, December 31, 2007	\$	5,742
Net adjustments		(49)
Balance, March 31, 2008	\$	5,693

The net adjustments relate primarily to finalization of various liabilities established at the time of the acquisition for certain merger related costs related to severance and personnel related charges, professional fees, contract termination costs, systems conversion, and related charges.

The total liability established at the time of acquisition was approximately \$435,000. The amount utilized during 2007 was approximately \$27,000 and an additional \$362,000 was utilized during the first quarter, 2008.

The following information presents the unaudited pro forma results of operations for the three months ended March 31, 2007 as though the acquisition had occurred on January 1, 2007. The pro forma data was derived by combining the historical consolidated financial information of LCNB and Sycamore using the purchase method of accounting for

business combinations. The pro forma results do not necessarily indicate results that would have been obtained had the acquisition actually occurred on January 1, 2007 or results that may be achieved in the future (thousands, except per share data).

Basic earnings per share is calculated by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share is adjusted for the dilutive effects of stock options. The diluted average number of common shares outstanding has been increased for the assumed exercise of stock options with proceeds used to purchase treasury shares at the average market price for the period. The computations were as follows for the three months ended March 31, 2008 and 2007 (thousands, except share and per share data):

**Note 4 - Investment Securities (continued)**

Information concerning securities with gross unrealized losses at March 31, 2008, aggregated by length of time that individual securities have been in a continuous loss position, is as follows (thousands):

	<u>March 31, 2008</u>			
	<u>Less than Twelve Months</u>		<u>Twelve Months or Greater</u>	
	Fair	Unrealized	Fair	Unrealized
	Value	Losses	Value	Losses
U.S. Agency mortgage-				
backed securities	\$ 1,987	22	6,221	65
Municipal securities:				
Non-taxable	5,534	26	959	2
Taxable	-	-	1,334	10
Other debt securities	500	5	-	-
	\$ 8,021	53	8,514	77

The unrealized losses are primarily due to increases in market interest rates. Unrealized losses on securities at March 31, 2008 have not been recognized in income currently because management has the intent and ability to hold the securities for a period of time sufficient to allow for any anticipated recovery in fair values. Therefore, no individual declines are deemed to be other than temporary.

LCNB adopted Statement of Financial Accounting Standards ( SFAS ) No. 157, *Fair Value Measurements*, and SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, on January 1, 2008. SFAS No. 159 permits, but does not require, companies to measure many financial instruments and certain other items at fair value. The decision to elect the fair value option is made individually for each instrument and is irrevocable once made. Changes in fair value will be recorded in earnings. LCNB has not selected any financial instruments for the fair value option as of March 31, 2008.

SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosure requirements about fair value measurements. It establishes a fair value hierarchy to prioritize the inputs to valuation techniques used to measure fair value. The three broad input levels defined by SFAS No. 157 are:

- 

Level 1 quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the reporting date;

- 

Level 2 inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly; and

- 

Level 3 - inputs that are unobservable for the asset or liability.

## LCNB CORP. AND SUBSIDIARIES

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Continued)

**Note 4 - Investment Securities (continued)**

Level 2 inputs may include quoted prices for similar assets in active markets, quoted prices for identical assets or liabilities in markets that are not active, inputs other than quoted prices (such as interest rates or yield curves) that are observable for the asset or liability, and inputs that are derived from or corroborated by observable market data.

All of LCNB's financial debt securities are classified as available-for-sale as described in SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*. The securities are reported at fair value with unrealized holding gains and losses reported net of income taxes in accumulated other comprehensive income. Fair value for U.S. Treasury Notes is determined based on market quotations (level 1). Fair value for most of the other investment securities is calculated using the discounted cash flow method for each security. The discount rates for these cash flows are estimated using rates observed in the market (level 2). The following table summarizes the valuation of LCNB's available-for-sale securities by the input levels defined by SFAS No. 157 as of March 31, 2008 (thousands):

	Fair Value Measurements 3/31/08	Fair Value Measurements at Reporting Date Using Quoted Prices		
		in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Charge-offs for the three months ended March 31, 2008 and 2007 primarily consisted of consumer loans and checking and NOW account overdrafts.

Non-accrual, past-due, and restructured loans as of March 31, 2008 and December 31, 2007 were as follows (thousands):

March 31, 2008	December 31, 2007
-------------------	----------------------

Edgar Filing: LCNB CORP - Form 10-Q

Non-accrual loans	\$ 184	120
Past-due 90 days or more and still accruing	188	247
Restructured loans	2,220	2,222
Total	\$ 2,592	2,589

Non-accrual loans at March 31, 2008 and 2007 consisted of real estate mortgage loans. Loans past-due 90 days or more and still accruing interest at March 31, 2008 and 2007 consisted of consumer and residential mortgage loans.

**Note 5 Loans (continued)**

Restructured loans at March 31, 2008 and December 31, 2007 consisted of a commercial loan secured by commercial real estate and a matured home equity line of credit currently being paid under a forbearance agreement. The commercial loan secured by commercial real estate had a principal balance of \$2,197,000 and \$2,198,000 at March 31, 2008 and December 31, 2007, respectively. It is classified as restructured because of LCNB's agreement during the second quarter, 2007 to waive the required principal payments for a period of one year, pending the sale of the underlying real estate collateral.

Real estate acquired through foreclosure was \$84,000 and \$853,000 at March 31, 2008 and December 31, 2007, respectively, and is included in "other assets" in the consolidated balance sheets. Real estate acquired at March 31, 2008 consisted of one single-family residential home. Real estate acquired at December 31, 2007 consisted of the residential home already mentioned and another single-family residential home, which was sold during the first quarter, 2008.

Loans sold to and serviced for others are not included in the accompanying balance sheets. The unpaid principal balances of those loans at March 31, 2008 and December 31, 2007 were \$41,791,000 and \$43,005,000, respectively. Loans sold to the Federal Home Loan Mortgage Corporation during the three months ended March 31, 2008 and 2007 totaled \$643,000 and \$642,000, respectively.

**Note 6 Borrowings**

LCNB has a \$5 million advance from the Federal Home Loan Bank of Cincinnati. The term of the advance is ten years and interest is payable monthly at a fixed rate of 5.25%. The loan is secured by a blanket pledge of LCNB's 1-4 family first lien mortgage loans.

At March 31, 2008, short-term borrowings consisted of U.S. Treasury demand note borrowings of approximately \$564,000. The interest rate on the U.S. Treasury demand note borrowings is variable and was 1.98% at March 31, 2008.

At December 31, 2007, short-term borrowings of \$1,459,000 consisted of U.S. Treasury demand note borrowings bearing a variable interest rate of 3.59%.

**Note 7 Regulatory Capital**

The Bank and LCNB are required by regulators to meet certain minimum levels of capital adequacy. These are expressed in the form of certain ratios. Capital is separated into Tier 1 capital (essentially shareholders' equity less goodwill and other intangibles) and Tier 2 capital (essentially the allowance for loan losses limited to 1.25% of risk-weighted assets). The first two ratios, which are based on the degree of credit risk in LCNB's assets, provide for weighting assets based on assigned risk factors and include off-balance sheet items such as loan commitments and stand-by letters of credit. The ratio of Tier 1 capital to risk-weighted assets must be at least 4.0% and the ratio of Total capital (Tier 1 capital plus Tier 2 capital) to risk-weighted assets must be at least 8.0%. The capital leverage ratio supplements the risk-based capital guidelines. Banks are required to maintain a minimum ratio of Tier 1 capital to adjusted quarterly average total assets of 3.0%.

**Note 7 Regulatory Capital (continued)**

For various regulatory purposes, financial institutions are classified into categories based upon capital adequacy. The highest "well-capitalized" category requires capital ratios of at least 10% for total risk-based, 6% for Tier 1 risk-based, and 5% for leverage. As of the most recent notification from their regulators, the Bank and LCNB were categorized as "well-capitalized" under the regulatory framework for prompt corrective action. Management believes that no conditions or events have occurred since the last notification that would change the Bank's or LCNB's category. A summary of the regulatory capital and capital ratios of LCNB follows (thousands):

	At March 31, 2008	At December 31, 2007
Regulatory Capital:		
Shareholders' equity	\$ 57,534	56,528
Goodwill and other intangibles	(6,574)	(6,746)
Accumulated other comprehensive income	1,201	1,825
Tier 1 risk-based capital	52,161	51,607
Eligible allowance for loan losses	2,468	2,468
Total risk-based capital	\$ 54,629	54,075
Capital ratios:		
Total risk-based (8% required)	12.61%	12.51%
Tier 1 risk-based (4% required)	12.04%	11.94%
Leverage (3% required)	8.70%	9.22%

**Note 8 - Commitments and Contingent Liabilities**

LCNB is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit. They involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the balance sheets.

Exposure to credit loss in the event of nonperformance by the other parties to financial instruments for commitments to extend credit is represented by the contract amount of those instruments.

LCNB uses the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments. Financial instruments whose contract amounts represent off-balance-sheet credit risk at March 31, 2008 and December 31, 2007 were as follows (thousands):

Unused overdraft protection amounts on		
demand and NOW accounts	10,580	9,853
Standby letters of credit	8,361	8,404
	\$ 95,089	98,275

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Unused lines of credit include amounts not drawn in line of credit loans. Commitments to extend credit and unused lines of credit generally have fixed expiration dates or other termination clauses.

Standby letters of credit are conditional commitments issued to guarantee the performance of a customer to a third party. At March 31, 2008 and December 31, 2007, outstanding guarantees of \$2.0 million and \$2.1 million, respectively, were issued to developers and contractors. These guarantees generally are fully secured and have varying maturities. In addition, LCNB has a participation in a letter of credit securing payment of principal and interest on a bond issue. The participation amount at March 31, 2008 and December 31, 2007 was approximately \$6.3 million.

LCNB evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary, is based on management's credit evaluation of the borrower. Collateral held varies, but may include accounts receivable; inventory; property, plant and equipment; residential realty; and income-producing commercial properties.

Material commitments for capital expenditures outstanding as of March 31, 2008 totaled approximately \$600,000 and related primarily to the construction of a new branch facility in Centerville, Ohio.

Management believes that LCNB has sufficient liquidity to fund its lending and capital expenditure commitments.

LCNB and its subsidiaries are parties to various claims and proceedings arising in the normal course of business. Management, after consultation with legal counsel, believes that the liabilities, if any, arising from such proceedings and claims will not be material to the consolidated financial position or results of operations.

**Note 9 - Stock Options**

Under the Ownership Incentive Plan (the "Plan"), LCNB may grant stock-based awards to eligible employees. The awards may be in the form of stock options, share awards, and/or appreciation rights. The Plan provides for the issuance of up to 200,000 common shares. As of March 31, 2008, only stock options have been granted under the Plan. Options granted to date vest ratably over a five year period and expire ten years after the date of grant. Stock options outstanding at March 31, 2008 were as follows:

Exercise	Outstanding		Exercisable		Number	Expiration
	Price	Weighted Average	Price	Weighted Average		
<u>Price</u>	<u>Number</u>	<u>Price</u>	<u>Number</u>	<u>Price</u>	<u>Exercised</u>	<u>Date</u>

At March 31, 2008, the aggregate intrinsic value (the amount by which the current market value of the underlying stock exceeds the exercise price of the option) for options outstanding at that date and that were in the money (market price greater than exercise price) was approximately \$6,000. The aggregate intrinsic value at that date for only the options that were exercisable was not applicable, since all exercisable options were not in the money. The intrinsic value changes based on changes in the market value of LCNB's stock.

Total expense related to options included in salaries and wages in the consolidated statements of income for the three months ended March 31, 2008 and 2007 was \$8,000 and \$5,000, respectively.

**Note 10 Employee Benefits**

LCNB has a noncontributory defined benefit retirement plan that covers all regular full-time employees. The components of net periodic pension cost for the three months ended March 31, 2008 and 2007, are summarized as follows (thousands):

	For the Three Months Ended March 31,

**Note 11 Recent Accounting Pronouncements**

SFAS No. 141 (revised 2007), *Business Combinations* ( SFAS No. 141R ), was issued in December, 2007 and replaces SFAS No. 141, *Business Combinations*. It applies to all transactions or other events in which an entity obtains control over one or more businesses. SFAS No. 141R retains the fundamental requirement in SFAS No. 141 that the acquisition method of accounting, previously called the purchase method of accounting, be used for all business combinations and for an acquirer to be identified for each business combination. SFAS No. 141R requires an acquirer to recognize the assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree at their fair values as of the acquisition date. This fair value approach replaces SFAS No. 141's cost-allocation process, which required that the cost of an acquisition be allocated to the individual assets acquired and liabilities assumed based on their estimated fair value. Any noncontrolling interests in the acquiree are also required to be measured at fair value. SFAS No. 141R requires acquirers to expense direct acquisition-related costs as incurred. SFAS No. 141 required that such costs be added to the cost of the acquisition. This statement makes significant changes to other accounting practices for business combinations, including but not limited to accounting for step acquisitions, accounting for contingent liabilities arising from a business combination, accounting for research and development assets acquired in a business combination, and accounting for deferred taxes acquired in a business combination.

SFAS No. 141R applies prospectively to business combinations with an acquisition date on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Early adoption is not permitted. LCNB will be required to apply SFAS No. 141R for any business combinations with an acquisition date on or after January 1, 2009.

SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51*, was issued in December, 2007 and amends Accounting Research Bulletin ( ARB ) No. 51, *Consolidated Financial Statements*. SFAS No. 160 establishes accounting and reporting standards for the noncontrolling interest, also called minority interest, in a subsidiary and for the deconsolidation of a subsidiary. This statement is to be applied prospectively as of the beginning of the fiscal year beginning on or after December 15, 2008. Early adoption is prohibited. LCNB owns 100% of its subsidiaries and is not affected by SFAS No. 160.

SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities-an amendment of FASB Statement No. 133*, was issued in March, 2008 and changes the disclosure requirements for derivative instruments and hedging activities. SFAS No. 161 is effective for financial statements, including both fiscal years and interim periods, issued after November 15, 2008. Early application is encouraged. LCNB does not own securities of the type covered by this statement and is not affected by it.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Shareholders

LCNB Corp. and subsidiaries

Lebanon, Ohio

We have reviewed the accompanying consolidated balance sheet of LCNB Corp. and subsidiaries as of March 31, 2008, and the related consolidated statements of income, comprehensive income, shareholders' equity, and cash flows for the three-month periods ended March 31, 2008 and 2007. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of LCNB Corp. and subsidiaries as of December 31, 2007, and the related consolidated statements of income, shareholders' equity, and cash flows for the year then ended (not presented herein), and in our report dated February 27, 2008, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2007, is fairly stated in all material respects, in relation to the consolidated balance sheet from which it has been derived.

**Forward Looking Statements**

Certain matters disclosed herein may be deemed to be forward-looking statements that involve risks and uncertainties.

Forward looking statements are statements that include projections, predictions, expectations or beliefs about future events or results or otherwise are not statements of historical fact. Such statements are often characterized by the use of qualifying words and their derivatives such as expects, anticipates, believes, estimates, plans, projects, or statements concerning opinions or judgments of LCNB and its management about future events. Factors that could influence the accuracy of such forward looking statements include, but are not limited to, regulatory policy changes, interest rate fluctuations, loan demand, loan delinquencies and losses, general economic conditions and other risks.

Such forward-looking statements represent management's judgment as of the current date. Actual strategies and results in future time periods may differ materially from those currently expected. LCNB disclaims, however, any intent or obligation to update such forward-looking statements. LCNB intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

**Acquisitions**

At the close of business on December 20, 2007, LCNB acquired Sycamore National Bank ( Sycamore ) in a stock and cash transaction valued at approximately \$9.6 million. Sycamore operated two full service branches in Cincinnati, Ohio, which became branches of the Bank. As of December 20, 2007, Sycamore had total assets of \$48.9 million, total loans, net of the related allowance for loan losses, of \$42.8 million, and total deposits of \$44.4 million.

Under the terms of the affiliation agreement, each share of Sycamore common stock was exchanged for, at the election of each shareholder, \$33.75 in cash, 2.444 shares of LCNB common stock, or a combination of cash and shares. A Sycamore shareholder's election to receive cash or stock was subject to allocation procedures that ensured that, in the aggregate, 50% of the shares of Sycamore common stock were exchanged for cash and 50% were exchanged for stock.

The transaction, which was accounted for under the purchase accounting method, included the recognition of approximately \$343,000 of core deposit intangibles and goodwill, as adjusted during the first quarter, 2008, of \$5,693,000. The goodwill represents the excess of the purchase price over the fair value of identifiable net assets, including the core deposit intangible. The core deposit intangible is being amortized on a straight-line basis over 6 years. Goodwill is not amortized, but is instead subject to an annual review for impairment. Sycamore's results of operations are included in the consolidated financial results of LCNB from the acquisition date.

**Results of Operations**

Earnings for the first quarter of 2008 were \$1,444,000 or \$0.22 basic and diluted earnings per share, compared to \$1,398,000 or \$0.22 basic and diluted earnings per share for the first quarter of 2007. Return on average assets for the quarters ended March 31, 2008 and 2007 were 0.96% and 1.04%, respectively. Return on average equity for the first quarter, 2008 was 10.04%, compared to 11.02% for the first quarter, 2007.

The increase in net income during the first quarter, 2007 was primarily due to a \$454,000 increase in net interest income and a \$117,000 increase in non-interest income, partially offset by a \$456,000 increase in non-interest expense, a \$23,000 increase in the provision for loan losses, and a \$46,000 increase in the provision for income taxes.

Net interest income for the first quarter, 2008 was significantly influenced by the loans and deposits acquired from Sycamore. Non-interest expenses for the first quarter, 2008 were influenced by the addition of the two offices acquired through the Sycamore acquisition and the opening of a new office in Oakwood, Ohio in May, 2007.

**Net Interest Income**

LCNB's primary source of earnings is net interest income, which is the difference between earnings from loans and other investments and interest paid on deposits and other liabilities. The following table presents, for the three months ended March 31, 2008 and 2007, average balances for interest-earning assets and interest-bearing liabilities, the income or expense related to each item, and the resultant average yields earned or rates paid.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of****Operations (continued)**

The following table presents the changes in tax-equivalent interest income and expense for each major category of interest-earning assets and interest-bearing liabilities and the amount of change attributable to volume and rate changes for the three months ended March 31, 2008 as compared to the comparable period in 2007. Changes not solely attributable to rate or volume have been allocated to volume and rate changes in proportion to the relationship of absolute dollar amounts of the changes in each.

Net interest income on a fully tax-equivalent basis for the three months ended March 31, 2008 totaled \$5,214,000, an increase of \$432,000 from the comparable period in 2007. Total tax-equivalent interest income increased \$741,000 and total interest expense increased \$309,000.

The increase in total interest income was primarily due to a \$53.1 million increase in average total earning assets, slightly offset by a 14 basis point (a basis point equals 0.01%) decrease in the average rate earned on earning assets, from 6.56% for the first quarter of 2007 to 6.42% for the first quarter of 2008. The increase in average interest earning assets was due to a \$55.6 million increase in average loans and a \$17.6 million increase in average federal funds sold and interest-bearing demand deposits, partially offset by a decrease of \$19.8 million in average investment securities. Most of the loan growth was in commercial and residential real estate loans, primarily resulting from the Sycamore acquisition.

**LCNB CORP. AND SUBSIDIARIES**

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of**

**Operations (continued)**

The increase in total interest expense was primarily due to a \$51.1 million increase in average interest-bearing liabilities, slightly offset by a 12 basis point decrease in the average rate paid on interest-bearing liabilities. The increase in average interest-bearing liabilities was primarily due to an increase in average interest-bearing deposits, which increased \$57.5 million, in large part due to the Sycamore acquisition. This increase was partially offset by a \$10.3 million decrease in average short-term borrowings.

**Provision and Allowance for Loan Losses**

The total provision for loan losses is determined based upon management's evaluation as to the amount needed to maintain the allowance for loan losses at a level considered appropriate in relation to the risk of losses inherent in the portfolio. In addition to historic charge-off percentages, factors taken into consideration to determine the adequacy of the allowance for loan losses include the nature, volume, and consistency of the loan portfolio, overall portfolio quality, a review of specific problem loans, and current economic conditions that may affect borrowers' ability to pay. The provision for loan losses for the three months ended March 31, 2008 was \$83,000, compared to \$60,000 for the three months ended March 31, 2007.

**Non-Interest Income**

Trust income for the first quarter, 2008 was \$54,000 greater than for the comparable period in 2007 primarily due to estate fees received during the 2008 period and to fee adjustments that became effective on July 1, 2007. Service charges and fees for the first quarter 2008 was \$28,000 greater than for the first quarter, 2007 primarily due to increases in checkcard income, partially offset by a decrease in overdraft fees. Checkcard income grew because a greater number of cards were outstanding and because of the increasing popularity of checkcards as a retail payment method.

**Non-Interest Expense**

Non-interest expense for the first quarter, 2008 was \$456,000 greater than for the first quarter, 2007, primarily due to a \$188,000 increase in salaries and wages, a \$65,000 increase in employee benefits, a \$31,000 increase in occupancy expense, and a \$204,000 increase in other non-interest expense. Salaries and wages and employee benefits increased due to normal wage increases and an increase in the number of employees. Occupancy expense increased primarily as a result of an increase in the number of branch locations, consisting of the two offices acquired from Sycamore and an office located in Oakwood, Ohio that opened in May, 2007. Other non-interest expense increased primarily due to increases in telephone expense, office supplies expense, and numerous smaller increases in other miscellaneous expense accounts.

These expense increases were slightly offset by a \$36,000 decrease in intangible amortization, primarily due to the amortization in full during 2007 of an intangible asset related to the purchase of three offices from another bank in 1997. This decrease was partially offset by amortization of the core deposit intangible resulting from the Sycamore acquisition in December, 2007.

**Operations (continued)**

**Income Taxes**

LCNB's effective tax rates for the three months ended March 31, 2008 and 2007 were 24.8% and 23.5%, respectively. The difference between the statutory rate of 34.0% and the effective tax rate is primarily due to tax-exempt interest income from municipal securities and tax-exempt income from bank owned life insurance.

**Financial Condition**

LCNB's assets and liabilities were relatively stable during the first quarter, 2008. Total assets increased \$878,000, primarily due to a \$2.4 million increase in total cash and cash equivalents, offset by a \$486,000 decrease in securities available for sale and an \$892,000 decline in other assets. The decline in other assets was primarily due to the sale during the first quarter, 2008 of real estate acquired through foreclosure, which was a single-family residential home, that had a book value of \$766,000 at December 31, 2007.

Net loans decreased \$63,000 primarily due to decreases totaling \$5.7 million in residential real estate and consumer loans, partially offset by increases totaling \$4.8 million in commercial real estate loans and additional increases of \$741,000 in agricultural, and commercial and industrial loans.

Total deposits increased \$1.2 million primarily because of a \$7.6 million increase in IRA certificate of deposit accounts, a \$5.4 million increase in certificate of deposit accounts with balances of \$100,000 or more, and a \$4.6 million increase in LCNB's Premier Checking Account product. These increases were partially offset by a \$13.9 million decrease in certificate of deposit accounts with balances of less than \$100,000 and a decrease in money fund deposit accounts of \$2.8 million.

**Liquidity**

LCNB depends on dividends from its subsidiaries for the majority of its liquid assets, including the cash needed to pay dividends to its shareholders. National banking law limits the amount of dividends the Bank may pay to the sum of retained net income, as defined, for the current year plus retained net income for the previous two years. Prior

approval from the Office of the Comptroller of the Currency, the Bank's primary regulator, is necessary for the Bank to pay dividends in excess of this amount. In addition, dividend payments may not reduce capital levels below minimum regulatory guidelines. Management believes the Bank will be able to pay anticipated dividends to LCNB without needing to request approval.

Liquidity is the ability to have funds available at all times to meet the commitments of LCNB. Asset liquidity is provided by cash and assets which are readily marketable or pledgeable or which will mature in the near future. Liquid assets include cash, federal funds sold, interest-bearing demand deposits, and securities available for sale. At March 31, 2008, LCNB's liquid assets amounted to \$120.6 million or 19.9% of total assets, an increase from \$118.6 million or 19.6% of total assets at December 31, 2007.

Liquidity is also provided by access to core funding sources, primarily core deposits in the bank's market area. Approximately 79.0% of total deposits at March 31, 2008 were core deposits, a decrease from 79.4% at December 31, 2007. Core deposits, for this purpose, are defined as total deposits less public funds and certificates of deposit equal to or greater than \$100,000.

**Operations (continued)**

Secondary sources of liquidity include LCNB's ability to sell loan participations, borrow funds from the Federal Home Loan Bank, purchase federal funds, or use a line of credit established with another bank.

Management closely monitors the level of liquid assets available to meet ongoing funding needs. It is management's intent to maintain adequate liquidity so that sufficient funds are readily available at a reasonable cost. LCNB experienced no liquidity or operational problems as a result of the current liquidity levels.

**Recent Accounting Pronouncements**

SFAS No. 141 (revised 2007), *Business Combinations* (SFAS No. 141R), was issued in December, 2007 and replaces SFAS No. 141, *Business Combinations*. It applies to all transactions or other events in which an entity obtains control over one or more businesses. SFAS No. 141R retains the fundamental requirement in SFAS No. 141 that the acquisition method of accounting, previously called the purchase method of accounting, be used for all business combinations and for an acquirer to be identified for each business combination. SFAS No. 141R requires an acquirer to recognize the assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree at their fair values as of the acquisition date. This fair value approach replaces SFAS No. 141's cost-allocation process, which required that the cost of an acquisition be allocated to the individual assets acquired and liabilities assumed based on their estimated fair value. Any noncontrolling interests in the acquiree are also required to be measured at fair value. SFAS No. 141R requires acquirers to expense direct acquisition-related costs as incurred. SFAS No. 141 required that such costs be added to the cost of the acquisition. This statement makes significant changes to other accounting practices for business combinations, including but not limited to accounting for step acquisitions, accounting for contingent liabilities arising from a business combination, accounting for research and development assets acquired in a business combination, and accounting for deferred taxes acquired in a business combination.

SFAS No. 141R applies prospectively to business combinations with an acquisition date on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Early adoption is not permitted. LCNB will be required to apply SFAS No. 141R for any business combinations with an acquisition date on or after January 1, 2009.

SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements - an amendment of ARB No. 51*, was issued in December, 2007 and amends Accounting Research Bulletin (ARB) No. 51, *Consolidated Financial Statements*. SFAS No. 160 establishes accounting and reporting standards for the noncontrolling interest, also called minority interest, in a subsidiary and for the deconsolidation of a subsidiary. This statement is to be applied prospectively as of the beginning of the fiscal year beginning on or after December 15, 2008. Early adoption is

prohibited. LCNB owns 100% of its subsidiaries and is not affected by SFAS No. 160.

SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities-an amendment of FASB Statement No. 133, was issued in March, 2008 and changes the disclosure requirements for derivative instruments and hedging activities. SFAS No. 161 is effective for financial statements, including both fiscal years and interim periods, issued after November 15, 2008. Early application is encouraged. LCNB does not own securities of the type covered by this statement and is not affected by it.

## Item 3. Quantitative and Qualitative Disclosures about Market Risks

The Bank's Asset and Liability Management Committee ("ALCO") primarily uses a combination of Interest Rate Sensitivity Analysis (IRSA) and Economic Value of Equity (EVE) analysis for measuring and managing interest rate risk. IRSA is used to estimate the effect on net interest income during a one-year period of instantaneous and sustained movements in interest rates, also called interest rate shocks, of 100, 200, and 300 basis points. The base projection uses a current interest rate scenario. As shown below, the March 31, 2008 IRSA indicates that an increase in interest rates would have a positive effect on net interest income (NII), and a decrease in rates would have a negative effect on net interest income. The changes in net interest income for the up and down 100, 200, and 300 basis point rate assumptions are within LCNB's acceptable ranges.

Rate Shock Scenario in <u>Basis Points</u>	Amount	\$ Change in	% Change in
	<u>(In thousands)</u>	<u>NII</u>	<u>NII</u>
Up 300	\$ 21,616	591	2.81%
Up 200	21,445	420	2.00%
Up 100	21,253	228	1.08%
Base	21,025	-	-%
Down 100	20,618	(407)	-1.94%
Down 200	20,271	(754)	-3.59%
Down 300	20,001	(1,024)	-4.87%

IRSA shows the effect on net interest income during a one-year period only. A more long-range model is the EVE analysis, which shows the estimated present value of future cash inflows from interest-earning assets less the present value of future cash outflows for interest-bearing liabilities for the same rate shocks. The EVE analysis at March 31, 2008 is shown below. It shows a negative effect on the economic value of equity for all changes in interest rates, except for the down 300 basis points scenario.

Rate Shock Scenario in <u>Basis Points</u>	Amount	\$ Change in	% Change in
	<u>(In thousands)</u>	<u>EVE</u>	<u>EVE</u>
Up 300	\$ 24,687	(39,072)	-61.28%
Up 200	31,189	(32,570)	-51.08%
Up 100	38,165	(25,594)	-40.14%
Base	63,759	-	-%
Down 100	50,464	(13,295)	-20.85%

Edgar Filing: LCNB CORP - Form 10-Q

Down 200	57,361	(6,398)	-10.03%
Down300	68,996	5,237	8.21%

The IRSA and EVE simulations discussed above are not projections of future income or equity and should not be relied on as being indicative of future operating results. Assumptions used, including the nature and timing of interest rate levels, yield curve shape, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, and reinvestment or replacement of asset and liability cash flows, are inherently uncertain and, as a result, the models cannot precisely measure future net interest income or equity. Furthermore, the models do not reflect actions that borrowers, depositors, and management may take in response to changing economic conditions and interest rate levels.

**Item 4. Controls and Procedures**

**a) Disclosure controls and procedures.** The Chief Executive Officer and the Chief Financial Officer have carried out an evaluation of the effectiveness of LCNB's disclosure controls and procedures that ensure that information relating to LCNB required to be disclosed by LCNB in the reports that it files or submits under the Securities and Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Based upon this evaluation, these officers have concluded, that as of March 31, 2008, LCNB's disclosure controls and procedures were effective.

**b) Changes in internal control over financial reporting.** During the period covered by this report, there were no changes in LCNB's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, LCNB's internal control over financial reporting.

**PART II -- OTHER INFORMATION**

**Item 1. Legal Proceedings - Not Applicable**

**Item 1A. Risk Factors** No material changes

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

During the period of this report, LCNB did not sell any of its securities that were not registered under the Securities Act.

On April 17, 2001, LCNB's Board of Directors authorized three separate stock repurchase programs, two phases of which continue. The shares purchased will be held for future corporate purposes.

Under the "Market Repurchase Program" LCNB was originally authorized to purchase up to 200,000 shares of its stock through market transactions with a selected stockbroker. On November 14, 2005, the Board of Directors extended the Market Repurchase Program by increasing the shares authorized for repurchase to 400,000 total shares. Through March 31, 2008, 290,444 shares had been purchased under this program. No shares were purchased during the first quarter, 2008.

The "Private Sale Repurchase Program" is available to shareholders who wish to sell large blocks of stock at one time. Because LCNB's stock is not widely traded, a shareholder releasing large blocks may not be able to readily sell all shares through normal procedures. Purchases of blocks will be considered on a case-by-case basis and will be made at prevailing market prices. There is no limit to the number of shares that may be purchased under this program. A total of 466,018 shares have been purchased under this program since its inception through March 31, 2008. No shares were purchased during the first quarter, 2008.
