ULTRAPETROL (BAHAMAS) LIMITED

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2002 AND 2001

The following discussion and analysis should be read in conjunction with the unaudited condensed consolidated financial statements of Ultrapetrol (Bahamas) Limited ("the Company") and subsidiaries for the nine months ended September 30, 2002 and 2001 included elsewhere in this report.

General

The Company was formed on December 23, 1997 to hold all the capital stock of Princely International Finance Corporation (a Panamanian Company) and Ultrapetrol S.A. (an Argentine Company). The following discussion covers the unaudited financial results of the consolidated entity for the nine month period ended September 30, 2002 with a comparison to the unaudited consolidated financial results for the same nine month period in 2001.

The Company operates Suezmax, Aframax and Panamax tankers primarily in South America with additional operations between the Caribbean, the United States and West Africa. The Company also has one bulkcarrier, two oceangoing Tug-Barge units, one of which operates as a transfer station and 69 barges and three tugs that operate in barge river trafficking under time charter to an affiliate, UABL Ltd. The Panamax tanker Princess Laura, the bulkcarrier Alianza G1 and the two oceangoing Tug-Barge units are permitted to engage in cabotage trading in Argentina. Cabotage trading in Argentina is the transportation of passengers or goods by sea or river between ports and cargo transfer zones in Argentina. This commerce is reserved for Argentinean flag vessels and Argentinean shipowners who have bareboat chartered foreign flag vessels and obtained authorization from the Argentinean Maritime Authority pursuant to Decree 343. (Decree 343, which allowed the bareboat licensing of vessels was revoked in December 1999 and, although some of our vessels will continue to be licensed until the end of their current bareboat charters, the renewal of same will depend upon the legislation which will be in place at the time).

During the first nine months of 2002, the Company employed a significant part of its fleet on time charter for different clients.

During the first nine months of 2002, the international freight market maintained rates significantly below those experienced in 2001.

From October 2000 the Company has employed under a long-term time charter with UABL Ltd., an affiliated company, the Alianza G2, the 69 wet and dry river and the push-boats Cavalier I, Cavalier II, Cavalier III and the tug Alianza

Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K

Rosario and the port tugs Jupiter, Mercurio and Marte.

Also, the Company had renewed during 2001 the time charter employment of all of its Suezmax vessels and one of its Aframax vessels for approximately eleven months duration, which cover their employment up to their scheduled redeliveries between this past May and October 2002. Following the expiration of these charters, the Company agreed to extend them for short periods with the majority of the scheduled redeliveries to take place in November/December 2002 and, in one case, up to February 2003.

At the end of the first quarter (March 29, 2002) the Alianza G3 entered into a 3 year time charter extendable for another 2 years in north Brazil. Because this service must be provided without interruptions and required certain modifications to be done to the vessel, the special survey and dry dock was accelerated by 26 months and a general refurbishment was carried out which, together with the positioning voyage to commence service, meant that this unit did not have any income for the first quarter. During the second quarter it has provided its service on a regular basis; however, we still incurred some extraordinary expenses connected with adjusting operational details for the performance of this long term charter. In the third quarter it has operated satisfactorily without interruption.

The Princess Fatima and the Princess Pia were out of service conducting their special survey and dry dockings during 57 days and 72 days, respectively, in the first nine months of 2002. The Princess Marisol was out of service due to an accident for 87 days during the first six months of 2002.

A generally low volume required by our regular COA customers in Argentina has meant a low utilization rate for our Panamax fleet which, coupled with alternative employment in the international market at low rates, has contributed to reduced earnings by these vessels in the first nine months of 2002.

On April 18, 2002 the Company entered into agreements with AIG/GE Capital Latin Infrastructure Fund LP, a Bermuda Limited partnership ("LAIF"), relating to the creation of two new companies in which both Ultrapetrol and LAIF will be shareholders.

The first company, "UP Offshore", intends to build/purchase and operate a fleet of platform supply vessels (PSV) which shall be of a very high specification using the latest technology, designed to operate in any area of the world. UP Offshore will have the initial focus of its activities in Brazil serving both Petroleos Brasileiro S.A. (Petrobras), the Brazilian state oil company, and other international oil companies that have recently acquired petroleum and development leases in Brazil. Ultrapetrol has committed to place up to \$12.5 million in equity for approximately a 23% share, although Ultrapetrol expects to hold the voting power necessary to control the election of a majority of UP Offshore's board of directors.

UP Offshore will have capital of \$55 million depending upon the final capital contributions of other investors. UP Offshore has obtained financing with which it will commit to the initial building of 6 vessels with a firm program of expanding the fleet to 10 ships.

Ultrapetrol's participation in UP Offshore may be increased through options which may be exercised under certain conditions.

The second company, Ultracape, has the objective of purchasing second hand modern capesize bulk carriers to operate in the international market. Ultracape will have capital of up to \$50 million, depending on the number of vessels to be acquired, which will be complemented by credit from banking sources to allow for the acquisition of vessels. We have committed to place up to \$10 million in equity in Ultracape.

Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K

At this time we hold a 60% stake in Ultracape. We will perform the full commercial management for the vessels.

On April 19, 2002 Ultracape entered into a Memorandum of Agreement based on the terms of the industry standard NSF 1993 to purchase the vessel mv Vasco Da Gama (renamed Cape Pampas) of 151380 dwt for \$16.55 million. On July 1, 2002 we completed our purchase of the Cape Pampas. Thereafter, the vessel was delivered under a time charter to Cargill International S.A. (Cargill) for a period of 18 months.

Pursuant to the Agreement reached on April 18th with LAIF, on June 24, 2002 the Company entered into a Contribution and Subscription Agreement with LAIF III Ltd. Bermuda and Ultracape (Holdings) Ltd. of Bahamas whereby the Company confirmed its commitment to purchase up to \$10 million and LAIF III Ltd. agreed to purchase up to the lesser of \$20 million or 40% of the shares of Ultracape (Holdings) Ltd. An initial amount to be contributed was set for both LAIF III Ltd. and the Company at \$3.3 million and \$4.95 million, respectively.

Also on June 24, 2002 a Shareholders Agreement was signed with LAIF III Ltd. and Ultracape (Holdings) Ltd. for the governance of Ultracape (Holdings) Ltd.

On June 27, 2002 Ultracape (Holdings) Ltd entered into a Loan Agreement with Credit Agricole Indosuez for a total amount of \$27 million to finance the acquisition of up to two capesize vessels. On July 1st, Braddock Shipping Inc, an Ultracape subsidiary took delivery of the Cape Pampas and drew down \$11.0 million of the loan agreed to with Credit Agricole Indosuez.

On July 28, 2002, the option to repurchase 25,212 shares by the Company for a total price of \$0.9 million which expired in July 2002 was extended until July 31, 2003.

On August 26, 2002, the Company entered into a Memorandum of Agreement (MOA) through which it committed to sell its vessel Princess Fatima, to an unrelated company for \$1.9 million net of associated expenses. On September 19, 2002 the Company delivered the Princess Fatima pursuant to the MOA and received the balance of the purchase price.

Revenue

The majority of the Company's vessels are employed on time charters to affiliated and unaffiliated companies. The revenue from this operation is derived from a daily rate that is paid to the Company for the use of its vessel. Hire revenue accounted for 68% of the Company's total revenues for the nine months ended September 30, 2002.

Also, the Company's vessels are employed on a contract of affreightment ("COA") basis either for single or repetitive voyages. For a COA, the vessel owner or operator generally pays all voyage and vessel operating expenses and has the right to substitute one vessel for another. The rate is generally expressed in dollars per metric ton of cargo. Revenues earned under COA's are referred to as "freight". COA revenue accounted for 32% of the Company's total revenues for the nine months ended September 30, 2002

From the total revenues obtained from COA's during the first nine months of 2002, 78% were in respect of repetitive voyages for the Company's regular customers and 22% were in respect of single voyages for occasional customers.

Expenses

When vessels are operated on a COA basis (as well as any time when they are

Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K

not operating under time or bareboat charter), all costs relating to a given voyage, including port charges, canal dues and fuel costs, are paid by the vessel owner and are recorded as voyage expenses.

The Company's operating expenses, or running expenses, are generally paid through Ravenscroft Shipping Inc., a Miami based affiliate of the Company, which provides ship management services for the Company's vessels ("Ravenscroft"). Operating expenses include the cost of all ship management, crewing, spares and stores, insurance, lubricants, repairs and maintenance and docking expenses. The most significant of these expenses are maintenance and repairs, wages paid to marine personnel and marine insurance costs. In the case of our river barges chartered to UABL Ltd., the Company has contracted the ship management responsibilities to Lonehort Inc, an affiliate of UABL Ltd.

Vessels are depreciated to an estimated scrap value on a straight-line basis over their estimated useful lives. The Company follows the deferral method of accounting for survey and dry-dock costs, whereby actual survey and dry-dock costs are capitalized and amortized over a period of two and one-half years until the date of the next dry-dock or special survey.

The Company's other primary operating expenses include general and administrative expenses as well as ship management and administration fees paid to Ravenscroft and Oceanmarine S.A. ("Oceanmarine"), another affiliate of the Company, which provides certain administrative services. The Company pays Oceanmarine a monthly fee of \$10,000 per vessel for administrative services including general administration and accounting (financial reporting, preparation of tax returns), use of office premises, a computer network, secretarial assistance and other general duties. The Company pays Ravenscroft a monthly ship management fee of \$12,500 per vessel for services including technical management, crewing, provisioning, superintendence and related accounting functions. The Company does not expect to pay fees to any affiliated entity other than those described here for management and administration functions.

The Company does not own any buildings and does not pay any rental expense other than as a portion of the administration fees paid to Oceanmarine.

Foreign Currency Transactions

Substantially all of the Company's revenues are denominated in U.S. dollars. Twenty-one percent (21%) of the Company's total revenues are denominated in US dollars but collected in Argentine pesos and twenty-six (26%) of our total out of pocket operating expenses are paid in Argentine pesos. The Company's operating results, which are reported in U.S. dollars, may be affected by fluctuations in the exchange rate between the U.S. dollar and the Argentinean peso. For accounting purposes, revenue and expense accounts are translated into U.S. dollars at the exchange rate prevailing on the date of each transaction. The Company does not hedge its exposure to foreign currency fluctuations.

During the first half of 2002, part of the above-referenced portion (21%) of the company's revenues denominated in United States dollars but collected in Argentine pesos, and consequent receivables, were exposed to the compulsory conversion (by virtue of Argentine Law 25.561 and the Decree 214/2002) to Argentine currency at a rate of exchange different from the one current at the time of payment and thereafter subject to negotiations between the parties as to the rate of exchange applicable to each transaction.

As a result of the above, the equivalent U.S. dollars at the time of payment by the customers resulted in losses when compared with the amount invoiced.

The net effect of this exchange differential (special exchange variance)

Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K

account for the first half and for the first nine months of 2002 is equivalent to a loss of U.S.\$2.7 million.

The Company believes that substantially all the impact of the exchange variance (loss) incurred by our Argentine subsidiary as a result of Argentine Decree 214/2002 has already been accounted for in the first nine months of 2002.

Inflation

The Company does not believe that inflation has had a material impact on the Company's operations, although certain of the Company's operating expenses (e.g., crewing, insurance and dry docking costs) are subject to fluctuations as a result of market forces.

Inflationary pressures on bunker costs are not expected to have a material effect on the Company's future operations since freight rates for voyage charters are generally sensitive to the price of a ship's fuel. A sharp rise in bunker prices may have a temporary negative effect on results since freights generally adjust after prices settle at a higher level.

Results of Operations

Nine months ended September 30, 2002 compared to the nine months ended September 30, 2001.

The following table sets forth certain historical income statement data for the periods indicated derived from the Company's statements of operations expressed in thousands of dollars.

	3* Quarter'02 -----	Nine months ended September 30, 2002 -----	3* Quarter' -----
Freight revenues			
Attributable to wholly owned vessel	6,834	16,914	12,8
Attributable to wholly chartered-in vessel	72	908	1,5
Total	6,906	17,822	14,3

<hr/>			
Operating profit (losses)	1,412	920	3,7
Financial expense	(4,174)	(12,430)	(4,5

Revenues

Total revenues from freight, net of commissions, decreased from \$60.7 million in the first nine months of 2001 to \$17.8 million in 2002, or a decrease of 71%. This decrease is primarily attributable to the time charter operation of the Princess Katherine, Alianza G3, Princess Veronica and Princess Susana instead of COA's employment. Another contributing factor was lower revenue obtained by our Alianza G3-Alianza Campana which spent the entire first quarter in preparation and positioning for a long term contract. Also, the lower utilization rates of our Panamax vessels, coupled with the total of 129 days out of service experienced by our Princess Pia and Princess Fatima due to dry dock and special survey, as well as the Princess Marisol which was out of service due to an accident for 87 days during the first nine months of 2002, negatively affected our revenues in this period. Part of this off hire time is compensated by our loss of hire insurance for which a total of \$1.1 million has been included as other income (outside our operational results).

Hire revenues, net of commissions, increased by 39% in 2002 from \$26.7 to \$37.1 million. This increase is attributable to the time charter employment of the Princess Katherine, Alianza G3, Princess Veronica, Princess Susana and the addition of Cape Pampas purchased by Ultracape.

Operating profit for the first nine months of 2002 was \$0.9 million, which was a decrease of 94% or \$14.7 million from the same period in 2001. The decrease is primarily attributable to the same factors that affected our revenues in this period detailed above and includes the full impact of the \$2.7 million loss in the special exchange variance account.

The sale of the Princess Fatima resulted in a loss of \$1.6 million which has been accounted for under "other income".

Voyage expenses

Voyage expenses in the first nine months of 2002 were \$7.0 million, as compared to \$22.2 million for the first nine months of 2001, a decrease of \$15.2 million, or 68%. The decrease is primarily attributable to the combined effect of a large portion of the fleet operating on time charter contract instead of COA and the lower activity of our Panamax fleet.

Running costs

Running costs decreased by about 24% to \$20.2 million in the first nine months of 2002 as compared to \$26.6 million in the equivalent 2001 period. This decrease is mainly attributable to significant cost reductions achieved on some of our vessels in operation, coupled with the general low level of activity for the fleet, and extended periods of repairs for some of our vessels.

Amortization of dry-dock expense

Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K

Amortization of dry docking and special survey costs increased by \$1.4 million, or 26%, to \$6.7 million in the first nine months of 2002 as compared to \$5.3 million in 2001. The increase was due to the amortized portion of dry-docks (i.e., repairs) carried out in 2001 on the Princess Katherine, Princess Susana and Princess Nadia.

Depreciation of property and equipment

Depreciation and amortization increased by \$0.4 million, or 3%, to \$12.5 million in the first nine months of 2002 as compared to \$12.1 million in 2001. This increase is mainly attributable to the purchase of the Cape Pampas.

Management fees and administrative expenses

Management fees and administrative expenses were \$5.6 million in the first nine months of 2001 as compared to \$4.9 million in 2002 which is mainly attributable to a decrease in administrative expenses of \$0.7 million.

Financial expense

Financial expense decreased by \$1.4 million, or 10%, to \$12.4 million in the first nine months of 2002 as compared to \$13.8 million in 2001. The decrease is primarily attributable to the lower level of financial debt and associated consequential interest costs.

Liquidity and Capital Resources

The Company is a holding company with no material assets other than those of its subsidiaries. Consequently, it must fund its capital requirements through other sources, including cash dividends from subsidiaries, borrowings and shareholder contributions. The Company operates in a capital-intensive industry requiring substantial ongoing investments in revenue producing assets. The Company's subsidiaries have historically funded their vessel acquisitions through a combination of bank indebtedness, shareholder loans, cash flow from operations and equity contributions. As of September 30, 2002, the Company had total indebtedness of \$174.9 million, including \$135 million from the proceeds of the Note Issue, \$2.0 million drawn under a revolving credit facility from Allfirst Bank, the trustee of the Company's Notes, for Majestic Maritime Ltd., a wholly owned subsidiary, \$6.3 million in a senior loan facility with Nedship Bank (America) N.V. for Kattegat Shipping Inc, a wholly owned subsidiary, for the purchase of the vessel Princess Marina, \$9.0 million in a senior loan facility with Allfirst Bank for Majestic Maritime Ltd, a wholly owned subsidiary, for the purchase of the vessel Princess Katherine, \$11.0 million in a senior loan facility with Credit Agricole Indosuez for Braddock Shipping Inc, a 60% owned subsidiary, for the purchase of the vessel Cape Pampas and \$2.8 million of indebtedness owed by the Company in respect of Avemar Holding (Bahamas) Limited's purchase from SII of all of the shares of the Company previously owned by SII. We have a short term credit line of \$0.5 million in its subsidiary, Parkwood Commercial Corp, \$1.0 million drawn under a revolving credit facility from Allfirst Bank for Stanmore Shipping Inc., a wholly owned subsidiary and accrued interest expenses for these loans in the amount of \$7.3 million.

At September 30, 2002, the Company had total cash and cash equivalents of \$9.7 million.

The Company believes, based upon current levels of operation, cash flow from operations, together with other sources of funds, that it will have adequate liquidity to make required payments of principal and interest on the Company's debt, including obligations under the Notes, complete anticipated capital expenditures and fund working capital requirements.

Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K

Operating Activities

In the first nine months of 2002, the Company generated a positive \$17.5 million in cash flow from operations compared to \$16.9 million for the same period in 2001. Net earnings for the first nine months of 2001 were \$4.0 million compared with a net loss of \$9.8 million in the first nine months of 2002.

Net cash provided by operating activities consists of our net income increased by non-cash expenses, such as depreciation and amortization of deferred expenses, and adjusted by changes in working capital.

Investing Activities

During the first nine months of 2002, the 60% owned subsidiary, Braddock Shipping Inc., disbursed \$16.7 million in the purchase of the Cape Pampas compared to \$4.1 million in the same period of 2001 and \$5.8 million in dry dock expenses (Princess Pia, Princess Laura, Princess Marisol, Alianza G3 and Alianza G1) compared to \$7.3 million in the same period of 2001.

Financing Activities

Net cash provided by financing activities increased by \$7.6 million during the first nine months of 2002. The increase in cash provided by financing activities in the first nine months of 2002 is mainly attributable to the draw down of \$11.0 million of the Ultracape loan facility agreed to with Credit Agricole Indosuez, partially compensated by repayments of principal and interest installments which became due during the first nine months of 2002.

Recent Developments

On October 18, 2002, the Company entered into an agreement to purchase the tanker "Rio Grande" for a purchase price of \$1.0 million from ESSO S.R.L., a non-related company. The purchase will be funded from the proceeds of the sale of the "Princess Fatima."

On November 15, 2002, pursuant to the agreement signed with AIG-GE Capital Latin American Infrastructure Fund (LAIF) on April 18, 2002, the Company entered into a Common Shareholders Agreement and a Subscription Agreement with LAIF and Comintra Enterprice Ltd. These agreements regulate the formation, governance of and capital contributions to UP Offshore Ltd. Bahamas.

The Company has committed to contribute up to \$12.5 million for an initial equity stake of 22.7% in UP Offshore Ltd. Bahamas, however, the Company will control 50.1% of the voting power of UP Offshore Ltd.

UP Offshore (Bahamas) Ltd. and its fully owned subsidiary UP Offshore (Panama) S.A. has entered into a Loan Agreement with the International Finance Corporation (IFC) which, together with a similar loan between UP Offshore Apoio Maritimo Ltda. (another wholly owned subsidiary of UP Offshore (Bahamas) Ltd.) and IFC, will provide the financing for the construction of a total of 6 PSV Platform supply vessels. The maximum total available under both loan facilities will be \$60 million.

ULTRAPETROL (BAHAMAS) LIMITED AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

AS OF SEPTEMBER 30, 2002 AND 2001

(Unaudited)

(stated in thousands of U.S. dollars)

1. BASIS OF PRESENTATION

The condensed consolidated financial statements for the nine month periods ended September 30, 2002 and 2001, were prepared by the Company without audit. In the opinion of management, all adjustments of a normally recurring nature necessary to present fairly the financial position,

Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K

results of operations, and cash flows for the interim periods were made.

Certain information and footnote disclosures, normally included in financial statements prepared in accordance with generally accepted accounting principles, were condensed or omitted. Accordingly, these condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the consolidated financial statements for the years ended December 31, 2001, 2000 and 1999.

2. FOREIGN CURRENCY

Foreign currency transactions and financial statements are translated in accordance with Statement of Financial Accounting Standards No. 52, Foreign Currency Translation. All of the Company's subsidiaries use the U.S. dollar as their functional currency. Transaction gains and losses that arise from exchange rate fluctuations applicable to transactions denominated in a currency other than the Company's or its subsidiaries' functional currency are included in the results of operations as incurred.

Beginning in 1991, the Argentine peso ("peso") was tied to the U.S. dollar at a rate of one peso to one U.S. dollar. As a result of economic instability and substantial withdrawals from the banking system, in early December 2001, the Argentine government instituted restrictions that prohibit foreign money transfers without Central Bank approval and only allow cash withdrawals from bank accounts for personal transactions in small amounts with certain limited exceptions. While the legal exchange rate remained at one peso to one U.S. dollar, financial institutions were allowed to conduct only limited activity due to these controls, and currency exchange activity was effectively halted except for personal transactions in small amounts. These actions by the government in effect caused a devaluation of the peso in December 2001.

On January 6, 2002, the Argentine government abolished the one peso to one U.S. dollar legal exchange rate. On January 9, 2002, Decree 71 created a dual exchange market whereby foreign trade transactions were conducted at an official exchange rate of 1.4 peso to one U.S. dollar and other transactions were conducted in a free floating exchange market. On February 8, 2002, Decree 260 unified the dual exchange market and allowed the peso to float freely with the U.S. dollar. The exchange rate at September 30, 2002, was 3.75 pesos to one U.S. dollar.

On February 3, 2002, Decree 214 required all contracts that were previously payable in U.S. dollars to be payable in pesos. Pursuant to an emergency law passed on January 10, 2002, U.S. dollar obligations between private parties due after January 6, 2002, were to be liquidated in pesos at a negotiated rate of exchange which reflects a sharing of the impact of the devaluation. The Company's settlements in pesos of the existing U.S. dollar-denominated agreements were completed by June 30, 2002, thus, future periods should not be impacted by this mandate.

Absent the emergency law that was enacted on January 10, 2002, the devaluation of the peso would have had no effect on the Company's U.S. dollar-denominated receivables at December 31, 2001. A \$2.7 million loss resulting from the involuntary conversion was recorded as of September 30, 2002 and is reflected in "Special exchange differences" in the accompanying statement of income (loss).

3. SHARE SALE AGREEMENTS SIGNED BY THE COMPANY

On October 12, 2000 the Company, through its wholly-owned subsidiary, Avemar Holdings (Bahamas) Limited ("Avemar"), purchased 537,144 shares of

Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K

the Company previously owned by SII, one of the Company's two original shareholders. SII had previously granted a proxy in favor of Los Avellanos, the remaining original shareholders of the Company, thereby granting Los Avellanos voting control of the majority of the voting stock of the Company. The nominal purchase price of said shares was \$20,000. The purchase price also included a contingent element based upon the aggregate statement for EBITDA for the fiscal years ending December 31, 2000, 2001 and 2002.

On June 28, 2001, the Company issued 138.443 new shares for a total value of \$5,296 which were totally subscribed by Inversiones Los Avellanos, one of the Company's original shareholders and was paid with \$2,711, \$532 and \$54 on July, November and December 2001, respectively, and \$565 on June 2002, with the balance to be paid in several installments through December 2002.

The Company has an option to repurchase 25,212 shares for a total price of \$0.9 million. This option can be exercised up to July 2003.

4. LONG-TERM DEBT AND OTHER FINANCIAL PAYABLES

On March 30, 1998, the Company successfully completed its offering of \$135,000 principal amount of its 10.5% First Preferred Ship Mortgage Notes due 2008 ("the Notes"). In accordance with the terms provided in such Offering, the Notes to be issued are fully and unconditionally guaranteed on a joint and several basis by certain subsidiaries of the Company, and are secured by first ship mortgage on vessels already owned by the guarantors and on additional vessels that the Company purchased with the proceeds obtained from the Offering.

As of September 30, 2002, the Company's noncurrent portion of long-term debt amounts to \$135,000. It exclusively comprises the debt principal amount of the Notes. The related interest expense, totaling \$7,088 is accrued in other financial payables.

On June 27, Ultracape (Holdings) Ltd, a Panamanian corporation of which the Company is one of the shareholders (see Note 6), entered into a term-loan facility from Credit Agricole Indosuez to Braddock Shipping Inc. and Invermay Shipping Inc., wholly-owned subsidiaries of Ultracape, of up to \$27 million to finance the acquisition of up to two capesize vessels. The loan facility has been provided in two tranches. The amount of the first tranche of \$11 million has been used for the purpose of financing the purchase price of mv Cape Pampas. The amount of the second tranche is to be agreed in respect of the purchase price of the second vessel, not yet identified. Each of the vessels are to be secured by a first preferred Panamanian ship mortgage.

The balances of financial payables as of September 30, 2002 and 2001 are as follows:

	Financial institution / other	Agreement year	Nominal value		Accrued expense
			Current	Noncurrent	
Total 2001			\$ 12,671	\$153,080	\$ 7,088
Ultrapetrol Bahamas	Private Investors (Notes)	1998	--	135,000	7,088
Ultrapetrol Bahamas	S.I.I.	2000	2,800	--	7

Edgar Filing: ULTRAPETROL BAHAMAS LTD - Form 6-K

Majestic	Allfirst Bank	2001	2,000	--	
Kattegat	Nedship Bank	2000	1,000	5,250	1

Braddock Shipping	Credit Agricole Indosuez	2002	1,747	9,285	10
			-----	-----	-----
Total 2002			\$ 10,307	\$157,305	\$ 7,28
			=====	=====	=====

5. COMMON AND TREASURY STOCK

Ultrapetrol Bahamas has an authorized capital of \$21, and one class of shares of one series comprising 2,134,451 (2,065,760 paid-in and 68,691 not yet paid-in) as of September 30, 2002 and 2001 respectively, common shares with a par value of \$0.01 each.

In addition, as of September 30, 2002, the Company registered \$20,332, in the Treasury Stock account, \$20,000 of which corresponding to the amount payable to SII mentioned in note 3, and \$332 to direct cost of acquisition.

6. NEW OPERATION AND ORGANIZATION OF ULTRACAPE (HOLDINGS) LTD.

On April 18, 2002 the Company entered into an agreement with AIG/GE Capital Latin Infrastructure Fund LP, a Bermuda Limited partnership of LAIF, relating to the creation of Ultracape (Holdings) Ltd. ("Ultracape") in which both Ultrapetrol and LAIF are shareholders. Ultracape will purchase second hand modern capesize bulkcarriers to operate in the international market.

7. SUPPLEMENTAL DISCLOSURES OF CASH FLOW INFORMATION

	Nine month periods ended, September 30
