Q. How will this impact my book of business and commissions?

Until then, it is business as usual, and both Aetna and CVS Health will continue to operate in every respect as separate companies.

Q. How will this impact the members and plan sponsors on my book of business?

A. This transaction will have no immediate impact on the plans or service we provide. We remain as committed as ever to delivering low cost, high quality health care plans and improving the overall experience for our members. Our combination will result in a better health care experience and reduced costs for employers and their employees.

Q. How will the health hubs work?

A. We will use CVS Health's 9,700 retail locations to establish entirely new community health hubs dedicated to improving consumer wellbeing and answering questions about health, prescription drugs and health care benefits. This personalized health care experience will be delivered by connecting Aetna's extensive network of providers with greater consumer access through CVS Health. A significant percentage of our national accounts already have their pharmacy benefits with CVS Health, and many already have MinuteClinics in their locations. We will transform many of these on-site clinics into full-service health hubs over time in collaboration with plan sponsors, physician groups and hospital networks. Making health care more convenient will translate to greater wellness for consumers and improved productivity for employers. Everyone will have access to the health hubs and their core services.

Aetna Brand Name

Q. Will Aetna change its name to CVS?

A. CVS Health has committed to maintaining "Aetna" as the primary brand for the insurance business of CVS Health for at least five years after the transaction closes, in recognition of the exceptional value we provide to the people we serve.

Provider

Q. Could there be any RX savings opportunity in 2019?

A. It is too early in the transaction to answer this question, but we believe that the integration of CVS Health's pharmacy services and Aetna's clinical data, analytics and care management capabilities will improve medication adherence and care plan compliance while uncovering new ways to impact our members' health. The average price of prescriptions has increased more than 200 percent over the last eight years. Together, our solutions will help offset the rising cost of prescription drugs.

Q. I am concerned that reimbursement at MinuteClinics will undermine reimbursement of primary care doctors. Will you direct members to use MinuteClinics rather than their primary care doctors?

A. Primary care remains essential to helping our members achieve their health goals. We will continue to offer our members an extensive network of providers. We also know that there is an opportunity to meet members where they are in their neighborhoods and communities to proactively assist them and provide alternatives for care when their doctor's office is closed.

CVS Health and Aetna are committed to utilizing CVS retail locations as community health hubs for Aetna members and other consumers. These hubs will provide an entirely new health care solution dedicated to improving consumer wellbeing and answering questions about health, prescription drugs and health care benefits. These health hubs will complement our network and offer members greater access. We believe Aetna's presence in retail stores will allow us to develop trusted relationships with consumers in their local communities, helping us retain and grow membership.
