**PROXY STATEMENT
FOR THE
ANNUAL GENERAL MEETING OF HOLDERS OF COMMON SHARES
TO BE HELD ON MAY 5, 2010**

The accompanying proxy is solicited by the Board of Directors of Validus Holdings, Ltd. (the **Company**) to be voted at the Annual General Meeting of holders (the **Shareholders**) of the Company's voting Common and Restricted Shares (the **Shares**) to be held on May 5, 2010 and any adjournments thereof. Pursuant to rules adopted by the U.S. Securities and Exchange Commission (the **SEC**), the Company has elected to provide access to its proxy materials over the Internet. Accordingly, the Company is mailing a Notice Regarding the Availability of Proxy Materials (the **Notice**) to Shareholders. The Notice, the Proxy Statement, the Notice of Annual General Meeting and the proxy card are first being made available to Shareholders on or about March 23, 2010. The Company has made available with this Proxy Statement the Company's Annual Report on Form 10-K (the **Annual Report to Shareholders**), although the Annual Report to Shareholders should not be deemed to be part of this Proxy Statement. All Shareholders will have the ability to access the proxy materials on a website referred to in the Notice. Shareholders may also request to receive a printed set of the proxy materials. In addition, Shareholders may specify how they would prefer to receive proxy materials in the future, including receiving proxy materials by e-mail or in hard copy format. Choosing to receive your future proxy materials by e-mail will save the Company the cost of printing and mailing documents to you and will also reduce the impact on the environment. If you choose to receive future proxy materials by e-mail, you will receive an e-mail next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials by e-mail will remain in effect until you terminate it. Additionally, if you elect to receive future proxy materials in hard copy form by mail, this election will remain in effect until you terminate it.

When such proxy is properly executed and returned, the Shares of the Company it represents will be voted at the meeting on the following:

- (1) the election of the four nominees for Class III Directors identified herein;
- (2) the election of nominees for Designated Company Directors of certain of the Company's non-U.S. Subsidiaries, as required by the Company's bye-laws, identified herein; and
- (3) the approval of the selection of PricewaterhouseCoopers (the **Independent Auditor**), to act as the independent registered public accounting firm of the Company for the year ending December 31, 2010.

Any Shareholder giving a proxy has the power to revoke it prior to its exercise by giving notice of such revocation to the General Counsel of the Company in writing at Validus Holdings, Ltd., Suite 1790, 48 Par-la-Ville Road, Hamilton, HM 11, Bermuda, by attending and voting in person at the Annual General Meeting or by executing a subsequent proxy, provided that such action is taken in sufficient time to permit the necessary examination and tabulation of the subsequent proxy or revocation before the votes are taken.

Shareholders of record as of the close of business on March 12, 2010 will be entitled to vote at the Annual General Meeting. As of March 12, 2010, there were 129,305,152 Shares outstanding. Of these, 109,533,730 are entitled to vote at the Annual General Meeting, and 19,771,422 are non-voting Common Shares. Each Share entitles the holder of

record thereof to one vote at the Annual General Meeting; however, if, and for so long as, the Shares of a Shareholder, including any votes conferred by controlled shares (as defined below), would otherwise represent more than 9.09% of the aggregate voting power of all Shares entitled to vote on a matter, the votes conferred by such Shares will be reduced by whatever amount is necessary such that, after giving effect to any such reduction (and any other reductions in voting power required by our Amended and Restated Bye-laws (Bye-laws)), the votes conferred by such shares represent 9.09% of the aggregate voting power of all Shares entitled to vote on such matter. Controlled shares include, among other things, all shares that a person is deemed to own directly, indirectly or constructively (within

the meaning of Section 958 of the Internal Revenue Code of 1986 or Section 13(d)(3) of the Securities Exchange Act of 1934, as amended (the Exchange Act)).

Other than the approval of the minutes of the 2009 Annual General Meeting, the Company knows of no specific matter to be brought before the Annual General Meeting that is not referred to in the Notice of Annual General Meeting. If any such matter comes before the Annual General Meeting, including any Shareholder proposal properly made, the proxy holders will vote proxies in accordance with their judgment.

The election of each nominee for Director requires the affirmative vote of a plurality of the votes cast at the Annual General Meeting and the election of each nominee for Designated Company Director and the approval of the selection of the Independent Auditor referred to in Item 3 above each requires the affirmative vote of a majority of the votes cast on such proposal at the Annual General Meeting, provided there is a quorum (consisting of two or more Shareholders present in person and representing in person or by proxy in excess of fifty percent (50%) of the total issued voting Shares in the Company throughout the meeting). Shares owned by Shareholders electing to abstain from voting with respect to any proposal (other than proposals to elect Directors or Designated Company Directors) will be counted towards the presence of a quorum but will not be considered present and voting with respect to the elections of nominees for Director or Designated Company Directors or other matters to be voted upon at the Annual General Meeting. Therefore, abstentions will have no effect on the outcome of the proposal to approve the selection of the Independent Auditor.

Our principal executive offices are located at 29 Richmond Road, Pembroke HM08, Bermuda (telephone number: (441) 278-9000).

BOARD OF DIRECTORS

The Company's Bye-laws provide that the Board of Directors (sometimes referred to herein as the Board) shall consist of not less than nine nor more than 12 as determined by resolution of the Board, divided into three classes, designated Class I, Class II and Class III, with each class consisting as nearly as possible of one-third of the total number of Directors constituting the entire Board of Directors.

The term of office for each Director in Class I expires at the 2011 Annual General Meeting; the term of office for each Director in Class II expires at the 2012 Annual General Meeting; and the term of office for each Director in Class III expires at the 2010 Annual General Meeting of the Company. At each Annual General Meeting, the successors of the class of Directors whose term expires at that meeting shall be elected to hold office for a term expiring at the Annual General Meeting to be held in the third year of their election. In 2009, there were 8 meetings of the Board (4 regularly scheduled meetings and 4 ad hoc meetings in connection with the acquisition of IPC Holdings, Ltd. (IPC)). All incumbent Directors attended at least 75% of such meetings and of the meetings held by all committees of the Board of which they were a member, with the exception of Ms. Puri and Messrs. Greenberg and Singh. Ms. Puri was required to recuse herself from the meetings in connection with the IPC acquisition and Messrs. Greenberg and Singh were unable to attend certain of these meetings due to their ad hoc nature. Due to the re-scheduling of a board meeting as a result of the IPC transaction, none of the directors attended the 2009 Annual General Meeting. The Company expects all of the Directors to attend the 2010 Annual General Meeting.

Board Leadership Structure and Risk Oversight

Edward J. Noonan is the Chairman of the Board and the Company's CEO. The Company believes that this unitary leadership structure provides, among other things, more effective leadership for a growth company. As such, the Company believes that under this structure the CEO is able to respond more quickly to market conditions. The importance of the ability to act swiftly and decisively is apparent in situations such as business development and the addition of business teams and talented professionals where decisions have to be made within a very short period of time. As the Company is still at a growth stage of life, unitary leadership helps to lower the costs of information transfer from the CEO to the Chairman and enhances swift decision making in such a dynamic environment. In addition to his broad experience as both an executive and Director/Chairman in the global insurance and reinsurance industries, the CEO also has specialized knowledge regarding the strategic challenges and opportunities facing the Company that is valuable to the Chairman's job. The Company believes, therefore, that it is appropriate for the CEO, the person most familiar with these challenges and strategies, to lead discussions with the Board. In addition, the Company's experienced outside and independent Board, many of whom represent some of the Company's most significant shareholders, also acts as a counter-balance to any potential over influence that this unitary leadership structure might present.

In order to further counter-balance this leadership structure, in connection with each regularly scheduled meeting of the Board, the non-management Directors meet in executive session without any member of management in attendance. The Board considers annually the selection of a non-management Director to serve as presiding Director at executive sessions of non-management Directors. Mr. Greenberg is the non-management Director whom the Board has selected to preside over these sessions. In addition, the independent Directors meet as a group at least annually.

As noted below, the Board has established a separate risk committee that is responsible for, among other things, approving the Company's risk management framework (the Framework), working with management to ensure ongoing, effective implementation of the Framework and reviewing the Company's specific risk limits as defined in the Framework, including limits for underwriting, investment, operational, business and other risks. The Company's Chief Risk Officer prepares a quarterly presentation for the risk committee and communicates with the chairman of

the risk committee on an informal basis periodically throughout the year.

Independence Determination

The Board of Directors has determined that seven of the twelve directors (John Fitzpatrick, John J. Hendrickson, Sander M. Audit Committee. Our audit committee is composed of John Fitzpatrick, John J. Hendrickson and Jean-Marie Nessi and is chaired by Mr. Hendrickson. Mr. Fitzpatrick was appointed to the audit committee on February 17, 2010. The audit committee assists the Board of Directors in its oversight of the integrity of our financial statements and our system of internal controls, the independent auditors' qualifications, independence and performance, the performance of our internal audit function and our compliance with legal and regulatory requirements. The audit committee also prepares the report required to be included in our annual proxy statement. Each member of the audit committee is independent within the meaning of the rules of the NYSE. Mr. Hendrickson is an audit committee financial expert as defined by the SEC. The duties and responsibilities of the audit committee are set forth in the committee's charter. The

audit committee met 4 times during 2009. The audit committee was established in accordance with Section 3(a)(58)(A) of the Exchange Act.

Compensation Committee. Our compensation committee is composed of John J. Hendrickson, Sander M. Levy, Mandakini Puri, Sumit Rajpal and Alok Singh, and is chaired by Mr. Levy. The compensation committee assists the Board in matters relating to compensation of our Chief Executive Officer, executive officers and other

matters of non-executive officer compensation that are subject to Board approval. The compensation committee also prepares the report on executive officer compensation required to be included in the Company's annual proxy statement, in accordance with applicable rules and regulations. Each member of the compensation committee is independent within the meaning of the rules of the NYSE. The duties and responsibilities of the compensation committee are set forth in the committee's charter. The compensation committee met 4 times during 2009.

The compensation committee has evaluated certain risks associated with the Company's compensation policies and has concluded that the existing compensation policies align management with shareholders (i) through the direct relationship of the annual component of compensation to the Company's financial performance and (ii) by providing an incentive for management to consider the consequences of decision making on the long-term value of the Company's stock through enforced long-term shareholdings. Based on this evaluation, the compensation committee has affirmatively determined that the Company's compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company.

In February 2010, the compensation committee engaged Watson Wyatt to review and make recommendations with respect to executive compensation. The fees paid to Watson Wyatt for this service will be between \$35,000 and \$45,000. Total fees paid to affiliates of Watson Wyatt for brokerage and actuarial services during 2009 were \$984,470. The decision to engage such affiliates was made by management and the Board did not specifically approve these engagements, nor did the Board have any role in selecting which insurance or reinsurance contracts would be underwritten and therefore, which broker would receive commissions from the Company.

Corporate Governance and Nominating Committee. Our corporate governance and nominating committee is composed of Sander M. Levy, Jean-Marie Nessi and Sumit Rajpal and is chaired by Mr. Nessi. The corporate governance and nominating committee assists the Board in (1) identifying individuals qualified to become board members or members of the committees of the Board, and recommending individuals that the Board of Directors select as director nominees to be considered for election at the next annual general meeting of Shareholders or to fill vacancies; (2) developing and recommending to the Board appropriate corporate governance guidelines; and (3) overseeing the evaluation of the Board, management and the Board committees and taking a leadership role in shaping the Company's corporate governance policies. Each member of the governance committee is independent within the meaning of the rules of the NYSE. The duties and responsibilities of the corporate governance and nominating committee are set forth in the committee's charter. The corporate governance and nominating committee met 4 times during 2009.

Identifying and Evaluating Nominees. The corporate governance and nominating committee is responsible for reviewing with the Board, on an annual basis, the skills and characteristics appropriate for new Board members as well as an assessment of the skills and characteristics of the Board as a whole. While there is no formal policy with respect to diversity of board members, when seeking a new member or evaluating the current membership, the corporate governance and nominating committee works with the Board to determine the appropriate characteristics, skills and experiences for the Board as a whole and its individual members. Characteristics expected of all directors include independence, integrity, high personal and professional ethics, sound business judgment, and the ability and willingness to commit sufficient time to the Board. In evaluating the suitability of individual Board members, the corporate governance and nominating committee takes into account many factors, including a candidate's experiences in and understanding of, the (re)insurance industry, corporate finance and investments as well as his or her business, educational and professional background. When the Board determines to seek a new member, whether to fill a vacancy or otherwise, the corporate governance and nominating committee may employ third-party search firms and will consider recommendations from Board members, management and others, including Shareholders.

Nominees Recommended by Shareholders. The corporate governance and nominating committee will consider, for Director nominees, persons recommended by Shareholders, who may submit recommendations to the corporate

governance and nominating committee in care of the General Counsel at Validus Holdings, Ltd., Suite 1790, 48 Par-la-Ville Road, Hamilton, HM 11, Bermuda. To be considered by the corporate governance and nominating committee, such recommendations must be accompanied by a description of the qualifications of the proposed candidate and a written statement from the proposed candidate to the effect that he or she is willing to be nominated and desires to serve if elected. Nominees for Director who are recommended by Shareholders to the

Table of Contents

corporate governance and nominating committee will be evaluated in the same manner as any other nominee for Director.

Executive Committee. Our executive committee is composed of Matthew J. Grayson, Jeffrey W. Greenberg, Edward J. Noonan, Mandakini Puri, and George P. Reeth and is chaired by Mr. Reeth. The duties and responsibilities of the executive committee are set forth in the committee's charter. The executive committee exercises the power and authority of the Board when the entire Board is not available to meet. In furtherance of these purposes, the committee provides guidance and advice, as requested, to the Chairman of the Board and the Chief Executive Officer regarding business strategy and long range business planning. The executive committee did not meet during 2009.

Finance Committee. Our finance committee is composed of John Fitzpatrick, Matthew J. Grayson, Sander M. Levy, Edward J. Noonan and Alok Singh, and is chaired by Mr. Grayson. Mr. Fitzpatrick was appointed to the finance committee on February 17, 2010. The duties and responsibilities of the finance committee are set forth in the committee's charter. The finance committee oversees the finance function of the Company, including the investment of funds and financing facilities. In furtherance of this purpose, the committee approves the appointment of the Company's investment managers, evaluates their performance and fees, and approves the investment policies and guidelines established by the Company. In addition, the committee approves the Company's strategic asset allocation plan, reviews the adequacy of existing financing facilities, monitors compliance with debt facility covenants and monitors the status of rating agency evaluations and discussions. The finance committee met 5 times during 2009.

Risk Committee. Our risk committee is composed of Matthew J. Grayson, John J. Hendrickson, Sander M. Levy, Jean-Marie Nessi, Edward J. Noonan, Sumit Rajpal and Christopher E. Watson and is chaired by Mr. Watson. Mr. Grayson was appointed to the risk committee on July 28, 2009. The duties and responsibilities of the risk committee are set forth in the committee's charter. The risk committee also oversees the underwriting function of the Company, including all aspects of risk and (re)insurance. The risk committee met 4 times during 2009.

Shareholders may communicate directly with one or more Directors (including any presiding director or all non-management Directors as a group) by mail in care of the Company's General Counsel, at Validus Holdings, Ltd., Suite 1790, 48 Par-la-Ville Road, Hamilton, HM 11, Bermuda and specifying the intended recipient(s). Hendrickson and Nessi, our non-employee, non-sponsor-related Directors each received an annual retainer of \$70,000 for serving as a Director and \$2,500 for each Board meeting that such Director attended. In addition, our non-employee, non-sponsor-related Directors each received a fee of \$2,000 for each Committee meeting that they attended other than those committees on which such Director served as Chairman. In addition, we reimburse each of our Directors for all reasonable expenses in connection with the attendance of meetings of our Board of Directors and any committees thereof.

Equity Based Compensation Paid to Non-Employee Directors

We have a Director Stock Compensation Plan. Our Director Stock Compensation Plan is designed to attract, retain and motivate members and potential members of our Board of Directors. Under this plan, each Director may make an election in writing on or prior to each December 31 to receive his or her annual retainer fees payable in the following plan year in the form of shares instead of cash. The number of shares distributed in case of election under the plan is equal to the amount of the annual retainer fee otherwise payable on such payment date divided by 100% of the fair market value of a share on such payment date.

This plan further provides that a Director who has elected to receive shares pursuant to the above may make an irrevocable election on or before the December 31 immediately preceding the beginning of a plan year to defer delivery of all or a designated percentage of the shares otherwise payable as his or her annual retainer for service as a

Director for the plan year, provided that such deferral is not subject to U.S. income tax. All shares that a Director elects to defer will be credited in the form of share units to a bookkeeping account maintained by the Company in the name of the Director. Each such unit will represent the right to receive one share at the time determined pursuant to the terms of the plan.

Compensation Committee Interlocks and Insider Participation

Our compensation committee is composed of John J. Hendrickson, Sander M. Levy, Mandakini Puri, Sumit Rajpal and Alok Singh. Each member of our Compensation Committee, other than Mr. Singh, has a relationship with entities with which we have engaged in certain transactions described below. Entities affiliated with Messrs. So long as a Sponsor continues to beneficially hold at least 1/3 of its original shares of common shares, a Sponsor is deemed to be a Qualified Sponsor. The shareholders agreement permits Qualified Sponsors to make up to four demand registrations.

These demand and piggyback registration rights are subject to limitations as to the maximum number of shares that may be registered if the managing underwriter in such an offering advises that the number of shares offered should be limited due to market conditions or otherwise. We are required to pay all expenses incurred in connection with demand and piggyback registrations, excluding, in the case of demand registrations, underwriting discounts and commissions.

Each of Goldman Sachs Capital Partners and Merrill Lynch Global Private Equity are entitled to require pursuant to the shareholders agreement that the Company appoint each of Goldman Sachs and Merrill Lynch to act as a lead managing underwriter for certain demand registrations; provided that each of Goldman Sachs and Merrill Lynch individually are recognized at the time as a leading underwriter for such securities and affiliates of Goldman Sachs and Merrill Lynch are Qualified Sponsors at such time and the terms offered are market terms.

Additionally, the shareholders agreement provides that Existing Shareholders as well as affiliates, directors, officers, employees and agents of Existing Shareholders are permitted to engage in activities or businesses that are competitive with us. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

When the company was formed in October 2005 our primary executive compensation objective was to attract talented individuals in a highly competitive market from successful careers to be senior executives of the Company and in many cases to relocate to Bermuda. We sought individuals with substantial industry expertise, and whom we believed would be able to recruit experienced individuals to form a strong organization. Once these individuals were identified, we engaged in direct negotiations with them, which determined their compensation for 2006 and had, and will have, a significant impact on their compensation going forward. Our initial senior executive team included Messrs. Noonan, Reeth and Ward, who joined us at or about the time of our formation at the end of 2005 and signed employment agreements specifying base salary, annual incentive targets and initial equity grants. Mr. Consolino joined us in early 2006, and signed a similar employment agreement specifying base salary, annual incentive target and initial equity grants. In July 2007, we acquired Talbot and at that time we negotiated an amended employment agreement with Mr. Atkin to secure his services for the Company. This agreement specified his base salary, 2007 annual incentive compensation and initial equity grants. We refer to these individuals as our named executive officers. In 2009, the annual incentive compensation for each of our named executive officers was primarily based on the results of the segment in which their respective services were rendered, Validus Re, Talbot or Corporate. The compensation of the named executive officers is described in the Summary Compensations Table below, and their employment agreements are described under Employment Agreements.

Our compensation program is composed of three principal components:

Salary and Benefits;

Annual incentive compensation (annual incentive award); and

Long-term incentive compensation typically in the form of restricted shares.

Our compensation program is designed to motivate executives to maximize the creation of shareholder value, therefore aligning, as much as possible, our named executive officers' rewards with our shareholders' interests. Our compensation plans are intended to offer opportunities that are competitive with our peer group and consistent with the Company's relative performance over time. In addition, we want our rewards to accommodate the risk and cyclicity of our business. At the time the Company negotiated its employment agreements with the named executive officers, the Company undertook to implement a performance based compensation strategy. To that end, the Company's compensation package includes a fixed component consisting of salary and benefits and two variable components consisting of annual incentive compensation and long-term incentive compensation. To better implement this strategy, a greater emphasis is placed on the variable elements that relate to performance and less of an emphasis is placed on the fixed elements of compensation that do not.

Our Compensation Committee reviews and determines the compensation of each of our named executive officers. Our Chief Executive Officer makes recommendations to the Compensation Committee with respect to the compensation of our named executive officers other than himself. In addition, the Compensation Committee has in the past engaged a consultant to provide market data and to assist it in determining appropriate types and levels of compensation. In February 2010, the Compensation Committee engaged Watson Wyatt to review and make recommendations with respect to executive compensation.

The Compensation Committee designs the Company's compensation plans to be competitive with its peers in order to attract and retain talented individuals. In early 2007, the Compensation Committee reviewed peer group information regarding the base salary, annual incentive targets and equity awards that were provided for in the employment agreements of Messrs. Noonan, Reeth, Consolino and Ward and determined that the amounts were competitive. The Compensation Committee used this data as a factor it considered as part of its decision making process. The companies included in the Company's 2007 peer group for this purpose were Arch Capital Group Ltd., Aspen Insurance Holdings Ltd., Axis Capital Holdings Ltd., Endurance Specialty Holdings Ltd., Everest Re Group Ltd., IPC Holdings Ltd., Max Capital Group Ltd., Montpelier Re Holdings Ltd., Odyssey Re Holdings Corp., PartnerRe Ltd., Platinum Underwriters Holdings, Ltd., RenaissanceRe Holdings Ltd. and Transatlantic Holdings, Inc. In 2007, the Compensation Committee also reviewed information from the companies named above as well as

Table of Contents

Ace Ltd, W.R. Berkeley Corporation, Markel Corporation, Progressive Corporation and XL Capital, Ltd. as part of its discussion of a long-term incentive plan. The Compensation Committee and the Board regularly perform a review of the Company's compensation practices relative to the Company's peer group. In making compensation decisions for the 2009 performance year, the Compensation Committee did not undertake a formal peer group review or engage a consultant with respect to base salary, annual incentive targets and equity awards and instead used its discretion in making such decisions.

Fixed Components of Compensation

Salary. Our base salaries reflect each executive's level of experience, responsibilities and expected future contributions to the success of the Company. The salaries of our named executive officers were set initially in their employment agreements, and are reviewed on an annual basis. The Company considers factors such as individual performance, cost of living, the competitive environment and existing cash compensation in determining whether salary adjustments are warranted. There is no specific weighting applied to any one factor. Other than Mr. Ward, whose base salary was increased from \$500,000 to \$600,000 as more fully described under Employment Agreements below, the base salaries of our named executive officers were not increased in 2009.

Benefits. The Company seeks to provide benefit plans, such as medical coverage and life and disability insurance, in line with applicable market conditions. These health and welfare plans help ensure that the Company has a productive and focused workforce through reliable and competitive health and other benefits. The named executive officers are eligible for the same benefit plans provided to all other employees. Mr. Atkin also participates in Talbot's pension plan.

The Company provides our named executive officers with other benefits that the Company and the Compensation Committee believe are reasonable and consistent with its overall compensation program to better enable the Company to attract and retain key employees. These benefits are specified in our named executive officers' employment agreements. Many of these benefits relate to those executives who reside and/or work in Bermuda and are typical of such benefits provided to expatriates in Bermuda. Examples of these benefits for Bermuda-based expatriates include housing and housing gross up allowances, car and education allowances, club memberships, tax preparation services and home leave for executives and family for those executives working outside their home country. These benefits are described under Summary Compensation Table and Employment Agreements below.

Variable Components of Compensation

Annual Incentive Compensation. The Company has an annual incentive compensation program in which employees of the Validus Re, Talbot and Corporate segments participate. The Company's 2009 annual incentive program was based 80% on Company financial performance and 20% on the achievement of strategic objectives as evaluated by the Compensation Committee. For 2009, these strategic objectives were: (i) to strengthen the Company's competitive position in the Bermuda reinsurance market; (ii) to continue to grow the Company's non-catastrophe lines of business; (iii) to expand the Company's capital base; (iv) to increase the Company's market capitalization and trading liquidity; and (v) to continue to grow the Company's diluted book value per share plus dividends. As more fully described below, the financial performance-based portion of our annual incentive pool for all participating employees, including our named executive officers, is generated based on financial guidelines for Validus Re, Talbot and Corporate segment employees approved by the Compensation Committee.

The target aggregate annual incentive bonus pool is determined through the aggregation of annual target bonuses for all of the employees eligible to receive an annual incentive award. Separate annual incentive pools based on cumulative employee target bonus amounts are established for each of our segments: Validus Re, Talbot and Corporate. For executive officers, target annual incentive bonuses are determined at the time that such executive

officers enter into employment agreements and these employment agreements, including target annual incentive bonus amounts, are approved by the Compensation Committee. Factors considered by the Compensation Committee in approving executive target annual incentive bonus amounts at the time that the Compensation Committee approves executive employment agreements include experience, their perceived ability to contribute to growth in the Company's profitability, compensation available to the executive elsewhere in a competitive labor market and

Table of Contents

the executive's role within the Company. For employees other than executive officers, target annual incentive bonuses are set as a percentage of base salary, and can range from 15% to 150% of base salary. The aggregation of these amounts establishes the respective target bonus pools.

The Company's current year annual budget, including the target annual incentive bonus pool, is presented to the Board at the February board of directors meeting. At this time, the Compensation Committee takes no specific action with respect to the target bonus pool within the current year budget, as the primary focus of the committee is approving the aggregate annual incentive pools for the prior calendar year as described below. After full year results of operations are known for the Company, at the February board of directors meeting following the end of each calendar year, the Compensation Committee approves specific aggregate annual incentive pool amounts to be paid for the most recently completed calendar year. These amounts are determined using the financial scale established at the previous May board of directors meeting (as more fully described below) to evaluate the Company's actual results, including underwriting income (net premiums earned less losses and loss expenses, acquisition costs and general expenses), combined ratio, net operating income and operating return on average equity against the most recently completed year's budget as approved by the Board. After considering the Company's performance relative to budget, management recommends to the Compensation Committee annual incentive pools which can range from a 20% minimum to a 150% maximum of the target annual incentive pool based solely on the percentage achievement of budget as measured on the financial scale. For example, a hypothetical 85% scaled achievement of budget would result in a management recommendation to the Compensation Committee that the annual incentive pool be set at up to 85% of the target annual incentive pool. In this hypothetical example, the Compensation Committee would consider approving a total aggregate annual incentive bonus pool of up to 85% of the target annual incentive bonus pool, made up of 68% (equal to 80% of 85%) based on financial performance and up to 17% (equal to 20% of 85%) based on assessment of performance against strategic objectives.

The Company's Chief Executive Officer then presents to the Compensation Committee a schedule of recommendations for actual bonuses to be paid for executive officers that report to the Chief Executive Officer. In preparing these recommendations, the Chief Executive Officer considers: (i) each individual's contribution to the success and growth of his or her department and/or the Company as a whole; and (ii) a subjective assessment of the individual's contributions to the Company's goals, as determined following the end of the calendar year by the Chief Executive Officer. For executive officers, the recommendation made by the Chief Executive Officer can range from 0% to 150% of the executive's target annual incentive bonus. While a named executive officer's target annual incentive percentage is used as a guide, the Chief Executive Officer has the latitude to recommend (for the other named executive officers) and the Compensation Committee has the authority to re-deploy, annual incentive awards by individual based on the views of our Chief Executive Officer and the Compensation Committee of the individual's contribution to the success of the Company. The target annual incentive for each of Messrs. Noonan, Reeth, Consolino and Ward is 150% of base salary, as specified in each named executive officer's employment agreement. For other employees, the recommendation is based on discussions between the Chief Executive Officer and the executive officer managing the applicable employee's department. In each case, the actual percentage funding of the annual incentive bonus pool is an important element of the bonus to be paid.

At the May board of directors meeting, the Compensation Committee considers and establishes a financial scale which is used to determine the amount of funding for the then current year annual incentive bonus pool for bonus determinations to be made following the end of that calendar year based on the target annual incentive bonus pool, the Company's budget and actual results. The financial scale is derived using a hypothetical range of the loss and loss expense, which is the most variable item in the Company's performance. The financial scale is then used to determine the amount of funding for the annual incentive bonus pool. The resulting funding for the annual incentive pool is further subdivided into two components – an 80% portion based on financial performance and a 20% portion based on achievement of strategic objectives. For the 2009 performance year, the primary financial guidelines were underwriting income (defined as net premiums earned less loss and loss expenses, policy acquisition costs and general

and administrative expenses excluding target annual incentive accrual and share-based compensation expense), combined ratio, net operating income and operating return on average equity. The Compensation Committee reviews the financial guidelines during each year in light of market developments (for example, acquisitions, catastrophes and competitive pricing environment). We expect that the relative weighting of

Table of Contents

these guidelines will vary depending on market developments. The Compensation Committee has substantial flexibility to adjust the annual incentive compensation program to reflect unforeseen factors.

In February 2009, the Board approved a budget as follows:

| Underwriting Income | \$ 408,127 | \$ 73,519 | \$ 450,249 |
| Combined Ratio | 48.7% | 88.7% | 68.9% |
| Net Operating Income | \$ 506,312 | \$ 98,055 | \$ 533,285 |
| Operating Return on Average Equity | 22.3% | 17.7% | 18.9% |

In 2009, underwriting income increased by \$351.9 million over 2008 due primarily to reduced losses and loss expenses of \$248.4 million and increased net premiums earned of \$193.1 million. For the year ended December 31, 2008, the Company incurred losses of \$260.6 million and \$22.1 million, respectively, as a result of Hurricanes Ike and Gustav.

The combined ratio for the year ended December 31, 2009 was 68.9% compared to 92.2% for the year ended December 31, 2008, a decrease of (23.3) percentage points. This was largely due to a decrease in the loss ratio at Validus Re of (40.9) points as compared to 2008. Group losses in 2008 included losses from Hurricanes Ike and Gustav, which represented 22.5 percentage points of the prior year loss ratio. The Group loss ratio for the year ended December 31, 2009 included favorable prior year loss reserve development of \$102.1 million (benefiting the loss ratio by 7.0 percentage points). In 2008, there was \$69.7 million of favorable prior year loss development.

Net operating income for the year ended December 31, 2009 was \$533.3 million compared to \$175.1 million for the year ended December 31, 2008, an increase of \$358.2 million, primarily reflecting increased contribution from underwriting income of \$351.9 million and lower finance expenses of \$13.2 million, offset by lower investment income of \$20.8 million.

The annualized operating return on average equity for the year ended December 31, 2009 was 18.9% compared to 8.9% for the year ended December 31, 2008. The primary reason for the increase of 10.0 percentage points was the lower incidence of natural catastrophe losses in 2009 compared to 2008.

Annual incentive awards are made once the financial results for the year are available. With the exception of awards made in 2010 for the 2009 fiscal year (as further described below), commencing with the awards made in 2008 for the

2007 fiscal year, awards earned in excess of the named executive officer's target annual incentive, if any, are paid in the form of restricted shares that will vest equally over three years (33 1/3% each year) to the extent that the Compensation Committee approves such grants. As a result, the income statement effect of this portion of the annual incentive compensation will be recognized over the succeeding three year period in accordance with FAS 123R, rather than being reflected as an expense in the year in which such award was granted. Awards paid in excess of a named executive officer's target may, at the discretion of the Chief Executive Officer and the Compensation Committee, also be based on exceptional performance by the executive, based on review of the executive's achievements during the year, including strategic, financial and general performance considerations, without regard to the size of the pool and are typically paid in the form of restricted stock.

For fiscal 2009, the Compensation Committee considered the Company's financial results and determined that the Company substantially exceeded the financial guidelines. In making this determination, the Compensation Committee considered the Company's underwriting income, combined ratio, net operating income, and return on

Table of Contents

average equity. As a result, the annual incentive pools were set at the maximum 150% of the target annual incentive pool for the Validus Re and Corporate segments and at 132% of target for the Talbot segment. The Compensation Committee also considered that in 2009 the Company: (i) strengthened the Company's competitive position in the Bermuda reinsurance market; (ii) continued to grow the Company's non-catastrophe lines of business; (iii) expanded the Company's capital base; (iv) increased the Company's market capitalization and trading liquidity; and (v) continued to grow the Company's diluted book value per share plus dividends. The Compensation Committee determined that these outstanding results merited incentive compensation awards for Messrs. Noonan, Reeth, Consolino and Ward in excess of target. The Compensation Committee also determined that a portion of such excess would be in cash rather than entirely in the form of restricted shares as indicated above. As a result, Messrs. Noonan, Reeth, Consolino and Ward each received an additional cash award in the amount of \$333,900, \$115,170, \$334,000 and \$146,667, respectively. In accordance with the terms of his employment agreement, Mr. Atkin was entitled to an annual incentive award in accordance with Talbot's annual incentive plan as in effect at the time of the acquisition. For 2009, Mr. Atkin was entitled to 10% of the Talbot annual incentive pool. This amount is payable 100% in cash, with one-half of the amount payable in one year subject to continued employment. The actual annual incentive awarded to each of our named executive officers for service in 2009 is set forth under Summary Compensation Table.

Long-Term Incentive Compensation. The goal of our long-term incentive plan is to align the interests of our executives and shareholders and to attract talented personnel. Our named executive officers were awarded various levels of restricted share and stock option grants at the time of hiring. In 2009, Messrs. Noonan, Reeth, Consolino, Atkin and Ward each received a long term incentive compensation award in the amount of 30,426 shares of restricted stock. The notional value of each of these awards was \$750,000 based on the Company's March 31, 2009 diluted book value per share of \$24.65. The value of these awards compared to the base salary of each named executive officer is set forth in the Summary Compensation Table below. In making these awards and setting the terms thereof, the Compensation Committee considered target annual grants as determined by the 2007 compensation study described above. Mr. Atkin also received an initial equity award in connection with his employment agreement and also received shares of the Company at the time of the acquisition as partial consideration for his Talbot stock. The shares received as partial consideration are being treated as compensation for financial reporting purposes because the shares are subject to forfeiture for a period of time. All of the aforementioned grants and their terms are described under Grants of Plan-Based Awards Table for the Fiscal Year Ended December 31, 2009 and Restricted Share and Option Agreements below.

In the future, the Compensation Committee may make annual equity grants to our named executive officers, with an objective of the value of each award being between 50-150% of base salary. Restricted shares granted in such awards would vest 100% after four years.

Narrative Description of Summary Compensation and Grants of Plan-Based Awards***2005 Long-Term Incentive Plan***

Our 2005 Amended and Restated Long-Term Incentive Plan provides for the grant to our employees, consultants and directors of stock options, share appreciation rights (SARs), restricted shares, restricted share units, performance shares, performance units, dividend equivalents, and other share-based awards. Subject to anti-dilution adjustments in the event of certain changes in the Company's capital structure, the number of common shares that have been reserved for issuance under the plan is equal to 13,126,896. Of the common shares reserved for issuance, no more than 8,571,428 may be issued as incentive stock options. To date, only nonqualified stock options and restricted shares have been issued under the plan.

The plan is administered by the Compensation Committee of the Board of Directors (the Committee). The Committee determines which employees, consultants and directors receive awards, the types of awards to be received and the

terms and conditions thereof, including the vesting and exercisability provisions of the awards. However, the exercise price of stock options and SARs may not be less than the fair market value of the shares subject thereto on the date of grant, and their term may not be longer than ten years from the date of grant. Payment with respect to SARs may be made in cash or common shares, as determined by the Committee.

Awards of restricted shares will be subject to such restrictions on transferability and other restrictions, if any, as the Committee may impose. Except as otherwise determined by the Committee, participants granted restricted shares will have all of the rights of a stockholder, including the right to vote restricted shares and receive dividends thereon. A restricted share unit will entitle the holder thereof to receive common shares or cash at the end of a specified deferral period. Restricted share units will also be subject to such restrictions as the Committee may impose. Performance shares and performance units will provide for future issuance of shares or payment of cash, respectively, to the participant upon the attainment of performance goals established by the Committee over specified performance periods. Except as otherwise determined by the Committee or otherwise provided in an applicable award agreement, all unvested awards will be forfeited upon termination of service.

Table of Contents

The plan may be amended, suspended or terminated by the Board of Directors at any time. However, any amendment for which stockholder approval is required under the rules of any stock exchange or automated quotation system on which the common shares may then be listed or quoted will not be effective until such stockholder approval has been obtained. In addition, no amendment, suspension, or termination of the plan may materially and adversely affect the rights of a participant under any outstanding award without the consent of the affected participant.

Under the plan and the applicable award agreements, certain provisions apply in case of termination and change in control, as described below under Potential Payments in Case of Termination or Change in Control Restricted Share and Option Agreements. Under the plan, change in control means consummation of (i) a sale of all or substantially all of the consolidated assets of the Company and its subsidiaries to a person who is not either a member of, or an affiliate of a member of, the Initial Investor Group (as defined below); or (ii) a sale by the Company, one or more members of the Initial Investor Group or any of their respective affiliates resulting in more than 50% of the voting stock of the Company (Voting Shares) being held by a person or group (as such terms are used in the Exchange Act) that does not include any member of the Initial Investor Group or any of their respective affiliates; or (iii) a merger or consolidation of the Company into another person as a result of which a person or group acquires more than 50% of the Voting Shares of the Company that does not include any member of, or an affiliate of a member of, the Initial Investor Group; provided, however, that a change in control shall occur if and only if after any such event listed in (i)-(iii) above, the Initial Investor Group is unable to elect a majority of the board of directors (or other governing body equivalent thereto) of the entity that purchased the assets in the case of an event described in (i) above, the Company in the case of an event described in (ii) above, or the resulting entity in the case of an event described in (iii) above, as the case may be. The Initial Investor Group shall mean (i) Aquiline Financial Services Fund L.P., and (ii) the other Investors under subscription agreements with the Company dated December 9, 2005.

(2) Represents 50% of current year annual bonus pursuant to the terms of Mr. Atkin's employment agreement.

The Nonqualified Supplemental Deferred Compensation Plan permits certain non-U.S. members of management and highly compensated employees selected by the Company to defer a portion of their salary and/or bonuses. The Company may, at its discretion, make additional contributions to the participant's deferral account, which will vest at the rate of 100% after two years of service (subject to full vesting at age 65, death or disability). The deferred amounts are invested in one or more of the available investment funds as selected by the participant. The participant may at any time change his or her selection of investment funds or make transfers from an investment fund to any of the other

available investment funds. Vested deferred amounts, as adjusted for earnings and losses, are paid in a lump sum following retirement, death or other termination of employment. In-service withdrawals are not permitted.

The annual incentive plan effective in 2007 for Talbot employees, including Mr. Atkin, provide that one-half of the annual incentive compensation will be payable in one year, subject to continued employment.

Table of Contents

We may, in our sole discretion, terminate Mr. Atkin's employment with immediate effect by paying a sum equal to the base salary he would have been entitled to receive during the 12 month notice period (or, if notice has already been given, during the remainder of the notice period). This payment in lieu of notice does not include any bonus or commission payments (other than accrued bonus if he is a good leaver) or benefits (other than pension benefits) which Mr. Atkin would have been entitled to receive during the notice period. In addition, we may also summarily terminate Mr. Atkin's employment without notice or payment in lieu of notice following certain events specified in the employment agreement.

If Mr. Atkin's employment is terminated (i) by reason of liquidation of Talbot Underwriting Services Ltd for the purpose of amalgamation or reconstruction or (ii) as part of any arrangement for the amalgamation of the undertaking of Talbot Underwriting Services Ltd not including liquidation or the transfer of the whole or part of the undertaking of Talbot Underwriting Services Ltd to any associated company, and Mr. Atkin is offered comparable employment with the amalgamated or reconstructed company on terms no less favorable than those described in his employment agreement, he will have no claim against us under the employment agreement with respect to that termination.

For the employment agreement for Mr. Atkin, Good Leaver means the executive's employment has terminated other than due to one of the following reasons: (i) he has ceased to be an employee in circumstances justifying summary dismissal without notice; (ii) he has been dismissed for material or persistent breaches of his duties as an employee or (iii) he has given notice of termination of his employment except in circumstances where he has been advised by his employer of a materially adverse change to his position in the group or the terms and conditions of his employment.

In addition, under Mr. Atkin's employment agreement, he may be summarily terminated without notice or payment in lieu of notice if the executive: (i) is convicted of any criminal offense (other than a motoring offense for which no custodial sentence is given to him) which in the reasonable opinion of the Company demonstrated unsuitability for further employment with the Company; (ii) shall be or become prohibited by law from being a director (applicable only to directors); (iii) shall be guilty of fraud, dishonesty or serious misconduct (which, for the avoidance of doubt, includes any conduct which tends to bring the Company or any associated company into disrepute) or shall commit any serious or persistent breach of any of his obligations (for which warnings have been given to the executive) to the Company or any associated company; or (iv) shall be guilty of fraud or willful default in relation to the warranties (as defined in the employment agreements).

For each of the employment agreements for Messrs. Noonan, Reeth, Consolino and Ward, Cause means (a) theft or embezzlement by the executive with respect to the Company or its Subsidiaries; (b) malfeasance or gross negligence in the performance of the executive's duties; (c) the commission by the executive of any felony or any crime involving moral turpitude; (d) willful or prolonged absence from work by the executive (other than by reason of disability due to physical or mental illness or at the direction of the Company or its Subsidiaries) or failure, neglect or refusal by the executive to perform his duties and responsibilities without the same being corrected within ten (10) days after being given written notice thereof; (e) for Mr. Noonan and Mr. Consolino, failure by the executive to substantially perform his duties and responsibilities thereunder without the same being corrected within thirty (30) days after being given written notice thereof, as determined by the Company in good faith, and for Mr. Reeth and Mr. Ward, failure by the executive to adequately perform his duties and responsibilities hereunder without the same being corrected within thirty (30) days after being given written notice thereof, as determined by the Company in good faith; (f) continued and habitual use of alcohol by the executive to an extent which materially impairs the executive's performance of his duties without the same being corrected within ten (10) days after being given written notice thereof; (g) the executive's use of illegal drugs without the same being corrected within ten (10) days after being given written notice thereof; (h) the executive's failure to use his best efforts to obtain, maintain or renew the required work permit in a timely manner, without the same being corrected within ten (10) days after being given written notice thereof; or (i) the material breach by the executive of any of the covenants contained in the employment agreement without, in the case of any breach capable of being corrected, the same being corrected within ten (10) days after being given

written notice thereof.

Additionally, for each of the employment agreements for Messrs. Noonan, Reeth, Consolino and Ward, Good Reason means, without the executive's written consent, (a) a material breach of this Agreement by the Company;

Table of Contents

(b) a material reduction in the executive's base salary; or (c) a material and adverse change by the Company in the executive's duties and responsibilities, other than due to the executive's failure to adequately perform such duties and responsibilities as determined by the Board in good faith; provided, however, that, it is a condition precedent to the executive's right to terminate employment for Good Reason that (i) the executive shall first have given the Company written notice that an event or condition constituting Good Reason has occurred within ninety days after such occurrence, and any failure to give such written notice within such period will result in a waiver by the executive of his right to terminate for Good Reason as a result of such event or condition, and (ii) a period of thirty days from and after the giving of such written notice shall have elapsed without the Company having effectively cured or remedied such occurrence during such 30-day period; provided further, however, that the executive's termination of employment due to Good Reason must occur not later than one hundred fifty days following the initial existence of the condition giving rise to Good Reason. For Mr. Consolino, Good Reason also means a change such that Mr. Consolino no longer reports directly to the Company's Chief Executive Officer.

Termination by the Company with cause

Each employment agreement includes an agreement by the executive to certain confidentiality and non-solicitation provisions.

Restricted Share and Option Agreements

Messrs. Noonan, Reeth, Consolino and Ward were granted restricted shares in connection with our IPO. Each Restricted Share Agreement evidencing such grants provides that in the event the executive's employment is terminated by the Company not for cause or by the executive for good reason, 45% of the IPO grant shall vest upon the delivery of a notice of termination (or at the end of the applicable correction period following delivery of a notice of termination), and the remaining 55% of the IPO grant will vest on July 24, 2012, but only if the executive does not breach the remaining applicable terms of his employment agreement, including the duties owed during any garden

leave period and the confidentiality, non-competition, non-solicitation and assignment of inventions covenants to the extent contained therein. In the event of the executive's breach of any of such terms, duties or covenants, any unvested portion of the IPO grant shall be immediately forfeited by the executive. In addition, if the executive's employment is terminated by the Company not for cause or by the executive for good reason within two years following a change in control, the IPO grant shall become immediately vested in full upon such termination of employment.

Messrs. Noonan, Reeth, Consolino and Ward were also granted stock options and restricted shares (non-IPO) in connection with signing their employment agreements at approximately the time of our formation. The stock option agreements provide that if the executive's employment is terminated by the Company without cause or by the executive for good reason, the option will continue to vest for one year from the date either party provides notice of termination and will remain exercisable for 90 days following such one year vesting period. If Mr. Noonan ceases to be an employee, but remains on our Board of Directors, his restricted shares, a portion of his restricted shares will continue to vest. The restricted share agreements (non-IPO) for Messrs. Noonan and Reeth provide that if the executive's employment is terminated by the Company without cause or by the executive for good reason, the restricted shares will continue to vest for one year from the date either party provides notice of termination, provided that in no event shall less than 25% of the restricted shares be vested at the end of such period. The restricted share agreements for Messrs. Consolino and Ward provide that if the executive's employment is terminated by the Company without cause or by the executive for good reason, the restricted shares will continue to vest for one year from the date either party provides notice of termination. Each restricted share agreement (non-IPO grant) and stock option agreement further provides that the award will become vested in full upon the executive's death or, in the case that the executive's employment is terminated by the Company not for cause or by the executive for good reason within two years following a change in control.

Mr. Atkin was granted restricted shares as partial consideration in connection with our purchase of Talbot. The terms of these restricted shares provide that the restricted shares will vest 100% upon termination of employment if the executive is a good leaver, upon a change of control, or upon any sale or disposal of Talbot, Talbot Insurance (Bermuda) Ltd, Talbot Underwriting Ltd, Talbot Underwriting Services Ltd or Talbot 2002 or of a majority of the business or assets held by Talbot or any of its subsidiaries. Any other termination of service will result in forfeiture of unvested restricted shares. For purposes of these restricted shares, change of control means a change in control as defined in the 2005 Amended and Restated Long-Term Incentive Plan where that change of control also involves Rupert Atkin and either one of Ed Noonan or George Reeth no longer continuing in a senior management role with responsibility equivalent or greater than the role they held prior to the change of control.

Mr. Atkin was also granted restricted shares pursuant to the terms of his employment agreement. The restricted share agreements evidencing such grants provide that these restricted shares will vest 100% upon termination of service if the executive is a good leaver. If the executive is not a good leaver, any portion of the award not vested at termination of service will be forfeited. In addition, if the executive's employment is terminated by the Company not for cause within two years following a change in control, these restricted shares will vest 100% upon such termination of employment.

An executive is a good leaver if his employment is terminated due to one of the following reasons: (i) agreed termination of employment; (ii) injury, ill-health, disability or redundancy; (iii) death; (iv) wrongful or unfair dismissal by the relevant Validus group company or any of its subsidiaries; (v) the company by which he is employed ceases to be a Validus group company; (vi) the entire or substantially the whole of the business carried on by the executive's employer is transferred to a person other than a Validus group company; or (vii) retirement at normal retirement age or early retirement on the grounds of ill-health or with the consent of the board of directors and in accordance with the terms of any pension plan the executive participates in.

For each of the agreements described above other than the restricted share agreements received as partial consideration for their shares of Talbot, change in control has the meaning set forth in the 2005 Amended and Restated Long-Term Incentive Plan.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

We have established written procedures for the review of transactions between us and any company affiliated with funds managed by any of our sponsors or any other company in which our officers or directors have a material interest. We refer to a company in which one of our sponsors has a material interest as a portfolio company. Any such transaction must be reviewed and approved by our management or the management of the operating subsidiary entering into the transaction, and the terms of such transaction should be arm's-length or on terms that are otherwise fair to the Company. Any such transaction will also require prior approval of the audit committee, except reinsurance assumed transactions with a portfolio company that senior management have determined are in the ordinary course. Furthermore, the effect, if any, of such a transaction on the independence of any director will be considered.

The employers of or entities associated with certain directors or their affiliates have purchased or may in the future purchase insurance and/or reinsurance from the Company on terms the Company believe were and will be no more favorable to these insureds than those made available to other customers.

The Company believes that all of its officers, Directors and beneficial owners of more than 10% of its Common Shares filed all of such reports on a timely basis during the year ended December 31, 2009 except that, due to an administrative error, Michael E.A. Carpenter made one late filing on Form 4 relating to 1,128 shares of restricted stock granted on July 3, 2009.
