**FEDEX CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)**

(1) General

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES. These interim financial statements of FedEx Corporation (FedEx) have been prepared in accordance with accounting principles generally accepted in the United States and Securities and Exchange Commission (SEC) instructions for interim financial information, and should be read in conjunction with our Annual Report on Form 10-K (Annual Report) for the year ended May 31, 2010. Accordingly, significant accounting policies and other disclosures normally provided have been omitted because such items are disclosed therein.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments (including normal recurring adjustments) necessary to present fairly our financial position as of November 30, 2010, the results of our operations for the three- and six-month periods ended November 30, 2010 and 2009 and cash flows for the six-month periods ended November 30, 2010 and 2009. Operating results for the three- and six-month periods ended November 30, 2010 are not necessarily indicative of the results that may be expected for the year ending May 31, 2011.

Except as otherwise specified, references to years indicate our fiscal year ending May 31, 2011 or ended May 31 of the year referenced and comparisons are to the corresponding period of the prior year.

EMPLOYEES UNDER COLLECTIVE BARGAINING ARRANGEMENTS. The pilots of Federal Express Corporation (FedEx Express), which represent a small number of FedEx Express total employees, are employed under a collective bargaining agreement that became amendable on October 31, 2010. In accordance with applicable labor law, we will continue to operate under our current agreement while we negotiate with our pilots. Contract negotiations with the pilots union began in August 2010 and are ongoing. We cannot estimate the financial impact, if any, that the results of these negotiations may have on our future results of operations.

BUSINESS ACQUISITIONS. On November 2, 2010, FedEx Express entered into an agreement to acquire the logistics, distribution and express businesses of AFL Pvt. Ltd. and its affiliate, Unifreight India Pvt. Ltd. Additionally, on December 15, 2010, FedEx entered into an agreement to acquire Servicios Nacionales Mupa, SA de CV (MultiPack), a Mexican domestic express package delivery company. Once completed, these acquisitions will give us more robust domestic transportation and related capabilities in these important global markets. These acquisitions will be funded with cash from operations and are expected to be completed during 2011, subject to customary closing conditions. The financial results of the acquired businesses will be included in the FedEx Express segment from the date of acquisition and will be immaterial to our 2011 results.

BUSINESS REALIGNMENT. In September 2010, we announced the combination of our FedEx Freight and FedEx National LTL operations. This action, which will be effective January 30, 2011, will increase efficiencies, reduce operational costs and provide customers both priority and economy less-than-truckload (LTL) freight services across all lengths of haul from one integrated company. The estimated cost of this program is now expected to be \$140 to \$170 million, down from our initial forecast. The actions to combine these operations began in the second quarter of 2011 and resulted in \$86 million of costs incurred during the quarter. Of these costs, \$67 million primarily relate to accrued severance expenses and impairment charges on assets to be sold, which were recorded in the Impairment and other charges caption of the condensed consolidated income statement. In addition, we recorded \$14 million in accelerated depreciation expense due to a change in the estimated useful life of certain assets impacted by the combination of these operations. No amounts recorded related to severance accruals were paid during the quarter and these amounts will be paid during the third quarter of 2011 following the combination of these operations. The cash outlays related to these actions are immaterial and the estimates recorded are not subject to any material risk of change.

Table of Contents

STOCK-BASED COMPENSATION. We have two types of equity-based compensation: stock options and restricted stock. The key terms of the stock option and restricted stock awards granted under our incentive stock plans and all financial disclosures about these programs are set forth in our Annual Report.

Our stock-based compensation expense was \$22 million for the three-month period ended November 30, 2010 and \$56 million for the six-month period ended November 30, 2010. Our stock-based compensation expense was \$23 million for the three-month period ended November 30, 2009 and \$58 million for the six-month period ended November 30, 2009. Due to its immateriality, additional disclosures related to stock-based compensation have been excluded from this quarterly report.

DIVIDENDS DECLARED PER COMMON SHARE. On November 8, 2010, our Board of Directors declared a dividend of \$0.12 per share of common stock. The dividend was paid on December 17, 2010 to stockholders of record as of the close of business on November 22, 2010. Each quarterly dividend payment is subject to review and approval by our Board of Directors, and we evaluate our dividend payment amount on an annual basis at the end of each fiscal year.

(2) Comprehensive Income

The following table provides a reconciliation of net income reported in our financial statements to comprehensive income for the periods ended November 30 (in millions):

	Three Months Ended	
	2010	2009
Net income	\$ 283	\$ 345
Other comprehensive income:		
Foreign currency translation adjustments, net of tax of \$11 in 2010 and \$3 in 2009	44	28
Amortization of unrealized pension actuarial gains/losses, net of tax of \$15 in 2010 and \$1 in 2009	26	1
Comprehensive income	\$ 353	\$ 374

	Six Months Ended	
	2010	2009
Net income	\$ 663	\$ 526
Other comprehensive income:		
Foreign currency translation adjustments, net of tax of \$17 in 2010 and \$11 in 2009	72	37
Amortization of unrealized pension actuarial gains/losses, net of tax of \$31 in 2010 and \$1 in 2009	52	2
Comprehensive income	\$ 787	\$ 565

(3) Financing Arrangements

We have a shelf registration statement filed with the SEC that allows us to sell, in one or more future offerings, any combination of our unsecured debt securities and common stock.

Table of Contents

A \$1 billion revolving credit facility is available to finance our operations and other cash flow needs and to provide support for the issuance of commercial paper. The revolving credit agreement expires in July 2012. As of November 30, 2010, no commercial paper was outstanding, and the entire \$1 billion under the revolving credit facility was available for future borrowings. The agreement contains a financial covenant, which requires us to maintain a leverage ratio of adjusted debt (long-term debt, including the current portion of such debt, plus six times our last four fiscal quarters' rentals and landing fees) to capital (adjusted debt plus total common stockholders' investment) that does not exceed 0.7 to 1.0. Our leverage ratio of adjusted debt to capital was 0.5 at November 30, 2010. We are in compliance with this covenant and all other restrictive covenants of our revolving credit agreement and do not expect the covenants to affect our operations, including our liquidity or borrowing capacity.

Long-term debt, exclusive of capital leases, had a carrying value of \$1.8 billion compared with an estimated fair value of \$2.1 billion at November 30, 2010 and May 31, 2010. The estimated fair values were determined based on quoted market prices or on the current rates offered for debt with similar terms and maturities.

(4) Computation of Earnings Per Share

The calculation of basic and diluted earnings per common share for the periods ended November 30 was as follows (in millions, except per share amounts):

	Three Months Ended		Six Months Ended	
	2010	2009	2010	2009
Basic earnings per common share:				
Net earnings allocable to common shares	\$ 282	\$ 345	\$ 661	\$ 525
Weighted-average common shares	314	312	314	312
Basic earnings per common share	\$ 0.90	\$ 1.10	\$ 2.11	\$ 1.68
Diluted earnings per common share:				
Net earnings allocable to common shares	\$ 282	\$ 345	\$ 661	\$ 525
Weighted-average common shares	314	312	314	312
Dilutive effect of share-based awards	2	2	2	1
Weighted-average diluted shares	316	314	316	313
Diluted earnings per common share	\$ 0.89	\$ 1.10	\$ 2.09	\$ 1.68
Anti-dilutive options excluded from diluted earnings per common share	11.2	9.5	11.3	13.5

(5) Retirement Plans

We sponsor programs that provide retirement benefits to most of our employees. These programs include defined benefit pension plans, defined contribution plans and postretirement healthcare plans. Key terms of our retirement plans are provided in our Annual Report. Our retirement plans costs for the periods ended November 30 were as follows (in millions):

	Three Months Ended		Six Months Ended	
	2010	2009	2010	2009
U.S. domestic and international pension plans	\$ 134	\$ 76	\$ 275	\$ 151

Table of Contents

The three- and six-month periods ended November 30, 2010 reflect higher retirement plans costs due to a significantly lower discount rate used to measure our benefit obligations at our May 31, 2010 measurement date and higher expenses for our 401(k) plans due to the partial reinstatement of the company-matching contributions on January 1, 2010. We will fully restore the company match for all of our 401(k) plans effective January 1, 2011.

Net periodic benefit cost of the pension and postretirement healthcare plans for the periods ended November 30 included the following components (in millions):

	Three Months Ended		Six Months Ended	
	2010	2009	2010	2009
Pension Plans				
Service cost	\$ 130	\$ 104	\$ 260	\$ 208
Interest cost	225	205	449	411
Expected return on plan assets	(265)	(238)	(530)	(477)
Recognized actuarial losses and other	44	5	96	9
	\$ 134	\$ 76	\$ 275	\$ 151

	Three Months Ended		Six Months Ended	
	2010	2009	2010	2009
Postretirement Healthcare Plans				
Service cost	\$ 7	\$ 6	\$ 15	\$ 12
Interest cost	9	7	17	15
Recognized actuarial gains and other	(1)	(3)	(2)	(6)
	\$ 15	\$ 10	\$ 30	\$ 21

Contributions to our tax-qualified U.S. domestic pension plans (U.S. Retirement Plans) for the six-month periods ended November 30 were as follows (in millions):

	2010	2009
Required	\$ 158	\$ 118
Voluntary		495
	\$ 158	\$ 613

In 2010, we contributed an aggregate of \$848 million to these plans. Our U.S. Retirement Plans have ample funds to meet expected benefit payments. Amounts contributed in excess of the minimum required have resulted in a credit balance for funding purposes, which can be used to meet minimum contribution requirements in future years. For the remainder of 2011, we anticipate making required contributions to our U.S. Retirement Plans totaling approximately \$322 million, a reduction from 2010 due to the use of a portion of our credit balance.

(6) Business Segment Information

We provide a broad portfolio of transportation, e-commerce and business services through companies competing collectively, operating independently and managed collaboratively under the respected FedEx brand. Our primary operating companies include FedEx Express, the world's largest express transportation company; FedEx Ground Package System, Inc. (FedEx Ground), a leading provider of small-package ground delivery services; and the FedEx Freight LTL Group, which comprises the FedEx Freight and FedEx National LTL businesses of FedEx Freight Corporation, a leading U.S. provider of LTL freight services.

Table of Contents

Our reportable segments include the following businesses:

FedEx Express Segment	FedEx Express (express transportation) FedEx Trade Networks (global trade services) FedEx SupplyChain Systems (logistics services)
FedEx Ground Segment	FedEx Ground (small-package ground delivery) FedEx SmartPost (small-parcel consolidator)
FedEx Freight Segment	FedEx Freight LTL Group: FedEx Freight (fast-transit LTL freight transportation) FedEx National LTL (economical LTL freight transportation) FedEx Custom Critical (time-critical transportation)
FedEx Services Segment	FedEx Corporate Services, Inc. (FedEx Services) (sales, marketing and information technology functions) FedEx Office and Print Services, Inc. (FedEx Office) (document and business services and package acceptance) FedEx TechConnect, formerly FedEx Customer Information Services (customer service, technical support, billings and collections)

The FedEx Services segment operates combined sales, marketing, administrative and information technology functions in shared services operations that support our transportation businesses and allow us to obtain synergies from the combination of these functions. The FedEx Services segment includes: FedEx Services, which provides sales, marketing and information technology support to our other companies; FedEx TechConnect, which is responsible for customer service, billings and collections for U.S. customers of our major business units; and FedEx Office, which provides an array of document and business services and retail access to our customers for our package transportation businesses.

Effective December 1, 2010, FedEx Customer Information Services was renamed FedEx TechConnect to better reflect our goal of providing integrated customer-service solutions and revenue systems. In addition to the existing functions performed, FedEx TechConnect will also offer technical support and repair services for non-FedEx equipment, such as computers, scanners, printers and handheld devices, thereby broadening our portfolio of business services.

The FedEx Services segment provides direct and indirect support to our transportation businesses, and we allocate all of the net operating costs of the FedEx Services segment (including the net operating results of FedEx Office) to reflect the full cost of operating our transportation businesses in the results of those segments. Within the FedEx Services segment allocation, the net operating results of FedEx Office are allocated to FedEx Express and FedEx Ground. We review and evaluate the performance of our transportation segments based on operating income (inclusive of FedEx Services segment allocations). For the FedEx Services segment, performance is evaluated based on the impact of its total allocated net operating costs on our transportation segments. The allocations of net operating costs are based on metrics such as relative revenues or estimated services provided. We believe these allocations approximate the net cost of providing these functions.

The operating expenses line item Intercompany charges on the accompanying unaudited financial summaries of our transportation segments in Management's Discussion and Analysis of Operations and Financial Condition reflects the allocations from the FedEx Services segment to the respective transportation segments. The Intercompany charges caption also includes charges and credits for administrative services provided between operating companies and certain other costs such as corporate management fees related to services received for general corporate oversight, including executive officers and certain legal and finance functions. We believe these allocations approximate the net cost of providing these functions.

Table of Contents

Certain FedEx operating companies provide transportation and related services for other FedEx companies outside their reportable segment. Billings for such services are based on negotiated rates, which we believe approximate fair value, and are reflected as revenues of the billing segment. These rates are adjusted from time to time based on market conditions. Such intersegment revenues and expenses are eliminated in our consolidated results and are not separately identified in the following segment information because the amounts are not material.

The following table provides a reconciliation of reportable segment revenues and operating income to our condensed consolidated income statement totals for the periods ended November 30 (in millions):

	Three Months Ended		Six Months Ended	
	2010	2009	2010	2009
Revenues				
FedEx Express segment	\$ 5,992	\$ 5,314	\$ 11,904	\$ 10,238
FedEx Ground segment	2,077	1,837	4,038	3,567
FedEx Freight segment	1,221	1,068	2,479	2,050
FedEx Services segment	434	465	849	916
Other and eliminations	(92)	(88)	(181)	(166)
	\$ 9,632	\$ 8,596	\$ 19,089	\$ 16,605
Operating Income (Loss)				
FedEx Express segment	\$ 264	\$ 345	\$ 621	\$ 449
FedEx Ground segment	296	238	583	447
FedEx Freight segment	(91)	(12)	(107)	(10)
	\$ 469	\$ 571	\$ 1,097	\$ 886

(7) Commitments

As of November 30, 2010, our purchase commitments under various contracts for the remainder of 2011 and annually thereafter were as follows (in millions):

	Aircraft ⁽¹⁾	Aircraft-Related ⁽²⁾	Other ⁽³⁾	Total
2011 (remainder)	\$ 186	\$ 156	\$ 459	\$ 801
2012	986	4	183	1,173
2013	724		83	807
2014	480		20	500
2015	493		12	505
Thereafter	1,431		143	1,574

(1) Our obligation to purchase 15 of these aircraft (Boeing 777 Freighters, or B777Fs) is conditioned upon there being no event that causes FedEx Express or its employees to no longer be covered by the Railway Labor Act of 1926, as amended.

(2) Primarily aircraft modifications.

(3) Primarily vehicles, facilities, advertising and promotions contracts, and for the remainder of 2011, a total of \$322 million of quarterly contributions to our U.S. Retirement Plans.

The amounts reflected in the table above for purchase commitments represent noncancelable agreements to purchase goods or services. Commitments to purchase aircraft in passenger configuration do not include the attendant costs to modify these aircraft for cargo transport unless we have entered into noncancelable commitments to modify such aircraft. Open purchase orders that are cancelable are not considered unconditional purchase obligations for financial reporting purposes and are not included in the table above.

Table of Contents

We had \$610 million in deposits and progress payments as of November 30, 2010 (an increase of \$173 million from May 31, 2010) on aircraft purchases and other planned aircraft-related transactions. These deposits are classified in the

Other assets caption of our condensed consolidated balance sheets. In addition to our commitment to purchase B777Fs, our aircraft purchase commitments include the Boeing 757 (B757) in passenger configuration, which will require additional costs to modify for cargo transport. Aircraft and aircraft-related contracts are subject to price escalations. The following table is a summary of the number and type of aircraft we are committed to purchase as of November 30, 2010, with the year of expected delivery:

	B777F ⁽¹⁾	B757	Total
2011 (remainder)	1	9	10
2012	6	9	15
2013	6		6
2014	3		3
2015	3		3
Thereafter	10		10
Total	29	18	47

(1) Our obligation to purchase 15 of these B777F aircraft is conditioned upon there being no event that causes FedEx Express or its employees to no longer be covered by the Railway Labor Act of 1926, as amended.

A summary of future minimum lease payments under capital leases and noncancelable operating leases with an initial or remaining term in excess of one year at November 30, 2010 is as follows (in millions):

	Capital Leases	Aircraft and Related Equipment	Operating Leases Facilities and Other	Total Operating Leases
2011 (remainder)	\$ 4	\$ 393	\$ 659	\$ 1,052
2012	8	504	1,199	1,703
2013	119	499	1,042	1,541
2014	2	473	887	1,360
2015	2	455	807	1,262
Thereafter	14	2,003	5,292	7,295
Total	149	\$ 4,327	\$ 9,886	\$ 14,213
Less amount representing interest	20			
Present value of net minimum lease payments	\$ 129			

(8) Contingencies

Wage-and-Hour. We are a defendant in a number of lawsuits containing various class-action allegations of wage-and-hour violations. The plaintiffs in these lawsuits allege, among other things, that they were forced to work off the clock, were not paid overtime or were not provided work breaks or other benefits. The complaints generally seek unspecified monetary damages, injunctive relief, or both. The following describes the wage-and-hour matters that

have been certified as class actions.

Table of Contents

In September 2008, in *Tidd v. Adecco USA, Kelly Services and FedEx Ground*, a Massachusetts federal court conditionally certified a class limited to individuals who were employed by two temporary employment agencies and who worked as temporary pick-up-and-delivery drivers for FedEx Ground in the New England region within the past three years. Potential claimants must voluntarily opt in to the lawsuit in order to be considered part of the class. In addition, in the same opinion, the court granted summary judgment in favor of FedEx Ground with respect to the plaintiffs' claims for unpaid overtime wages. The court has since granted judgment in favor of the other two defendants with respect to the overtime claims. Accordingly, the conditionally certified class of plaintiffs is now limited to a claim of failure to pay minimum wage due under the federal Fair Labor Standards Act.

In April 2009, in *Bibo v. FedEx Express*, a California federal court granted class certification, certifying several subclasses of FedEx Express couriers in California from April 14, 2006 (the date of the settlement of the *Foster* class action) to the present. The plaintiffs allege that FedEx Express violated California wage-and-hour laws after the date of the *Foster* settlement. In particular, the plaintiffs allege, among other things, that they were forced to work off the clock and were not provided with required meal breaks or split-shift premiums. The U.S. Court of Appeals for the Ninth Circuit has refused to accept a discretionary appeal of the class certification order at this time.

In September 2009, in *Taylor v. FedEx Freight*, a California state court granted class certification, certifying a class of all current and former drivers employed by FedEx Freight in California who performed linehaul services since June 2003. The plaintiffs allege, among other things, that they were forced to work off the clock and were not provided with required rest or meal breaks. The case has been removed to federal court in California, and trial is currently scheduled for July 2011.

These class certification rulings do not address whether we will ultimately be held liable. We have denied any liability and intend to vigorously defend ourselves in these wage-and-hour lawsuits. Given the nature and status of these lawsuits, we cannot yet determine the amount or a reasonable range of potential loss, if any. However, we do not believe that any loss is probable in these lawsuits.

Independent Contractor Lawsuits and State Administrative Proceedings. FedEx Ground is involved in numerous class-action lawsuits (including 30 that have been certified as class actions), individual lawsuits and state tax and other administrative proceedings that claim that the company's owner-operators should be treated as employees, rather than independent contractors.

Most of the class-action lawsuits were consolidated for administration of the pre-trial proceedings by a single federal court, the U.S. District Court for the Northern District of Indiana. The multidistrict litigation court granted class certification in 28 cases and denied it in 14 cases. On December 13, 2010, the court entered an opinion and order addressing all outstanding motions for summary judgment on the status of the owner-operators (i.e., independent contractor vs. employee). In sum, the court has now granted FedEx Ground's motions for summary judgment and entered judgment in favor of FedEx Ground on all claims in 19 of the 28 multidistrict litigation cases that had been certified as class actions, finding that the owner-operators in those cases were contractors as a matter of the law of the following states: Alabama, Arizona, Florida, Georgia, Indiana, Kansas (the court's previous dismissal without prejudice of the nationwide class claim under the Employee Retirement Income Security Act of 1974 based on the plaintiffs' failure to exhaust administrative remedies has been appealed), Louisiana, Maryland, Minnesota, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Utah, West Virginia and Wisconsin.

In the other nine certified class actions in the multidistrict litigation, the court ruled in favor of FedEx Ground on some of the claims and against FedEx Ground on at least one claim in three of the cases (filed in Kentucky, Nevada and New Hampshire) and then remanded all nine cases back to district court in the following states for resolution of the remaining claims: Arkansas, California, Kentucky, Nevada, New Hampshire, Ohio, Oregon (two certified classes) and Texas.

Table of Contents

In January 2008, one of the contractor-model lawsuits that is not part of the multidistrict litigation, *Anfinson v. FedEx Ground*, was certified as a class action by a Washington state court. The plaintiffs in *Anfinson* represent a class of single-route, pickup-and-delivery owner-operators in Washington from December 21, 2001 through December 31, 2005 and allege that the class members should be reimbursed as employees for their uniform expenses and should receive overtime pay. In March 2009, a jury trial in the *Anfinson* case was held, and the jury returned a verdict in favor of FedEx Ground, finding that all 320 class members were independent contractors, not employees. The plaintiffs have appealed the verdict.

In August 2010, another one of the contractor-model lawsuits that is not part of the multidistrict litigation, *Rascon v. FedEx Ground*, was certified as a class action by a Colorado state court. The plaintiff in *Rascon* represents a class of single-route, pickup-and-delivery owner-operators in Colorado who drove vehicles weighing less than 10,001 pounds at any time from August 27, 2005 through the present. The lawsuit seeks unpaid overtime compensation, and related penalties and attorneys' fees and costs, under Colorado law. Our applications for appeal challenging this class certification decision have been rejected.

Other contractor-model cases that are not or are no longer part of the multidistrict litigation are in varying stages of litigation.

With respect to the state administrative proceedings relating to the classification of FedEx Ground's owner-operators as independent contractors, during the second quarter of 2011, the attorneys general in New York and Kentucky each filed lawsuits against FedEx Ground challenging the validity of the contractor model.

Adverse determinations in these matters could, among other things, entitle certain of our contractors and their drivers to the reimbursement of certain expenses and to the benefit of wage-and-hour laws and result in employment and withholding tax and benefit liability for FedEx Ground, and could result in changes to the independent contractor status of FedEx Ground's owner-operators. We believe that FedEx Ground's owner-operators are properly classified as independent contractors and that FedEx Ground is not an employer of the drivers of the company's independent contractors. Given the nature and status of these lawsuits, we cannot yet determine the amount or a reasonable range of potential loss, if any, but it is reasonably possible that such potential loss or such changes to the independent contractor status of FedEx Ground's owner-operators could be material. However, we do not believe that a material loss is probable in any of these matters.

ATA Airlines. In October 2010, a jury returned a verdict in favor of ATA Airlines in its lawsuit against FedEx Express and awarded damages of \$66 million. The suit was filed in Indiana federal court and alleged that we had breached a contract by not including ATA on our 2009 Civil Reserve Air Fleet (CRAF)/Air Mobility Command (AMC) team, which provides cargo and passenger service to the U.S. military. While we do not agree with the verdict or the amount of damages awarded and are appealing the matter, accounting standards require accrual of the \$66 million loss.

Other. FedEx and its subsidiaries are subject to other legal proceedings that arise in the ordinary course of their business. In the opinion of management, the aggregate liability, if any, with respect to these other actions will not have a material adverse effect on our financial position, results of operations or cash flows.

Table of Contents**(9) Supplemental Cash Flow Information**

The following table presents supplemental cash flow information for the six-month periods ended November 30 (in millions):

	2010	2009
Cash payments for:		
Interest (net of capitalized interest)	\$ 45	\$ 46
Income taxes	\$ 340	\$ 113
Income tax refunds received	(11)	(275)
Cash tax payments, net	\$ 329	\$ (162)

(10) Condensed Consolidating Financial Statements

We are required to present condensed consolidating financial information in order for the subsidiary guarantors (other than FedEx Express) of our public debt to continue to be exempt from reporting under the Securities Exchange Act of 1934.

The guarantor subsidiaries, which are wholly owned by FedEx, guarantee \$1.2 billion of our debt. The guarantees are full and unconditional and joint and several. Our guarantor subsidiaries were not determined using geographic, service line or other similar criteria, and as a result, the Guarantor and Non-Guarantor columns each include portions of our domestic and international operations. Accordingly, this basis of presentation is not intended to present our financial condition, results of operations or cash flows for any purpose other than to comply with the specific requirements for subsidiary guarantor reporting. Condensed consolidating financial statements for our guarantor subsidiaries and non-guarantor subsidiaries are presented in the following tables (in millions):

REPORT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders

FedEx Corporation

We have reviewed the condensed consolidated balance sheet of FedEx Corporation as of November 30, 2010, and the related condensed consolidated statements of income for the three-month and six-month periods ended November 30, 2010 and 2009 and the condensed consolidated statements of cash flows for the six-month periods ended November 30, 2010 and 2009. These financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the condensed consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of FedEx Corporation as of May 31, 2010, and the related consolidated statements of income, changes in stockholders' investment and comprehensive income, and cash flows for the year then ended not presented herein, and in our report dated July 15, 2010, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of May 31, 2010, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition

GENERAL

The following Management's Discussion and Analysis of Results of Operations and Financial Condition (MD&A) describes the principal factors affecting the results of operations, liquidity, capital resources, contractual cash obligations and critical accounting estimates of FedEx Corporation (FedEx). This discussion should be read in conjunction with the accompanying quarterly unaudited condensed consolidated financial statements and our Annual Report on Form 10-K for the year ended May 31, 2010 (Annual Report). Our Annual Report includes additional information about our significant accounting policies, practices and the transactions that underlie our financial results as well as a detailed discussion of the most significant risks and uncertainties associated with our financial condition and operating results.

We provide a broad portfolio of transportation, e-commerce and business services through companies competing collectively, operating independently and managed collaboratively, under the respected FedEx brand. Our primary operating companies are Federal Express Corporation (FedEx Express), the world's largest express transportation company; FedEx Ground Package System, Inc. (FedEx Ground), a leading provider of small-package ground delivery services; and the FedEx Freight LTL Group, which comprises the FedEx Freight and FedEx National LTL businesses of FedEx Freight Corporation, a leading U.S. provider of less-than-truckload (LTL) freight services. These companies represent our major service lines and, along with FedEx Corporate Services, Inc. (FedEx Services), form the core of our reportable segments. Our FedEx Services segment provides sales, marketing, information technology and customer service support to our transportation segments. In addition, the FedEx Services segment provides customers with retail access to FedEx Express and FedEx Ground shipping services through FedEx Office and Print Services, Inc. (FedEx Office). See Reportable Segments for further discussion.

The key indicators necessary to understand our operating results include:

- the overall customer demand for our various services;
- the volumes of transportation services provided through our networks, primarily measured by our average daily volume and shipment weight;
- the mix of services purchased by our customers;
- the prices we obtain for our services, primarily measured by yield (revenue per package or pound or revenue per hundredweight for LTL freight shipments);
- our ability to manage our cost structure (capital expenditures and operating expenses) to match shifting volume levels; and
- the timing and amount of fluctuations in fuel prices and our ability to recover incremental fuel costs through our fuel surcharges.

The majority of our operating expenses are directly impacted by revenue and volume levels. Accordingly, we expect these operating expenses to fluctuate on a year-over-year basis consistent with the change in revenues and volumes. Therefore, the discussion of operating expense captions focuses on the key drivers and trends impacting expenses other than changes in revenues and volume.

Except as otherwise specified, references to years indicate our fiscal year ending May 31, 2011 or ended May 31 of the year referenced and comparisons are to the corresponding period of the prior year. References to our transportation segments include, collectively, our FedEx Express, FedEx Ground and FedEx Freight segments.

Table of Contents**RESULTS OF OPERATIONS****CONSOLIDATED RESULTS**

The following table compares summary operating results (dollars in millions, except per share amounts) for the three- and six-month periods ended November 30:

	Three Months Ended		Percent	Six Months Ended		Percent
	2010	2009	Change	2010	2009	Change

Overview

Despite continued growth in revenue driven by solid demand and yield improvements in our transportation segments, operating income and operating margin decreased in the second quarter of 2011. Two special charges incurred during the quarter and higher operating expenses significantly impacted earnings.

Our second quarter 2011 results included \$86 million in costs related to the previously announced combination of our FedEx Freight and FedEx National LTL operations (discussed below) and a \$66 million reserve associated with an adverse jury decision in the ATA Airlines lawsuit against FedEx Express. The net impact on second quarter earnings of these two charges was \$0.27 per diluted share after considering the effect of variable incentive compensation accruals. In addition, our prior year second quarter results included a \$54 million benefit from plan design changes to a self insurance program at FedEx Express from a remeasurement of the plan liabilities. The net benefit of this credit to last year's second quarter earnings per diluted share was \$0.05 after considering the effect of variable incentive

compensation accruals.

Table of Contents

In addition to the above charges, our 2011 second quarter earnings were negatively impacted by higher compensation and benefits due to reinstatement of compensation programs curtailed during the recession and higher pension costs. Higher maintenance and repairs expenses also reduced our earnings in the second quarter of 2011. A positive year-over-year net benefit from changes in fuel surcharges and fuel prices partially offset the impact of these items on our second quarter earnings.

Our revenues increased for the second quarter and first half of 2011 due to higher volumes across all of our transportation segments, particularly in FedEx International Priority (IP) package shipments at FedEx Express. FedEx Express U.S. domestic package and FedEx Ground yields improved during the second quarter and first half of 2011 due to higher package rates and fuel surcharges. FedEx Express IP package yields improved during the second quarter and first half of 2011 due to higher package weights and fuel surcharges.

In September 2010, we announced the combination of our FedEx Freight and FedEx National LTL operations. This action, which will be effective January 30, 2011, will increase efficiencies, reduce operational costs and provide customers both priority and economy LTL freight services across all lengths of haul from one integrated company. The estimated cost of this program is now expected to be \$140 to \$170 million, down from our initial forecast. The actions to combine these operations began in the second quarter of 2011 and resulted in \$86 million of costs incurred during the quarter. Of these costs, \$67 million primarily relate to accrued severance expenses and impairment charges on assets to be sold, which were recorded in the Impairment and other charges caption of the condensed consolidated income statement. In addition, we recorded \$14 million in accelerated depreciation expense due to a change in the estimated useful life of certain assets impacted by the combination of these operations.

Table of Contents

The following graphs for FedEx Express, FedEx Ground and the FedEx Freight LTL Group show selected volume trends (in thousands) over the five most recent quarters:

- (1) Package statistics do not include the operations of FedEx SmartPost.

Table of Contents

The following graphs for FedEx Express, FedEx Ground and the FedEx Freight LTL Group show selected yield trends over the five most recent quarters:

(1) Package statistics do not include the operations of FedEx SmartPost.

Revenue

Revenues increased 12% during the second quarter of 2011 and 15% for the first half of 2011 due to volume and yield increases across all of our transportation segments. At FedEx Express, IP package volume increased 11% in the second quarter of 2011 and 15% in the first half of 2011 led by growth in Asia, while U.S. domestic package yields increased 5% in the second quarter of 2011 and 6% in the first half of 2011 primarily due to a higher rate per pound and higher fuel surcharges. At the FedEx Ground segment, revenues increased 13% for the second quarter and first half of 2011 due to volume and yield growth at both FedEx Ground and FedEx SmartPost. Revenues at FedEx Freight increased 14% during the second quarter of 2011 and 21% for the first half of 2011 driven by growth in average daily LTL shipments and higher yield. Our ongoing yield management plan to improve pricing in our LTL businesses had a positive impact during the quarter, as the performance of the FedEx Freight segment is continuing to stabilize, with yields increasing 7% year over year in the second quarter of 2011 and improving 5% from the first quarter of 2011.

Table of Contents***Operating Income***

The following tables compare operating expenses expressed as dollar amounts (in millions) and as a percent of revenue for the three- and six-month periods ended November 30:

	Three Months Ended		Six Months Ended	
	2010	2009	2010	2009
Operating expenses:				
Salaries and employee benefits	\$ 3,779	\$ 3,424	\$ 7,582	\$ 6,801
Purchased transportation	1,390	1,155	2,717	2,209
Rentals and landing fees	628	593	1,229	1,171
Depreciation and amortization	502	487	981	982
Fuel	938	744	1,825	1,410
Maintenance and repairs	473	410	990	811
Impairment and other charges ⁽¹⁾	67		67	
Other	1,386	1,212	2,601	2,335
Total operating expenses	\$ 9,163	\$ 8,025	\$ 17,992	\$ 15,719

⁽¹⁾ Represents charges associated with the combination of FedEx Freight and FedEx National LTL operations, which will be effective January 30, 2011.

	Percent of Revenue		Percent of Revenue	
	Three Months Ended 2010	Three Months Ended 2009	Six Months Ended 2010	Six Months Ended 2009
Operating expenses:				
Salaries and employee benefits	39.2%	39.8%	39.7%	41.0%
Purchased transportation	14.4	13.4	14.2	13.3
Rentals and landing fees	6.5	6.9	6.4	7.0
Depreciation and amortization	5.2	5.7	5.2	5.9
Fuel	9.8	8.7	9.6	8.5
Maintenance and repairs	4.9	4.8	5.2	4.9
Impairment and other charges	0.7		0.4	
Other	14.4	14.1	13.6	14.1
Total operating expenses	95.1	93.4	94.3	94.7
Operating margin	4.9%	6.6%	5.7%	5.3%

Operating income and operating margin declined for the second quarter of 2011 due to the charges described above, as well as higher salaries and employee benefits. Operating income and operating margin increased for the first half of 2011, as increased revenues more than offset the higher expenses noted below.

Salaries and employee benefits increased 10% in the second quarter and 11% in the first half of 2011 due to the reinstatement of merit salary increases, increases in pension costs, the partial reinstatement of 401(k)

company-matching contributions effective January 1, 2010 and increases in variable incentive compensation. Purchased transportation costs increased 20% in the second quarter of 2011 and 23% in the first half of 2011 due to volume growth at all of our transportation segments, as well as higher rates paid to our independent contractors at FedEx Ground. Maintenance and repairs expense increased 15% in the second quarter of 2011 and 22% in the first half of 2011 primarily due to an increase in aircraft maintenance events as a result of timing and higher utilization of our fleet driven by increased volumes.

Table of Contents

The following graph for our transportation segments shows our average cost of jet and vehicle fuel per gallon for the five most recent quarters:

Fuel expense increased 26% during the second quarter of 2011 and 29% for the first half of 2011 due to increases in the average price per gallon of fuel and fuel consumption driven by volume increases. Fuel surcharges more than offset incremental fuel costs for the second quarter and first half of 2011, based on a static analysis of the impact to operating income of year-over-year changes in fuel prices compared to changes in fuel surcharges.

Our analysis considers the estimated impact of the reduction in fuel surcharges included in the base rates charged for FedEx Express services. However, this analysis does not consider the negative effects that fuel surcharge levels may have on our business, including reduced demand and shifts by our customers to lower-yielding services. While fluctuations in fuel surcharge rates can be significant from period to period, fuel surcharges represent one of the many individual components of our pricing structure that impact our overall revenue and yield. Additional components include the mix of services purchased, the base price and extra service charges we obtain for these services and the level of pricing discounts offered. In order to provide information about the impact of fuel surcharges on the trend in revenue and yield growth, we have included the comparative fuel surcharge rates in effect for the second quarter and first half of 2011 and 2010 in the accompanying discussions of each of our transportation segments.

Income Taxes

Our effective tax rate was 35.3% for the second quarter of 2011 and 36.3% for the first half of 2011, compared with 36.9% for the second quarter of 2010 and 37.4% for the first half of 2010. Our lower effective tax rates in the second quarter and first half of 2011 were driven primarily by the benefit derived from increases in international earnings, which are generally taxed at lower rates than in the U.S. For the remainder of 2011, we expect the effective tax rate to be 36.0% to 37.0%. The actual rate, however, will depend on a number of factors, including the amount and source of operating income.

As of November 30, 2010, there were no material changes to our liabilities for unrecognized tax benefits from May 31, 2010. The Internal Revenue Service is currently auditing our 2007 through 2009 consolidated U.S. income tax returns.

We file income tax returns in the U.S. and various U.S. states and foreign jurisdictions. It is reasonably possible that certain U.S. federal, U.S. state and foreign jurisdiction income tax return proceedings will be completed during the next 12 months and could result in a change in our balance of unrecognized tax benefits. An estimate of the range of the change cannot be made at this time. The expected impact of any changes would not be material to our consolidated financial statements.

Table of Contents

Business Acquisitions

On November 2, 2010, FedEx Express entered into an agreement to acquire the logistics, distribution and express businesses of AFL Pvt. Ltd. and its affiliate, Unifreight India Pvt. Ltd. Additionally, on December 15, 2010, FedEx entered into an agreement to acquire Servicios Nacionales Mupa, SA de CV (MultiPack), a Mexican domestic express package delivery company. Once completed, these acquisitions will give us more robust domestic transportation and related capabilities in these important global markets. These acquisitions will be funded with cash from operations and are expected to be completed during 2011, subject to customary closing conditions. The financial results of the acquired businesses will be included in the FedEx Express segment from the date of acquisition and will be immaterial to our 2011 results.

Outlook

We anticipate volume growth at FedEx Express and FedEx Ground and positive yield trends across our transportation segments during the second half of 2011. Our on-going yield improvement activities, including general rate increases and changes to our dimensional weight pricing, will continue to be a major focus in the second half of 2011. However, as we continue to take actions to improve yields within our FedEx Freight segment, we expect that segment's volume growth to moderate as we transition lower yielding volumes out of our LTL network. We expect revenue growth to be partially offset by cost increases associated with higher aircraft maintenance, increased pension costs and continued investments in our employees, as we complete the reinstatement of compensation and benefit programs curtailed during the recession. We will also incur additional charges associated with our realignment of the FedEx Freight segment. Our expectations are based on a continued recovery in global economic conditions, moderate near-term growth in the U.S. and stable fuel prices.

For the remainder of 2011, we will continue to make strategic investments in aircraft, including the Boeing 777 Freighter (B777F) and Boeing 757 (B757) aircraft, which are substantially more fuel-efficient per unit than the aircraft types that they are replacing. We are committed to investing in critical long-term strategic projects focused on enhancing and broadening our service offerings to position us for stronger growth as global economic conditions continue to improve. For additional details on key 2011 capital projects, refer to the Liquidity Outlook section of this MD&A.

All of our businesses operate in a competitive pricing environment, exacerbated by continuing volatile fuel prices, which impact our fuel surcharge levels. Historically, our fuel surcharges have largely offset incremental fuel costs; however, volatility in fuel costs may impact earnings because adjustments to our fuel surcharges lag changes in actual fuel prices paid. Therefore, the trailing impact of adjustments to our fuel surcharges can significantly affect our earnings either positively or negatively in the short-term.

The pilots of FedEx Express, which represent a small number of FedEx Express total employees, are employed under a collective bargaining agreement that became amendable on October 31, 2010. In accordance with applicable labor law, we will continue to operate under our current agreement while we negotiate with our pilots. Contract negotiations with the pilots' union began in August 2010 and are ongoing. We cannot estimate the financial impact, if any, that the results of these negotiations may have on our future results of operations.

As described in Note 8 of the accompanying unaudited condensed consolidated financial statements and the Independent Contractor Matters section of our FedEx Ground segment MD&A, we are involved in a number of lawsuits and other proceedings that challenge the status of FedEx Ground's owner-operators as independent contractors. FedEx Ground anticipates continuing changes to its relationships with its contractors. The nature, timing and amount of any changes are dependent on the outcome of numerous future events. We cannot reasonably estimate the potential impact of any such changes or a meaningful range of potential outcomes, although they could be material. However, we do not believe that any such changes will impair our ability to operate and profitably grow our FedEx Ground business.

See Forward-Looking Statements for a discussion of these and other potential risks and uncertainties that could materially affect our future performance.

Table of Contents***NEW ACCOUNTING GUIDANCE***

New accounting rules and disclosure requirements can significantly impact our reported results and the comparability of our financial statements. We believe that there is no new accounting guidance adopted but not yet effective that is relevant to the readers of our financial statements. However, there are numerous new proposals under development which, if and when enacted, may have a significant impact on our financial reporting.

REPORTABLE SEGMENTS

FedEx Express, FedEx Ground and the FedEx Freight LTL Group represent our major service lines and, along with FedEx Services, form the core of our reportable segments. Our reportable segments include the following businesses:

FedEx Express Segment	FedEx Express (express transportation) FedEx Trade Networks (global trade services) FedEx SupplyChain Systems (logistics services)
FedEx Ground Segment	FedEx Ground (small-package ground delivery) FedEx SmartPost (small-parcel consolidator)
FedEx Freight Segment	FedEx Freight LTL Group: FedEx Freight (fast-transit LTL freight transportation) FedEx National LTL (economical LTL freight transportation) FedEx Custom Critical (time-critical transportation)
FedEx Services Segment	FedEx Services (sales, marketing and information technology functions) FedEx Office (document and business services and package acceptance) FedEx TechConnect, formerly FedEx Customer Information Services (customer service, technical support, billings and collections)

FEDEX SERVICES SEGMENT

The FedEx Services segment operates combined sales, marketing, administrative and information technology functions in shared services operations that support our transportation businesses and allow us to obtain synergies from the combination of these functions. The FedEx Services segment includes: FedEx Services, which provides sales, marketing and information technology support to our other companies; FedEx TechConnect, which is responsible for customer service, billings and collections for U.S. customers of our major business units; and FedEx Office, which provides an array of document and business services and retail access to our customers for our package transportation businesses.

Effective December 1, 2010, FedEx Customer Information Services was renamed FedEx TechConnect to better reflect our goal of providing integrated customer-service solutions and revenue systems. In addition to the existing functions performed, FedEx TechConnect will also offer technical support and repair services for non-FedEx equipment, such as computers, scanners, printers and handheld devices, thereby broadening our portfolio of business services.

The FedEx Services segment provides direct and indirect support to our transportation businesses, and we allocate all of the net operating costs of the FedEx Services segment (including the net operating results of FedEx Office) to reflect the full cost of operating our transportation businesses in the results of those segments. Within the FedEx Services segment allocation, the net operating results of FedEx Office are allocated to FedEx Express and FedEx Ground. We review and evaluate the performance of our transportation segments based on operating income (inclusive of FedEx Services segment allocations). For the FedEx Services segment, performance is evaluated based on the impact of its total allocated net operating costs on our transportation segments. The allocations of net operating costs are based on metrics such as relative revenues or estimated services provided. We believe these allocations approximate the net cost of providing these functions.

Table of Contents

The operating expenses line item *Intercompany charges* on the accompanying unaudited financial summaries of our transportation segments reflects the allocations from the FedEx Services segment to the respective transportation segments. The *Intercompany charges* caption also includes charges and credits for administrative services provided between operating companies and certain other costs such as corporate management fees related to services received for general corporate oversight, including executive officers and certain legal and finance functions. We believe these allocations approximate the net cost of providing these functions.

Effective August 1, 2009, approximately 3,600 employees (predominantly from the FedEx Freight segment) were transferred to entities within the FedEx Services segment. This internal reorganization further centralized most customer support functions, such as sales, customer service and information technology, into our shared services organizations. While the reorganization had no impact on the net operating results of any of our transportation segments, the net intercompany charges to our FedEx Freight segment increased significantly with corresponding decreases to other expense captions, such as salaries and employee benefits. The impact of this internal reorganization to the expense captions in our other segments was immaterial.

OTHER INTERSEGMENT TRANSACTIONS

Certain FedEx operating companies provide transportation and related services for other FedEx companies outside their reportable segment. Billings for such services are based on negotiated rates, which we believe approximate fair value, and are reflected as revenues of the billing segment. These rates are adjusted from time to time based on market conditions. Such intersegment revenues and expenses are eliminated in our consolidated results and are not separately identified in the following segment information because the amounts are not material.

Table of Contents***FEDEX EXPRESS SEGMENT***

The following tables compare revenues, operating expenses, operating expenses as a percent of revenue, operating income and operating margin (dollars in millions) for the three- and six-month periods ended November 30:

FedEx Express Segment Revenues

FedEx Express segment revenues increased 13% in the second quarter of 2011 and 16% in the first half of 2011 primarily due to an increase in IP package and freight volume, as well as higher U.S. domestic package and IP yields. IP package volume increased in the second quarter and first half of 2011 primarily due to exports from Asia. IP freight

volume increased in the second quarter of 2011 primarily due to exports from Europe and Asia and during the first half of 2011 primarily due to exports from Asia.

For the second quarter of 2011, U.S. domestic package yields increased due to a higher rate per pound, higher fuel surcharges and increased package weights. IP package yields increased due to increased package weights and higher fuel surcharges.

The increase in U.S. domestic package yields in the first half of 2011 was due to higher fuel surcharges, as well as a higher rate per pound and increased package weights. IP package yields increased in the first half of 2011 due to increased package weights and higher fuel surcharges, partially offset by a lower rate per pound.

Table of Contents

Our fuel surcharges are indexed to the spot price for jet fuel. Using this index, the U.S. domestic and outbound fuel surcharge and the international fuel surcharges ranged as follows for the three- and six-month periods ended November 30:

	Three Months Ended		Six Months Ended	
	2010	2009	2010	2009
U.S. Domestic and Outbound Fuel Surcharge:				
Low	7.00%	5.50%	7.00%	1.00%
High	8.50	7.50	10.00	7.50
Weighted-average	7.82	6.35	8.17	4.81
International Fuel Surcharges:				
Low	7.00	5.50	7.00	1.00
High	13.50	12.50	14.00	12.50
Weighted-average	10.59	9.57	10.83	8.50

On September 29, 2010, we announced a 5.9% average list price increase effective January 3, 2011, on FedEx Express U.S. domestic and U.S. outbound express package and freight shipments and made various changes to other surcharges, while we lowered our fuel surcharge index by two percentage points. In addition, FedEx Express will implement a change to the dimensional weight volumetric divisor for U.S. domestic services. In September 2009, we announced a 5.9% average list price increase effective January 4, 2010 on FedEx Express U.S. domestic and U.S. outbound express package and freight shipments and made various changes to other surcharges, while we lowered our fuel surcharge index by two percentage points. Furthermore, in connection with these changes, the structure of the FedEx Express fuel surcharge table was modified.

FedEx Express Segment Operating Income

FedEx Express segment operating income and operating margin decreased during the second quarter of 2011. The year-over-year comparison of the results was impacted by a \$66 million legal reserve associated with the ATA Airlines lawsuit (see Note 8 of the accompanying condensed consolidated financial statements) recorded during the second quarter of 2011, and the inclusion in the second quarter of 2010 of a benefit of \$54 million for plan design changes to a self-insurance program, which required a remeasurement of the plan liabilities. The combination of these two items significantly impacted year-over-year operating margin comparisons. In addition, the reinstatement of certain employee compensation programs, increased aircraft maintenance costs and higher pension expenses offset the benefit of increased revenues and the positive net impact of higher fuel surcharges.

FedEx Express segment operating income and operating margin increased in the first half of 2011 as a result of volume and yield growth, particularly in higher-margin IP package and freight services, along with a benefit from the net impact of higher fuel surcharges. However, the first half was also negatively impacted by the higher expenses noted above.

Salaries and employee benefits expense increased 11% in both the second quarter of 2011 and first half of 2011 due to volume-related increases in labor hours, higher pension costs, and the reinstatement of several employee compensation programs, including higher variable incentive compensation, merit salary increases and 401(k) company-matching contributions. Purchased transportation costs increased 37% in the second quarter of 2011 and 41% in the first half of 2011 due to costs associated with the expansion of our freight forwarding business at FedEx Trade Networks and IP package and freight volume growth. Maintenance and repairs expense increased 20% in the second quarter of 2011 and 27% in the first half of 2011 primarily due to an increase in aircraft maintenance expenses as a result of timing of maintenance events and higher utilization of our fleet driven by increased volumes. Intercompany charges increased 9% in the second quarter and first half of 2011 primarily due to higher marketing and sales costs.

Fuel costs increased 26% in the second quarter of 2011 and 29% in the first half of 2011 due to increases in the average price per gallon of fuel and fuel consumption driven by volume increases. Based on a static analysis of the net impact of year-over-year changes in fuel prices compared to year-over-year changes in fuel surcharges, fuel had a

positive impact on operating income in both the second quarter and first half of 2011. This analysis considers the estimated impact of the reduction in fuel surcharges included in the base rates charged for FedEx Express services.

Table of Contents***FEDEX GROUND SEGMENT***

The following tables compare revenues, operating expenses, operating expenses as a percent of revenue, operating income and operating margin (dollars in millions) and selected package statistics (in thousands, except yield amounts) for the three- and six-month periods ended November 30:

	Three Months Ended		Percent	Six Months Ended		Percent

Table of Contents***FedEx Ground Segment Revenues***

FedEx Ground segment revenues increased 13% in the second quarter and first half of 2011 due to volume and yield growth at both FedEx Ground and FedEx SmartPost.

FedEx Ground average daily volume increased during the second quarter of 2011 and first half of 2011 due to market share gains resulting from continued growth in our commercial business and our FedEx Home Delivery service. Yield improvement at FedEx Ground during the second quarter and first half of 2011 was primarily due to higher fuel surcharges, rate increases and higher extra service revenue.

FedEx SmartPost volumes grew 17% during the second quarter of 2011 and 13% in the first half of 2011 as a result of growth in e-commerce, gains in market share and the introduction of new service offerings. Yields at FedEx SmartPost increased 10% during the second quarter of 2011 and 13% in the first half of 2011 primarily due to lower postage costs as a result of increased deliveries to United States Postal Service (USPS) final destination facilities and higher fuel surcharges. FedEx SmartPost yield represents the amount charged to customers net of postage paid to the USPS.

The FedEx Ground fuel surcharge is based on a rounded average of the national U.S. on-highway average prices for a gallon of diesel fuel, as published by the Department of Energy. Our fuel surcharge ranged as follows for the three- and six-month periods ended November 30:

	Three Months Ended		Six Months Ended	
	2010	2009	2010	2009
Low	5.50%	3.75%	5.50%	2.75%
High	6.00	4.00	6.00	4.00
Weighted-average	5.66	3.92	5.74	3.47

On December 3, 2010, we announced a 4.9% average list price increase effective January 3, 2011 for FedEx Ground and FedEx Home Delivery services. The full average rate increase of 5.9% will be partially offset by adjusting the fuel price threshold at which the fuel surcharge begins, reducing the fuel surcharge by one percentage point. FedEx Ground will make additional changes to dimensional weight charges and surcharges, and FedEx SmartPost rates will also increase. In December 2009, we announced a 4.9% average list price increase and made various changes to other surcharges, including modifying the fuel surcharge table, effective January 4, 2010 on FedEx Ground shipments.

FedEx Ground Segment Operating Income

FedEx Ground segment operating income and operating margin increased during the second quarter and first half of 2011 due to volume and yield growth. Purchased transportation costs increased 15% during the second quarter and 14% in the first half of 2011 primarily as a result of volume growth and higher rates paid to our independent contractors. The increase in salaries and employee benefits expense during the second quarter and first half of 2011 was primarily due to increased staffing at FedEx Ground and FedEx SmartPost to support volume growth and higher accruals under variable incentive compensation programs. Intercompany charges increased in the second quarter and first half of 2011 primarily due to higher allocated information technology costs.

Independent Contractor Matters

FedEx Ground relies on owner-operators to conduct its linehaul and pickup-and-delivery operations, as the use of independent contractors is well suited to the needs of the ground delivery business and its customers. Although FedEx Ground believes its relationship with independent contractors is generally excellent, the company is involved in numerous lawsuits and other proceedings (such as state tax audits or other administrative challenges) where the classification of the contractors is at issue. For a description of these proceedings, see Note 8 of the accompanying unaudited condensed consolidated financial statements.

FedEx Ground has made changes to its relationships with contractors that, among other things, provide incentives for improved service and enhanced regulatory and other compliance by the contractors. For a description of these changes, see our Annual Report.

Table of Contents

We anticipate continuing changes to FedEx Ground's relationships with its contractors, the nature, timing and amount of which are dependent on the outcome of numerous future events. We do not believe that any of these changes will impair our ability to operate and profitably grow our FedEx Ground business.

FEDEX FREIGHT SEGMENT

The following tables compare revenues, operating expenses, operating expenses as a percent of revenue, operating loss and operating margin (dollars in millions) and selected statistics for the three- and six-month periods ended November 30:

	Three Months Ended		Percent	Six Months Ended		Percent
	2010	2009	Change	2010	2009	Change

- (1) Includes charges associated with the combination of FedEx Freight and FedEx National LTL operations, which will be effective January 30, 2011.
- (2) Certain functions were transferred from the FedEx Freight segment to FedEx Services and FedEx TechConnect effective August 1, 2009. For 2010, the costs associated with these functions, previously a direct charge, were allocated to the FedEx Freight segment through intercompany allocations.

FedEx Freight Segment Revenues

FedEx Freight segment revenues increased 14% during the second quarter of 2011 and 21% in the first half of 2011 as a result of higher average daily LTL shipments and higher LTL yield. Discounted pricing in contracts signed during the second half of fiscal 2010 led to an increase in average daily LTL shipments of 8% for the second quarter of 2011 and 18% for the first half of 2011. Yields increased during the second quarter and first half of 2011 as a result of our yield management programs, which include more disciplined contract pricing and reviews of lower-performing accounts for rate adjustments. Yields increased 7% year over year in the second quarter of 2011 and improved 5% from the first quarter of 2011.

On November 1, 2010, we implemented a 6.9% general rate increase for FedEx Freight and FedEx National LTL shipments. The indexed LTL fuel surcharge is based on the average of the national U.S. on-highway average prices for a gallon of diesel fuel, as published by the Department of Energy. The indexed LTL fuel surcharge ranged as follows for the three- and six-month periods ended November 30:

	Three Months Ended		Six Months Ended	
	2010	2009	2010	2009
Low	15.30%	12.50%	15.10%	10.80%
High	16.40	14.20	16.40	14.20
Weighted-average	15.80	13.40	15.60	12.90

FedEx Freight Segment Operating Loss

In September 2010, we announced the combination of our FedEx Freight and FedEx National LTL operations. This action, which will be effective January 30, 2011, will increase efficiencies, reduce operational costs and provide customers both priority and economy LTL freight services across all lengths of haul from one integrated company. The estimated cost of this program is now expected to be \$140 to \$170 million, down from our initial forecast. The actions to combine these operations began in the second quarter of 2011 and resulted in \$86 million of costs incurred during the quarter. Of these costs, \$67 million primarily relates to accrued severance expenses and impairment charges on assets to be sold, which were recorded in the Impairment and other charges caption of the condensed consolidated income statement. In addition, we recorded \$14 million in accelerated depreciation expense due to a change in the estimated useful life of certain assets impacted by the combination of these operations.

Table of Contents

Salaries and employee benefits increased 14% during the second quarter of 2011 and 16% in the first half of 2011 primarily due to increased staffing driven by higher shipment volumes and the reinstatement of several employee compensation programs, including 401(k) company-matching contributions, variable incentive compensation and merit salary increases. Purchased transportation costs increased 10% during the second quarter of 2011 and 36% in the first half of 2011 to support higher shipment volumes. Fuel costs increased 28% during the second quarter of 2011 and 33% in the first half of 2011 due to a higher average price per gallon of diesel fuel and increased fuel consumption as a result of higher shipment volumes. Based on a static analysis of the net impact of year-over-year changes in fuel prices compared to year-over-year changes in fuel surcharges, fuel had a positive impact on operating income in the second quarter of 2011. Maintenance and repairs expense increased 29% in the second quarter of 2011 and 32% in the first half of 2011 primarily due to higher shipment volumes. Also, higher intercompany charges in the first half of 2011 reflect the transfer of sales and customer service employees from the FedEx Freight segment entities in August 2009.

FINANCIAL CONDITION***LIQUIDITY***

Cash and cash equivalents totaled \$1.9 billion at November 30, 2010, compared to \$2 billion at May 31, 2010. The following table provides a summary of our cash flows for the six-month periods ended November 30 (in millions):

	2010	2009
Operating activities:		
Net income	\$ 663	\$ 526
Noncash charges and credits	1,243	1,158
Changes in assets and liabilities	105	(327)
Cash provided by operating activities	2,011	1,357
Investing activities:		
Capital expenditures	(2,059)	(1,549)
Proceeds from asset dispositions and other	7	33
Cash used in investing activities	(2,052)	(1,516)
Financing activities:		
Principal payments on debt	(12)	(625)
Proceeds from stock issuances	25	24
Dividends paid	(76)	(69)
Other	4	(11)
Cash used in financing activities	(59)	(681)
Effect of exchange rate changes on cash	25	13
Net decrease in cash and cash equivalents	\$ (75)	\$ (827)

Our cash flows from operating activities increased \$654 million in the first half of 2011 primarily due to lower pension contributions and increased earnings in 2011. We made contributions of \$158 million to our U.S. domestic

pension plans (U.S. Retirement Plans) during the first half of 2011 and contributions of \$613 million to our tax-qualified U.S. Retirement Plans during the first half of 2010. Capital expenditures during the first half of 2011 were higher primarily due to increased spending at FedEx Express for aircraft, as described in the Capital Resources discussion below. During the first six months of 2010, we repaid our \$500 million 5.50% notes that matured on August 15, 2009.

Table of Contents***CAPITAL RESOURCES***

Our operations are capital intensive, characterized by significant investments in aircraft, vehicles, technology, facilities, package-handling and sort equipment. The amount and timing of capital additions depend on various factors, including pre-existing contractual commitments, anticipated volume growth, domestic and international economic conditions, new or enhanced services, geographical expansion of services, availability of satisfactory financing and actions of regulatory authorities.

The following table compares capital expenditures by asset category and reportable segments for the three- and six-month periods ended November 30 (in millions):

	Three Months Ended		Six Months Ended		Percent Change 2010/2009	
	2010	2009	2010	2009	Three Months Ended	Six Months Ended
Aircraft and related equipment	\$ 660	\$ 303	\$ 1,407	\$ 859	118	64
Facilities and sort equipment	133	167	203	353	(20)	(42)
Information and technology investments	124	59	196	115	110	70
Vehicles	92	106	195	162	(13)	20
Other equipment	38	33	58	60	15	(3)
Total capital expenditures	\$ 1,047	\$ 668	\$ 2,059	\$ 1,549	57	33
FedEx Express segment	760	377	1,604	1,019	102	57
FedEx Ground segment	119	105	191	216	13	(12)
FedEx Freight segment	59	106	91	172	(44)	(47)
FedEx Services segment	108	80	172	142	35	21
Other and eliminations	1		1			
Total capital expenditures	\$ 1,047	\$ 668	\$ 2,059	\$ 1,549	57	33

Capital expenditures during the first half of 2011 were higher than the prior-year period primarily due to increased spending at FedEx Express for aircraft and related equipment and at FedEx Services for information technology investments. Aircraft and related equipment purchases at FedEx Express during the first half of 2011 included the delivery of five new B777Fs.

LIQUIDITY OUTLOOK

We believe that our existing cash and cash equivalents, cash flow from operations and available financing sources are adequate to meet our liquidity needs, including working capital, capital expenditure requirements and debt payment obligations.

We have a shelf registration statement filed with the Securities and Exchange Commission (SEC) that allows us to sell, in one or more future offerings, any combination of our unsecured debt securities and common stock. A \$1 billion revolving credit facility is available to finance our operations and other cash flow needs and to provide support for the issuance of commercial paper. The revolving credit agreement expires in July 2012. As of November 30, 2010, no commercial paper was outstanding and the entire \$1 billion under the revolving credit facility was available for future borrowings. Historically, we have been successful in obtaining unsecured financing, from both domestic and international sources, although the marketplace for such investment capital can become restricted depending on a variety of economic factors.

Table of Contents

The revolving credit agreement contains a financial covenant, which requires us to maintain a leverage ratio of adjusted debt (long-term debt, including the current portion of such debt, plus six times our last four fiscal quarters rentals and landing fees) to capital (adjusted debt plus total common stockholders' investment) that does not exceed 0.7 to 1.0. Our leverage ratio of adjusted debt to capital was 0.5 at November 30, 2010. We are in compliance with this covenant and all other restrictive covenants of our revolving credit agreement and do not expect the covenants to affect our operations, including our liquidity or borrowing capacity.

Our capital expenditures are expected to be approximately \$3.5 billion in 2011 and include spending for aircraft and related equipment at FedEx Express, network expansion at FedEx Ground and revenue equipment at the FedEx Freight segment. We invested \$1.4 billion in aircraft and aircraft-related equipment in the first half of 2011 and expect to invest approximately \$625 million for aircraft and aircraft-related equipment during the remainder of 2011.

Aircraft-related capital outlays include the new B777Fs and the B757s, which are substantially more fuel-efficient per unit than the aircraft types they are replacing. These aircraft-related capital expenditures are necessary to achieve significant long-term operating savings and to support projected long-term international volume growth. Our ability to delay the timing of these aircraft-related expenditures is limited without incurring significant costs to modify existing purchase agreements. Although we expect higher capital expenditures in 2011, we anticipate that our cash flow from operations will be sufficient to fund these expenditures.

As noted above, we made tax-deductible contributions of \$158 million to our U.S. Retirement Plans during the first half of 2011. Our U.S. Retirement Plans have ample funds to meet expected benefits payments. For 2011, we have \$322 million in remaining required contributions to our U.S. Retirement Plans.

Standard & Poor's has assigned us a senior unsecured debt credit rating of BBB, a commercial paper rating of A-2 and a ratings outlook of stable. Moody's Investors Service has reaffirmed our senior unsecured debt credit rating of Baa2 and commercial paper rating of P-2 and a ratings outlook of stable. If our credit ratings drop, our interest expense may increase. If our commercial paper ratings drop below current levels, we may have difficulty utilizing the commercial paper market. If our senior unsecured debt credit ratings drop below investment grade, our access to financing may become limited.

CONTRACTUAL CASH OBLIGATIONS

The following table sets forth a summary of our contractual cash obligations as of November 30, 2010. Certain of these contractual obligations are reflected in our balance sheet, while others are disclosed as future obligations under accounting principles generally accepted in the U.S. Except for the current portion of long-term debt and capital lease obligations, this table does not include amounts already recorded in our balance sheet as current liabilities at November 30, 2010. We have certain contingent liabilities that are not accrued in our balance sheet in accordance with accounting principles generally accepted in the U.S. These contingent liabilities are not included in the table below. We have other long-term liabilities reflected in our balance sheet, including deferred income taxes, qualified and nonqualified pension and postretirement healthcare plan liabilities and other self-insurance accruals. The payment obligations associated with these liabilities are not reflected in the table below due to the absence of scheduled maturities. Accordingly, this table is not meant to represent a forecast of our total cash expenditures for any of the periods presented.

⁽¹⁾ Cash obligations for the remainder of 2011.

Operating Activities

The amounts reflected in the table above for operating leases represent future minimum lease payments under noncancelable operating leases (principally aircraft and facilities) with an initial or remaining term in excess of one year at November 30, 2010.

Included in the table above within the caption entitled "Non-capital purchase obligations and other" is our estimate of the current portion of the liability (\$1 million) for uncertain tax positions and amounts for purchase obligations that represent noncancelable agreements to purchase goods or services that are not capital related. Such contracts include those for printing and advertising and promotions contracts. Open purchase orders that are cancelable are not considered unconditional purchase obligations for financial reporting purposes and are not included in the table above. See Note 7 of the accompanying unaudited condensed consolidated financial statements for more information. We cannot reasonably estimate the timing of the long-term payments or the amount by which the liability for uncertain tax positions will increase or decrease over time; therefore, the long-term portion of the liability for uncertain tax positions (\$79 million) is excluded from the table.

The amounts reflected in the table above for interest on long-term debt represent future interest payments due on our long-term debt, all of which are fixed rate.

Investing Activities

The amounts reflected in the table above for capital purchase obligations represent noncancelable agreements to purchase capital-related equipment. Such contracts include those for certain purchases of aircraft, aircraft modifications, vehicles, facilities, computers and other equipment contracts. Open purchase orders that are cancelable are not considered unconditional purchase obligations for financial reporting purposes and are not included in the table above. See Note 7 of the accompanying unaudited condensed consolidated financial statements for more information.

Table of Contents

Financing Activities

The amounts reflected in the table above for long-term debt represent future scheduled payments on our long-term debt. For the remainder of 2011, we have scheduled debt payments of \$254 million, which includes \$250 million of principal payments on our 7.25% unsecured notes maturing in February 2011, and principal and interest payments on capital leases.

Additional information on amounts included within the operating, investing and financing activities captions in the table above can be found in our Annual Report.

CRITICAL ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the U.S. requires management to make significant judgments and estimates to develop amounts reflected and disclosed in the financial statements. In many cases, there are alternative policies or estimation techniques that could be used. We maintain a thorough process to review the application of our accounting policies and to evaluate the appropriateness of the many estimates that are required to prepare the financial statements of a complex, global corporation. However, even under optimal circumstances, estimates routinely require adjustment based on changing circumstances and new or better information.

GOODWILL. Goodwill is reviewed at least annually for impairment by comparing the fair value of each reporting unit with its carrying value (including attributable goodwill). Fair value for our reporting units is determined by incorporating market participant considerations and management's assumptions on revenue growth rates, operating margins, expected capital expenditures and discount rates. Goodwill is tested for impairment between annual tests whenever events or circumstances make it more likely than not that the fair value of a reporting unit has fallen below its carrying value. We do not believe there has been any change of events or circumstances that would indicate that a reevaluation of the goodwill of our reporting units is required as of November 30, 2010, nor do we believe the goodwill of our reporting units is at risk of failing impairment testing.

Information regarding our critical accounting estimates can be found in our Annual Report, including Note 1 to the financial statements therein. Management has discussed the development and selection of these critical accounting estimates with the Audit Committee of our Board of Directors and with our independent registered public accounting firm.

FORWARD-LOOKING STATEMENTS

Certain statements in this report, including (but not limited to) those contained in Outlook, Liquidity, Liquidity Outlook, Contractual Cash Obligations and Critical Accounting Estimates, and the General, Retirement Plans, and

Contingencies notes to the consolidated financial statements, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 with respect to our financial condition, results of operations, cash flows, plans, objectives, future performance and business. Forward-looking statements include those preceded by, followed by or that include the words may, could, would, should, believes, expects, anticipates, plans, targets, projects, intends or similar expressions. These forward-looking statements involve risks and uncertainties. Actual results may differ materially from those contemplated (expressed or implied) by such forward-looking statements, because of, among other things, potential risks and uncertainties, such as:

- economic conditions in the global markets in which we operate;
- the impact of any international conflicts or terrorist activities on the U.S. and global economies in general, the transportation industry or us in particular, and what effects these events will have on our costs or the demand for our services;

Table of Contents

damage to our reputation or loss of brand equity;
 disruptions to the Internet or our technology infrastructure, including those impacting our computer systems and web site, which can adversely affect shipment levels;
 the price and availability of jet and vehicle fuel;
 the impact of intense competition on our ability to maintain or increase our prices (including our fuel surcharges in response to rising fuel costs) or to maintain or grow our market share;
 our ability to manage our cost structure for capital expenditures and operating expenses, and match it to shifting and future customer volume levels;
 our ability to effectively operate, integrate, leverage and grow acquired businesses, and to continue to support the value we allocate to these acquired businesses, including their goodwill;
 any impacts on our businesses resulting from new domestic or international government laws and regulation, including regulatory actions affecting global aviation rights, increased air cargo and other security or safety requirements, and tax, accounting, trade (such as protectionist measures enacted in response to weak economic conditions), labor (such as card-check legislation or changes to the Railway Labor Act affecting FedEx Express employees), environmental (such as climate change legislation) or postal rules;
 changes in foreign currency exchange rates, especially in the euro, Chinese yuan, Canadian dollar, British pound and Japanese yen, which can affect our sales levels and foreign currency sales prices;
 the impact of costs related to (i) challenges to the status of FedEx Ground's owner-operators as independent contractors, rather than employees, and (ii) any related changes to our relationship with these owner-operators;
 any liability resulting from and the costs of defending against class-action litigation, such as wage-and-hour and discrimination and retaliation claims, and any other legal proceedings;
 our ability to maintain good relationships with our employees and prevent attempts by labor organizations to organize groups of our employees, which could significantly increase our operating costs and reduce our operational flexibility;
 increasing costs, the volatility of costs and funding requirements and other legal mandates for employee benefits, especially pension and healthcare benefits;
 significant changes in the volumes of shipments transported through our networks, customer demand for our various services or the prices we obtain for our services;
 market acceptance of our new service and growth initiatives;
 the impact of technology developments on our operations and on demand for our services, and our ability to continue to identify and eliminate unnecessary information technology redundancy and complexity throughout the organization;
 adverse weather conditions or natural disasters, such as earthquakes, volcanoes, and hurricanes, which can disrupt our electrical service, damage our property, disrupt our operations, increase our fuel costs and adversely affect our shipment levels;

Table of Contents

widespread outbreak of an illness or any other communicable disease, or any other public health crisis;
availability of financing on terms acceptable to us and our ability to maintain our current credit ratings, especially given the capital intensity of our operations;
the outcome of negotiations to reach a new collective bargaining agreement with the union that represents the pilots of FedEx Express; and
other risks and uncertainties you can find in our press releases and SEC filings, including the risk factors identified under the heading "Risk Factors" in "Management's Discussion and Analysis of Results of Operations and Financial Condition" in our Annual Report, as updated by our quarterly reports on Form 10-Q.

As a result of these and other factors, no assurance can be given as to our future results and achievements.

Accordingly, a forward-looking statement is neither a prediction nor a guarantee of future events or circumstances, and those future events or circumstances may not occur. You should not place undue reliance on forward-looking statements, which speak only as of the date on which they are made. We undertake no obligation to update or alter any forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of November 30, 2010, there had been no material changes in our market risk sensitive instruments and positions since our disclosures in our Annual Report. The principal foreign currency exchange rate risks to which we are exposed are in the euro, Chinese yuan, Canadian dollar, British pound and Japanese yen. Historically, our exposure to foreign currency fluctuations has been more significant with respect to our revenues rather than our expenses as a significant portion of our expenses are denominated in U.S. dollars, such as aircraft and fuel expenses. During the first half of 2011, the U.S. dollar has weakened relative to the currencies of the foreign countries in which we operate as compared to May 31, 2010; however, this weakening did not have a material effect on our results of operations. While we have market risk for changes in the price of jet and vehicle fuel, this risk is largely mitigated by our variable fuel surcharges. However, our fuel surcharges for FedEx Express and FedEx Ground have a timing lag of approximately six to eight weeks before they are adjusted for changes in fuel prices. Our fuel surcharge index also allows fuel prices to fluctuate approximately 2% for FedEx Express and approximately 5% for FedEx Ground before an adjustment to the fuel surcharge occurs. Therefore, our operating income may be affected should the spot price of fuel suddenly change by a significant amount or change by amounts that do not result in an adjustment in our fuel surcharges.

Item 4. Controls and Procedures

The management of FedEx, with the participation of our principal executive and financial officers, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, including ensuring that such information is accumulated and communicated to FedEx management as appropriate to allow timely decisions regarding required disclosure. Based on such evaluation, our principal executive and financial officers have concluded that such disclosure controls and procedures were effective as of November 30, 2010 (the end of the period covered by this Quarterly Report on Form 10-Q).

During our fiscal quarter ended November 30, 2010, no change occurred in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

For a description of all material pending legal proceedings, see Note 8 of the accompanying condensed consolidated financial statements.

Item 1A. Risk Factors

Increased pilot safety requirements could impose substantial costs on FedEx Express. The Federal Aviation Administration, in September 2010, proposed rules that would significantly reduce the maximum number of hours on duty and increase the minimum amount of rest time for our pilots, and thus require us to hire additional pilots and modify certain of our aircraft. It is reasonably possible that these rules, if enacted as currently drafted, or other future flight safety requirements could impose material costs on us.

Otherwise, there have been no material changes from the risk factors disclosed in our Annual Report (under the heading "Risk Factors" in Management's Discussion and Analysis of Results of Operations and Financial Condition) in response to Part I, Item 1A of Form 10-K.
