(1) Calculated based on 87,244,475 shares of our common stock outstanding as of June 8, 2006. In calculating this amount for each holder, we treated as outstanding the number of shares of our common stock issuable upon conversion of all of that holder's Notes,

but we did not assume conversion of any other holder's Notes.

- (2) Represents the maximum number of shares of our common stock issuable upon conversion of all of the holder's Notes, based on the maximum conversion rate of 92.1659 shares of our common stock per \$1,000 principal amount at maturity of the Notes. This conversion rate is subject to adjustment, however, as described in the prospectus under Description of notes Conversion rights conversion rate adjustments. As a result, the maximum number of shares of our common stock issuable upon conversion of the Notes may increase or decrease in the future.
- (3) Because certain of the selling securityholders may have sold, transferred or

otherwise disposed of all or a portion of their Notes in transactions exempt from the registration requirements of the Securities Act since the date on which they provided the information presented in this table, this prospectus may not reflect the exact principal amount of Notes held by each selling securityholder on the date of this prospectus. The maximum aggregate principal amount of Notes that may be sold pursuant to this prospectus will not exceed \$165,000,000.
