The exact stock prices and effective dates may not be set forth in the table above, in which case:

if the stock price is between two stock price amounts on the table or the effective date is between two dates on the table, the

amount of make-whole shares will be determined by straight-line interpolation between the make-whole share amounts set forth for the higher and lower stock price amounts and the two dates, as applicable, based on a 365-day year;

If the stock price is in excess of \$150 per share (subject to adjustment), then the make-whole share amount will be zero; and

If the stock price is less than \$10 per share (subject to adjustment, the minimum stock price ), then the make-whole share amount will be determined as if the minimum stock price, using straight line interpolation, as described above, if the effective date is between two dates on the table.

The maximum number of shares of our common stock deliverable under a purchase contract is 1.9358, subject to anti-dilution adjustments.
