Table of Contents

**CAPITAL PROPERTIES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
THREE MONTHS ENDED MARCH 31, 2008 AND 2007**

(Unaudited)

1. Description of business:

Capital Properties, Inc. and its wholly-owned subsidiaries, Tri-State Displays, Inc., Capital Terminal Company and Dunellen, LLC (collectively referred to as the Company), operate in two segments: (1) Leasing and (2) Petroleum Storage.

The leasing segment consists of the long-term leasing of certain of its real estate interests in downtown Providence, Rhode Island (upon the commencement of which the tenants are required to construct buildings thereon, with the exception of a parking garage), the leasing of a portion of the building acquired in November 2007 (Steeple Street Building) under short-term leasing arrangements and the leasing of locations along interstate and primary highways in Rhode Island and Massachusetts to Lamar Outdoor Advertising, LLC (Lamar) which has constructed outdoor advertising boards thereon. The Company anticipates that the future development of its remaining properties in and adjacent to the Capital Center area will consist primarily of long-term ground leases. Pending this development, the Company leases these parcels for public parking under short-term leasing arrangements.

The petroleum storage segment consists of the operating of the petroleum storage terminal (the Terminal) and the Wilkesbarre Pier (the Pier), collectively referred to as the Facility, located in East Providence, Rhode Island, for Global Companies, LLC (Global) which stores and distributes petroleum products.

The principal difference between the two segments relates to the nature of the operations. The tenants under the long-term land leases incur substantially all of the development and operating costs of the assets constructed on the Company s land, including the payment of real property taxes on both the land and any improvements constructed thereon; whereas the Company is responsible for the operating and maintenance expenditures, including real property taxes, as well as capital improvements at the Facility.

2. Principles of consolidation and basis of presentation:

The accompanying condensed consolidated financial statements include the accounts and transactions of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

The accompanying condensed consolidated balance sheet as of December 31, 2007, has been derived from audited financial statements and the unaudited interim condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in annual financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. It is suggested that these condensed financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company s latest Form 10-K. In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments (consisting solely of normal recurring adjustments) necessary to present fairly the financial position as of March 31, 2008 and the results of operations and cash flows for the three months ended March 31, 2008 and 2007.

The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year.

3. Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Table of Contents**4. Properties and equipment:**

Properties and equipment consists of the following:

| | March 31, 2008 | December 31, 2007 |
|--|-------------------|----------------------|
| Properties on lease or held for lease: | | |
| Land and land improvements | \$ 4,621,000 | \$ 4,621,000 |
| Building | 1,699,000 | 1,699,000 |
| | 6,320,000 | 6,320,000 |
| Petroleum storage facility, on lease: | | |
| Land and land improvements | 5,561,000 | 5,561,000 |
| Buildings and structures | 1,415,000 | 1,406,000 |
| Tanks and equipment | 14,569,000 | 14,569,000 |
| | 21,545,000 | 21,536,000 |
| Office equipment | 131,000 | 126,000 |
| | 27,996,000 | 27,982,000 |
| Less accumulated depreciation: | | |
| Properties on lease or held for lease | 34,000 | 16,000 |
| Petroleum storage facility, on lease | 7,320,000 | 7,160,000 |
| Office equipment | 90,000 | 89,000 |
| | 7,444,000 | 7,265,000 |
| | \$ 20,552,000 | \$ 20,717,000 |

5. Description of leasing arrangements:

As of March 31, 2008, the Company had entered into five long-term land leases for five separate parcels upon which the improvements have been completed (developed parcels). In 2005, two additional long-term land leases commenced (undeveloped parcels) and construction of the improvements is in process on both parcels.

Under the seven land leases which have commenced, the tenants are required to negotiate any tax stabilization treaty or other arrangements, appeal any changes in real property assessments, and pay real property taxes assessed under these arrangements. Accordingly, the amounts paid by the tenants are excluded from leasing revenues and leasing expense on the accompanying consolidated statements of income. For the three months ended March 31, 2008 and 2007, the real property taxes attributable to the Company's land under these leases are \$365,000 and \$361,000 respectively.

Under one of the leases which commenced in 2005, the tenant is entitled to a credit for future rents equal to a portion of the real property taxes paid by the tenant through April 2007, which credit now totals \$520,000, the maximum amount. For real estate taxes prior to 2007, the Company reported the portion of the real property taxes subject to the future credit as property tax expense on the accompanying consolidated statement of income and as accrued property taxes on its consolidated balance sheets. As the tenant made the tax payment, the amount of the payment was reclassified from accrued property taxes to deferred leasing revenues. During the periods that the tenant is entitled to the credit (commencing in 2010), the Company will reclassify deferred leasing revenues to leasing revenues.

6. Petroleum storage facility:

Environmental remediation:

In 1994, a leak was discovered in a 25,000 barrel storage tank at the Terminal which allowed the escape of a small amount of fuel oil. All required notices were made to the State of Rhode Island Department of Environmental Management (RIDEM). In 2000, the tank was demolished and testing of the groundwater indicated that there was no large pooling of contaminants. In 2001, RIDEM approved a plan pursuant to which the Company installed a passive system consisting of three wells and commenced monitoring the wells.

Table of Contents

In 2003, RIDEM decided that the passive monitoring system previously approved was not sufficient and required the Company to design an active remediation system for the removal of product from the contaminated site. The Company and its consulting engineers began the pre-design testing of the site in the fourth quarter of 2004. The consulting engineers estimated a total cost of \$200,000 to design, install and operate the system, which amount was accrued in 2004. Through March 31, 2008, the Company has expended \$119,000. RIDEM has not taken any action on the Company's proposed plan. As designed, the system will pump out the contaminants which will be disposed of in compliance with applicable regulations. After a period of time, the groundwater will be tested to determine if sufficient contaminants have been removed. While the Company and its consulting engineers believe that the proposed active remediation system will correct the situation, it is possible that RIDEM could require the Company to expand remediation efforts, which could result in the Company incurring additional costs.

Environmental incident:

In 2002, during testing of monitoring wells at the Terminal, the Company's consulting engineer discovered free floating phase product in a groundwater monitoring well located on that portion of the Terminal purchased in 2000. Preliminary laboratory analysis indicated that the product was gasoline, which is not a product the Company ever stored at the Terminal. However, in the 1950's gasoline was stored on the Company's property by a predecessor owner. The Company commenced an environmental investigation and analysis, the results of which indicate that the gasoline did not come from the Terminal. The Company notified RIDEM. The Company will continue to monitor RIDEM's investigation.

Since January 2003, the Company has not incurred significant costs in connection with this matter and is unable to determine the costs it might incur to remedy the situation as well as any costs to investigate, defend, and seek reimbursement from the responsible party with respect to this contamination.

7. Income taxes:

Deferred income taxes are recorded based upon differences between financial statement and tax basis amounts of assets and liabilities. The tax effects of temporary differences which give rise to deferred tax assets and liabilities were as follows:

| | March 31, 2008 | December 31, 2007 |
|--|-------------------|----------------------|
| Gross deferred tax liabilities: | | |
| Property having a financial statement basis in excess of tax basis | \$ 5,418,000 | \$ 5,391,000 |
| Insurance premiums | 56,000 | 80,000 |
| | 5,474,000 | 5,471,000 |
| Gross deferred tax assets | (307,000) | (320,000) |
| | \$ 5,167,000 | \$ 5,151,000 |

8. Operating segment disclosures:

The Company operates in two segments: (1) Leasing and (2) Petroleum Storage.

The Company makes decisions relative to the allocation of resources and evaluates performance based on each segment's respective income before income taxes, excluding interest income, and certain corporate expenses.

Inter-segment revenues are immaterial in amount. The Company did not incur interest expense during the three months ended March 31, 2008 and 2007.

Table of Contents

The following financial information is used for making operating decisions and assessing performance of each of the Company's segments for the three months ended March 31, 2008 and 2007:

| | 2008 | 2007 |
|-------------------------------------|---------------|---------------|
| <i>Leasing:</i> | | |
| Revenues: | | |
| Long-term leases: | | |
| Contractual | \$ 521,000 | \$ 505,000 |
| Contingent | 14,000 | 15,000 |
| Short-term leases | 180,000 | 139,000 |
| Total revenues | \$ 715,000 | \$ 659,000 |
| Property tax expense | \$ 134,000 | \$ 103,000 |
| Depreciation | \$ 18,000 | \$ |
| Income before income taxes | \$ 525,000 | \$ 521,000 |
| Assets | \$ 6,446,000 | \$ 4,150,000 |
| <i>Petroleum storage:</i> | | |
| Revenues: | | |
| Contractual | \$ 901,000 | \$ 853,000 |
| Contingent | 50,000 | 122,000 |
| Total revenues | \$ 951,000 | \$ 975,000 |
| Property tax expense | \$ 52,000 | \$ 27,000 |
| Depreciation | \$ 160,000 | \$ 159,000 |
| Income before income taxes | \$ 436,000 | \$ 420,000 |
| Assets | \$ 14,559,000 | \$ 14,653,000 |
| Properties and equipment, additions | \$ 9,000 | \$ 19,000 |

Edgar Filing: CAPITAL PROPERTIES INC /RI/ - Form 10-Q

The following is a reconciliation of the segment information to the amounts reported in the accompanying consolidated financial statements for the three months ended March 31, 2008 and 2007:

| | 2008 | 2007 |
|--|--------------|--------------|
| Revenues and other income: | | |
| Revenues for operating segments: | | |

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
FORWARD LOOKING STATEMENTS

Certain portions of this report, and particularly the Management's Discussion and Analysis of Financial Condition and Results of Operations, and the Notes to Consolidated Financial Statements, contain forward-looking statements which represent the Company's expectations or beliefs concerning future events. The Company cautions that these statements are further qualified by important factors that could cause actual results to differ materially from those in the forward-looking statements, including, without limitation, the following: the ability of the Company to generate adequate amounts of cash; the collectibility of the accrued leasing revenues when due over the terms of the long-term land leases; the commencement of additional long-term land leases; changes in economic conditions that may affect either the current or future development on the Company's parcels; and exposure to contamination, remediation or similar costs associated with the operation of the petroleum storage facility.

1. Overview:

Critical accounting policies:

The Company believes that its revenue recognition policy for long-term leases with scheduled rent increases (leasing segment) meets the definition of a critical accounting policy which is discussed in the Company's Form 10-K for the year ended December 31, 2007. There have been no changes to the application of this accounting policy since December 31, 2007.

Segments:

The Company operates in two segments, leasing and petroleum storage.

The leasing segment consists of the long-term leasing of certain of its real estate interests in downtown Providence, Rhode Island (upon the commencement of which the tenants are required to construct buildings thereon, with the exception of a parking garage), the leasing of a portion of the Steeple Street Building acquired in November 2007 under short-term leasing arrangements and the leasing of locations along interstate and primary highways in Rhode Island and Massachusetts to Lamar Outdoor Advertising, LLC (Lamar) which has constructed outdoor advertising boards thereon. The Company anticipates that the future development of its remaining properties in and adjacent to the Capital Center area will consist primarily of long-term ground leases. Pending this development, the Company leases these parcels for public parking under short-term leasing arrangements.

The petroleum storage segment consists of the operating of the petroleum storage terminal (the Terminal) and the Wilkesbarre Pier (the Pier), collectively referred to as the Facility, located in East Providence, Rhode Island, for Global Companies, LLC (Global) which stores and distributes petroleum products.

The principal difference between the two segments relates to the nature of the operations. The tenants under the long-term land leases incur substantially all of the development and operating costs of the assets constructed on the Company's land, including the payment of real property taxes on both the land and any improvements constructed thereon; whereas the Company is responsible for the operating and maintenance expenditures, including real property taxes, as well as capital improvements at the Facility.

2. Results of operations:

Three months ended March 31, 2008 compared to three months ended March 31, 2007:

Leasing segment:

| | | |
|------|------|------------|
| 2008 | 2007 | Difference |
|------|------|------------|

Edgar Filing: CAPITAL PROPERTIES INC /RI/ - Form 10-Q

| | | | |
|------------------|------------|------------|-----------|
| Leasing revenues | \$ 715,000 | \$ 659,000 | \$ 56,000 |
| Leasing expense | 190,000 | 138,000 | \$ 52,000 |
| | \$ 525,000 | \$ 521,000 | |

Table of Contents

Leasing revenue increased principally due to increases in rentals under short-term leases, including rentals from the Steeple Street Building purchased in November 2007. Leasing expense increased principally due to higher real property taxes and expenses associated with the Steeple Street Building.

Petroleum storage segment:

| | 2008 | 2007 | Difference |
|-------------------------------------|------------|------------|-------------|
| Petroleum storage facility revenues | \$ 951,000 | \$ 975,000 | \$ (24,000) |
| Petroleum storage facility expense | 515,000 | 555,000 | \$ (40,000) |
| | \$ 436,000 | \$ 420,000 | |

Petroleum storage facility revenue decreased principally due to lower contingent revenue due to lower throughput offset in part by higher monthly rent resulting from the annual cost-of-living adjustment May 1, 2007 and rental of \$25,000 resulting from the increase in property taxes as required by the lease, which amount resulted principally from an increase in the assessment on the petroleum storage facility. Petroleum storage facility expense decreased principally due to lower legal and professional engineering fees offset in part by higher payroll and related costs resulting from the hiring of a new employee and higher real estate taxes resulting principally from an increased assessment on the petroleum storage facility, which amount was reimbursed by the tenant.

The May 1, 2008 annual cost-of-living adjustment under the lease for the petroleum storage facility is \$136,000 annually.

General:

For the three months ended March 31, 2008, general and administrative expense decreased \$44,000 from 2007 due principally to a decrease in payroll and related costs due to the non-replacement of a retired employee offset in part by higher professional fees incurred in complying with Section 404(a) of the Sarbanes-Oxley Act of 2002.

Other income, interest:

Interest income decreased due to lower levels of cash available for investment resulting in part from the cash purchase of the Steeple Street Building and lower interest rates.

3. Liquidity and capital resources:

Historically, the Company has had adequate liquidity to fund its operations.

During the first quarter of 2008, the Company's operating activities produced \$650,000 of cash. Cash and cash equivalents increased by \$322,000 for the quarter. The principal utilization of cash during the quarter was for the payment of dividends of \$198,000 and the payment for properties and equipment of \$130,000.

Currently, approximately 50 percent of the Steeple Street Building is rented under short-term arrangements. The Company is evaluating available alternatives for the remaining space, including the possibility of historic renovation.

In management's opinion, operations will continue to generate sufficient cash to enable the Company to meet its operating expenses, capital expenditures and dividend payments, if declared.

Cash and cash equivalents and cash commitments:

At March 31, 2008, the Company had cash and cash equivalents of \$2,296,000. The Company anticipates making \$300,000 in improvements at the Pier during 2008.

In April 2008, the Company declared a quarterly dividend of \$198,000 (\$.06 per common share). The declaration of future dividends and the amount thereof will depend on the Company's future earnings, financial factors and

other events.

In management's opinion, the Company should be able to generate adequate amounts of cash to meet all of its anticipated obligations. In the event temporary additional liquidity is required, the Company believes that a line of credit or other arrangements could be obtained by pledging some or all of its unencumbered assets as collateral.

Item 3. Quantitative and Qualitative Disclosures About Market Securities

The Company's cash and cash equivalent balances are exposed to risk of changes in short-term interest rates. Reductions in short-term interest rates could result in a reduction in interest income; however, the impact on income would not be material in amount.

Item 4. Controls and Procedures

As required by Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the Exchange Act), the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. This evaluation was carried out under the supervision and with the participation of the Company's management, including the Company's principal executive officer and the Company's principal financial officer. Based upon that evaluation, the principal executive officer and the principal financial officer concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms.

There was no significant change in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to affect, the Company's internal control over financial reporting. The Company continues to enhance its internal controls over financial reporting, primarily by evaluating and enhancing process and control documentation. Management discusses with and discloses these matters to the Audit Committee of the Board of Directors and the Company's auditors.
