IDEX CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements of IDEX Corporation ("IDEX" or the "Company") have been prepared in accordance with the instructions to Form 10-Q under the Securities Exchange Act of 1934, as amended. The statements are

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

unaudited but include all adjustments, consisting only of recurring items, except as noted, which the Company considers necessary for a fair presentation of the information set forth herein. The results of operations for the three and six months ended June 30, 2007 are not necessarily indicative of the results to be expected for the entire year.

The consolidated financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

UNCERTAINTY IN INCOME TAXES

Effective January 1, 2007, the Company adopted Financial Accounting Standards Board ("FASB") Interpretation ("FIN") No. 48, "Accounting for Uncertainty in Income Taxes -- an interpretation of SFAS No. 109." This interpretation clarifies the accounting and disclosure for uncertain income tax positions relating to the uncertainty about whether a tax return position will ultimately be sustained by the respective tax authorities. See note 14 for the impact of FIN 48 on the Company's consolidated financial statements.

STOCK SPLIT

On April 4, 2007, the Company's Board of Directors authorized a three-for-two common stock split effected in the form of a 50% dividend payable on May 21, 2007, to shareholders of record on May 7, 2007. Par value of common stock remained at \$.01 per share. All prior share and per share amounts have been restated to reflect the stock split.

CASH FLOW PRESENTATION

In previously issued financial statements the Company incorrectly presented borrowings and payments under credit facilities as net repayments in the financing activities section of the Consolidated Statements of Cash Flows. Accordingly, such presentation in the accompanying financial statements for the six months ended June 30, 2006 has been restated to separate line items borrowings and payments under credit facilities. This correction does not affect net cash used in financing activities of continuing operations as previously presented.

2. RESTATEMENT OF 2006 CONSOLIDATED STATEMENT OF SHAREHOLDERS' EQUITY

In December 2006, the Company adopted the provisions of Statement of Financial Accounting Standard (SFAS) No. 158, "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans." The transition adjustment related to the adoption of SFAS No. 158 was \$21.1 million. Subsequent to the issuance of the Company's 2006 consolidated financial statements, the Company's management determined that the Company had incorrectly included the transition adjustment within Other comprehensive income and Comprehensive income for the year ended December 31, 2006 in its Consolidated Statements of Shareholders' Equity in the 2006 Annual Report on Form 10-K. The transition adjustment should have been presented as an adjustment to the ending balance of Accumulated other comprehensive income within the 2006 Consolidated Statement of Shareholders' Equity.

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) (UNAUDITED)

The following is a summary of the effect of the adjustment on the Company's 2006 Consolidated Statement of Shareholders' Equity. The adjustment has no impact on Consolidated Shareholders' Equity but rather only the components listed below.

	2006 AS REPORTED	ADJUSTMENT	2006 AS RESTATED
	-----	-----	-----
	(IN THOUSANDS)		
Other comprehensive income.....	\$ 6,710	\$21,132	\$ 27,842
Comprehensive income.....	\$153,381	\$21,132	\$174,513

It is the Company's intention to correct its presentation for the year ended December 31, 2006 in its 2007 Annual Report on Form 10-K.

3. ACQUISITIONS

On February 14, 2007, the Company acquired Faure Herman SA ("Faure Herman"), a leading provider of ultrasonic and helical turbine flow meters used in the custody transfer and control of high value fluids and gases. Headquartered in La Ferte Bernard, France, Faure Herman has sales offices in Europe and North America, with annual revenues of approximately \$22 million. Faure Herman operates as part of the Company's Liquid Controls business within its Fluid & Metering Technologies segment. IDEX acquired Faure Herman for an aggregate purchase price of \$25.8 million, consisting of \$24.2 million in cash and the assumption of approximately \$1.6 million of debt. Approximately \$12.9 million of the cash payment was financed by borrowings under the Company's credit facility. Goodwill and intangible assets recognized as part of this transaction were \$13.3 million and \$7.7 million, respectively. The \$13.3 million of goodwill is not deductible for tax purposes.

On June 12, 2007, the Company acquired Quadro Engineering ("Quadro"), a leading provider of particle control solutions for the pharmaceutical and bio-pharmaceutical markets. Quadro's core capabilities include fine milling, emulsification and special handling of liquid and solid particulates for laboratory, pilot phase and production scale processing within the pharmaceutical and bio-pharmaceutical markets. Headquartered in Waterloo, Ontario, Canada, Quadro operates as a standalone unit within the Company's Fluid & Metering Technologies segment. IDEX acquired Quadro for a purchase price of \$32.1 million, consisting entirely of cash. Approximately \$11.3 million of the cash payment was financed by borrowings under the Company's credit facility. Goodwill and intangible assets recognized as part of this transaction were \$7.3 million and \$15.7 million, respectively. Of the \$7.3 million of goodwill, approximately \$5.3 million is expected to be deductible for tax purposes.

The purchase price for Faure Herman and Quadro, including transaction costs, has been allocated to the assets acquired and liabilities assumed based on estimated fair values at the date of the acquisitions. The purchase price allocation is preliminary and further refinements may be necessary pending finalization of asset valuations.

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

The results of operations for these acquisitions have been included within the financial results from the date of the acquisition. The Company does not consider these acquisitions to be material to its results of operations for any of the periods presented.

4. DISCONTINUED OPERATIONS

On July 11, 2006, IDEX sold Lubriquip, its lubricant dispensing business that operated as part of IDEX's Dispensing Equipment segment.

During the third quarter of 2006, the Company determined that Halox, its chemical and electrochemical systems product line operating as a unit of Pulsafeeder in IDEX's Fluid & Metering Technologies segment, met the criteria to be classified as a discontinued operation. The Company is marketing the Halox operation and conducting other actions with the intention to complete the sale within one year.

6

IDEX CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) (UNAUDITED)

Financial information for the three and six months ended June 30, 2006 have been restated to present the operating results of Halox and Lubriquip as discontinued operations.

5. BUSINESS SEGMENTS

Information on IDEX's business segments from continuing operations is presented below, based on the nature of products and services offered. IDEX evaluates performance based on several factors, of which operating income is the primary financial measure. Intersegment sales are accounted for at fair value as if the sales were to third parties.

6. EARNINGS PER COMMON SHARE

Earnings per common share ("EPS") are computed by dividing net income by the weighted average number of shares of common stock (basic) plus common stock equivalents outstanding (diluted) during the period. Common stock equivalents consist of stock options, which have been included in the calculation of weighted average shares outstanding using the treasury stock method, unvested restricted shares, and shares issuable in connection with

IDEX CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) (UNAUDITED)

certain deferred compensation agreements ("DCUs"). Basic weighted average shares reconciles to diluted weighted average shares as follows:

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

	SECOND QUARTER ENDED JUNE 30,		SIX MONTHS ENDED JUNE 30,	
	2007	2006	2007	2006
	(IN THOUSANDS)			
Basic weighted average common shares outstanding.....	80,595	79,521	80,429	79,237
Dilutive effect of stock options, unvested restricted shares, and DCUs.....	1,451	1,522	1,426	1,691
Diluted weighted average common shares outstanding.....	82,046	81,043	81,855	80,928
	=====	=====	=====	=====

Options to purchase approximately 1.7 million and 1.4 million shares of common stock as of June 30, 2007 and 2006, respectively, were not included in the computation of diluted EPS because the exercise price was greater than the average market price of the Company's common stock and, therefore, the effect of their inclusion would be antidilutive.

7. INVENTORIES

The components of inventories as of June 30, 2007 and December 31, 2006 were:

10. BORROWINGS

Effective February 2007 the \$150.0 million of 6.875% Senior Notes due February 15, 2008 were reclassified from long-term borrowings to short-term borrowings.

In addition to the \$150.0 million of 6.875% Senior Notes due February 15, 2008, the Company also has a \$600.0 million domestic multi-currency bank revolving credit facility ("Credit Facility"), which expires December 21, 2011. With \$160.0 million outstanding under the facility at June 30, 2007, and outstanding letters of credit totaling \$5.7 million, the maximum amount available under the Credit Facility was \$434.3 million. Interest is payable quarterly on the outstanding balance at the bank agent's reference rate or, at the Company's election, at LIBOR plus an applicable margin payable at maturity. The applicable margin is based on the credit rating of our Senior Notes, and can range from 24 basis points to 50 basis points. Based on the Company's BBB rating at June 30, 2007, the applicable margin was 40 basis points. We also pay an annual fee of 10 basis points on the total Credit Facility.

IDEX CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) (UNAUDITED)

There are two financial covenants that the Company is required to maintain.

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

As defined in the agreement, the minimum interest coverage ratio is 3.0 to 1 and the maximum leverage ratio is 3.25 to 1. At June 30, 2007, the Company was in compliance with both of these financial covenants.

We also have a one-year, renewable \$30.0 million demand line of credit ("Short-Term Facility"), which expires on December 12, 2007. Borrowings under the Short-Term Facility are at LIBOR plus the applicable margin in effect under the Credit Facility. At June 30, 2007, there were no borrowings outstanding under this facility.

11. PREFERRED STOCK

The Company had five million shares of preferred stock authorized but unissued at June 30, 2007 and December 31, 2006.

12. SHARE-BASED COMPENSATION

Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standard (SFAS) No. 123R using the modified prospective method, and thus did not restate any prior period amounts. Under this method, compensation cost in the three and six months ending June 30, 2007 include the portion vesting in the period for (1) all share-based payments granted prior to, but not vested as of December 31, 2005, based on the grant date fair value estimated using the Black-Scholes option-pricing model in accordance with the original provisions of SFAS No. 123 and (2) all share-based payments granted subsequent to December 31, 2005, based on the grant date fair value estimated using the Binomial lattice option-pricing model.

On April 3, 2007, the Company granted approximately .9 million stock options and .1 million restricted shares, respectively.

Total compensation cost for stock options is as follows:

IDEX CORPORATION AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS -- (CONTINUED) (UNAUDITED)

The Company previously disclosed in its financial statements for the year ended December 31, 2006, that it expected to contribute approximately \$5.1 million to these pension plans and \$1.3 million to its other postretirement benefit plans in 2007. As of June 30, 2007, \$3.3 million of contributions have been made to the pension plans and \$.5 million has been made to its other postretirement benefit plans. The Company presently anticipates contributing up to an additional \$2.6 million in 2007 to fund these pension plans and other postretirement benefit plans.

14. LEGAL PROCEEDINGS

IDEX is a party to various legal proceedings arising in the ordinary course of business, none of which is expected to have a material adverse effect on its business, financial condition, results of operations or cash flows.

15. INCOME TAXES

The Company's provision for income taxes is based upon estimated annual tax rates for the year applied to federal, state and foreign income. The provision for income taxes increased to \$21.5 million in the second quarter of 2007 from \$17.6 million in the second quarter of 2006. The effective tax rate increased to 33.9% in the second quarter of 2007 from 33.7% in the second quarter of 2006.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction, and various state and foreign jurisdictions. Effective January 1, 2007, the Company adopted FIN 48. In accordance with FIN 48, the Company recognized a cumulative-effect adjustment of \$1.2 million, increasing its liability for unrecognized tax benefits, interest, and penalties and reducing the January 1, 2007 balance of retained earnings.

At January 1, 2007, the Company had \$6.6 million in unrecognized tax benefits. If recognized, \$5.8 million of our unrecognized tax benefits would reduce our income tax expense and effective tax rate. Included in the balance of unrecognized tax benefits at January 1, 2007, is \$.5 million related to tax positions for which it is reasonably possible that the total amounts could significantly change during the next twelve months. This range represents a decrease in unrecognized tax benefits and depends on the ultimate closure date of various examinations.

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in income tax expense. At January 1, 2007, the Company had accrued \$.9 million and \$.2 million for the potential payment of interest and penalties, respectively.

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

The Company is subject to U.S. Federal income tax examinations for the tax years 2000 through 2006, however the 2001 and 2002 tax years are limited to adjustments to the research and development credit only. The Company is subject to non-U.S. income tax examinations for the tax years 2002 through 2006. In addition, the Company is subject to state and local income tax examinations for the tax years 2002 through 2006 in jurisdictions for which tax returns have been filed.

During the second quarter of 2007, unrecognized net tax benefits were reduced by \$0.7 million, of which \$0.6 million reduced the effective tax rate accordingly.

16. NEW ACCOUNTING PRONOUNCEMENTS

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements," which defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. This statement is effective for fiscal periods beginning after November 15, 2007, and does not require any new fair value measurements. Management is currently evaluating the requirements of SFAS No. 157, and has not yet determined the impact on the consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities -- Including an Amendment of FASB Statement No. 115". SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company is in the process of evaluating the impact this pronouncement may have on its results of operations and financial condition.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

CAUTIONARY STATEMENT UNDER THE PRIVATE SECURITIES LITIGATION REFORM ACT

The "Historical Overview and Outlook" and the "Liquidity and Capital Resources" sections of this management's discussion and analysis of our financial condition and operations contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act of 1934, as amended. These statements may relate to, among other things, capital expenditures, cost reductions, cash flow, and operating improvements and are indicated by words or phrases such as "anticipate," "estimate," "plans," "expects," "projects," "should," "will," "management believes," "the company believes," "we believe," "the company intends" and similar words or phrases. These statements are subject to inherent uncertainties and risks that could cause actual results to differ materially from those anticipated at the date of this filing. The risks and uncertainties include, but are not limited to, the following: economic and political consequences resulting from terrorist attacks and wars; levels of industrial activity and economic conditions in the U.S. and other countries around the world; pricing pressures and other competitive factors, and levels of capital spending in certain industries -- all of which could have a material impact on our order rates and results, particularly in light of the low levels of order backlogs we typically maintain; our ability to make acquisitions and to integrate and operate acquired businesses on a profitable basis; the relationship of the U.S. dollar to other currencies and its impact on pricing

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

and cost competitiveness; political and economic conditions in foreign countries in which we operate; interest rates; capacity utilization and the effect this has on costs; labor markets; market conditions and material costs; and developments with respect to contingencies, such as litigation and environmental matters. The forward-looking statements included here are only made as of the date of this report, and we undertake no obligation to publicly update them to reflect subsequent events or circumstances. Investors are cautioned not to rely unduly on forward-looking statements when evaluating the information presented here.

HISTORICAL OVERVIEW AND OUTLOOK

IDEX Corporation ("IDEX") or the ("Company") is an applied solutions company specializing in fluid and metering technologies, health and science technologies, dispensing equipment, and fire, safety and other diversified products built to its customers' specifications. Our products are sold in niche markets to a wide range of industries throughout the world. Accordingly, our businesses are affected by levels of industrial activity and economic conditions in the U.S. and in other countries where we do business and by the relationship of the U.S. dollar to other currencies. Levels of capacity utilization and capital spending in certain industries and overall industrial activity are among the factors that influence the demand for our products.

IDEX consists of four reportable segments: Fluid & Metering Technologies, Health & Science Technologies, Dispensing Equipment and Fire & Safety/Diversified Products.

The Fluid & Metering Technologies Group produces pumps, compressors, flow meters, and related controls for the movement of liquids and gases in a diverse range of end markets from industrial infrastructure to food and beverage. The Health & Science Technologies Group produces a wide variety of small scale, highly accurate pumps, valves, fittings and medical devices, as well as compressors used in medical, dental and industrial applications. The Dispensing Equipment Group produces highly engineered equipment for dispensing, metering and mixing colorants, paints, inks and dyes, hair colorants and other personal care products, as well as refinishing equipment. The Fire & Safety/Diversified Products Group produces firefighting pumps, rescue tools, lifting bags and other components and systems for the fire and rescue industry; and engineered stainless steel banding and clamping devices used in a variety of industrial and commercial applications.

IDEX has a history of achieving above-average operating margins. Our operating margins have exceeded the average operating margin for the companies that comprise the Value Line Composite Index (VLCI) every year since 1988. We view the VLCI operating performance statistics as a proxy for an average industrial company. Our operating margins are influenced by, among other things, utilization of facilities as sales volumes change and inclusion of newly acquired businesses.

14

Some of our key 2007 financial highlights for the six months ended June 30, 2007 were as follows:

- Sales of \$677.8 million rose 20%; base business sales -- excluding acquisitions and foreign currency translation -- were up 7%.
- Gross margins improved 100 basis points to 42.4% of sales, while operating margins at 19.2% were 80 basis points higher than a year ago.

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

- Income from continuing operations increased 23% to \$78.7 million.
- Diluted EPS from continuing operations of \$0.96 was 17 cents ahead of the same period 2006.
- Net income increased 20% to \$78.3 million.
- Diluted EPS of \$0.96 was 16 cents ahead of the same period of 2006.

Our business units continue to deliver profitable sales growth as a result of new product initiatives and market initiatives and our on-going commitment to operational excellence. During the first six months of the year, organic sales growth was 7 percent, reflecting particular strength in Fluid & Metering Technologies at 7 percent and Fire & Safety/Diversified Products at 10 percent. As we move forward, we believe we are well positioned in attractive product segments buoyed by strong underlying industry fundamentals. We are leveraging commercial and operational excellence to effectively serve our customers, expand our market position and generate profitable growth.

The following forward-looking statements are qualified by the cautionary statement under the Private Securities Litigation Reform Act set forth above.

As a short-cycle business, our performance is reliant upon the current pace of incoming orders, and we have limited visibility on future business conditions. We believe IDEX is well positioned for earnings expansion. This is based on our favorable cost structure resulting from our operational excellence discipline, our investment in new products, applications and global markets, and our pursuit of strategic acquisitions to help drive IDEX's longer term profitable growth.

RESULTS OF OPERATIONS

For purposes of this discussion and analysis section, reference is made to the table on the following page and the Company's Consolidated Statements of Operations included in Item 1. During the third quarter 2006, the Company determined that Halox, its chemical and electrochemical systems business, met the criteria to be classified as a discontinued operation. During the second quarter, the Company determined that Lubriquip, its lubricant dispensing business, met the criteria to be classified as a discontinued operation and was subsequently sold July 11, 2006. Financial information for the three and six months ended June 30, 2006 have been restated to present Halox and Lubriquip as discontinued operations.

PERFORMANCE IN THE THREE MONTHS ENDED JUNE 30, 2007 COMPARED WITH THE SAME PERIOD OF 2006

Sales in the three months ended June 30, 2007 were \$344.5 million, a 16% improvement from the comparable period last year. The increase was driven by base business shipments of 6%, acquisitions accounted for 8% and foreign currency translation contributed 2%. Sales to international customers from base businesses represented approximately 47% of total sales in the current period compared to 45% in the same period in 2006.

During the quarter, Fluid & Metering Technologies contributed 41% of sales and 39% of operating income; Health & Science Technologies accounted for 24% of sales and 20% of operating income; Dispensing Equipment accounted for 14% of sales and 18% of operating income; and Fire & Safety/Diversified Products represented 21% of sales and 23% of operating income.

Fluid & Metering Technologies Group sales of \$141.1 million for the three months ended June 30, 2007 rose \$33.3 million, or 31% compared with 2006,

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

reflecting 7% base business growth, 23% for acquisitions and a 1% favorable impact from foreign currency translation. In the second quarter of 2007, base business sales grew

15

approximately 8% domestically and 6% internationally. Base business sales to customers outside the U.S. were approximately 43% of total group sales during the second quarter of both 2007 and 2006.

Health & Science Technologies Group sales of \$82.4 million increased \$1.1 million, or 1%, in the second quarter of 2007 compared with last year's second quarter. The expected sales decline in specific OEM contracts resulted in more than 200 basis points of lower sales growth in the 2007 quarter. In the second quarter of 2007, base business sales decreased 5% domestically and increased 9% internationally. Base business sales to customers outside the U.S. were approximately 40% of total group sales in the second quarter of 2007, compared to 37% in 2006.

Dispensing Equipment Group sales of \$49.9 million increased \$5.4 million, or 12%, in the second quarter of 2007 compared with 2006. This increase reflects a 7% increase in base business volume and 5% from favorable foreign currency translation. In the second quarter of 2007, base business sales decreased 1% domestically and increased 11% internationally. Base business sales to customers outside the U.S. were approximately 69% of total group sales in the second quarter of 2007, compared with 66% in the comparable quarter of 2006.

Fire & Safety/Diversified Products Group sales of \$72.8 million increased \$8.3 million, or 13%, in the second quarter of 2007 compared with 2006. This increase reflects a 10% increase in base business volume, with an additional 3% of favorable foreign currency translation. In the first quarter of 2007, base business sales increased 9% domestically and 10% internationally. Base business sales to customers outside the U.S. were approximately 45% of total group sales in the second quarter of both 2007 and 2006.

(3) Excludes amortization of debt issuance expenses and unearned stock compensation.

Gross profit of \$147.5 million, in the second quarter of 2007, increased \$24.6 million, or 20%, from 2006. Gross profit as a percent of sales was 42.8% in the second quarter of 2007 and 41.5% in 2006. The improved gross margins primarily reflect volume leverage, the Company's strategic sourcing and other operational excellence initiatives and acquisitions.

Selling, general and administrative (SG&A) expenses increased to \$78.7 million in the second quarter of 2007 from \$66.9 million in 2006. Higher total SG&A expenses reflect acquisitions, volume-related expenses, and

17

reinvestment in the business to drive organic growth. As a percent of sales, SG&A expenses were 22.8% for 2007 compared to 22.6% in 2006.

Operating income increased \$12.9 million, or 23%, to \$68.9 in the second quarter of 2007 from \$56.0 million in 2006, primarily reflecting higher volumes, partially offset by increased SG&A expenses. Second quarter operating margins were 20.0% of sales, 110 basis points higher than the second quarter of 2006. The improvement from last year resulted from higher gross margins. In the Fluid & Metering Technologies Group, operating income of \$30.1 million and operating

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

margins of 21.4% in the second quarter of 2007 were up from the \$21.6 million and 20.1% recorded in 2006 principally due to strong global demand and acquisitions. In the Health & Science Technologies Group, operating income of \$15.2 million and operating margins of 18.4% in the second quarter of 2007 were up from the \$14.5 million and 17.9% recorded in 2006 principally due to volume. In the Dispensing Equipment Group, operating income of \$14.2 million and operating margins of 28.6% in the second quarter of 2007 were up from the \$11.7 million and 26.3% recorded in 2006 principally due to improved market conditions in Europe. Operating income in the Fire & Safety/Diversified Products Group of \$18.1 million was higher than the \$16.3 recorded in 2006, due primarily to increased volume. Operating margins within Fire & Safety/Diversified Products Group of 24.9% in the current quarter were down from 25.2% in 2006, primarily due to product mix.

IDEX's provision for income taxes is based upon estimated annual tax rates for the year applied to federal, state and foreign income. The provision for income taxes increased to \$21.5 million in the second quarter of 2007 from \$17.6 million in 2006. The effective tax rate increased slightly to 33.9% in the current quarter from 33.7% in the second quarter of 2006.

Income from continuing operations for the current quarter was \$41.8 million, 21% higher than the \$34.6 million earned in the second quarter of 2006. Diluted earnings per share from continuing operations in the second quarter of 2007 of \$.51 increased \$.08, or 19%, compared with the second quarter of 2006.

Net income for the current quarter of \$41.6 million, which included a loss from discontinued operations of \$.2 million, increased from the \$35.0 million earned in the second quarter of 2006, which included income from discontinued operations of \$.3 million. Diluted earnings per share in the second quarter of 2007 of \$.51 increased \$.08, or 19%, compared with the second quarter of 2006.

PERFORMANCE IN THE SIX MONTHS ENDED JUNE 30 2007 COMPARED WITH THE SAME PERIOD OF 2006

Sales in the six months ended June 30, 2007 were \$677.8 million, a 20% improvement from the comparable period last year. The increase was driven by base business shipments of 7%, acquisitions accounted for 11% and foreign currency translation contributed 2%. For the first six months of the year, base business sales to international customers were approximately 45% of total sales for both 2007 and 2006.

For the first six months, Fluid & Metering Technologies contributed 41% of sales and 40% of operating income; Health & Science Technologies accounted for 24% of sales and 20% of operating income; Dispensing Equipment accounted for 14% of sales and 17% of operating income; and Fire & Safety/Diversified Products represented 21% of sales and 23% of operating income.

Fluid & Metering Technologies Group sales of \$277.8 million for the six months ended June 30, 2007 rose \$68.0 million, or 32% compared with 2006, reflecting 9% base business growth, 22% for acquisitions and a 1% favorable impact from foreign currency translation. In the first six months of 2007, base business sales grew approximately 8% domestically and 12% internationally. Base business sales to customers outside the U.S. were approximately 43% of total group sales during the first six months of 2007 compared with 42% in the comparable period of 2006.

Health & Science Technologies Group sales of \$163.1 million increased \$18.8 million, or 13%, for the first six months of 2007 compared with 2006. This increase was attributed to acquisitions which contributed 11%, an increase in base business volume of 1% and favorable foreign currency translation of 1%. In the first six months of 2007, base business sales were up slightly domestically and increased 7% internationally. Base business sales to customers outside the

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

U.S. were approximately 37% of total group sales in 2007 and 35% in 2006.

18

Dispensing Equipment Group sales of \$97.8 million increased \$11.9 million, or 14%, in the first six months of 2007 compared with 2006. This increase reflects a 9% increase in base business volume and 5% from favorable foreign currency translation. In the first six months of 2007, base business sales increased 16% domestically and increased 5% internationally. Base business sales to customers outside the U.S. were approximately 64% of total group sales in the first six months of 2007 compared with 66% in the comparable period of 2006.

Fire & Safety/Diversified Products Group sales of \$142.0 million increased \$16.2 million, or 13%, in the first six months of 2007 compared with 2006. This increase reflects a 9% increase in base business volume, with an additional 4% of favorable foreign currency translation. In the first six months of 2007, base business sales increased 8% domestically and 10% internationally. Base business sales to customers outside the U.S. were approximately 45% of total group sales in the first six months of both 2007 and 2006.

Gross profit of \$287.2 million, in the first six months of 2007, increased \$54.1 million, or 23%, from 2006. Gross profit as a percent of sales was 42.4% in 2007 an increase from 41.4% in 2006. The improved gross margins primarily reflect volume leverage and the Company's strategic sourcing and other operational excellence initiatives.

SG&A expenses increased to \$156.8 million in the first six months of 2007 from \$129.3 million in 2006. Higher total SG&A expenses reflect acquisitions, volume-related expenses, and reinvestment in the business to drive organic growth. As a percent of sales, SG&A expenses were 23.2% for 2007 and 23.0% for 2006.

Operating income increased \$26.7 million, or 26%, to \$130.4 in the first six months of 2007 from \$103.8 million in 2006, primarily reflecting higher volumes, partially offset by increased SG&A expenses. Operating margins for the first six months of 2007 were 19.2% of sales, 80 basis points higher than the first six months of 2006. The improvement from last year resulted from higher gross margins. In the Fluid & Metering Technologies Group, operating income of \$59.9 million and operating margins of 21.6% in the first six months of 2007 were up from the \$41.4 million and 19.7% recorded in 2006 principally due to strong global demand and acquisitions. Operating income for the Health & Science Technologies Group of \$29.0 million was up from the \$26.8 million recorded in 2006 principally due to volume. Operating margins within Health & Science Technologies Group of 17.8% in the current period were down from 18.6% in 2006 primarily due to acquisitions and growth-related investments in the Company's medical product lines. In the Dispensing Equipment Group, operating income of \$26.0 million and operating margins of 26.5% in the first six months of 2007 were up from the \$22.0 million and 25.7% recorded in 2006 principally due to improved market conditions in Europe, volume leverage and the impact of our operational excellence initiatives. Operating income in the Fire & Safety/Diversified Products Group of \$33.5 million was higher than \$29.9 recorded in 2006, due primarily to increased volume. Operating margins within Fire & Safety/Diversified Products Group of 23.6% in the current period were down slightly from 23.8% in 2006, primarily due to product mix.

Other income in the first six months of 2007 increased \$.8 million compared with 2006 primarily due to favorable foreign currency translation.

IDEX's provision for income taxes is based upon estimated annual tax rates

LIQUIDITY AND CAPITAL RESOURCES

At June 30, 2007, working capital was \$97.8 million and our current ratio was 1.3 to 1. Cash flows from operating activities increased \$10.8 million, or 16%, to \$79.6 million in the first six months of 2007 mainly due to the improved operating results discussed above.

Cash flows provided from operations were more than adequate to fund capital expenditures of \$12.8 million and \$9.7 million in the first six months of 2007 and 2006, respectively. Capital expenditures were generally for machinery and equipment that improved productivity and tooling to support IDEX's global sourcing initiatives, although a portion was for business system technology and replacement of equipment and facilities. Management believes that IDEX has ample capacity in its plants and equipment to meet expected needs for future growth in the intermediate term.

The Company acquired Faure Herman in February 2007 for cash consideration of \$24.2 million and the assumption of approximately \$1.6 million in debt and Quadro Engineering in June 2007 for cash consideration of \$32.1 million. Approximately \$12.9 million and \$11.3 million, respectively, of the cash payments for both acquisitions were partially financed by borrowings under the Company's credit facility.

In addition to the \$150.0 million of 6.875% Senior Notes due February 15, 2008, the Company also has a \$600.0 million domestic multi-currency bank revolving credit facility ("Credit Facility"), which expires December 21, 2011. With \$160.0 million outstanding under the facility at June 30, 2007, and outstanding letters of credit totaling \$5.7 million, the maximum amount available under the Credit Facility was \$434.3 million. Interest is payable quarterly on the outstanding balance at the bank agent's reference rate or, at the Company's election, at LIBOR plus an applicable margin payable at maturity. The applicable margin is based on the credit rating of our Senior Notes, and can range from 24 basis points to 50 basis points. Based on the Company's BBB rating at June 30, 2007, the applicable margin was 40 basis points. We also pay an annual fee of 10 basis points on the total Credit Facility.

There are two financial covenants that the Company is required to maintain. As defined in the agreement, the minimum interest coverage ratio is 3.0 to 1 and the maximum leverage ratio is 3.25 to 1. At June 30, 2007, the Company was in compliance with both of these financial covenants.

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

We also have a one-year, renewable \$30.0 million demand line of credit ("Short-Term Facility"), which expires on December 12, 2007. Borrowings under the Short-Term Facility are at LIBOR plus the applicable margin in effect under the Credit Facility. At June 30, 2007, there were no borrowings outstanding under this facility.

We believe the Company will generate sufficient cash flow from operations for the next 12 months to meet its operating requirements, interest on all borrowings, required debt repayments, any authorized share repurchases, planned capital expenditures, and annual dividend payments to holders of common stock. The Company is currently in the process of evaluating its options related to the Senior Notes due February 15, 2008, including the potential use of its Credit Facility. In the event that suitable businesses are available for acquisition upon terms acceptable to the Board of Directors, we may obtain all or a portion of the financing for the acquisitions through the incurrence of additional long-term borrowings.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

The Company is subject to market risk associated with changes in interest rates and foreign currency exchange rates. The Company's interest rate exposure is primarily related to the \$328.6 million of total debt outstanding at June 30, 2007. Approximately 54% of the debt is priced at interest rates that float with the market. A 50-basis point movement in the interest rate on the floating rate debt would result in an approximate \$.9 million annualized increase or decrease in interest expense and cash flows. The remaining debt is fixed rate debt. We will, from time to time, enter into interest rate swaps on our debt when we believe there is a financial advantage for doing so. A treasury risk management policy, adopted by the Board of Directors, describes the procedures and controls over derivative financial and commodity instruments, including interest rate swaps. Under the policy, we do not use derivative financial or commodity instruments for trading purposes, and the use of these instruments is subject to strict approvals by senior officers. Typically, the use of derivative instruments is limited to interest rate swaps on the Company's outstanding long-term debt. As of June 12, 2007, the Company acquired certain forward contracts as

20

part of the Quadro acquisition that are expected to lapse by December 31, 2007. The impact of these contracts are immaterial to the Consolidated Statements of Operations.

Our foreign currency exchange rate risk is limited principally to the euro and British pound. We manage our foreign exchange risk principally through invoicing our customers in the same currency as the source of our products. As a result, the Company's exposure to any movement in foreign currency exchange rates is immaterial to the Consolidated Statements of Operations.

ITEM 4. CONTROLS AND PROCEDURES.

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and

Edgar Filing: IDEX CORP /DE/ - Form 10-Q

procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective.

There has been no change in the Company's internal controls over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

IDEX and five of its subsidiaries have been named as defendants in a number of lawsuits claiming various asbestos-related personal injuries, allegedly as a result of exposure to products manufactured with components that contained asbestos. Such components were acquired from third party suppliers, and were not manufactured by any of the subsidiaries. To date, all of the Company's settlements and legal costs, except for costs of coordination, administration, insurance investigation and a portion of defense costs, have been covered in full by insurance subject to applicable deductibles. However, the Company cannot predict whether and to what extent insurance will be available to continue to cover such settlements and legal costs, or how insurers may respond to claims that are tendered to them.

Claims have been filed in Alabama, California, Connecticut, Delaware, Florida, Georgia, Illinois, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nevada, New Jersey, New York, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Texas, Utah, Virginia, Washington and Wyoming. Most of the claims resolved to date have been dismissed without payment. The balance have been settled for reasonable amounts. Only one case has been tried, resulting in a verdict for the Company's business unit.

No provision has been made in the financial statements of the Company, other than for insurance deductibles in the ordinary course, and IDEX does not currently believe the asbestos-related claims will have a material adverse effect on the Company's business, financial position, results of operations or cash flow.

IDEX is also party to various other legal proceedings arising in the ordinary course of business, none of which is expected to have a material adverse effect on its business, financial condition, results of operations or cash flow.
